

Chapter 301

Seeing Haider Dong's look of confidence, Caesar Du couldn't help but laugh. Then, he pushed Fade Chen forward and said, "This is Brother Fade. Today, I'll let Brother Fade compete with you."

"Brother Fade? Does he know traditional Chinese medicine?" Haider said. He looked at Fade with a doubtful expression. The junior and senior doctors around him also couldn't help but glance at him curiously.

"I have some knowledge," Fade said blandly.

Haider was unhappy and he said, "Senior, you must be kidding me. You want me to compete with someone who only has some knowledge on traditional Chinese medicine. Are you looking down on me?"

Caesar shook his head and said, "Haider, Brother Fade is trying to be polite to you when he said that he only had some knowledge. You really took his words seriously. You are being stupid and ridiculous!"

"Let me tell you that I'm not bragging about Brother Fade's skills. He is definitely a very powerful person. Even if you multiply me by ten times, we will all be no match for Brother Fade," Caesar said,boasting

about Fade 's medical skills with an exaggerated expression. "Fortunately, Brother Fade didn't come to Long City to start a medical center. Otherwise, I'm afraid that the Du Medical Center would not be able to operate anymore,"he continued.

After hearing Caesar's praise of Fade's medical skills, Haider and his fellow senior and junior doctors could not help but shake their heads in disbelief.

Haider was direct in his words. He said, "Senior, you're exaggerating his skills. How can you say that we can't operate the medical center in Long City if he's here. Do you think Master Du is no match for him? That's too ridiculous!"

"I'm not joking. After you compete with him, you will naturally find out the truth," Caesar said as he smirked.

Haider shook his head and said, "Senior, it's not that I won't compete with him. I will only be bullying someone who doesn't know traditional Chinese medicine. Even if I win, there's nothing to be proud of. I want to compete with you."

Caesar said, "Didn't I tell you that Brother Fade's medical skills are absolutely beyond your imagination. You are lucky to be able to compete with Brother Fade."

Seeing that Haider still wanted to say something, Caesar immediately added, "Haider, don't doubt my

words. Do you want to make a bet with me? If you win, I will give you all of my salary this month. If Brother Fade wins, you will lose all the salary of this month to me. What do you think?"

Haider chuckled and said, "Senior, since you've brought up this matter, why wouldn't I agree to it? Let's have a competition. I'd like to thank Senior in advance, for your one month's salary."

"Hehe, it's hard to say who will lose their salary!" Caesar said, and he smiled. Then, he looked at Fade and said, "Brother Fade, sorry to trouble you."

Fade walked over. Haider sized Fade up and said, "I really don't mean to bully you. This is Senior's request for me. If you want to blame someone, then blame him."

"Really?" Fade replied. He smiled faintly and said, "It's hard to tell who is going to be bullied."

"Quite confident!" Haider said. He raised his eyebrows and said, "Tell me, how should we compete?"

Fade smiled at Haider and said, "You just told me that you studied the Nine Ancient Techniques. That means you are quite good at acupuncture."

"Of course. In Du Medical Center, I dare say that my acupuncture skills are top-notch. I'm only second to my master, and I'm not necessarily weaker than Senior Du," Haider said confidently.

Fade immediately said, "If that's the case, let's have a competition in our acupuncture skills!"

Haider raised his eyebrows and said, "You want to compete with me in my area of expertise. I advise you to change the competition subject. I might as well tell you my weakness, which is creating prescriptions. You can compete with me in this aspect."

"No, let's do acupuncture," Fade said with a smile.

There was a strange look in Haider's eyes. He said, "You are the one who insisted on this topic. Don't give me excuses if you lose!"

At this moment, Fade had already taken out a set of silver needles and said, "There are so many patients waiting for us. Let's not waste time debating."

"You..." Haider said. He immediately pulled out a pair of silver needles, glared at Fade, and said, "How should we compete?"

Fade looked at the long queue of patients and said, "How about this. The two of us will diagnose and treat the patients in two separate groups. After the diagnosis, we will only use acupuncture as our treatment method, and we can't use any other drugs. Then we will look at who treats the patients faster and more accurately. What do you think?"

"Alright!" Haider said and he nodded. Fade proposed this competition procedure because it was a real life

situation, and it would not delay the patient's treatment time.

Soon, the two of them sat down on both sides respectively. Behind them, they also arranged other seniors to review and confirm whether their diagnosis and treatments were effective or not.

However, as soon as the competition started, an awkward situation appeared on the scene.

The queue in front of Haider was quickly extended to more than ten meters. There were dozens of patients waiting for him.

But there were no patients standing in front of Fade.

After all, the patients at the door had also overheard their conversation just now. They were afraid that Fade, a guy who knew only a little about traditional Chinese medicine, would treat them casually and might even cause more problems.

Looking at the empty queue in front of Fade, Haider couldn't help but smile and said, "Brother Fade, I'll start without waiting for you."

Fade was not in a hurry at all. He just shouted a few words, "Patients can line up here. My medical skills are very good."

However, it was obvious that what he said was not persuasive enough to attract the patients.

Then, Fade had an idea. He yelled, "Patients who come to me will be treated without charge. If your

health issue is not treated properly, you will be compensated 1,000 yuan each."

Free treatment was an attractive prospect. As soon as he announced this, many patients were tempted and they came to line up for Fade, with the idea that they would try him out.

Haider could not help but shake his head when he saw this. He said, "You are not using the right way. It's not going to work."

In the past one or two minutes, Haider had already cured a patient. He asked the senior behind him to examine the patient and confirmed that the treatment was effective. Then Haider began to look at the second patient, asking "What's wrong with you? What's your main symptoms?"

At this time, Fade was treating his first patient.

"Doctor, my..." The patient was just about to describe his discomfort.

But at this time, Fade immediately pulled his arm and pricked it a few times with a silver needle. Then, he waved his hand and said, "Your illness has been cured! Next!"

In less than ten seconds, the patient hadn't sat down, but Fade had said that he was cured.

Witnessing this scene, everyone, including the patient, was dumbfounded.

"Sure enough, no good bargain comes with good

quality!" The patient shook his head and muttered.

The seniors behind Fade, who were in charge of the reviews, could not help shaking their heads in disappointment at this moment. "He's fooling around. It's totally nonsense," they thought to themselves.

Then, the two of them began to examine the first patient. After checking him, they were shocked, "The, the pulse is stable, he is in good health, and there are no problems at all! Sir, are you sure that you were sick?" they asked.

Chapter 302

"Of course. If I'm not sick, then why would I come to the medical center to see a doctor? Do you think that I'm too bored?" The patient said. Then, he pressed his stomach and said, "My stomach hurts badly. Last night..."

Then, the patient suddenly froze before he could finish his sentence. He pressed his palm on his stomach. After doing that, a surprised expression appeared on his face. "My stomach doesn't hurt at all. It's healed," he said.

Then, he looked at Fade Chen in shock and said, "Your, your needles really cured me."

Fade nodded and said, "Of course!"

After what happened to this patient, the next patient who was hesitating, came forward quickly at this time.

Similarly, Fade did not need the patient to elaborate on his ailment at all. With just a glance, he confirmed the patient's diagnosis and immediately began to treat the patient with acupuncture.

In this way, Fade's treatment was very fast, and he could finish treating a patient in almost ten seconds. Moreover, the seniors behind him who were rushing to examine the patients were surprised to find that

more than 20 patients whom they had finished examining were all cured. They had no problems at all.

Just like this, everyone there was shocked.

They had never seen Fade's treatment method before. He didn't need them to tell him their symptoms, and he didn't need to ask about their condition in detail. He just took a quick look and felt their pulse at most. Then, he immediately treated the patient with acupuncture in less than ten seconds.

Haider Dong took two minutes to treat a patient on average, which was already a fast speed. However, compared with Fade's speed, it was still a lot slower.

Moreover, with 100% accuracy on Fade's side, more and more patients began to gather in front of Fade. After all, he not only treated them quickly, but also accurately. Moreover, it was free of charge. No one would miss such a good opportunity.

As a result, the ten-meter-long queue in front of Haider was constantly getting shorter. In the end, they all went to Fade's side.

Haider turned around and looked behind him. He had cured more than a dozen patients. Then, he looked at Fade, who had already cured more than a hundred patients. Instantly, he had a shocked expression on his face, and he could not speak.

He couldn't help but go forward and examine the conditions of several patients in person. But in the end, he was even more shocked. Fade not only cured the patient's main health problem, but also cured some of their minor issues concurrently.

Such magical and quick medical skills shocked Haider. He stood still and was frozen on the spot.

Seeing this, Caesar Du patted Haider on the shoulder with a smile and said, "How about that? Do you admit defeat now?"

Haider smiled bitterly and said, "I'm convinced by his medical skills. I really don't know how he trained to be so good."

Caesar said, "You can only be a witness to Brother Fade's medical skills. Ordinary people can't compete with him."

"Senior, I know what your intentions are. You want me to realize that there's always someone better than me, and there's always someone stronger as well. Now, I understand this fact," Haider said quietly.

"It's good that you understand this fact!" Caesar said, and he patted Haider on the shoulder. Then, he stretched out his hand and said, "Since you understand, then give me the money!"

"Money? What money?" Haider asked. He didn't come to his senses for a moment.

"Your one month salary from the bet!" Caesar said. He laughed mischievously.

Haider suddenly wanted to cry but he had no tears. "Senior, if I give you the money, I'll have to starve this month!" he said.

"Alright, alright. Worst come to the worst, I'll order you instant noodles for this month," Caesar said. He patted Haider's shoulder and consoled him. Then he pointed to Fade and said to Haider, "Now, you know that there is always someone better than you! Why don't you show him some respect."

"I know now, I know!" Haider said and he nodded repeatedly. Then, he leaned over to Fade and said with a smile, "Brother Fade, I am young and ignorant. Don't take what I said just now to heart!"

"Brother Fade, how did you master your medical skills? How did you become so powerful?"

"Brother Fade, can you teach me a few moves? I can serve you some tea or water."

This guy was easy going. He went close to Fade and kept talking to him.

While Fade was diagnosing patients, he explained to Haider, "Have you seen my needle? It's only the most basic acupuncture method, but it's the best choice for this patient. It's not only more convenient than the ancient methods you studied, it's safer and faster."

"And this method, Old Mr. Du must have taught you already. Just now when I saw you use this technique, your fingers trembled like it was your usual habit. This affects the angle of the needle and eventually affects the effect of the acupuncture. This is clear evidence that your basic skills are not strong enough. So, it's not wrong for you to study the ancient methods, but you should strengthen your basic skills. There is still a long way to go for your current skills, and you need to build a solid foundation, understand?"

Haider's expression became serious at the moment. He nodded and said earnestly, "I know. Thank you for your advice, Brother Fade. I will practice more of my basic skills in the future and I won't be over-ambitious."

Fade nodded, and Caesar immediately smiled and gave Fade the thumbs-up.

Then, everyone was busy. Finally, with the help of magic doctor Fade, the speed of treatment for that day increased a lot. Before eleven o'clock in the afternoon, all the patients in the morning had been treated.

Just as everyone got up to have a rest, a man came in with loud footsteps, and then an elder's voice sounded, "What happened, is everything settled so early today?"

Everyone looked in the direction of the voice and

saw an elder in a black traditional Chinese robe with white hair walking in.

When Haider's group saw the elder, their faces immediately turned solemn. They respectfully called out, "Master!"

Caesar called him grandpa, then pointed to Fade and introduced him, "Grandpa, this is Fade. I told you, the little magic doctor from Bay City. Brother Fade helped out in the medical center today, so everything went much faster."

Then, Caesar introduced him to Fade, "Brother Fade, this is my grandfather, Jason Du, also known as Three Needles Du."

"Nice to meet you, Old Mr. Du!" Fade greeted him.

At this time, Old Mr. Du looked a little excited. He walked up to Fade, held his hand, and said with a smile, "I've heard Caesar mention about you. Recently, I heard that you were staying at Caesar's house. I didn't have time to meet you earlier."

"I should have come earlier to see you, Old Mr. Du," Fade said.

"No, no. You helped Caesar once in Bay City, and now you helped us here at Du Medical Center. And I haven't thanked you for treating President Wu's illness!" Old Mr. Du said with a smile. "I heard from Caesar that you have reached the stage where you can do acupuncture with your inner energy. You have

reached such a high level at such a young age. You are such a rare talent! I don't even think that I'm as good as you are!" he said.

When Haider and the others heard their master praising Fade, they thought that he was being polite at first. But when they heard the words "inner energy" and "not as good as you are", their expressions couldn't help but change, revealing their shock.

Chapter 303

"Inner Energy Acupuncture Technique, how is that possible?"

"Master Du has only reached the beginning of this level!"

"How old is he only? How could he have such strong inner energy?"

.....

All the senior and junior doctors began to talk about this matter, and their faces were full of shock and disbelief.

Seeing this, Caesar Du smiled and said, "Don't doubt this fact. Brother Fade is not only a highly skilled doctor of traditional Chinese medicine, he is also a master of martial-arts. It's not surprising for him to have strong inner energy."

"Martial-arts master!"

"Training in both medicine and martial-arts at the same time, that's amazing!"

"He is such a great talent. At such an age, he could train in both the fields of medicine and martial-arts at the same time and reach such a powerful level."

.....

Caesar smiled at Fade Chen and encouraged him, saying, "Brother Fade, look at their respectful expressions. Show them what you are capable of!"

Fade nodded and asked Haider Dong to stretch out his right arm. Then, he took out a silver needle and pierced Haider's hand at a certain pressure point. Then, he rotated the silver needle slightly and injected a stream of energy into his hand at the same time. The energy force spread along the silver needle and penetrated Haider's internal organs.

"How do you feel?" Fade asked with a smile.

Haider was surprised and he said, "I, I feel a warm current passing through my body along the position of the silver needle. Now, I feel as though my internal organs are soaking in a hot spring, and the feeling is soothing."

"You've been using up a lot your energy recently and have stayed up late, so your heart and liver have been damaged. My needle has solved the problems of your internal organs," Fade explained.

Haider immediately tried to press his abdomen and then said with a surprised expression, "It's true. There's really nothing wrong with me now. I felt a slight pain before and was ready to take a prescription after work today. I didn't expect that Brother Fade could cure me with just the prick of a needle."

Seeing this, the surrounding senior and junior

doctors couldn't help but reveal extremely surprised expressions, and they all looked at Fade in shock.

"It's, it's really the Inner Energy Acupuncture Technique!"

"He's too powerful!"

"I can't imagine how powerful he must be!"

.....

At this moment, Caesar patted Haider and said with a smile, "How do you feel? Are you convinced?"

Haider nodded repeatedly and said, "I'm convinced. I'm completely convinced. Brother Du is right. My medical skills are nothing in front of Brother Fade!"

Fade laughed and said, "Don't think too little of yourself. You are also very good now, but you still need to have a solid foundation."

"I'll definitely remember your teachings, Brother Fade," Haider said, nodding seriously.

At this moment, Old Mr. Du's eyes were also filled with shock and joy. He wanted to ask Fade to have a good talk about traditional Chinese medicine with him, and he was enthusiastic.

At this moment, there was the sound of a horn at the door, and then a man in his thirties, dressed in a suit and leather shoes, walked into Du Medical Center.

The man went straight to Old Mr. Du and said, "Old Mr. Du, Old Master Qin is not feeling well again."

Officer Qin wants to invite you to take a look ."

Hearing this, Old Mr. Du's face fell. He said helplessly, "Young Liu, I have seen the Old Master's illness for no less than five times. To be honest, I don't have a good way to treat it. I can only barely maintain his health in his current condition for now. Moreover, I still need the cooperation of Old Master and Old Madam. But with Old Madam's character, I can't do anything about it."

The man in the suit, Young Liu said, "Old Mr. Du, this time, Officer Qin asked me to invite you personally. Old Master's illness is serious this time, and Old Madam is very anxious. Officer Qin needs you to pay them a visit."

Old Mr. Du still wanted to reject his offer, but when he saw Fade next to him, his eyes lit up and he said, "Fade, do you have time? Would it be convenient for you to go with me to see a patient."

Since Old Mr. Du had asked him, Fade naturally would not refuse. He nodded and said, "Old Mr. Du, I have time."

"Alright, Fade, please come with me," Old Mr. Du said. Then, he said to Young Liu, "I can go, but this time I want to go with Fade."

"This..." Young Liu said. He was in a dilemma, but when he saw the solemn look on Old Mr. Du's face, he nodded and said, "Please get in the car!"

The two of them sat in the back seat, and Old Mr. Du immediately explained Old Master Qin's condition to Fade.

It turned out that Old Master Qin was the father of Officer Qin, who was in charge of the Industry and Commerce Bureau in Long City. The Old Master was 76 years old this year, and he had a stroke before. Now he had mild Alzheimer's disease, which is commonly an early symptom of dementia.

There was no good way to cure this kind of disease. They could only slowly use drugs to control the symptoms. But Old Madam Qin was a little stubborn. She didn't trust traditional Chinese medicine very much. When she saw that the treatment had no effects, she wanted to change methods. So every time there was a little effect, the results were for nothing after Old Madam Qin caused trouble. Instead, Old Master Qin's condition worsened gradually.

After hearing what he said, Fade figured out the situation.

Speaking of this disease, it was not a big problem for him to cure it. He could inject some inner Energy into Old Master's body to help him ease his illness. It seemed that the most troublesome thing about his illness was Old Madam Qin.

However, he will figure out what was going on after he obtained more information.

Soon, the car drove into the courtyard surrounded by red walls.

After driving for more than ten minutes inside, they finally stopped in front of a courtyard that looked like a quadrangle courtyard.

Then, Fade and Old Mr. Du got out of the car. Officer Qin, who was in a suit, came out and gave a warm welcome to Old Mr. Du and Fade.

When Fade and Old Mr. Du followed Officer Qin to the Old Master's room, the room was a little lively at the moment. Many people had already arrived. Several people were standing in white coats by the Old Master's bed, carrying all sorts of conspicuous medical equipment.

There was an old doctor, who was in his 60s or 70s. He was wearing a white coat and he stood out in particular. When Old Mr. Du saw him, he couldn't help but let out a cold snort as his expression darkened.

Seeing this, Fade couldn't help asking, "What's wrong, Old Mr. Du?"

Old Mr. Du said in a low voice, "This guy is called Alex Liu, the principal of the City Medical Center. He has always claimed that traditional Chinese medicine is feudal superstition and pseudoscience, which goes against my principles."

Fade nodded. At this moment, Officer Qin explained

apologetically, "Old Mr. Du, I'm sorry. Principal Liu was invited by my mother. I didn't know about it."

Speaking of this, Old Mr. Du looked at the edge of the Old Master's bed. He saw an old woman in luxurious clothes who was wearing a lot of gold, silver, and jade.

The old lady also saw Old Mr. Du. She snorted softly and did not intend to say hello.

Officer Qin knew that his mother's impression of traditional Chinese medicine was not very good. At this moment, he quickly apologized, "Old Mr. Du, please don't mind her. My mother is worried about my father's illness, that is why her expression is a little unfriendly!"

"I understand!" Old Mr. Du said flatly.

Officer Qin apologized again and left.

Only Old Mr. Du and Fade stayed and watched from the side, waiting for Principal Liu to lead the group of Western Medical doctors to examine the Old Master's condition.

Chapter 304

However, after nearly half an hour of being busy, he had recorded a lot of data on his equipment, but he still did not find any useful information.

At this time, even if Old Mr. Du had a good temper, he couldn't help but feel angry. They asked him to come and treat the patient, but they also invited other Western medical doctors. Not to mention, they even left him aside, completely ignoring him for half an hour.

Especially Old Madam Qin, she treated them differently. She was very enthusiastic when she served tea to Principal Liu. As for Old Mr. Du and Fade Chen, she didn't even serve them a glass of plain water.

After all, Old Mr. Du was still a famous doctor in Long City. He had never been treated like this before.

Immediately, Old Mr. Du said unhappily, "If there is nothing I can help you with, then I will leave." With that, he was about to turn around and leave.

But at this time, Principal Liu smiled and mocked him, saying, "What's wrong? Old Du, since you are here already, why are you in such a hurry to leave? Come, I'll give you some space and let you check on

Old Master Qin. I don't know what effective treatment you have this time!"

After being ridiculed by Principal Liu, Old Mr. Du's face fell suddenly. He said coldly, "Whether my method works or not, you don't have to worry about it. What about yourself, you brought so many equipments, do you have any idea on how to treat this illness?"

Principal Liu smiled slyly and said, "Since Old Du has mentioned this, I really have a treatment plan this time. I specifically imported a new drug from abroad. After Old Master Qin's examination is completed, I will be treating him through an injection of this drug."

"A new drug from abroad! Can it really treat the disease?" Old Mr. Du said doubtfully.

At this point, a series of "beeps" sounded. Principal Liu's assistant came forward and said, "Principal Liu, the results of the test have been confirmed. Everything is normal. Now, we can inject the new drug."

Principal Liu nodded, then he looked at Old Mr. Du proudly and said, "Old Du, come and have a look at how we are going to cure Old Master Qin."

With this, Principal Liu took out a small bottle of drugs and cast a glance at Old Mrs. Qin for her approval. After getting confirmation from her, he carefully opened the bottle of medicine, and

extracted the liquid with a syringe. He was prepared to inject this drug into Old Master Qin.

But at this time, Fade sniffed the scent of the liquid. He couldn't help but change his expression and shouted, "Stop, don't inject this!"

All of a sudden, they were shocked and everybody looked at Fade.

Principal Liu's face fell and he said coldly, "You shouted for us to stop! What do you want to do?"

Fade said, "Yes I did! In your new drug, there's a kind of substance extracted from lilac grass. If it's used on Old Master Qin, it will not only be ineffective, but it will worsen his condition, causing his limbs to twitch. Small purplish-red spots will also appear on his body."

"Nonsense. I got this drug from the latest research from Micovia. You're just a young kid. What do you know? You're spouting nonsense here," Principal Liu scolded him angrily.

Immediately, Principal Liu glared at Old Mr. Du and said, "Old Du, you brought this young kid with you, right? He is spouting nonsense, and you are still sitting there doing nothing?"

At this time, Old Madam Qin also looked at him with dissatisfaction and said coldly, "Doctor Du, this is the Qin family's house, not a place for fooling around."

Mr. Du said, "This is Dr. Chen. His medical skills are superb. Even I am not as good as he is. This time, I invited Dr. Chen to take a look at Old Master Qin."

Hearing this, Principal Liu and the others were stunned and they laughed out loud.

"Old Du, are you old and confused? He is such a young kid. You are saying that he has superb medical skills. Don't joke around."

"What's more, you traditional Chinese medical doctors are a mess. You may have some experience, but this boy is just a reckless young kid. What kind of medical skills can he have? It's good enough that he's not killing anybody."

Principal Liu sneered mercilessly for a while. Old Madam Qin also said, "Doctor Du, I hope you can control the mouth of the person you brought!"

Old Mr. Du said, "Old Madam Qin, Dr. Chen's medical skills are superb, and they are completely beyond our imagination. If he said that there is something wrong with the drug, then that is the truth. For the health of Old Master Qin, we can't..."

Old Madam Qin waved her hand and said unhappily, "Doctor Du, for your sake, I don't want to act poorly. If you spout nonsense again, don't blame me for being rude."

Principal Liu also smiled and said, "Old Du, I have already said that traditional Chinese medicine is

outdated for a long time. Stop clinging on to it. Now, let's see how I will treat the disease!"

Old Mr. Du was so angry that his face turned red and he was about to lose his temper.

Fade however, said indifferently, "Since they don't believe us, let's leave!"

"Let's go!" Old Mr. Du said. He was also very angry. He immediately nodded and turned to leave with Fade.

"Old Du, I won't see you off!" Principal Liu said proudly .

Old Madam Qin snorted coldly. Obviously, she did not intend to let the two of them remain there. Instead, she looked at Principal Liu and said, "Principal Liu, inject the drug quickly!"

Principal Liu nodded and then carefully injected the latest drug into Old Master Qin.

The liquid entered the Old Master's body and then circulated in Old Master's body.

The Old Master, who had been shivering, seemed to calm down after the use of the drug. His body slowly stopped moving, and his absent- minded eyes seemed a little brighter at the moment.

Seeing this, Old Madam Qin couldn't help but look happy.

Principal Liu also showed a proud look on his face

and boasted, "Old Madam Qin, this drug is developed from the latest technology in Micovia. It is very effective for the Old Master's disease. I guess that he will need three more injections at most. Then, the Old Master's disease will surely be cured."

Then, as soon as Principal Liu finished speaking, Old Master Qin, who was lying in the bed, suddenly trembled violently.

Then, the Old Master, who had just calmed down, began to twitch violently.

All of a sudden, Old Madam Qin was shocked and exclaimed, "What's going on?"

"Let me check!" Principal Liu said. He quickly stepped forward, but as soon as the equipment was put in place, a beeping sound was heard. Principal Liu panicked immediately.

Old Madam Qin's expression darkened and she asked, "What happened? How could this happen?"

Principal Liu was completely flustered at this moment. He didn't know the reason behind this, so he said, "I, I don't know. The equipment shows that there is no issue. I don't know what is going on either."

"What? Are you saying that you don't know!" Old Madam Qin said. She opened her eyes wide and stared at Principal Liu fiercely, as though her eyes were about to pierce through him.

At this time, small purplish-red spots began to appear on Old Master Qin's body, and the Old Master's twitching became even more severe.

Seeing this, everyone was stunned and they froze on the spot. They couldn't help but look at the new bottle that Principal Liu had put aside.

Chapter 305

"Why, why are these symptoms exactly the same as what the boy said? Is there really a problem with this new drug?" Someone asked.

"No, it's impossible! This is a new drug that I brought back from Micovia. How could it be..." Principal Liu exclaimed in a hurry.

But before he could finish his words, Old Madam Qin interrupted him and yelled, "Think of something to resolve this matter! If something goes wrong, I will cause your hospital to be unable to continue operating."

Principal Liu spoke in a tearful tone, "I, I can't do anything about the situation. I don't know what and why this happened!"

Hearing this, Old Madam Qin's face fell and she was silent for a few seconds. Then she waved her hand and said, "Call Doctor Du and that guy to come back here."

At this time, in the courtyard with the red walls, Old Mr. Du and Fade Chen were walking out.

Old Mr. Du looked at Fade apologetically and said, "Fade, I'm sorry. This time, it's my fault. I wanted to invite you here to help out, but I didn't expect that..."

Fade shook his head and said, "It doesn't matter, Old

Mr. Du. At the end of the day, our traditional Chinese medical skills were underestimated by others, so they did not trust us."

When it came to the matter of traditional Chinese medicine, Old Mr. Du couldn't help sighing and said, "Yes! Now, there are fewer proponents of traditional Chinese medicine, and the development is getting slower. Besides, many charlatans have misused the name of traditional Chinese medicine and scammed others. The reputation of our traditional Chinese medicine is getting worse day by day!"

Just as the two of them sighed and chatted, suddenly, a loud shout came from behind them, "Stop right there!"

The two of them turned around and saw two bodyguards coming over. They were wearing uniforms, and they stared at both of them sternly.

Old Mr. Du recognized that they were bodyguards of the Qin Family. He said in a low voice, "What does the Qin Family want from us?"

Facing Old Mr. Du, the two bodyguards' attitudes were a little nicer. They said, "Old Mr. Du, Old Madam Qin would like to invite both of you to come back."

"Didn't you just ask us to leave? Why do we have to go back now?" Fade snorted and said. He continued, "I want to leave now. Old Mr. Du, let's just go!"

Facing Fade, the bodyguard's attitude was not as nice, and he said in a deep voice, "Old Madam Qin asked us to escort you back."

"Escort us back!" Fade snorted and said. He continued, "What's wrong? Will you resort to violence?"

The bodyguard said in a deep voice, "Mr. Chen, this is Old Madam Qin's order. I hope you understand this."

"An order? It's ridiculous. Who is she? What right does she have to command me?" Fade said coldly.

At this time, a cold voice could be heard. Old Madam Qin walked over with a stern expression and said, "Who am I? I am Officer Qin's mother. Please come back immediately."

"Officer Qin's mother? What does this mean? Who stipulated that an ordinary citizen like me must obey Officer Qin's mother?" Fade said.

"You..." Old Madam Qin said. Her expression was so gloomy that she seemed depressed. "Take them back!" she commanded.

Suddenly, two bodyguards rushed over from behind her. Together with the two bodyguards in front, they rushed toward Fade.

Seeing this, Old Mr. Du shouted in a deep voice, "Old Madam Qin, you've gone too far."

Old Madam Qin said, "He's just an unimportant

doctor. If I allow him to treat my husband's illness, I've already shown him respect."

"Show me respect!" Fade snorted, and his face displayed anger. His fists and feet turned into flying shadows and he knocked down the four bodyguards. Then, he threw them like sandbags in front of Old Madam Qin. They fell to the ground one after the other. The explosive sound caused Old Madam Qin to become so frightened that she almost fell to the ground.

"I want to tell you that you should have a humble attitude when asking people for help. Don't think that everyone will flatter you just because you are an officer's mother," Fade shouted coldly. Then, he left with Old Mr Du.

Behind them, Old Madam Qin was furious and her body trembled. "Hmmp, you, how dare you do this to me. I, I want to call my son," she said.

Just as she was about to make the call, one of her servants' panicked voices could be heard from behind her. "Old Madam Qin, something's wrong, something's wrong. Old Master, he has fainted."

"What!" Old Madam Qin said. She was shocked, and she quickly turned around and ran back. "Principal Liu, where is Principal Liu and the others?" she said.

", they said that there was an urgent matter in the hospital. They just left through the back door," the servant answered.

"What!" she said. Hearing this, Old Madam Qin was so angry that she almost fainted.

An hour later, Officer Qin returned home. He looked at his father who was unconscious and trembling on the sickbed, and then looked at his mother beside the bed. He didn't know what to say at all. "Mom, how many times have I told you that Old Mr. Du belongs to a family with a long line of traditional Chinese medical doctors, and his family has a history of hundreds of years. Why didn't you listen to me?" he said.

"Old Mr. Du has always been very responsible. The person he recommended must have been really capable," he continued.

"I didn't know that Principal Liu was so unreliable that he caused your father to become like this," Old Madam Qin said, as she defended herself.

Officer Qin said again, "You didn't know that, but after the symptoms appeared, you should know that Dr. Chen is very powerful! At that time, if you had begged him with a good attitude, maybe he would have helped you. No one would behave like you, directly sending bodyguards to bring him."

Old Madam Qin's face changed slightly, but she was still defensive. She said, "I, I was in a hurry at that time! Besides, you are the Officer of the Industrial and Commercial Bureau of Long City. As the Officer's mother, it is not a big deal for him, an

unimportant doctor, to treat a patient."

Officer Qin was completely speechless and said, "Mom, how many times have I told you, not to use my identity as an officer to throw your weight around. If word spreads, my reputation will be ruined. If someone launches an investigation, I might lose my job. In Long City, there are many hidden talents and emerging geniuses. I don't know how many powerful people are out there. I might have hidden enemies as well. Being an officer is not a big deal at all! If we provoke any powerful people, our Qin Family will be finished!"

When he mentioned this, Old Madam Qin's expression darkened and she looked a little uneasy. However, she still said stubbornly, "We already know who these people are. How can we suddenly provoke someone powerful? Doctor Du is powerful, but he behaves in a respectful manner toward you, because you work at the Industrial and Commercial Bureau. That guy is just a follower of Doctor Du. He's nobody at all!"

Officer Qin was about to speak when his cell phone rang. He picked it up and listened to it. Then his face changed in an instant, and he looked at his mother.

"What's wrong?" Old Madam Qin asked. She looked at her son and felt a little strange.

Officer Qin hung up the phone. Then with a bitter expression, he stamped his feet and said, "Mom,

you're in trouble this time! You're in big trouble!"

"How did I get into trouble?" Old Madam Qin asked in confusion.

Officer Qin said, "I just asked someone to investigate Dr.Chen's background. As a result, it turns out..."

"What's the result?" Old Madam Qin said. "Is Dr. Chen's identity not ordinary?"She asked.

"He's not just a nobody. He's a real big shot!" Officer Qin said. "We can't afford to offend him," he continued.

"How old is he? How can he be a big shot?" Old Madam Qin said. She still didn't believe him.

Chapter 306

Officer Qin sighed and said, "He also has a nickname, Lunatic Chen!"

"Lunatic Chen? Is he a madman?" Old Madam Qin asked. She did not understand this.

Officer Qin introduced who he was to her, saying, "He is not insane, but he acts in a wild manner. He just appeared in Bay City half a year ago. Then, after half a year, he had killed the most powerful family there, the Wan Family, and he conquered Bay City."

"He conquered the city in half a year," Old Madam Qin said. Even if she didn't understand these things, she was shocked at the moment. However, she still said stubbornly, "That's nothing. How can a small city like Bay City be compared to Long City?"

Officer Qin continued, "Our Long City is indeed more powerful than Bay City. However, Fade Chen arrived in Long City a few days ago, and he has already gotten along well with people of high status like Old Mr. Du and Charles Wu. Even Kristoff Xie, a rich young man from the Xie Family, didn't dare to take action after being punished by Fade. He even offered up the shares of his own wine business. Do you think that someone ordinary can do this?"

"Is this true?" Old Madam Qin said. She obviously

knew much about the forces inside Long City. At this moment, she could also get a clearer picture on Fade's strength.

However, for a moment, she still could not imagine that the young kid was actually a big shot. She said stubbornly, "Yes, even if this is the case, so what? He is not even a businessman. My son, you are the Leader of the Industrial and Commercial Bureau, an officer. Since ancient times, people have never fought with officials. Do you think that our Qin Family should be afraid of him?"

Officer Qin smiled bitterly and said, "Mom, it is said that people don't fight with officials. However, that is referring to officials of high rank who represent the whole government or country. But, I am just an unimportant officer. How can I qualify at that level?"

"In addition to that, do you really think that families like the Xie Family and the Wu Family don't dare to fight with me? I'm the one who doesn't dare to fight with them."

Old Madam Qin had always been proud of her son's status. At this moment, when she heard this, she could not help but feel ashamed. She said, "Son, you, you are lacking in confidence. Even if we can't defeat these big families, they have to respect us when you say something!"

Officer Qin wanted to cry but he had no tears. He could only use his final weapon and he said, "Mom,

these families don't intimidate you. What about the Sun Family?"

"The Sun Family? Which Sun Family?" Old Madam Qin asked.

"Which other Sun Family is there in our Long City?" Officer Qin asked.

Old Madam Qin's expression suddenly changed dramatically. She said, "Are you talking about Francesca Sun's Family? What, what's the relationship between the Sun Family and that guy?"

Old Madam Qin's voice was trembling.

She was aware of the terrifying status of the Sun Family in Long City. Her son, with the position of Officer, might not even be able to enter the gate of the Sun Family's residence. After all, the Mayor or the committee secretary, all have to notify them that they are coming, before they could enter the residence. As the Officer of the Industrial and Commercial Bureau, he was considered unimportant.

Officer Qin said faintly, "Just a few days ago, the housekeeper of the Sun Family took Fade to the Sun Family."

"What? The Sun Family actually picked him up in person? This, this is impossible!" Old Madam Qin said. She felt a little incredulous.

Officer Qin said, "Mom, news on this matter has

spread. There is no need to doubt its truth."

"This..." Old Madam Qin said. She was really stunned at this moment. She couldn't say anything else.

Officer Qin quickly said, "Mom, now you know how powerful he is! Hurry up and apologize to Mr. Chen and ask him for forgiveness."

"But, but I..." she said. Thinking of the big difference of her perception of Fade in this short period of time, Old Madam Qin still couldn't accept this fact.

Officer Qin persuaded, "Mom, why are you still hesitating? Don't you want to cure father's illness?"

When it came to her husband, Old Madam Qin finally admitted defeat. She nodded and said, "I, I'll apologize!"

Therefore, two hours after Fade and Old Mr. Du returned to Du Medical Center, Officer Qin personally came with his mother, Old Madam Qin, to apologize to them. At the same time, he requested for Fade to treat Old Master Qin.

Fade glanced at the two of them and said coldly, "You want me to accept an apology and treat Old Master Qin. That's fine. I just have one condition!"

"What's the condition? Money? Or do I need to help you look for a connection? My Qin Family..." Old Madam Qin said, when she heard his words.

Officer Qin, who was next to her, quickly took his mother's hand. He gave her a look and said, "Mom!"

Only then did Old Madam Qin lower her head and keep quiet. She did not say anything else.

Fade immediately said, "My condition is very simple. From tomorrow onward, I will let Old Madam Qin serve as a receptionist at the entrance of the Medical Center for three days. As long as this task is completed, I promise to cure the Old Master's illness."

"What? Let me be the receptionist? I..." Old Madam Qin said. When she heard this request, she almost lost her temper. Fortunately, she was pulled back by her son who was next to her.

Officer Qin quickly persuaded her. But Old Madam Qin looked disgusted and she didn't say anything for a long time.

When Fade saw this, he snorted coldly and said, "It's alright if you don't want to do this. You came and asked for treatment. I didn't ask you to come here."

"One more thing, you have to remember, if you want others to respect you, you have to respect them first."

After that, Fade immediately turned around and walked into the Medical Center without saying anything.

Old Madam Qin almost turned around to leave, but Officer Qin held her back and tried to persuade her. "Mom, you did something wrong this time. Mr.

Chen's request is not too much."

"But, I am the mother of the Officer, I..."

"Mom, you valued your identity too much. That's why this happened," Officer Qin advised. "Besides, did you hear Dr. Chen? As long as you do this, he guarantees that he can cure father's illness," he continued.

Old Madam Qin hesitated for a while. Finally, when she thought of her husband's illness, she nodded and agreed.

Inside the Medical Center, Caesar Du, Haider Dong, and the others had gathered together. They had worried looks on their faces.

"Brother Fade, is it really okay to do this? That's Officer Qin's mother!"

"That's right, Brother Fade. Even if they admit to their defeat now, what should we do if they take revenge on you after you have cured him?"

.....

Fade listened to their words and said with a smile, "Don't worry, everything will be fine."

On one hand, he was confident that he could use this method to wear down Old Madam Qin's bad temper. On the other hand, even if he did not succeed, he was not afraid of the revenge of the Qin Family. Therefore, he felt no burden at all.

So, in the next few days, the dignified Old Madam Qin appeared at the door of the Du Medical Center as a receptionist. She was someone who had always been served by others, and now she had to wait on others.

This intense change of identity caused Old Madam Qin to feel uncomfortable at first. But as time went by, she gradually began to adapt to this change.

In this regard, Fade also successfully cured Old Master Qin's Alzheimer's disease as promised.

The recovery of the Old Master's illness was beyond the Qin Family's expectation. So, Old Master Qin and Old Madam Qin came to Du Medical Center again to thank Fade. This time, they meant it, and they were sincere.

Chapter 307

In the past few days, Fade Chen had spent most of his time in Du Medical Center. Usually, he would instruct the young disciples like Caesar Du and Haider Dong, and then discuss matters with Old Mr Du. Sometimes, when they encountered some complicated diseases, he would lend a hand and help to cure them.

However, a few days later, Charles Wu suddenly called Fade, telling him that there was trouble in Xie's Wine Enterprise. He asked Fade to go there and take a look.

Fade rushed to the factory headquarters of Xie's Wine Enterprise as soon as he received the news.

His car arrived outside the factory, and he saw more than a dozen people standing at the factory gate, arguing with the security guards.

Fade stopped the car and came over. A man in his thirties walked over and said respectfully, "President Chen, you are here."

"What's going on, Manager Wang?" Fade asked. This man was one of the supervisors of Fei Enterprises Holdings Inc and he was sent by Quin Lin to be responsible for the takeover of Xie's Wine Enterprise.

Manager Wang said, "President Chen, the people working at Xie's Wine Enterprise have gone too far."

"We brought some people to take over the factory. A few days ago, they were cooperative, and all kinds of relevant materials were provided to us. We did what we needed to do, and everything went smoothly."

"But since two days ago, their attitude began to change. When we asked for some relevant documents, they would constantly refuse us and were even unwilling to give them to us. Later, they played some tricks on us. They deliberately messed up the documents, which were incomplete. They did not cooperate with us."

"This morning, they broke into our office suddenly, retrieved all the documents, and drove us out. Our staff members argued with them and a few of them were injured," Manager Wang said indignantly.

Hearing this, Fade's face fell. He took out his phone, found Kristoff Xie's number, and dialed it. He muttered, "I hope that the Xie Family doesn't play any tricks. Otherwise, they are asking for trouble."

The phone beeped for a while, and finally, no one answered.

Fade hung up the phone with a sullen face. He snorted coldly and said in a deep voice, "It seems to me that the Xie Family needs to suffer more, and they are not aware of my powers!"

Then, Fade looked at Manager Wang and the others. He waved his hand and said, "Follow me!"

Then, Fade passed through the crowd and strode toward the gate of Xie's Wine Enterprise.

At this time, more than 20 people were guarding the door. Although they were wearing security uniforms, most of them looked like gangsters who came from the hood. Each of them had tattoos and they had cigarettes in their mouths. They looked like hooligans.

Without saying a word, Fade went in directly.

Several of those gangsters who were posing as security guards immediately came over with cigarettes in their mouths. They reached out to stop Fade, saying, "Who are you? What are you doing here? "

Fade shouted coldly, "I'm your president. Get out of my way right now!"

100 percent of the shares of Xie's Wine Enterprise had been transferred to Fei Enterprises Holdings Inc, and Fade could be said to be the president of this factory.

Obviously, the gangsters didn't believe Fade's words. They looked at each other and smiled.

"Bah! If you are the president, then I am the chairman! Get out of here right away! This is not somewhere you should be," A burly gangster said.

He leaned against the door, and he was wearing a slanted cap. He had a cigarette in his mouth, and he spat and laughed at Fade.

Fade said coldly, "I'll tell you one more time. I'm the president here. Get out of my way right now!"

Hearing this, the leader of the gangsters suddenly became angry. He threw the cigarette butt on the ground and shouted, "Young kid, you want me to do it the hard way, don't you?"

"It seems like you are asking for it!" As he spoke, the lead gangster pinched his fingers so hard that his fingers crackled, and his face was twitching as he approached Fade .

Fade's eyes darkened and he shouted coldly, "You'd better not take any action. Otherwise, you'll have to bear the consequences."

"Young kid, looking at your appearance, you are as puny as a bean sprout. How dare you threaten me!" The leader of the gangsters said. He laughed and stretched out his finger at the same time, poking in the direction of Fade's chest.

Fade snorted, pinched the punk's finger, and turned his hand with much strength.

Suddenly, there was a crackling sound. The leader of the gangsters howled miserably and he squatted on the ground with his hands covering his fingers. His face was as red as a pig .

"You, you broke my finger. Beat him, beat him hard. I'm going to break his limbs," The leader of the gangsters shouted.

Suddenly, more than 20 gangsters surrounded Fade. Behind Manager Wang, some staff members wanted to help. But Manager Wang stopped them with a smile and said, "No need!"

"Manager Wang, many people are attacking. President Chen is alone!" The staff members said. They were a little worried.

However, Manager Wang smiled confidently and said, "There are only twenty people. Even if there are two hundred of them, they are no match for President Chen."

"This..." The staff members obviously didn't believe him. They had worried expressions on their face.

However, Manager Wang sighed with emotion and said, "You are not from Bay City. You don't know President Chen's prestige in Bay City, and his terrifying skills."

"Is President Chen very good at fighting?" The staff members asked. They were somewhat surprised.

Manager Wang laughed and said, "Whether he can fight or not, you can see for yourselves now!"

Several of them turned to look at the door.

The 20 plus gangsters, who were surrounding Fade ,

were thrown out one by one like sandbags at this moment. They fell to the ground, groaning and wailing. They completely lost their ability to fight back.

After all, after these few sentences which were less than ten seconds, Fade had defeated all of them. This shocked all of the staff members.

Manager Wang looked at them with a smile and thought to himself, "This is how it should be. These little minions are not worth mentioning. President Chen had killed a Black level martial-arts master."

"President Chen has gone in. Let's follow him!" Manager Wang said. He waved his hand and led his men to follow Fade. Then, they walked into the factory proudly.

Fade figured out the direction of the office building and walked straight ahead.

There was no one on the road who could stop them. If anyone came to stop them, they were all thrown out by Fade.

Soon, Fade took Manager Wang and the others to the office where they had worked before.

Looking at the mess in the office, some of the documents had been put into the shredder. Some were even burnt into ashes. Fade's face immediately fell, and his eyes fell on a middle-aged man in his forties with glasses.

The man was shouting and asking everyone to destroy the documents. "Everybody, hurry up. This factory belongs to the Xie Family. Throw away all these garbage, like those people just now, throw them all away."

Hearing this, Fade's expression darkened. He stepped forward, grabbed the guy, and shouted coldly, "Who allowed you to come here and make trouble!"

Chapter 308

The Spectacled Guy was shocked and he said in a stern voice, "This factory is an asset of the Xie Family. You are the ones who are here making trouble. Get out now, or the Xie Family will not let you go."

"So the Xie Family is behind this," Fade Chen snorted coldly. He slapped the man's cheek twice, and his cheek became swollen.

"How dare you hit me!" The Spectacled Guy said. He held his face and glared at Fade, and his eyes were burning with anger.

"Who asked you to stop us from taking over the enterprise?" Fade asked coldly.

The Spectacled Guy said, "It was Kristoff Xie who personally ordered me to do this. If you dare to mess with us, Kristoff will not let you go. Get out of the factory immediately, otherwise..."

"Pa!"

Fade slapped the Spectacled Guy, interrupting him.

Then, Fade put his cell phone on the table and said coldly, "Call Kristoff and ask him to come over!"

"I'm not going to yield to your request..." the Spectacled Guy said in a stern tone.

But as soon as he said that, he was slapped a few more times. Then, the Spectacled Guy had red and swollen cheeks. He began to dial Kristoff 's phone number.

After a while, the phone was connected. Kristoff's arrogant voice came from the other side. "Old Gilbert, how is everything going? Did you chase everyone out?" he asked.

Before the Spectacled Guy, Old Gilbert, could speak, Fade took the phone and said with a snort, "Master Xie, it seems that the lesson I taught you in the private room that day was not enough!"

Kristoff, who was on the other end of the phone, trembled when he heard the voice and almost fell to the ground. His voice also became nervous and he said, "Fade, why, why are you there?"

"This is my factory. Why do you think I'm here?" Fade answered coldly.

Kristoff was silent for a while. Then, he said, "Fade, don't try to scare me. I'm not afraid of you anymore. Besides, if you want to threaten me in regards to the factory, you won't be successful."

"Really?" Fade snorted and said, "Don't forget that the poison in your body has not been removed yet. You have to consider whether your life or this wine factory is more important. I'll give you half an hour to get here right away, otherwise, you know what will happen, hmph!"

Then, Fade hung up the phone.

Half an hour later, Kristoff drove a luxury car to the wine factory. He was accompanied by a group of specialized lawyers and doctors. Apparently, he had made a lot of preparations.

And in the end, there was one Lincoln Brand's SUV

A burly middle-aged man came down. The man had a commanding air. He had a beard and he looked like a fierce tiger.

When Kristoff saw the man getting out of the car, he immediately greeted him respectfully, and shouted, "Dad, that's him!"

Hearing Kristoff's shout, Fade immediately confirmed the identity of this bearded man.

Kristoff's father, the current Master of the Xie family...was Joel Xie.

Joel looked at Fade from head to toe, and he said in a deep voice, "Did you take the shares of our Wine Enterprise?"

Fade looked at Joel fearlessly and said coldly, "These shares no longer belong to the Xie Family. Kristoff has promised to transfer the rest of the shares to me."

Joel said coldly, "Last time, Lincoln Xie made a mistake, and Watson Xie even lost his life. I lost 51% of the shares of Xie's Wine Enterprise to you. I didn't pursue the matter because Lincoln was to be

blamed."

"But this time, you went too far. You forced my son to transfer the shares to you for free. Do you want to take them by force?" Joel shouted, with a fierce look in his eyes. "There has never been anyone who can take Xie Family's things by force! Now I will give you a chance to return Xie's Wine Enterprise to my Family. Then, I will let go of this matter."

"Really?" Fade sneered. He looked at Kristoff and said coldly, "Kristoff, it seems that you have forgotten the pain in the private room! Then I don't mind giving you the same enjoyment again."

Hearing what he said, Kristoff's body suddenly trembled. Instinctively, he was a little scared, and his body shrank back.

When Joel saw this, he snorted and pressed his son's shoulder. Then he looked at Fade coldly and said in a low voice, "I have been in Long City for decades, but no young man dares to humiliate my family like this."

"Really?" Fade said. He glanced sideways and struck out his palm. Suddenly, a burst of energy surged out and fell directly on the ground in front of Joel, leaving a clear palm print and five fingerprints.

Kristoff, who had just calmed down, couldn't help trembling. He was fearful when he saw this.

Joel's expression also changed, but then he cleared

his throat. His eyes bulged slightly, and he said in a deep voice, "Young kid, I've seen a lot of martial-arts masters. Do you think that you can frighten me with such a little trick?"

"That's considered a little trick! You are too ignorant," Fade said. He shook his head and looked at Joel and Kristoff with a sneer.

Joel snorted coldly and said confidently, "Young kid, don't think that I don't know that your trump card is the Sun Family."

"The Sun Family?" Fade said. This time, he was a little stunned. How did the Xie Family link him with the Sun Family?

Seeing this, Joel thought that he had found a weakness of Fade. He continued to say with a proud expression, "I was right! The Sun Family had personally sent a car to pick you up. If so, I, Joel, would naturally not dare to touch you, and I even wanted to give this wine factory to you. But..."

Joel smiled and said confidently and disdainfully, "But I have already investigated the whole matter. The Sun Family picked you up because of your wife, Quin Lin. Besides, both of you went to the Sun Family to ask for help. In the end, you were driven out by them. So, you have no connection to the Sun Family."

"I can't believe it! Tell me, why should I be afraid of you!" Joel shouted in a deep voice, with a confident

expression on his face.

In his mind, he had exposed Fade's trump card. Fade no longer had any backer, and it was impossible for Fade to compete with him.

But at this moment, Fade smiled.

He did not expect that this group of people, who thought they were smart, assumed that he had a close relationship with the Sun Family when they saw them picking him up. They even thought that the Sun Family was his backer. Then, they had investigated the matter and found out that the Sun Family had refused to help him, so they thought that he had lost all his backers and had no strength to resist them at all.

But what they did not know was that Fade's trump card was not the Sun Family, the Li Family, or the Wang Family. His secret weapon was his own strength. It was something that could not be eliminated at all.

What was funny was that Joel did not realize this at all. He thought that he had figured out everything and everything was under his control.

Chapter 309

Looking at Fade Chen shaking his head and laughing, Joel Xie couldn't help but frown and shouted coldly, "What are you laughing at? I told you. You can't hold on any longer."

"I'll give you one last chance now. Hand over the wine factory. At the same time, my family will acquire the formula of the Life Elixir Wine. In this way, I can consider letting you go," Joel threatened with confidence.

Fade was amused. His eyes couldn't help but fall on Kristoff Xie, and he said to Joel, "Do you know that your son has been poisoned, and there is currently no antidote?"

When it came to this matter, Kristoff couldn't help but hold his chest and feel uncomfortable. His whole face was a little gloomy.

Joel growled and said, "Young Kid, I know you want to threaten us with this matter. But don't worry, I've been ruling the roost for so many years. If I can't even deal with this little trick of yours, how can I survive in Long City?"

With that said, Joel clapped his hands and said, "Come out now!"

Immediately, a group of doctors dressed in white

coats walked out, carrying a lot of medical equipment. All of them were well-dressed and looked professional.

Joel pointed to the doctors and said to Fade with a proud expression, "Young Kid, this is an elite team of doctors specially invited by me. They have developed the antidote for Kristoff's poison. Now, I will let them detoxify Kristoff in front of you."

"Then, I will crush your last hope and trample you under my feet. I will let you know that you are too naive for Long City. Go back to Bay City!" Joel shouted with pride and arrogance.

Fade was not angry. He pointed to the doctors in the team and asked Joel, "Are you sure that they are the elite doctors that you invited?"

"Well, now you regret it! But it's too late. You don't have any more room to negotiate with me," Joel said proudly.

Fade shook his head and said, "I just want you to confirm that they can really neutralize the poison."

"Young kid, you still don't give up. Let me tell you, this elite team was specially hired with a lot of money. The Leader is Principal Liu of City Medical Center, and I specifically imported a lot of new medicine from Micovia. It will be easy for them to deal with your poison," Joel said confidently.

At this time, Kristoff also looked proud and said,

"Fade, Principal Liu is here. Don't try to threaten me again."

"Really?" Fade said and smiled. Then, he pointed to Principal Liu and said to Joel and Kristoff, "Before you say this, you'd better let Principal Liu come over and see me."

Joel and Kristoff were confused by Fade's request. They snorted and said, "Young Kid, don't play tricks on us. Principal Liu is a well-known doctor in Long City. His medical skills are much better than yours."

"Really? Ask Principal Liu if he dares to agree to what you just said?" Fade said.

"Stop arguing, you..." Joel thundered.

But at this time, Fade said faintly, "Principal Liu, why don't you surrender? Do you want me to invite you to do that?"

Principal Liu, wearing a white coat, turned around and kneeled directly in front of Fade after hearing his voice. His face was full of sweat, and he begged for mercy, "Doctor Chen, I, I didn't know that it was you. I was wrong, I..."

Seeing this scene, Joel and Kristoff were dumbfounded. They did not understand what was going on.

"Principal Liu, how can you kneel down to that young kid!"

"Principal Liu, you must have made a mistake! That

young kid is nothing. Get up quickly."

.....

Principal Liu's face was pale, and he shook his head. He did not dare to stand up at all, but kept groveling to Fade , begging for mercy.

Fade folded his arms in front of his chest and said coldly, "Principal Liu, last time you scammed Officer Qin, and the matter is not resolved yet. Now you're here again to deceive the Xie Family. You are busy indeed!"

"I don't dare to, I don't dare to, I don't dare to!" Principal Liu said . His head was struck so hard that blood oozed out.

Meanwhile, Joel and Kristoff frowned. They did not understand what was going on.

"Principal Liu, what's the scam he is talking about? Explain the matter to me ."

"Yes, explain to us. Can you cure the poison in my body?"

.....

Principal Liu hemmed and hawed as he said, "I, I... a few days ago, Officer Qin's father was ill. I went to treat him, but I met Dr. Chen there. I recommended a new drug from Micovia to treat Officer Qin's father. Dr. Chen said that there was something wrong with the drug, but I insisted on using it. As a result, Officer Qin's father was seriously ill, and Dr. Chen finally

cured him."

"In medical skills, I, I am no match for Dr. Chen!"

"What!"

Upon hearing this, Joel and Kristoff's expressions suddenly changed greatly. Their faces fell in an instant, and they stared at Principal Liu fiercely.

"If your medical skills are not good, why didn't you tell me that earlier?"

"You also gave me medicine from Micovia. Is there anything wrong with it?"

"Are you trying to kill me?"

.....

Principal Liu waved his hand repeatedly and explained, "I, I didn't know that Dr. Chen poisoned you. So, I thought I could solve the problem."

"You don't know, do you think... that's how you treat patients, and you weren't taking my life seriously!" Kristoff roared angrily.

Joel's face was extremely gloomy. "Josh Liu, I gave you one million yuan and asked you to treat my son. This is the way you treat my son. From now on, you don't have to be a doctor anymore. Please leave Long City and disappear somewhere else."

"Yes, yes! I will leave and disappear, definitely!" Principal Liu said in a hurry.

Joel was still angry and he kicked Principal Liu in

the abdomen, which caused Principal Liu to roll on the ground in pain. He was like a drowned mouse.

At this time, Fade folded his arms in front of his chest and looked at the two people with a smile. He said, "President Xie, Master Xie, do you still need me to detoxify you now?"

Suddenly, their faces fell and they became silent for a while. Finally, they had to admit their defeat.

Joel made an obeisance by cupping one hand in the other before his chest to Fade and said, "Doctor Chen, please help detoxify my son! We are willing to hand over Xie's Wine Enterprise."

"Hand me the wine enterprise?" Fade snorted. "You speak well, but the shares of this wine factory have all been transferred to me. Now, you can't transfer them again!"

Joel was stunned, and the light in his eyes was extinguished. He gritted his teeth and said, "What else do you want, Doctor Chen?"

Fade thought for a moment, and he seemed to think of something. His eyes lit up. He immediately looked at Joel and Kristoff, and said faintly, "I heard that the Xie Family has a cosmetics business. It's just perfect. My wife's Fei Enterprises Holdings Inc is about to enter Long City. It will be very convenient for her company to merge with one or two local cosmetics companies."

Chapter 310

Kristoff Xie heard what was said and immediately shouted, full of reluctance, "A wine factory is still not enough for you. Now you even want our cosmetic company!"

Fade Chen's expression changed and he said coldly, "You've certainly asked for it. If you had handed over the wine factory obediently and allowed us to take over the business, there won't be so much trouble. But you secretly caused trouble for us, so now you have to pay the price for your actions!"

Joel Xie frowned and said, "Dr Chen, we understand that you need compensation. But you're too greedy to be asking for my cosmetics company!"

"Too greedy?" Fade sneered. He said, "If I didn't have this trump card, the Xie Family would have reoccupied this factory. I'm not sure if President Xie would use the word 'greedy' to describe yourself?"

Joel's expression turned cold and said, "I know that Mr. Chen's martial-arts skills are not bad. Even though our Xie Family is not a martial-arts family, we are still able to hire a few martial-arts masters. Do you really want to ruin your relationship with the Xie Family?"

"Masters of the martial-arts? Are you threatening

me?" Fade snorted. He focused his attention, and a crimson energy ball appeared in his palm.

Energy surged in the center of his palm, and then it was ignited and turned into a ball of red flames. The flames burned fiercely on Fade's palm, but it did not hurt him at all.

Right then, Fade launched his palm, and the raging flame fell on a metal sculpture.

When the flame landed on the solid metal sculpture, the sculpture melted quickly like hot water on white snow. It turned into molten iron and flowed down the table.

Upon seeing this, Joel's expression was filled with horror.

Although he was not a martial-artist, he was, after all, a business tycoon in Long City, and he had many bodyguards with great martial-arts skills. Therefore, Joel was quite familiar with the martial-arts.

Right beside him was a bodyguard at the peak of the Yellow Level.

This man was hired by him at a high price. He was so powerful that even dozens of strong men couldn't get close to him. He was also very sensitive and reactive. Sometimes, he could even help Joel avoid bullets way in advance before his opponent fired them.

His power surprised Joel. But now, compared with

the power that Fade showed him, his bodyguard at the peak of the Yellow Level beside him was not worth mentioning at all.

Joel was also not sure whether a Black Level master could be as powerful as Fade.

For a moment, a chill of fear rose up his spine. His entire body trembled, his legs went weak, and he almost fell to the ground.

Right then, he suddenly realized that he had been neglecting a matter all this while.

Fade and Quin Lin had gone to the Sun Family to ask for help. They had provoked the Sun Family and finally, they had been kicked out. When he first heard this news, he instinctively thought that Fade was not worth worrying about. Without the Sun Family as his backer, there was no threat at all. Therefore, he broke the contract and reoccupied the wine factory by force.

But now, he thought about the matter carefully. If Fade had provoked the Sun Family, how could he have actually left unharmed. And during this period of time, the Sun Family had not taken revenge on him either.

Such a strange situation, and he finally came to one conclusion. There was only one explanation, and that was, Fade was very powerful, that even the Sun Family had to worry about him. That was why they did not take revenge.

At this thought, Joel suddenly became limp. He knelt on the ground, thumped his head three times before Fade, and said, "Mr. Chen, we were wrong. Previously, we behaved obstinately and recklessly, and we made a huge mistake. Now, we, the Xie Family, are willing to transfer the company for free to Fei Enterprises Holdings Inc, and provide our best services to them. Mr. Chen, please forgive us."

Kristoff was not as thoughtful and cautious as his father, so he was a little surprised at his father's action.

But at this moment, Joel pulled him down directly, knelt on the ground, and forced him to grovel before Fade and apologize.

Seeing this, Fade knew that Joel must have discovered something. He didn't say much, but he lifted the corners of his lips slightly, revealing a faint malicious smile, and said, "For the sake of your sincerity, I will let you go this time."

"However, as for the matter that you've promised, if your Xie Family does not fulfill your promise as soon as possible, then next time, you won't be so lucky," Fade said coldly.

Joel immediately groveled and said, "No, we won't break our promise. There won't be a next time."

"Well, then go and get it sorted! You have three days. After three days, when all procedures are completed, Kristoff will come over to get the

antidote. If matters are not sorted out, I think there will be no need for the Xie Family to exist," Fade said in a low voice.

"Yes, yes!"

Joel trembled, then he got up while stepping back and went out.

Kristoff was pulled into the car by his father and they escaped.

They arrived at home after driving wildly. Joel finally heaved a sigh of relief, relaxing a little.

Kristoff was a little puzzled and said, "Dad, your attitude earlier was strange! Fade is really good at fighting, but he wouldn't kill innocent people at will. At most, we just had to agree to all his terms and conditions. Why did you have to behave in such a lowly manner. That was so embarrassing!"

Joel glared at Kristoff and shouted, "It's all because of what you did. If you hadn't provoked Fade, would it all become like this?"

"Dad, I..." Kristoff pursed his lips.

Joel interrupted him and said, "Don't find any more excuses. It is our greatest luck to survive this time. A wine factory and a cosmetics company, they're no big deals."

"Dad, since when did you become so timid?" Kristoff asked. He was puzzled.

"Am I being timid? It's you who are too stupid. You don't even know the real master right in front of you," Joel glared at his son and said. Then, he continued, "You only heard that Fade was kicked out by the Sun Family, so you thought that he had no support. But you never thought about the matter on a deeper level."

"Is there a deeper level to this matter?" Kristoff asked in confusion.

Joel knocked Kristoff's head and then told him his guesses and analysis.

After listening to him, Kristoff was frightened immediately. His back was covered with a thin layer of cold sweat, and he felt extremely scared. He gritted his teeth and shivered, saying, "He, he can, can cause the Sun Family to be afraid of him. This, this..."

"Don't cause any trouble when you encounter him in the future. When you see him, the humbler you can be, the better. You must be respectful and never provoke him, do you understand?" Joel instructed him.

Kristoff was still in a state of lingering fear. He gulped and nodded, saying, "Ok Dad, I, I understand!"

The father and son, who were now frightened, began to get busy with the transfer of the wine factory and the cosmetics company.
