

## Chapter 370

In the end, Sun Tianyu's voice became louder and louder, and he even glared at Felicity like a tiger!

The third question was even more aggressive!

The grievances in Felicity's heart were overflowing!

"Well, are you saying that I have no work and don't deal with serious work? Do you have a lot of free time?"

"Even if I have a lot of free time, it's none of your business!"

However, before Felicity could refute, everyone began to nod.

"Yes, what Secretary Sun said is exactly what we're considering."

"President Bai, we have made it clear beforehand. You should feel honored to have been recommended by all of us."

"Yes, President Bai, you are now a person of status. You won't go back on your words, will you? If you do that, it would be too childish."

As soon as he opened his mouth, he directly blocked all the words that Felicity was going to

say.

Felicity was so angry that his face turned red.

She knew why this group of people acted like this.

Jealousy!

"At such a young age, I suddenly came down from the sky. And I'm the most powerful person in the people's authority!"

How could he not be jealous of her?

Frاندick had been there before.

Frاندick had to protect Felicity because of William, so no one dared to reveal it on the spot.

As soon as Frاندick went on a business trip, they came to him.

No wonder it was so coincidental. As soon as he left, they had a meeting.

"Does Mr. Hoo know about this?" Felicity suppressed his anger and asked.

However, this question made everyone on the scene even more displeased.

"President Bai! What do you mean? Are you going to report to the president?"

"What do you think of us? Or do you have any opinion about the vote just now? Just say it. You don't need to say that you are disgusted with us!"

"Don't tell me you can't take care of yourself

without Mr. Hoo?"

The crowd was furious. Sun Dayu, who was on the side, was so happy when he saw this.

This was the situation that he had not expected.

They didn't expect Felicity's jealousy to be so strong that he would take advantage of today's voting to vent his emotions.

It should be Felicity and snow's bad luck to bring Frandick out without saying a word.

This completely pissed off everyone's bad luck!

"Alright! Everyone, be quiet! It was Mr. Hoo who entrusted me with the task of discussing the management of this matter. I will naturally report the results today to Mr. Hoo. In this case, President Bai, do you have any objections?" Sun Dayu asked.

Everyone looked at Felicity. It seemed that if she dared to say "no" again, she would be swallowed alive.

Felicity and snow were wilted for a while.

Even though he knew it was a trap, he still wanted to jump in?

Seeing that she did not say anything, Sun Dayu suddenly said in a strange tone, "President Bai, or if you have any difficulties, you can also say

it. Let's discuss it together."

Someone immediately followed and said, "Is your ability not enough? If you can't, let's get straight to the point. I can throw the company to my staff in the next few months and do well in the management of the company. I'll do a good job for you!"

"I don't think it's a good attitude, right? Since you're the vice president of the Medicine Association, you don't want to do anything? Are you here to be gilded? Our temple may not be able to tolerate you, a big Buddha."

The more they spoke, the uglier their words became. They were like sharp blades that pierced into Felicity's heart!

Felicity's stubbornness rose. "Stop arguing! Go! Let's go! Is that okay? If there is nothing else, I'll go first!"

After that, she strode outside.

As for the people in the field, after she had left, they suddenly burst into a loud laughter.

"Isn't it too tender?"

Wasn't such a simple and rough provocation too hard to take?

With that little ability, how could he be fit to be the vice president? How could he be qualified to fight against us?

"Go down the construction site!"

Sun Dayu, on the other hand, was laughing sinisterly.

It was as simple as jumping down the construction site. At most, it would be a bit of torture for Felicity and snow, making her suffer a little.

However, the water in the water was very deep.

Because Sun Dayu was always at work in the early stage, among those who were present, only Sun Dayu knew some inside story.

The site for this research building was located in a residential area on the outskirts of the city.

On the official note, the demolition there was almost done, and it was time to start working.

But in fact, it was not. There was a nail house inside.

This Hujiahu was especially powerful.

Ordinary people couldn't handle it at all.

A few days ago, when Sun Dayu signed the contract with the construction company, he wrote on the contract that the medicine association should transfer the clean land to the construction company because he was greedy for a discount.

This matter had originally caused him to be a

little nervous.

But he didn't expect it to be solved so easily.

It not only solved the problem, but also killed three birds with one stone.

When the construction enterprise entered tomorrow and was going to be built, it was found that this land was not clean and there was still a house that hadn't been demolished. It would definitely be turned over.

In this way, Felicity and snow were in the middle. On the one hand, they had to bear the pressure of the breach of the construction company, and on the other hand, they had to face the nail house directly.

And she could push all the responsibilities to Felicity and snow. If something happened, she would be responsible for it herself. After all, she was the manager of the Medicine Association.

Thinking about Felicity's terrible headache when the time came, Sun Tianyu's heart was filled with joy.

After Felicity walked out of the building of Medicine Association, she took a big breath of fresh air, and then her head gradually calmed down.

When she calmed down, she suddenly became extremely miserable.

How could things turn out like this!

He knew that he couldn't say yes, but in the end, he still agreed.

If William knew about this, wouldn't it be a joke for him?

"No, my husband has now achieved success and become famous, and there is a faint trace of vigorousness in him."

"Am I going to be a burden and a stumbling block for me all my life?"

"I can do something, can't I?"

Felicity thought, and decided to hide this thing in his heart first, and then he would slowly tell William in the future.

Sure enough, when Felicity returned home, William asked for a meeting.

Felicity's eyes suddenly became a little flustered.

She had never lied to William in her life.

She hurriedly shifted her eyes and said, "Nothing, it's just daily business of the Medicine Association. You won't understand even if I tell you."

A strange look flashed in William's eyes, but she did not continue to ask. She just said, "Okay, you have just recovered. Don't be too tired."

"Okay, I know." Seeing that William was so reasonable, Felicity felt that he was like a child

who had made a mistake. Needless to mention how guilty he felt.

When it was still early in the morning the next day, Felicity was still sleeping. Suddenly, he received a strange phone call.

She picked up the phone, and suddenly a voice as hot as thunder came from inside.

"President Bai, is it? I am the construction manager of the National Construction Company. What's wrong with you? Early in the morning, all the mechanical personnel have entered the building, only to find that there are demolition workers inside! What's more, several of our people have been hurt as soon as we enter the building! You are playing with us! I am going to sue you! If you don't give us a satisfactory explanation for this, we will never stop!"

## Chapter 371

Hearing this, Felicity's pajamas were all gone in an instant.

She carefully looked at William, who was still sleeping beside her, quietly got up and said to the phone, "Wait a minute, I'll go out and talk."

Then she came to the study and asked, "Hello, what's going on? I don't know what the demolition is."

"Come here and have a look! If you don't solve this problem, we won't let you go!" The construction manager said and hung up the phone rudely.

Felicity's heart missed a beat. He thought, "Why did something happen over there before he passed away?"

"Sure enough, this is not a good thing!"

Just as she returned to her room to get dressed, William woke up and asked casually, "Who is calling early in the morning?"

Felicity looked flustered. He quickly turned around and said, "It's nothing. I'm going out to work for the Medicine Association. You can deal with Xena for breakfast."

When William heard this, she had a headache

early in the morning.

This phrase was very familiar to him.

He wouldn't have to deal with that little goblin, Xena, in the future, would he?

That demoness was able to deal with me directly.

But Felicity didn't say anything more. He put on his clothes, washed his face and rinsed his clothes, then left in a hurry.

She drove the car directly to the construction site on the outskirts of the city.

At this time, a middle-aged man with thick eyebrows and big eyes came over with a cigarette in his mouth. He shouted at Felicity, "Who are you? Why do you come in everywhere? Don't you see that this is a construction site? It's okay."

Felicity quickly revealed his identity, saying that he was the vice president of the Medicine Association, as well as the management of this time.

When the middle-aged man with thick eyebrows and big eyes heard this, he looked at Felicity in surprise.

He didn't expect that this time's production was so young, and it was even at the level of the vice president.

And the most important thing was that she

was as beautiful as a flower!

It was rare to see such a scene on the construction site.

As expected, when the workers on the construction site saw the white snow, their eyes lit up.

Most of them had never received any education, so they were all very well-behaved.

Someone constantly whistled at Felicity and said, "Beauty, are you looking for a husband? Do you like being strong? Do you like me?"

The people around him immediately burst into laughter.

Hearing this, Felicity and Yang Feng's faces were as cold as frost.

The construction manager scolded the group of people, "Get the hell out of here!"

Then he turned to Felicity and said, "Since you're in charge of production, then come with me!"

In the face of such a beautiful woman like Felicity, the construction manager couldn't say anything no matter how cruel he was.

As they walked, the construction manager introduced, "My name is Wang Tianming."

Felicity nodded, and then the person came to the center of the construction site.

At the sight of this, Felicity and Yang paperless immediately frowned.

It could be seen that on this empty and flat land, there was even a clay tile house.

From a distance, it could be seen that someone was sitting on the ground in front of the door, not saying a word.

Wang Tianming pointed to the house and said, "You saw it, didn't you? When you signed the contract with us, you said that Jingya was delivered to us for construction. What's going on? There is not only a demolition house, but also a fierce one! Give me an explanation."

Felicity was very depressed and said to Wang Tianming, "Wait a minute, I'll make a phone call and ask."

She walked to the side and directly called Sun Dayu.

Sun Dayu was in his sleep when he suddenly saw Felicity's call. A smile appeared on his face.

The good show was about to begin.

"Miss Sun, what's going on with the construction site? How could there be a demolitionist?" Felicity's tone was not so kind.

She had a vague feeling that Sun Dayu was behind all this.

Sun Dayu replied righteously, "The

demolitionist? I don't know. How can there be demolitionist? When I took the land, there was no demolitionist."

"Why don't you come and take a look yourself?" Felicity asked.

But how could Sun Dayu go there? He lazily replied, "President Bai, I think you are rarely strange, aren't you? Even if there are demolition workers on the construction sites, as long as you take out the name of our pharmacy association to communicate with them, they will be scared to move overnight. It's such a small thing, can't you handle it well? All the vice presidents are watching."

Felicity's heart felt stuffy.

It was Sun Dayu who was playing tricks, but now he spoke in such a high-sounding tone.

"President Bai, everyone trusts you so much that they ask you to take charge of the administrative affairs. They won't let you move a chair and sit there for a few months, will they? If there are some small problems inside, they must be solved by you in person. If there is nothing else, I will hang up first. I have a meeting later," Sun Tianyu said and hung up the phone directly.

Felicity was so angry that he almost threw out his phone.

After hanging up the phone, Sun Dayu could

not help but hum a tune.

It seemed that things had gone very smoothly.

"It's just the beginning, and she can't stand it anymore?"

"Let's have a look at that hard-pressed nail seller later?"

Would he be beaten up by the stupid guy who didn't know how to take pity on women?

It was such a beautiful scene.

After Felicity hung up the phone, Wang Tianming came over and asked, "What did he say?"

Felicity didn't know how to answer Wang Tianming at the moment.

When Wang Tianming saw Felicity's expression, he immediately understood something and his expression turned cold.

"Do you know that you are violating the contract? Well, since you don't want to solve this problem, you can wait for a meeting in the court!" Wang Tianming said angrily.

Felicity's face froze, and he hurriedly said, "Wait for a moment. I'll go to the house to see what's going on first."

There was a touch of banter in Wang Tianming's eyes. He said, "Well, if you dare to say

that, go up and ask for it yourself. But I have to say it first. If you are beaten later, don't blame us for not reminding you."

Felicity's heart trembled, but looking at the current situation, it was clear that the people of the Medicine Association wanted to make things difficult for her with this matter.

Since she had accepted the task of management, she naturally had to try.

She braced herself and said, "I'll go there first and have a look. I'll have a good talk with her. She won't beat me for no reason, will she?"

After that, she went to the demolition house alone.

As she walked, she looked at the demolition house. It was not an exaggeration to tear it down when she saw the broken mud house.

While Felicity was moving forward, the person who had been sitting on the ground at the door of his home had not opened his eyes.

It was as if he was meditating.

When Felicity approached the man, he found that the man was not very old, about twenty years old. He was sitting there, but he gave people a feeling of fierceness.

Just as she was about to speak, her eyes suddenly became sharp and she could not help

screaming.

That person suddenly grabbed a rock from his side and viciously smashed it towards Felicity's head!

@vamp20w0111

## Chapter 372

Fortunately, Felicity had been paying attention to the man's movements all the time. When he grabbed the rock, Felicity had already hidden aside in a hurry.

Even so, the stone still passed by her ear with a "Goooo" sound.

The sound of the wind breaking made Felicity's heart jump wildly.

What the hell was going on with this person!?

How merciless he was!

"Why didn't you ask me what I'm here for?"

Felicity immediately became angry.

"You're so unreasonable!"

After the man finished throwing the stone, he slowly opened his eyes and coldly stared at Felicity and snow.

Seeing him open his eyes, Felicity and Felicity did not dare to step forward again.

He stood on the spot and timidly asked, "Hello, I'm from the office of the Qena City Drug Association. I'd like to ask you, do you have any problem? Haven't you reached an agreement on the demolition funds?"

The man's face was cold and he said, "The stone just now was just a warning. If you dare to approach the house again, you'll die!"

There was a fierceness in his words.

It was enough for Felicity to believe that he would do what he said!

Felicity plucked up his courage and said, "Can't you speak nicely? I came here to discuss this with sincerity. Why are you unwilling to tear down the house? You have to come up with a reason, don't you?"

The man didn't raise his eyes and said, "The demolition fee, right? Okay, fifty million. As long as you take out fifty million, I'll move out right away. If you can't take it out, get out of here as soon as possible!"

These words made Felicity completely angry!

"50 million gold coins!"

"With such a small house, how dare you ask for fifty million yuan for an exorbitant price!"

Felicity had felt a little sympathy for him when he saw him living in a shabby house.

Now it seemed that this person was just a rogue!

How could he shamelessly refuse to tear down the house and ask for fifty million yuan?

"Get lost!" That person saw that Felicity no

longer spoke, so he shouted.

With a stamp of his foot, Felicity also left in a fit of pique.

Wang Tianming was standing not far away from them. When he saw Felicity and snow fly back, his face was full of mockery.

"We have already talked to him before. He is determined to ask for 50 million yuan at first. You see, no matter who goes there, it won't work. But this matter finally breaks the contract of your Medicine Association. You must solve this matter well no matter what you say." Wang Tianming was insisting on his stance.

Felicity said angrily, "This man is obviously blackmailing! Can't we call the police for this kind of thing? Or let the authorities deal with him?"

Wang Tianming laughed and said more ironically, "The official business? When you took the land, in order to get a bargain, you made an agreement with the official that the price will be a little lower, and then your Medicine Association will be responsible for the demolition and compensation of the site. The official won't intervene in this matter, and only your Medicine Association will take care of it. Who told you to boast?"

Hearing this, Felicity's brain hurt!

Since ancient times, it had been a big

problem!

In many cases, even the government was hard to make progress.

The Medicine Association was really good. In order to get a little benefits, they actually took back the most difficult thing!

"Now that there's a problem, I don't care about them at all. Just leave it to me, the administrative department,!"

"Is this a man-made affair?"

Wang Tianming saw that Felicity had no way to deal with it, so he said firmly, "Anyway, we'll do as told. We've agreed to start work today, and the staff and the machine have all come in. On account of your sincere attitude, I'll give you a day. You must solve this problem for me today, or I'll go and sue you."

Felicity looked sad and begged, "Brother Wang, we have something to discuss. One day is too much of a rush..."

After all, Wang Tianming saw that Felicity was pitiful and helpless. He said, "Two days. We can't talk about it anymore. You have to know that we robotic personnel are only a cost. If there is no movement for two days, I can't afford to be asked by our superiors. You can do it yourself."

As soon as he finished speaking, he left.

Leaving Felicity alone in the same place, he

didn't know what to do.

She wanted to find that person to ask for more details, but she was afraid and did not dare to go any further.

She went home alone and didn't know what to do.

What she had done before was only the business of medicine, so she had no time for such troublesome things as dealing with the demolition workers.

However, she still kept an eye on him and asked someone from the Medicine Association to help investigate the person's background.

In the afternoon, she received a message from the Medicine Association.

But the news she brought was a little too simple.

It was said that the person who refused to move was called Li Nan Feng. It seemed that he came to work in Qena City half a year ago.

He didn't have any family or friends, so his whole personality was very weird.

Besides, he seemed to have lost his job some time ago, which was why he was even more irritable. If he was slightly unhappy, he would hit someone and it would be difficult to get along with him.

These were all that he had to say.

There was no reason for him to refuse to move.

Felicity's head started pounding. "Could it be that this guy named Li Nan Feng is really blackmailing?"

However, the price of extortion was way out of hand!

If he compensated the poor house at market price, he could only get 100,000 yuan at most.

"Fifty million..."

Even Felicity Maize himself found it a little hard to believe.

However, this person didn't have any friends at all. He was like a stone that couldn't be started at all.

For the whole day, Felicity locked himself in the room and racked his brains.

In the middle, William came to ask her what happened, but Felicity was unwilling to say such shameful things to William.

"I can't even deal with a demolitionist, how can I ask William for help?"

Her stubborn character came up again, and she decided that she must make a good conclusion to this matter.

At night, Felicity suddenly had a very bold

idea.

Since Li Nanfeng obviously demanded an exorbitant price, it meant that he was a rogue and a rogue.

Since he was a rogue or a rogue, there was no need to sympathize with him.

The human race, the human race, and the fiends had the fiendish ways.

"If I deal with rogues and rogues, I'll definitely be defeated in normal ways."

Then how about using violence to control violence?

"Get rid of him by force?"

Then give him a sum of money?

When Felicity and Yang Feng thought of this, they were not only speechless, but also a little suspicious of life.

When did he become so violent?

How could he even think of such an evil method?

Could it be that William really took the wrong way and thought that her fist was big enough to speak?

She had been thinking about it for a long time, and finally, she could not help but be hard-hearted!

No matter what, he would bring his men over

first. At the very least, he had to intimidate that lad and let him know that he was not lawless in Qena City.

At the thought of this, Felicity immediately took out his mobile phone. Without hesitation, he dialed Liu Tigger's number.

"We get familiar with each other again."

Anyway, he was already ashamed of himself in front of Liu Tigger.

The phone was almost answered in a second, and the anxious voice of Liu Tigger came from inside.

"What's wrong with sister-in-law? Did something happen to William again?"

## Chapter 373

Beads of sweat appeared on Felicity's forehead.

Nothing happened to William.

"Something has happened to my side."

She had an extremely strange feeling in her heart.

Liu Tigger was obviously older than her, and he could even be her father.

But she still called him sister-in-law...

"Don't you think it's weird?"

What's more, when I called you, you told me that something had happened to William?

Felicity could not help but think of the joke of "Our big senior brother is in trouble and master has been taken away by a monster".

She calmed down and said in a weak voice, "Brother Tigger, there's nothing wrong with William. You don't have to worry."

"Oh, that's good. I thought something happened to him again. Can't you call me and tell me what happened?" Liu Tigger asked doubtfully.

Felicity felt a little embarrassed and said, "Something happened to my side, so I want to

borrow some people from you..."

Liu Tigger replied directly, "What's wrong with you? You can't even solve William's problem? It's a big problem again. Why do you and your wife always make troubles for me?"

Felicity was even more embarrassed and quickly said, "I don't dare to tell my husband about this. I don't want him to know, so you can't tell him."

"What do you want to say first?" Liu Tigger also kept an eye on it. If he couldn't solve it by himself, he would definitely report it to William.

After all, if anything happened to Felicity, William would personally kill him.

Felicity told him what had happened to Li Nanfeng.

Over there, Liu Tigger pondered for a moment. "It's just to scare an unreasonable demolitionist, isn't it? I thought something big was going on. Okay, I'm not in Qena City these two days. I can explain it to them. How many people do you want?"

Hearing this, Felicity felt a little embarrassed and asked in return, "How many people do you think are suitable?"

"Well..." Liu Tigger suddenly didn't know how to answer.

He couldn't help but think of the ridiculous

fact that he had brought six or seven hundred people with him the last time to deal with two little bastards.

It absolutely couldn't happen again.

So he replied, "If it's only one person, I'll ask ten people to cheer for you."

Felicity said in a weak voice, "It's said that that person is very good at fighting. Ten people wouldn't be a little less."

"Then 20 of them," Liu Tigger immediately said.

"Okay, thank you, Brother Tigger. You have to keep this a secret for me." Felicity repeatedly ordered before hanging up the phone.

Early the next morning, Felicity received another strange phone call.

A man on the other end of the line who called himself Xiaodao said that he was Brother Tigger's subordinate and was ready to be at his service.

Felicity was overjoyed. After deciding on the time and place, he went to wash up and hurried out.

After that, he said, "You have to deal with Xena for breakfast."

William was speechless.

While eating breakfast, even Xena had noticed the abnormal behavior of Felicity and

snow.

"Brother-in-law, don't you think I've been sneaking around for the past few days?" Xena couldn't help but ask.

"Mm." William said as she drank a bowl of porridge and paired it with some salted vegetables.

"Then why don't you ask? You can rest assured!" Xena's eyes suddenly widened.

"What's there to ask?" William retorted.

"Aren't you worried that your wife would cheat on you? Your wife is like a flower in Qena City. There are so many pigs who want to hook up with her." Xena said angrily.

William knocked on her head. "How can you talk like that? I believe her. She will tell me if she has something to say."

Xena ate a bellyful of dog food again and faintly said, "It turns out that what you said is true. Behind every successful woman, there is a man who offers in silence. Brother-in-law, you are really great."

William suddenly frowned.

Xena was happy. "What's wrong? Are you finally aware that you're worried?"

William, however, said without thinking, "These salty vegetables are too hard to eat."

Xena was speechless. Should she say that this brother-in-law was mindless or not?

"Help me calculate, how much longer will it take for us to eat vegetables?" William asked lazily.

"Oh? I'm counting. The last time I came, you guys began to eat vegetables. Tomorrow we can eat meat!" Xena suddenly said happily, counting on her fingers.

She originally thought that moving here was for enjoying a good life, but as a result, every meal was for vegetables, and there was only one meal left for each meal. How miserable it was!

Hearing this, William also raised her eyebrows. "I can't wait until tomorrow. We'll take some takeouts after 12 o'clock tonight. What do you think of the seafood competition?"

Xena clapped her hands and her eyes were full of stars. "This is my good brother-in-law! See you at 12 o'clock tonight!"

William nodded with a smile, then finished eating and went out to Genuine Care Medical Center.

When Felicity went out, he successfully got along with the Small Swords Society at the outside of the construction site.

One of Xiaodao's hands was cut off, and his sleeve was empty.

When he saw Felicity, he suddenly felt as if he was a god.

He only saw Felicity on the Internet or in newspapers, but he felt amazed when he saw Felicity in person.

William was really lucky.

"With such a beautiful woman, it's no wonder that she can become a beauty in anger. It's totally worth it!"

However, Xiaodao was still polite to Felicity. After all, she was William's wife.

He respectfully bent down and bowed his head. "Hello, Master Madam Bai. My name is Chen Xiaodao. You can just call me Chen or Xiaodao."

Felicity and Felicity didn't know whether to laugh or cry at the name.

"How come Liu Tigger's men are all gifted?"

"Well, did Brother Tigger tell you about it?" Felicity asked.

Xiao Dao nodded immediately. "Well, Brother Tigger said that. You see, he gave you an all-round tailoring. These are the twenty most capable men under my command. They are all very good at fighting and ugly."

As soon as he finished his words, the men behind him all cast a resentful look at him.

Knife was startled and quickly changed his words. "And he's fierce and can scare people very much. He's fully qualified to meet your requirements."

"Thank you all first. Let's go," Felicity said as he led the way.

And Xiao Dao and others hurriedly followed up.

Walking along the way made Felicity feel a strange feeling. "What's wrong with me to be a punk?"

Why did he have the feeling of bullying a man and a woman?

This sort of feeling was very strange, and what was even stranger was that Felicity and Snow enjoyed it very much.

However, she comforted herself that she was going to lie to him, so she had to pretend to be fierce.

So she plucked up the courage and took her men to kill towards the broken house.

Sure enough, the guy named Li Nanfeng was sitting on the floor at the door. It seemed that he was exactly the same as yesterday, and he didn't even move his position away.

Seeing Felicity coming again, Li Nan Feng slowly opened his eyes.

There was a flash of surprise in his eyes when he saw so many people.

It seemed that he was deeply disappointed with Felicity.

Felicity, however, pretended to be aggressive and said to Li Nanfeng, "Li Nanfeng, I'm here today with some people to negotiate with you. If you know what's good for you, let's sit down and have a good talk..."

"What if you are not sensible?" Li Nan Feng interrupted Felicity and snow. For the first time, he stood up from the ground!

@vamp20w0111

## Chapter 374

Felicity and Snow were stunned.

He didn't expect that Li Nan Feng was not afraid of him at all.

There were obviously 20 people on his side, eyeing them like tigers eyeing a tiger.

A newborn calf is not afraid of tigers?

And the Knife behind Felicity immediately stood up and said aggressively, "Hey, kid, our Big Sister is nice to talk to you. How can you talk like that? Do you want to die?"

Li Nan Feng took a cold look at Chen Xiaodao and said, "If you want to fight, just do it directly. Don't talk nonsense."

Chen Xiaodao and the others were pissed off by his words.

They were Liu Tigger's men!

He had never seen such an arrogant kid!

Especially in Qena City these days, no one dared to provoke Liu Tigger!

Obviously, he didn't respect Liu Tigger at all!

"Do you know who we are?" Chen Xiaodao asked again.

"I don't care who you are. Whoever dares to

come up, I'll fight them one by one!" Li Nanfeng's attitude was also very tough.

Chen Xiaodao and the others were all angry.

Can this type of provocation be endured?

Chen Xiaodao immediately looked at Felicity. "Madam, look at this person. He's really reckless. It's no use talking to him. Otherwise, why don't we send someone to have a try first? It's better to let him suffer."

Felicity Maize hesitated for a moment.

She had always brought people here to support the scene.

He didn't want to get involved in this matter.

But Li Nan Feng had gone too far. If he hadn't suffered a little, he would not have been able to pull the nine cattle back.

Thinking of this, Felicity nodded and said, "Alright, but please be gentler. Don't be careless."

Chen Xiaodao immediately nodded and said, "I know, Master's wife."

After that, he looked back.

Suddenly, a burly man covered in muscles stood up and said, "I'm the first one to take the lead. I've hated this guy for a long time."

Chen Xiaodao nodded and said, "Well, it's all up to you."

The burly man walked toward Li Nanfeng.

Chen Xiaodao said to Felicity in a low voice, "This man is the best fighter and fiercest among my men. He'll be all right with him around..."

Before he could finish his words, he heard a scream like that of a pig being slaughtered on the field!

As Chen Xiaodao looked at the scene, he got goose bumps all over his body!

The strong man weighing more than 100 kilograms flew back and slammed onto the ground!

What the f\*\*k!

It's only been a few seconds?

"I haven't finished my words yet?"

"What on earth is going on?"

Chen Xiaodao asked behind him, "What just happened?"

The people on the scene looked at the burly man who was howling on the ground, and each of them had an extremely horrified expression on their faces.

What did they see?

"Just now, our people went there, and they only threw a punch at Li Nanfeng, so our people..." someone answered weakly.

This time, even Chen Xiaodao had a serious look on his face.

"It turns out that Li Nan Feng is a tough guy."

No wonder he dared to be so arrogant.

Felicity's face changed when he saw such a fierce fight for the first time.

She quickly asked someone to help the burly man up.

He saw that the big man's fists were fractured and distorted!

After finishing the punch, Li Nanfeng coldly looked at the on-site people and said, "Let's go together. I don't have time to fool around with you."

His words once again provoked the anger of the people on the spot.

As the saying goes, a Buddha is fighting for incense, and a man is fighting for breath!

"This boy dares to directly ignore the twenty heroes on the spot!"

What a nuisance!

Isn't it a slap in everyone's face!

"Brother Xiaodao, what should we do?"  
Someone asked Chen Xiaodao.

For a moment, Chen Xiaodao was a little difficult to deal with.

They were Liu Tigger's men.

If news of this got out, saying that twenty people were going to fight against one person, it would be too shameful.

If Brother Tigger knew, he would definitely be angry!

However, if Brother Tigger did not help his wife to handle this matter properly today, he would still be angry.

After thinking for a while, Chen Xiaodao made up his mind and said, "Let's go together! Teach him a painful lesson!"

Anyway, Brother Tigger was going to be angry. What Chen Xiaodao was considering now was whether or not the ancestors of William would be angry.

Therefore, the most important thing at the moment was to help his wife to deal with this matter.

When his men heard the order, they immediately rushed toward Li Nanfeng.

Felicity looked miserable and was scared for a while.

In order to protect Felicity, Chen Xiaodao did not go forward.

He whispered, "Master's wife, let's step back first and don't hurt you. Don't worry. We have so

many people. Can't we defeat him alone?"

However, as he spoke, he noticed that Felicity's complexion was even more abnormal.

Her eyes were full of unspeakable fear.

Chen Xiaodao looked in the direction of Felicity's eyes and shouted out immediately.

His men rushed toward Li Nanfeng, and none of them could get close to him!

Anyone who came close to him was thrown up by him and fell heavily on the ground.

In the blink of an eye, seven or eight people had fallen to the ground.

Chen Xiaodao sucked in a breath of cold air.

Li Nan Feng's martial arts skills were so amazing!

"Could he be a martial arts practitioner?"

Thinking of this, Chen Xiaodao didn't know what to do.

As Jianghu hooligans, they were not afraid of anything. They were afraid of a kind of person.

That was to practice martial arts.

However, according to the common rules of the martial arts world, practitioners of martial arts did not bother to stoop to the common knowledge of Jianghu hooligans and fight with one another.

But this guy seemed to be a martial artist.

Otherwise, how could he have beaten all his men down so easily!

It was a little tricky!

After a while, the dozen of his men were all lying on the ground, wailing, and not a single one of them stood up.

Li Nanfeng remained calm. He looked at Chen Xiaodao coldly and asked, "Do you want to fight with him?"

Chen Xiaodao would definitely not go up.

It was not because he was afraid, but because he was the only one who was able to fight. If he fell down, who else would protect his wife and retreat!

"Let's go first! We met a tough guy!" Chen Xiaodao said to Felicity.

Felicity was already dumbfounded.

He didn't expect that there was someone in the world who was good at martial arts.

"It's so amazing!"

More than a dozen people were knocked down by him in a few minutes!

She was woken up by Chen Xiaodao, but in the end, she still nodded her head and said with a lingering fear: "We'll bring our brothers back first and discuss this matter for a long time."

Those subordinates, under Chen Xiaodao's command, supported each other, and each of them felt that today's face was gone.

It was so embarrassing. A dozen people were ganging up on him, but he didn't even fight with them. Instead, he was beaten so badly.

But Li Nan Feng didn't seem to have any intention of chasing them. He just stood there and watched the group of Felicity and the others leave.

Standing at the gate of the construction site, Chen Xiaodao obviously had no face to see Felicity. "Master's wife, I am really sorry. We have embarrassed you. You can punish us however you like. We all accept it."

Of course, Felicity wouldn't punish them. "Don't say that. I should apologize to you. I don't know how powerful Li Nan Feng is. If I did, I wouldn't have let you come here."

The group of people sighed, their auras weak to the extreme.

At this moment, a calm voice came from not far away, "Do you need my help?"

## Chapter 375

Everyone looked over and saw a fat and big-eared man standing behind them with a proud look in his eyes.

The man was Sun Dayu.

Sun Dayu had been squatting on the construction site waiting for Felicity for a long time.

He had personally witnessed Felicity leading a group of people and leaving in an aggressive manner, but the last of them had all fled in defeat.

Sun Dayu's heart was filled with joy at the sight of such a sorry state.

At the same time, he couldn't help sighing that Li Nan Feng really had some skills.

He even dared to fight Liu Tigger's men, and he was able to win.

Now, Felicity, what else could you do?

"Didn't I have to beg me for help to solve this problem?"

Chen Xiaodao saw that this man was not a good man, so he whispered to Felicity, "Master's wife, who is this man?"

Felicity looked at Sun Dayu and couldn't help but feel resentment. He said to Chen Xiaodao:

"This is our Alchemy Association's 128.."

While they were talking, Sun Dayu had come over.

He didn't dare to look down upon Chen Xiaodao and others, so his words and deeds were quite polite.

Felicity said to Chen Xiaodao, "Why don't you go back first? Thank you for your hard work today. I'm really sorry, but I'll pay for your medical expenses."

Chen Xiaodao wouldn't ask for the medical expenses from the master's wife. He waved his hand and said, "No, no. Well, let's go back and report to Brother Tigger first, and find out if there is any other way."

After that, Chen Xiaodao left with his brothers in disgrace.

Felicity looked at Sun Dahu again and said in a cold voice, "General manager Sun, in my opinion, you have long known that there is a demolitionist here, so you deliberately set up a trap for me to come over, haven't you?"

Sun Dayu said seriously, "I don't understand what you mean, President Bai. I received your call yesterday, so come and see what's going on today. Don't let a dog bite Lu Dongbin and don't know what's good for him."

Felicity said bluntly, "There's a demolition

desk inside anyway, preventing the construction of the project. If it can't be solved within today, our Medicine Association will be removed."

She thought that Sun Dayu would also be nervous, but she didn't expect that Sun Dayu said with a look of indifference, "Oh, it seems that this matter is serious. President Bai, you have to think of a good way to deal with it. Otherwise, your production is a serious dereliction of duty."

Felicity was so angry that his face turned red.

This guy really knew how to throw the pot!

"He blamed all the blame on me with just one sentence."

Just as she was about to defend herself, Sun Dayu continued to say, "You are now in charge of this matter. If you don't do it well, what will the vice presidents think of you? I will tell you something friendly. Now some of the vice presidents in the Medicine Association are really angry with you, and you may also know this."

"You came down from the sky, which moved many people's cake. If you don't perform well this time, your position in their hearts will definitely drop greatly. You don't want to be ostracized in the Medicine Association every day after being the last vice president, do you?"

This sentence directly poked Felicity's soft spot.

She really cherished the hard-won position of the vice president.

It wasn't because the vice president was extremely powerful.

It was because William had paid an unknown price to obtain this position.

He had put in a lot of effort. Was he going to be pushed aside and spured by others in the Medicine Association because of his incompetence and failed William's painstaking efforts?

This was a situation Bai Fengwu absolutely did not want to see.

At the same time, she didn't want to be looked down by William. She felt like a dog that couldn't afford to be paid.

As for Sun Dayu, when he saw that Felicity didn't speak, his face showed a smug look.

In the end, Felicity and Snow bit his lip and compromised slightly to Sun Dayu.

"Director Sun, just now you said what help you can offer? Tell me about it." Felicity's tone became a little softer.

But Sun Dayu was sure to win. He stared at Felicity and said, "What's wrong? Is that your attitude to ask someone for help, President Bai? I remember that you questioned me so much

before, and I'm so sad."

Felicity's anger came at once.

"How dare you, Sun Dayu, to go so far as to ask for an inch!"

Did he really want to threaten me because he couldn't handle this matter?

Felicity's eyes changed several times and finally lowered his head reluctantly. He said, "Brother Sun, I said you before because I was wrong. Now I apologize to you sincerely. Is this okay?"

"That's not enough. You slandered me in front of all the vice president. What's the point of privately apologizing to me now? They didn't hear it." Sun Dayu said with a sneer.

Felicity's little face turned red!

"This guy actually wants me to apologize to him in front of so many vice-presidents!"

He hadn't done anything wrong, let alone accused her of doing something wrong!

Sun Dayu really did something in the house and concealed the fact that the demolition house was also there!

Not only was he unreasonable, he was also arrogant!

When one's ambitions were high, one would become arrogant!

Felicity was so angry that he almost wanted to beat him.

However, Felicity felt that part of the responsibility was on him now that things had developed to this extent.

If he didn't take up this job in a fit of pique, and if he persuaded Li Nanfeng in a softer way.

Perhaps things would be different.

Now that they had already fought, there was no way to stop it.

Felicity's little face was full of grievance. Suddenly, he had the impulse to call William for help.

However, she immediately held back this thought.

"I shouldn't have been under the protection of William all the time."

Even if he felt a little wronged, as long as he could get things done well, everything would be fine.

Thinking of this, Felicity said to Sun Dayu in a deep voice, "Well, I promise you! But you have to settle the matter in front of you first, and then I will apologize to you in public."

Sun Dayu suddenly laughed.

He knew that this was Felicity's bottom line.

He couldn't push her too hard.

However, as long as she apologized in public, her prestige in the medicine association would disappear.

At that time, she would have to be at Lin Mengya's mercy.

Felicity, Felicity, you've made a mistake in every step.

If you want to fight with me, you're too tender.

"Alright then." Sun Dayu agreed.

"Then hurry up and tell me, what can you do to deal with the demolition?" Felicity asked urgently.

Sun Dayu laughed confidently. "I think you can see that Li Nanfeng is good at fighting. If you want to deal with him, call some cats and dogs to come over. Don't you want to humiliate him? Of course, you need to find one or two masters."

"You know an expert?" Felicity asked, furrowing his brows.

Sun Dayu was even prouder. "Although I am not very talented, I have been in Qena City for decades. There are still some interpersonal relationships between me and my old friend. A few days ago, when I was drinking with my old friend, I just heard my old friend say that his son knew a big brother. His skills are not like those of the ordinary people. It seems that he is called Lu
