The Return of the God of War [The Protector]

Chapter 2946

The people you are most likely to find are among these!

When the message reached Levi Garrison, everyone felt that these four target characters should be thoroughly investigated in all directions!

There will definitely be gains!

It's just that Levi Garrison sneered after reading it: "These four are not! The dark doctor deliberately released the target to attract our attention! Extend the time for him! This shows that his revenge behavior is imminent!"

"Well, I also think it's a stand-in that Doctor Dark has found! Doctor Dark must be very vigilant. Even we all know that many forces are looking for him. How could he not know?"

"He is now releasing a double to attract our attention! But the more this happens, the closer we are to Doctor Darkness!"

"It is estimated that Doctor Dark is also in a hurry. Suddenly there are problems with these targets. It is also very time. But it just shows that there is a problem!"

...

Several people of Underworld God also said.

Just now everyone was dazzled by the major information that was suddenly discovered, and they had to investigate immediately.

Everyone reacted to Levi Garrison's reminder.

This is a guise at all!

“Then master, what should we do now?”

Everyone looked at Levi Garrison.

Levi Garrison instructed: “Those four goals are eliminated directly, these four are definitely not! Then continue to investigate according to our pace! It should be almost in New Golden City, Golden State, and Oakland! To the doctors in these target areas Make vigorous enquiries!”

“Okay, understand!”

Levi Garrison remembered something, and suddenly said: “Wait! Xiao Ming, you will sell the information of these four target characters on the black market! It is estimated that many people will buy it!”

The evil god smiled: “Okay, understand! Master is fooling the many forces, slowing their speed, and shifting their direction! Haha...”

Levi Garrison smiled: “Not only that! I have to pass this message to the Sky Shield!”

Everyone present laughed.

Levi Garrison’s move will slow the speed of most people, and also let Doctor Dark achieve his goal.

But at the same time, it also covered Levi Garrison’s search for the Dark Doctor.

He will be the first to find Doctor Dark.

Doctor Dark will not know, and other forces will not know.

Next, Levi Garrison contacted the Black Hawk agent: “Give you a message to catch up with my progress! These four target characters have a high probability! I hope you don’t fall behind too much!”

After obtaining the information of the four target persons, the intelligence department of the Tianshield Bureau checked it and broke out in a cold sweat.

“Really! These four target characters have the most probabilities, and they are basically them!”

Agent Black Hawk was taken aback.

Originally, he believed in Levi Garrison, but now he believed even more. After all, these four target people were reminded by Levi Garrison, and he naturally didn't doubt too much about his trust in Levi Garrison.

If the four target characters were discovered by the Sky Shield first, he might suspect that they were true or false.

But this was given to him by Levi Garrison.

It was found to be completely consistent. After all, this was a substitute specially found by the Dark Doctor, and it was definitely consistent in all aspects.

Therefore, the Sky Shield Bureau will not doubt.

Next, we will try our best to trace these four target people.

...

And the other side.

When the Underworld God sold this information, a small area attracted looting.

I don't know how many people bought this message.

The major forces also started searching according to the four people.

After the Dark Doctor learned about the major forces and the actions of the Sky Shield, he was very happy.

Several of his doubles worked.

This time delay for a few days is absolutely no problem.

When they find out that these four goals are not, it is estimated that it will be three days later.

At that time, it will take about four or five days to check again.

At that time, his plan had been completed.

What's more, everyone's attention is on themselves.

I don't know that there is still a brain of God.

When the time comes, attract everyone's attention by yourself.

God's brain does this.

Everything can be done without knowing it!

The plan is 100% successful!

Now, Doctor Dark finally breathed a sigh of relief.

It was only a high probability of success before.

But it's different now.

The stand-in worked and greatly extended the time.

It was almost 100% successful.
