The Eagle Nation began to install devices across the board to block it. Their anti-sky device can change the environment and turn the area into their domain after the device is turned on.

Great changes have taken place in this place. Come to defend against all this! "Boom..." But after an exaggerated shock. The energy storm swept the entire Warhawk Nation almost instantly! The entire Warhawk Nation suddenly became an area wrapped in darkness. As for their device to block the storm, no one can know. There are also some technology companies or dignitaries who take aerospace vehicles and launch directly one by one. They tried to escape this catastrophe in space! But only the top dignitaries can do this! Or it is the power of a country to store some seeds of hope. Only then will the spacecraft be launched to launch these into the air! "I'm coming!" soon. The relics of the Kingdom of God-the future science and technology city was also quickly swept by an energy storm!

Because the entire future technology city is transparent.

Can see outside.

So when the storm comes, everyone can clearly see the tragic death of the group of people outside!

As for the future science and technology city, it was quickly swept.

One area after another was swept by energy storms.

Terrible scenes are on!

Almost all Western Continents have fallen.

And at the moment.

The ancient force that captured Levilia has already met with the Dark Doctor group.

I wanted to take the Dark Doctor and them easily.

After all, the combat power of Zoey Lopez and others is not worth mentioning in their eyes.

But who can imagine that Doctor Dark will show a powerful and terrifying combat power!

No one would have thought that this ordinary person was terrifying to the extreme!

He is not only astonished by his research.

The strength is so terrifying!

Everyone understands.

He can enter the main divine division, but it is not just relying on other things.

The most important thing is strength!

A big battle began.

Under the leadership of Doctor Darkness, the crowd had to deal with the strong men of the ancient forces. Fight hard! Although the ancient forces are strong, the Dark Doctor is too strong. Really can't take it for a while! "Stop fighting! Stop fighting! Coming! Coming soon! Shall we hide?" At this time, someone rushed to come. Everyone looked outside, and a terrible energy storm was about to swept. "Hide first!" Shouted the ancient forces. He glanced at Doctor Dark again: "You follow along too!" For Levilia, Doctor Dark and Zoey Lopez naturally agreed. Follow the ancient forces to enter the secret room in the castle. I don't know how far deep into the ground! The energy storm swept all the way. With a scream, swept every place! The chain reaction caused is getting more and more terrifying! Occidental fell.

In the end, Dongfangzhou also fell!

Five hundred safe islands and various emergency bases similar to safe islands have suffered the impact of energy storms!

In the whole world, there is no local area that is spared.

The light was completely swallowed.

The whole world is enveloped in darkness.

The same goes for the images seen from the aircraft in space or the space station.

The world became pitch black, like a deserted dead planet.

Even the energy storm has hit the channel, and many aerospace instruments have been greatly affected!

From this moment on, darkness completely enveloped the whole world.

The world seems to have stopped.

"It's over! It's over!"

"This is the end of the world! How could anyone stop this? The whole world is over!"

"Only we are left!"

In the space station, everyone saw what the world looked like and exclaimed.

Unexpectedly, the whole world would be destroyed so quickly. Only them are left. "This will be the heaviest stroke in human history! That is the ending!"The world has stopped! Completely reduced to darkness! Moreover, the energy storm in the super spirit veins is still erupting, and it has gathered in the sky, unable to disperse at all. This is also an important reason to obscure the sky and turn the world into darkness! And because the energy is too strong. Leading to frequent outbreaks of various abnormalities. Phenomenon such as sea water intrusion has appeared. It's just shrouded in darkness, no one can see. Desperate! Even the space station or the people who ascended to space are depressed. They are alive and wrong now, but where do they go? Stay in space for a lifetime? Impossible! All kinds of resources and food will be in short supply! Just came to escape temporarily! What should I do???

Desperate!
A group of people lie down and have nothing to love!
Numb to the point of walking corpses!
There is nothing more uncomfortable than seeing your home destroyed!
I thought they would be overjoyed to escape this catastrophe!
But I didn't expect it!
Not happy at all!
Even everyone regretted it.
Should not flee, but with home.
Death is better than now!

I don't know how long it took.
"Huh? Did we survive this?"
In the safe island.
Xiao Liejun and others opened their eyes in a daze, and found that everyone was still on the safe island and not dead.
When receiving the energy storm, everyone can feel it.
Even if the safety island can achieve the effect of isolation from the world!
But when the energy storm came, everyone felt it.

That is an ultimate power.
Almost uprooted the safety island.
Almost cracked the ground!
When the energy storm hit, everyone was stunned.
No matter the strong or ordinary people.
Can not withstand the most violent impact!
This time they didn't know how long they had been asleep.
Now I wake up one by one.
"Survived! We all survived!"
"We are still alive! We are still alive!"
Everyone who woke up gradually began to cheer!
Everywhere is permeated with the feeling of aftermath!
