

Dragon Husband 1766

Chapter 1766 Miracles

The people at the scene had black lines.

At this time, they all realized that something was wrong.

Bai Fengxue released the azure aura that was extradited into the sky, obviously just doing it by hand.

It didn't take much energy at all.

This is already surprising.

But more importantly, Bai Fengxue didn't know how to put the extradited aura into the Sifang Seal.

This obviously fits Bai Fengxue's identity as a little novice.

But at this juncture, this ignorance will cost lives.

She has drawn out so much azure energy, and if she doesn't know how to put it back together, then these auras will be wasted.

For the Cold Boat Race, this is a huge waste of money.

The ghost knows how many years it takes for the Jiangshan Prayer Seal to breed so much spiritual energy!

Su Yongcun's entire face was pale, and at this moment, no matter what secrecy is not kept secret, he said loudly to Bai Fengxue: "Just like what I told you before, calm down and slowly guide the spiritual energy into the seals of the four directions."

Everyone in the cold boat knows a truth.

As long as the spiritual energy in the Jiangshan Prayer Seal is extradited, it can only be collected into the Sifang Seal, so that it will not be wasted.

And there is no reason to re-plug it back into the country's prayer seal.

Can go out but can't go in, this is the characteristic of Jiangshan Prayer Seal.

After Bai Fengxue heard this, she quickly held her breath and tried to communicate with the aura of the sky again.

But within two or three seconds, Bai Fengxue opened his eyes again, and said with an even more aggrieved look: "No, I can't do it, the spiritual energy won't listen to me anymore, it seems that they will be free after they come out and ignore me at all."

When the people at the scene heard it, they were like falling into an ice cellar!

What the hell!

To be able to extradite so many spiritual qi in Jiangshan Prayer India is not something that can be done by human beings.

Everyone thought that Bai Fengxue came down from a fairy.

But now there is no time to admire the magic of Bai Fengxue.

But now Bai Fengxue has no way to collect the extradited aura into the seals of the four directions.

This is definitely a fatal blow to the cold boaters.

what to do!

What should I do!

Everyone at the scene was dumbfounded, looking at Su Yongcun one by one, wanting him to come up with a solution.

Su Yongcun was also anxious like an ant on a hot pot, and his whole person was not well.

He kept saying this, "No, no, there is no way for the extradited spiritual energy to return to the prayer seal of Jiangshan either artificially or naturally, it can only be integrated into the seals of the four directions, but this girl has no way to return it. Go in, what are you going to do?"

"The only way I can think of is that all our people on the scene will do it! Collect this aura of the sky into the Sifang Seal!"

"But this is just a drop in the bucket. The aura that this girl extradited is too much. Even if you use the power of the whole family, how much spiritual energy can be collected? I'm afraid that even one in ten million will not be able to reach it. Waste it, what can I do about it?"

The eyes of the people at the scene were split, and in the face of the survival and death of the entire ethnic group, everyone still had a great sense of collective honor.

"Why bother with all this! Don't hurry up! Collect as much as you can!"

"Yeah, watching the aura overflowing from the sky, I feel distressed when I step on a horse!"

"If you give this to me, I can be a sea god doctor for a lifetime! Not for a lifetime, it's not too much to be a sea god doctor for three lives and three lives."

One person after another jumped on the stage, trying to use all of their strength to extradite the spiritual energy in the sky.

But as Su Yongcun said, it's a drop in the bucket, and it won't make any difference.

Seeing this scene on the side, William sighed.

He could understand the situation in front of him, and he also knew why Bai Fengxue had such a situation.

First of all, everyone thought that Bai Fengxue did not have the bloodline of the Cold Boat, so it was impossible to extradite the spiritual energy in the prayer seal of Jiangshan.

This in itself is a big mistake.

Bai Fengxue has inherited the blood marrow with Frost Cang Python, and the blood of the most authentic Cang Python flows through his body.

And who is the Frost Cang Python?

Isn't it the ancestor of the cold boaters?

In other words, Bai Fengxue is the ancestor of these people!

Therefore, her bloodline can completely extradite the spiritual energy in the prayer seal of Jiangshan.

And better than anyone else!

So everyone will see that Bai Fengxue extradited all the spiritual energy in the Jiangshan Prayer Seal with just one thought.

As for Bai Fengxue, why couldn't the extradited aura be re-collected into the Sifang Seal?

She seems to have lost her ability to guide the outside world.

This point, William is only guessing.

Although Bai Fengxue had the bloodline of the Frost Cang Python flowing in his body, he did not possess another kind of bloodline or talent.

That is the connection with the Jiangshan Prayer Seal.

The cold boaters group present said that they only had the bloodline of the Frost Cang Python, but it was actually wrong.

There are at least two mysteries in them.

One is the mystery of the Frost Cang Python bloodline, and the other is the mystery of inheriting the prayer seal of Jiangshan.

And it is the Jiangshan Prayer Seal that has shackled this ethnic group for thousands of years.

Therefore, William has every reason to believe that only if these two mysteries are combined into one, can the Hanzhou people successfully extradite the spiritual energy in the Jiangshan Prayer Seal to the Sifang Seal.

This is what Bai Fengxue lacks.

Therefore, she could not successfully extradite the spiritual energy to the Sifang Seal...

As for the spiritual energy in Jiangshan Prayer Seal, can it go out or not?

This is a very novel information.

Watching the people at the scene turn into a pot of porridge.

Even Su Changsheng was in a mess, and he started to stand up and try to gather the spiritual energy in the sky into the Sifang Seal. Wiliam shook his head silently.

No, you are too fragile.

Forget it, let me help you.

One by one, the people on the scene started the experiment, but they all gave up quickly.

They can't do that to turn the tide!

Some people, watching the spiritual energy in the sky began to overflow, began to cry out loud.

Immediately, the people at the scene burst into tears.

The Cold Boat Race has changed from a decade of great joy to a thousand-year-old great sorrow. This strong turning point caught everyone off guard.

This atmosphere also permeated the audience.

However, suddenly someone looked at the sky in confusion and couldn't help shouting.

"wrong!"

"Look at the sky, everyone! The spiritual energy seems to be mobilized! All of them are gathered in one place!"

With that said, everyone looked to the sky.

And just looking at it, everyone was dumbfounded!

who is it!

There is such a terrifying ability, and in an instant, the aura in the sky is completely stirred!

And when they looked at the places where these spiritual energies were gathered, they had goosebumps one by one.

This is impossible!

Jiangshan miracle!

These auras are not collected into the seals of the four directions!

Rather!

Pray for the return of the seals to Jiangshan!

The aura of the Jiangshan Prayer Seal can leave and cannot enter for thousands of years!

At this moment, it was completely broken!
