

CHAPTER 1353

The other three smiled and said: “Yes! Don’t think of other tricks! No use! Before your reinforcements arrive, we can definitely kill you and take things away!”

“It’s better to hand over it obediently, we only need things, not human life!”

In their view, stealing things is just a momentary thing.

“Don’t think about it!”

“Take things away from us? Are you joking?”

Tyrannosaurus sneered.

Zhanhu roared: “Yes, it’s not wrong! Let’s rely on real skills for things!”

Sixteen masters in the four major groups are ready to die.

But everyone understands.

The opponent is too strong.

It will take a long time for reinforcements to arrive. ...

They are in danger during this period.

It is possible that the thing has been robbed.

“At the beginning we should have listened to Levi Garrison, and there is no such thing as a change of course!”

Bing Phoenix said dissatisfied.

“Yes, he expected it! But in that case, who could have predicted it?”

The Fire Phoenix said dissatisfied.

“Also, Levi Garrison should insist on changing his course just now! You see that he compromised again later! It means that he himself is not firm!”

“If you want to blame this thing, you must blame Levi Garrison for causing us to lose so many people!”

Other humane.

Levi Garrison kindly reminded him, but it turned out to be his fault.

“Wrong! He also said casually! Besides, it’s time to really use him, how about him? Can sitting in a wheelchair help us?”

“Isn’t it a burden now?”

“Listen to my orders, no one can protect Levi Garrison later! Only responsible for things!”

Tyrannosaurus ordered.

“Then you are looking for death!”

“Kill!”

The four demon heads led all the mask masters to kill together.

All the tyrannosaurus rushed forward and fought together.

As soon as the two sides played against each other, they felt a huge gap.

The fighting power of these sixteen people of Tyrannosaurus is equal to those of the masked masters.

But they still have four big monsters here...

They are the point!

But who can stop it?

The opponent's offensive was impenetrable.

They have no way to break out with something.

In layman's terms, you can only wait to die.

The battle between the two sides has become fierce...

The four members of the wolf group were knocked to the ground first.

Immediately afterwards, the three of the Dragon Group couldn't support it.

In the end, the tiger group and the phoenix group all fell to the ground.

In the end, only Tyrannosaurus, Zhanhu, Ice, Fire and Phoenix were left to hold on to things.

But the four of them were already seriously injured.

"Hand over things?"

"At this time, what are you still resisting?"

Feng Buqun, a 10,000-person butcher, and Chen Yuezhen, the king of swordsmen, came step by step.

"Impossible! Even if things are destroyed, they won't be given to you!"

The Tyrannosaurus shouted.

“Hurry up and activate the destruction device! Destruction can’t fall into the enemy’s hands!”

Ice Fire Phoenix takes the box to operate.

“Chichichichi...”

But in an instan

t, a hidden weapon struck, shooting everyone’s wrists and arms.

“Uh...”

Everyone screamed.

The box in his hand fell to the ground.

Several people in Tyrannosaurus no longer have the ability to control it.

Poison Yama Fan Dongsheng came over and wanted to pick up the box.

The Tyrannosaurus people tried their best to stop them, but they were all knocked to the ground in an instant.

Several people struggled to get up, unable to get up at all.

Can only watch Fan Dongsheng pick up the box.

The fighting time is too short.

Not enough to get reinforcements here.

Watching the pace of Fan Dongsheng's departure.

The Tyrannosaurus people are desperate.

Their mission failed.

"The things are in hand, let's leave!"

"Have you asked me about things?"

Suddenly, a voice came from inside the car.
