

CHAPTER 1380

If they offer this kind of medicine to the Emperor of Western Shu, the future is boundless!

Now it's just relying on the old lady, by the name of the clan of Xishu.

But in fact it is not very relevant.

But if they offer this medicine, they will have a direct connection with the Western Shu gate clan.

No more borrowing the title!

The Lopez and Black families will become part of the Western Shu family!

Can guarantee two hundred years, even hundreds of years worry-free!

This is the lifelong dream of Harry and Meredith!

This is a substantial change!

"We must seize this opportunity!"

Everyone clenched their fists tightly. m.bg.

Everyone has an idea in their hearts.

“Old lady, I will wait for the guarantee, I will get the medicine!”

“Furthermore, Levi Garrison can’t use this medicine? What qualifications does he have?”

Everyone.

“Okay, then I can rest assured!”

“If you get the medicine, I believe the eldest brother will be very happy!”

The old lady said.

Everyone wanted to get this miraculous medicine.

Especially like the emperor of Xishu.

They are the most needed...

Here, Levi Garrison had just received the reward, and someone over there came to the door.

This time everyone was polite.

Everyone greeted Levi Garrison.

Ask how he is doing.

Even the previous Meredith and Harry had a big change in attitude.

This was impossible before.

“You are here for this?”

Levi Garrison sneered.

“It’s not just this! We mainly congratulate you on your supreme reward!”

Meredith laughed ho ho.

“Thank you!”

Meredith looked at each other, and then Meredith asked: “Levilia? What about medicine? Can we see it?”

Levi Garrison shook his head helplessly.

Sure enough, the fox’s tail appeared.

This group of people won’t come to him kindly.

“The medicine is sealed in a vacuum, you can’t see it!”

Levi Garrison refused directly.

Meredith's face changed, and she continued to ask with a smile: "Levilia, how do you plan to use this medicine?"

"Or maybe you still don't use this medicine?"

Levi Garrison gave her a glance and said: "I just got the reward, you are here, and I don't have a chance to use it!"

"Levilia, that's great! Give me this medicine! I'll buy it with money! No matter how much it is!"

Meredith and a few people were free.

Get the medicine even if your family is bankrupt!

Becoming a member of the clan of Xishu, money can't buy it.

"Yes, you can make a price! We are sincerely asking for it!"

Harry and Robert urged.

They are bound to get this medicine.

Everyone's eyes fell on Levi Garrison's body one after another.

“Not for sale!”

Levi Garrison refused.

I won't sell it for much money!

Everyone was taken aback.

Reacted quickly.

They are wrong.

Levi Garrison is not short of money!

Even if the body is like this, the lack of money will not be possible.

There was a goddess of war guarding him.

Life is absolutely worry-free!

Everyone looked at each other.

Meredith thought of something and said with a smile: “Then you can make a condition! Any condition will do!”

“Yes, as long as you can give us the medicine, we will agree to any conditions!”

Harry was already rubbing his hands with excitement.

Others are even more short of breath.

Especially the younger generation.

They are even more eager to have the identity tag of the Western Shu gate clan...

But Levi Garrison ignored it and didn't have a reply.

At this time, Robert said: “Let's do it, King's Landing. As long as you give us medicine, we will let your family meet.”
