

The Return of the God of War [The Protector] Chapter 1822

“The location is on an island somewhere in the East Erudia Sea... the specifics are all inside!” The

King Xitian marked the location.

“Go, immediately arrange the fastest means of transportation for me!”

Levi Garrison couldn't wait to fly over.

It's just that his strength hasn't reached that level yet.

Soon, King Xi Tian arranged a supersonic fighter plane to carry Levi Garrison to the small island in the East Erudia Sea.

As soon as Levi Garrison moved here, the Tianlong four immediately became alert.

“Quickly find out where Levi Garrison went, let's follow!”

“Also, let the support of Tiance Mansion and Baolong clan divert to follow us!”

...

Tiance Mansion also chased up immediately.

After all, Levi Garrison's whereabouts were not a secret.

If they forcefully use commands or means, it is easy to know all this.

Levi is in front, and they are behind.

Levi Garrison on the plane had only one belief, quickly reached the island and rescued Levilia.

On the small island, the apprenticeship meeting began.

The various forces displayed valuable things one by one.

“My treasure is a top combat skill... Cang Ming combat skill!”

” Hi !”

After hearing this, everyone took a deep breath.

Have you taken out this combat skill?

too frightening!

“My treasure is a celestial spear!”

“His!”

Looking at the dazzling Tianshen Gun, everyone took another breath.

The god spear is cast from meteorite iron from the outer world, and is known to pierce everything.

Whoever owns it will definitely increase their strength.

“The things I took out are some valuable treasures...”

...

Then the major forces began to show their treasures one after another.

Each piece is invaluable, and the sound of cold breath is endless.

But the Higashishima samurai looked calm.

Obviously none of these things are what they want.

The really powerful characters haven't shot yet.

Dozens of forces in the countries around Erudia also showed their trump cards one by one.

&

The apprentice reception conference has gradually reached a climax.

The value of their treasures is also greater than that of one item, and they are all treasures that have caused a sensation when they are taken out.

But the leaders of the Toshima samurai still shook their heads.

After all, these things still fell short of their expectations.

“I’m coming!” At

this time, the lord of Fenglei City Feng Lei Jian Zhizun stood up.

“My treasure is a Heavenly Frost Sword! It is cast by the fusion of thousands of years of profound ice, and it is comparable to my Feng Lei Sword!”

Feng Lei Sword Supreme took out a sword.

Suddenly, the temperature in the entire area dropped, and everyone felt a deep chill.

Seeing this sword came out, the eyes of the Samurai Higashishima slowly lit up.

This is what they are interested in.

“My treasure is a magical medicine! It can transform an ordinary person into a Seventh Heavenly Power!”

After the master of the Xuanming Hall, Xuanming Dao Shen appeared, everyone was suffocated.

Isn't this magic medicine terrible?

The eyes of the Higashishima samurai were bright again.

They are more interested in this.

The usefulness of this magical medicine is too great... The

effect of the medicine can be said to be amazing!

But then, everyone turned their attention to one person.

The eleventh Five Dragon Taoist in the Big Summer!

He is different from the martial artist, he is practicing Taoism.

But strong warriors have to bow their heads.

Otherwise, he won't be the eleventh one on the top list.

Now he is the only one left in the court without any treasures.

Taoist Wulong had a cold face, and he had a look in his eyes.

The apprentice next to him immediately took out a wooden box.

“My master’s treasure is one of Wulong Mountain’s magic weapons-God Lei Yin!”

said the little apprentice.

The magic weapon of this kind of Taoism is the same as the weapon of the warrior, which adds to the combat effectiveness.

In fact, the magic weapon is easy to understand.

In ordinary people’s lives.

For example, the elderly like to go to temples and Taoist temples to ask for something, pray for fortune and increase luck.

This is actually the same as the magic weapon.

It's just that the god Lei Yin of Wulong Taoist is here to kill people...
