# The Return of the God of War [The Protector] Chapter 1872

Not alone.

It's ten people!

Perhaps considering that there are more people this time, it is more troublesome to solve it by one person, so we sent out ten masters.

"Hey, what's the matter? This is nowhere!"

Levi Garrison stood up.

Ten people were taken aback.

They just watched Levi Garrison leave, why did he still show up?

"You…" The

ten were obviously panicked.

"

Evacuate !" Ten people were about to evacuate in a hurry.

"Want to escape? No way!"

Levi Garrison suddenly stepped forward and grabbed one of them.

"Bang!"

At this moment, one person took the initiative to attack and slapped Levi Garrison.

"Boom!" The

mountain burst and the ground cracked, and the sun and the moon reversed.

"It's you!!!"

Levi Garrison shot a wave of anger in his eyes.

He recognized it!

This person is who framed him!

It's almost exactly the same as his practice!

In a short time, Levi Garrison couldn't see any difference!

"Let me see your true face!"

Levi Garrison immediately grabbed it.

"Stop him! Stop him!"

The man panicked.

The other nine masters all killed Levi Garrison.

As for him, he just flees on the spot.

Although the nine masters could not stop him for a long time, a gap was enough for him to slip away.

"Bang!"

"Bang!"

…

You want to stop me too?

Levi Garrison had a murderous heart, and a mighty force of five horses blasted out from all over his body.

"Puff!"

… the

nine of them lost in an instant and flew out.

"Puff!"

"Puff!"

...... It's

just that these nine people instantly pierced the short blade into their chest.

They would rather die than let Levi Garrison know any news.

Levi Garrison was one step too late.

However, picking up the short blade and taking a look, it is unique to Toshima!

"This is from

Dongdao !" Levi Garrison's eyes flickered. At this moment, he thought of several people.

The few Dongdao people I met in Fengtian City were mixed in Anjia.

Although he let the Western Heavenly King stare, but now it seems that he may not be able to stare.

It seems that my hunch is right!

This is a professional habit for many years!

It is easy to see some anomalies.

"It should start with Anjia again! Check it out when Anjia left Erudia and went to East Island to contact those people specifically!" Now

Levi Garrison had a direction.

And there is a very important clue-Anjia.

In addition, letting the secret team and the seven evil gods check the surrounding anomalies, it is estimated that there will be clues.

You can definitely find it in the end!

Levi Garrison's frowned brows stretched out.

Good things happen one after another!

What if someone like your own martial arts ran away?

I will find it on your head in the end!

"Let's go, see if Zoey is rescued!"

Levi Garrison left Tiandang Mountain.

In the battle of Tiandang Mountain, he achieved a complete victory.

The Tianlong and others on Tiandang Mountain all looked incredulous.

"Impossible, Levi Garrison, a descendant of the Heretic God, just let us go?"

"Yes, shouldn't he kill us all? How could he only wound us and not kill us?"

Everyone was puzzled. .

"He is insulting us! Laughing at how many of us are helpless to him! He is trampling on our dignity!"

Xuan Lang suddenly shouted.

"Yes, that's right! Levi Garrison is insulting us! This is more painful than killing us! I must avenge this grudge!"

"Levi Garrison really thinks no one has taken you? Tiance Mansion and Baolong clan The master hasn't made it yet! The top three in the rankings haven't come yet!"

…

a group of people completely misunderstood what Levi Garrison meant.

Not killing them is actually an insult to them.

Levi Garrison, who had left, met the three evil gods shortly afterwards.

"What? People didn't save it?"

Levi Garrison panicked.

No wonder he hasn't seen Xu Zhengjie, it turns out that this kid actually returned.

It should have guessed his intention.

"Hurry up to the Shenlong Science and Technology Base!!!"

Levi Garrison immediately set off.
