

The Return of the God of War [The Protector] Chapter 1971

The eyes of the thousands of people present were all focused on Levi Garrison.

Everyone saw Levi Garrison's face peeling off with a mask. Everyone was short of breath, even suffocating, with a heart hanging in his throat.

This is not his true face?

At this moment, He Qingxue was sweating profusely and did not dare to breathe.

She desperately wants to know the real face under the mask!

She was more curious about Levi Garrison's true identity than anyone present!

Xuanzun Kyushu looked at Levi Garrison without blinking.

Soon the mask fell off, revealing Levi Garrison's original face.

"Hiss!!!" At

this moment, the voices of cold breath sounded one after another.

The audience was silent.

Everyone has to suffocate!

All the body does not move, the expression is frozen!

Just like walking dead!

After seeing Levi Garrison's true face clearly.

The gambler was dumbfounded.

He Zongtang was dumbfounded.

He Qingxue was dumbfounded.

Kyushu Xuanzun was dumbfounded.

Even Jimson from the Blackwater Company was dumbfounded.

...The

faces of everyone were crazy, extremely shocked!

he!

It turned out to be him!

No one thought of this!

After seeing this face, many problems were solved immediately!

Why did he dare to provoke the gambling king family alone?

Why did he know that half ghost and half immortal were locked up?

Why didn't he pay attention to Golden Harbor Island from beginning to end?

Why did he even beat the young boss of the Blackwater Company to death?

Why Xuanzun Kyushu can only fail in front of him?

...

All the problems were explained clearly after seeing this face.

Almost everyone recognized Levi Garrison's face.

Even if it is relatively remote, Golden Harbor Island, which is far from Erudia, is almost universally known.

At this moment, all tens of thousands of people present were shocked.

So many people have reached the point where the needle drop can be heard...It's

really scary!

The gamblers reacted one by one.

His face was pale, and his eyes were full of fear.

Some people were even scared and sweating profusely, The legs were trembling constantly.

“Who is Grandpa? Why are you all afraid of him?” A

crisp voice sounded.

There was a child who didn't know Levi Garrison, and asked his elders curiously.

“Who is he?”

“The God of War of Kunlun who used to be the Great Summer, one word side by side! Now the first Levi Garrison in the Great Summer List!!!”

“He is also the descendant of the Fire Cloud Cthulhu! The commander of the Seven Cthulhu!!!

Someone shouted.

“Hiss!!!”

The sound of cold breath was endless.

No one did not expect that the number one in the summer list would come to Golden Harbor Island.

Two days ago, the gambling king was still joking that if Levi came to Golden Harbor Island, he would definitely overwhelm this place.

Unexpectedly, the prediction came true!

He really came!

“Puff!”

Guo Yifei couldn't control it anymore. He was anxious and spouted a mouthful of blood.

He is actually looking for the trouble of No. 1 in the big summer!

Oh my god!

What did he do?

Fortunately in the misfortune, Levi Garrison left early, and he failed to find trouble.

Once he succeeds in finding trouble, then the Guo family may have to be erased from Golden Harbor Island.

Thanks to the ancestors of the Guo family!

How about Ren Tianfeng and Fang Peiqi?

The ants in their eyes, in a blink of an eye, have become the peak existence they can't afford to climb!

he!

It's him!

He Qingxue almost cried with joy!

After seeing Levi Garrison's demeanor at the Tianjiao Conference, I will never forget it again!

Peerless posture was engraved in her mind.

I always felt like a person just now!

Now it's clear!

This is Levi Garrison!

he came!

Seeing that it was Levi Garrison, He Qingxue was not afraid, but extremely excited.

The name Levi Garrison seemed to be bombarded by a cannonball, and everyone in the room was bombarded with perfection!

Those who are most afraid of it are those from the Blackwater Company.

They knew that Levi Garrison was the number one enemy.

I met now, nothing good...

“Xuanzun Kyushu sees Mr. Garrison who is number one in the sky list!”

Xuanzun Kyushu bowed and saluted.

The audience fell silent again...

The Return of the God of War [The Protector] Chapter 1972

“Mr. Crash, I hope Mr. forgive me!” In terms

of age, Kyushu Xuanzun was already over a hundred years old.

But isn't it necessary to obediently salute in front of Levi Garrison?

This is respect for the strong!

Nothing else!

He had to apologize to Levi Garrison and beg for forgiveness!

Otherwise, with Levi Garrison's strength, killing him would kill him.

Isn't the commoner killing god an example?

"I have met Mr. Garrison in my family on Golden Port Island!"

"I have met Mr. Garrison in my family on Golden Port Island!"

.....

These dignitaries on Golden Port Island reacted one after another and saluted Levi Garrison one by one.

Only the gambling kings and Heishui Company were left in the field, embarrassed and at a loss.

After all, there is a direct conflict between the two sides, it is not like the other people apologize and it is over.

"I, I..." The

gambler's mouth trembled and his body trembled violently.

I couldn't squeeze a word out for a long time.

They underestimated the enemy.

If you check Levi Garrison's identity carefully, you won't know Levi Garrison's identity a long time ago.

How come to where it is now?

Longteng Villa was overthrown, and all the masters were defeated.

Also offended the big summer list!

I can't bear the consequences!

Levi Garrison looked at the gambling king family and smiled: "What other cards do you have? Just take it out!"

Levi Garrison's words frightened everyone out of their bodies, like a light on their backs.

"Puff!"

"Puff!"

...

They knelt down one by one.

Kowtowing at Levi Garrison begging for mercy.

“Mr. Garrison beg you to bypass us once! We really don’t know Mount Tai!”

“We are blind! We are sick!”

...

Everyone begged and cried.

They were afraid that Levi Garrison was unhappy and would destroy the He family.

He Qingxue also leaned forward: “Mr. Garrison, as long as you promise to let the He family go, we can agree to any conditions!”

Speaking of the back, He Qingxue lowered her head shyly. Who doesn’t know what that means? ?

The condition is that she can too!

“How good is it to hand over people earlier, why bother?”

“Forget it, I’ll go meet people first!”

Levi Garrison was about to set off, but saw Jimson and others on the side.

“The Heishui Company’s right? It has something to do with Richard and the Lab of the Gods, right?”

“Lao Tzu, what the hell is the most annoying you! Go back and tell Richard, if I see you hanging around in Erudia again I saw one kill one!”

“Get out!!!”

Jimson and the others were so scared that they fled from here.

What kind of marriage?

What kind of beauty?

My life is almost impossible to save!

The Heishui Company and the Sanxing Group and Songshang Group who came with him were all scared away.

From then on, Golden Harbor Island was their taboo.

I dare not come if I die!

After escaping from Dragon Villa, Jimson immediately contacted Richard.

“Mr. Richard, Levi Garrison is on Golden Harbor Island! I just met...”

Richard’s cold voice came from the other side: “Okay, I get it. This is important information!”

...in

Longteng Villa.

Levi Garrison said nothing.

Go straight to the place where the half fairy and half ghost are closed.

There is no need for others to lead the way.

This made the gambling king and others more and more horrified.

How did he know that people are locked here?

Too... amazing, isn't it?

“Boom!”

When Levi Garrison blasted the secret road gate open with a punch, the gambling king was completely convinced.

The number one on the top list is really omnipotent!

Others are even more dumbfounded.

None of them knew, how did Levi Garrison know?

This is too magical, right?

About to reach the half-ghost and half-immortal place, Levi Garrison suddenly asked the gambling king: "Why did you lock him up?"

"Boom!" As

soon as the question came out, the gambling king trembled fiercely.

It seemed that this question was extremely terrifying to him.

"Say!"

Levi Garrison scolded.

The Return of the God of War [The Protector] Chapter 1973

The gambling king wiped his cold sweat and could only tell everything.

The half fairy and half ghost have superb abilities, almost ghosts and gods.

He is different from Kyushu Xuanzun's spells, his spells are used in Feng Shui.

Specially show people Feng Shui, change the luck of these things.

In this realm, he is like a half immortal!

Back then, the king of gambling was just a nameless man who went south, starting from scratch, step by step.

Among them, there is no lack of half immortals and half ghosts, and changing fortunes is common.

Especially in casinos, these are particularly important.

But it is said that the king of gambling has built a huge financial empire, which is inseparable from the half immortal and half ghost.

It's not just him, the other dignitaries of Golden Harbor Island rely on half-fairies and half-ghosts.

Because of their success, they pushed the half fairy and half ghost to the position of god!

That is, everything that Levi Garrison saw in the materials about the magic master.

The gambling king and the big powers regard the half immortal and half ghost as the guests.

I thought that under the close cooperation between the two parties, the business could take a step forward.

I don't know what happened later...

Everyone who has been treated by half-immortals and half-ghosts has been punished to varying degrees!

The big powers are either physically disabled, or their family members are in trouble, or their careers are collapsed...

Gradually, problems abound.

The most serious is the gambling king family!

Because they get the most from half-immortals and half ghosts, the more severe the punishment they receive.

The wives and concubines of the king of gambling, and even the lovers who were related to each other, died violently.

The most frightening thing is that in the grandchildren of the gambling king, not one is a boy, all are girls.

This is why the gambling king loves He Qingxue the most.

In general families of this level, boys are definitely more loved.

But men are not at all!

This is the trend of weaning off grandchildren!

Together with the problem of the gambler's own legs, until now he can only walk on crutches.

From then on, all women who have a relationship with the gambling king will die... The

gambling king is a seed of infatuation.

& Although there are many women, he loves each one deeply.

But they are all in trouble!

The gambler is distraught!

It wasn't until then that he realized that if the half-immortal and half-ghost were asked to take action, while reaping the benefits, he would also suffer punishment.

In one word-there is no good thing in the sky.

If so, you have to change things.

The gambling king understood that all his achievements were originally obtained by his wife and no male descendants in the family.

To put it in an exaggeration, the gambling king is cursed.

The same is true for other powerful and powerful people on Golden Harbor Island.

Wherever the half-immortal and half-ghost gain the benefit, the most important thing must be correspondingly lost.

The more benefits you get, the more serious and important you lose.

After the backlash appeared, the half fairy and half ghost fell directly into the altar.

Angrily, the gambling king locked him up forever, letting him live in the ground secretly until he died of old age.

Subsequently, the gambling king joined forces with the dignitaries of Golden Harbor Island to lock the news...

In fact, the gambling king was also very afraid, he wanted to kill half a fairy and half a ghost with a single knife.

Kill him terribly, and he will suffer retribution.

Can only be closed!

Hearing this, Levi Garrison understood everything.

Levi Garrison was not very shocked by these strange things.

In the people of Erudia, there are many such strange people and strange things.

The most important thing is to understand a truth-there is no unprovoked achievement in the world, everything still depends on your efforts.

If you take a shortcut, you will pay the price.

With that said, everyone has arrived at the place where the half-immortal and half-ghost are imprisoned.

“You came?”

The far half fairy and half ghost already laughed.

“Are you waiting for me?”

“That’s right!” The

half fairy and half ghost smiled weirdly: “I still know why you came to me?”

Levi Garrison and everyone were shocked.

Half-xian and half-ghost said modestly: “No more folk tricks, you can’t get on the stage!”

Levi Garrison calmed his emotions: “Then you can cure her?”

The Return of the God of War [The Protector] Chapter 1974

“You can try it!”

Levi Garrison smiled.

possible.

But then the half-immortal and half-ghost's voice sounded: "But you also pay the price, are you willing?"

"You..."

Hearing this, the gambling king didn't get angry.

Half ghost and half immortal obviously know all this.

As long as he makes a move, it must be accompanied by punishment.

But he didn't say anything before.

Play with the rich and powerful of Golden Harbor Island.

If it was said that he had to pay such a price at that time, the gambling king would never find him.

Now it's calm.

Tell me directly that there is a price!

Levi Garrison looked calmly: "No problem! As long as people are okay, any price can be accepted!"

Levi Garrison is not like being regarded as an enemy by Zoey all his life!

He can accept any price!

“Okay!”

After finishing speaking, a terrible vigor erupted from Half Immortal and Half Ghost, breaking the chain on his body every inch.

The gambling king looked dumbfounded.

This can't shut him down?

“You, you...” The

gambling king was shocked and speechless.

He and his subordinates realized that it turned out that the half fairy and half ghost could not be kept here.

He is not only a Feng Shui master, but also a master.

“You were arrested by me on purpose? Why are you willing to be kept underground for so many years?” The

Gambler asked tentatively.

They really couldn't figure out why the half-immortal and half-ghost didn't resist and let them stay here for so many years.

What is it for?

Is he stupid?

Do not!

There must be a reason!

Half fairy and half ghost did not answer his question.

Instead, he left here with Levi Garrison.

Before leaving, Levi Garrison said to the gambling kings: "I will send him back after I let him help. You can decide if it is closed or not!" The

gambling kings have a bitter expression on their faces.

They have to be strong if they want to shut down Closed.

Now it seems that the strength of the half-immortal and half-ghost is terrifying, and it is afraid that it will be higher than the Kyushu Xuanzun.

A veritable master of magic on Golden Harbor Island!

What are they going to do?

Levi Garrison was very pleasantly surprised.

The more magical and strange the half fairy and half ghost, the greater the probability of curing plum dye.

As for the price, he never thought about it.

Just come on!

“Mr. Garrison, I will leave first, and then we will meet!”

Then, the half fairy and half ghost left temporarily, not knowing where they went.

Levi Garrison waited for him and went to Tiance Mansion to find Zoey.

...

On the other side.

Richard has already been in a video call with the East Island forces.

“There is news from my people that Levi Garrison has appeared on Golden Harbor Island! There are no seven evil gods around him, and there are no people from Tiance Mansion on Golden Harbor Island! This is a good opportunity for us to kill him!”

Richard said.

“Really? That’s a great opportunity! Mr. Richard, this is our best opportunity! Both of us must send enough cards! He must be killed!”

“Relax, I understand! This opportunity If you miss it, it will be difficult!”

“Then let’s act now! Later, Levi Garrison will leave!”

...

Levi Garrison has been waiting for half fairy and half ghost.

It’s just that this weird guy doesn’t know why he went.

I haven’t come back after a few hours.

The seemingly calm Golden Harbor Island is actually murderous.

On the eve of the last battle with the Common Killer God, Richard and the East Island forces sent their hole cards for the purpose of consumption.

But this time it was different, because he wanted to kill Levi Garrison directly.

So what they sent is the trump card.

The strong man who can directly threaten Levi Garrison’s life!

Richard is a cautious man, never revealing his cards until the critical moment.

But in order to kill Levi Garrison, he sent it out.

Levi Garrison, who was waiting, suddenly his right eyelid jumped nonstop.

“How do you feel like something is going to happen!”

Levi Garrison’s expression changed.

He realized that something was wrong.

The atmosphere is weird and people are very uncomfortable.

The Return of the God of War [The Protector] Chapter 1975

Could it be that something happened to him?” Levi Garrison thought for the first time that something might happen to half a fairy and half a ghost.

He didn’t expect it to be himself.

The flustered feeling hit him, making him restless.

“Huh? What are you doing?”

Levi Garrison saw He Qingxue come.

Can't help being surprised.

"I..."

He Qingxue lowered her head, not knowing what to say.

"Huh?"

Levi Garrison became more puzzled.

Is this woman sick?

"Thank you!"

He Qingxue raised her head and thanked Levi Garrison.

"Thank me?"

Levi Garrison pointed at himself with a look of surprise.

"If it weren't for you, I would have married Jimson! Hey, I used to treat this marriage as a deal! I agreed to marry him, just want to enter the laboratory of the gods!"

He Qingxue told the truth.

Levi Garrison touched his nose: "Laboratory of the Gods? So attractive?"

Although the Western Heavenly King had already found the Laboratory of the Gods, there was very little information.

Levi Garrison wanted to learn more from other people.

“Yes! The Lab of the Gods claims to control the most mysterious things in the world! They are on top of this world! Just join, they are definitely the top existence!”

“They have the top technology and the most complete. He Qingxue’s cultivation system has the most abundant resources, and even the world’s various ancient bloodline creatures. They can also be cloned and copied for humans...”

He Qingxue opened the conversation with him when he talked about the Lab of the Gods. Non-stop.

It just so happens that the major companies of Golden Harbor Island and War Eagle Nation are closely related, and they know a little bit about the Lab of the Gods than other places.

Levi Garrison was shocked.

The Lab of the Gods is indeed powerful.

It can be seen from a Richard alone.

He is definitely not high in the laboratory of the gods, just a middle-lower rank.

At best, it is representative of all God’s laboratory is doing dirty work outside.

Such a small person is so difficult to deal with.

It's hard to imagine how powerful the Lab of the Gods is... When

dealing with the Eagle Nation, all the masters encountered are basically produced by the Lab of the Gods.

The fighters they built with modern technology and genetic technology are even comparable to Eastern fighters.

This in itself is incredible!

Even Levi Garrison felt that the covenant of the gods that restricted the supreme-level powers back then came from the laboratory of the gods.

They are like gods aloft, dominating everything.

But no matter how powerful or mysterious he is, Levi Garrison is not afraid.

Even overturn them!

Offending and provoking Erudia, he couldn't let it go.

He and the Lab of the Gods will have to meet each other sooner or later. Before that, just understand more.

Levi Garrison asked: "Is there anything specific about the Lab of the Gods?"

"The specific thing is that the Lab of the Gods has observation bases in all corners of the world. There are in Jingang Island, and it is said that there are also in Erudia!"

He Qingxue replied.

Levi Garrison nodded: "Terror, their scope is all over the world!"

This incident chilled the back.

You didn't even figure out who the enemy was.

But the enemy's knife is already on his neck, and what's more terrifying is that you still can't see the knife.

"By the way, my grandfather said that the Lab of the Gods is also searching for various relics and various rare resources

all over the world!" "Some time ago, what they found in various places in Erudia, took advantage of the chaos and sent people. Come and get it!"

"It is said that the things taken away are a qualitative leap for them!"

...

Hearing this, Levi Garrison's face changed drastically.

Isn't this what I have been investigating?

The Western Heavenly King checked the news for a long time, but he didn't expect He Qingxue to know directly.

It seems that the family of gambling kings who have been in contact with Heishui Company for a long time are well informed.

“What did they find taking away in Erudia?”

Levi Garrison asked curiously.
