

The Return of the God of War [The Protector] Chapter 2086

Send SS !” Richard gave an order, and the four strong men rushed forward.

These four singles are no weaker than the destroyer.

Although the Destroyer was the only one who succeeded in the God Creation Project, it was thirty years ago.

In the past thirty years, the development of the Lab of the Gods has not known what level it has increased.

So the Destroyer is not the strongest in the Lab of the Gods, just a card.

The four powerhouses shot together.

Sure enough, this time Zoeying is not so easy.

Before the strong men encountered Zoey, they were almost always killed in seconds.

But this time the four masters instantly locked Zoey.

The two sides began to blast.

The nature of these superpowers is similar to that of Zoey becoming a strong one.

The methods of using power for both sides are also very similar.

It's just that who is stronger than whoever is faster, and who reacts faster.

Therefore, Zoey is not so easy to deal with these four masters.

It's hard to get rid of it for a while, it's hard to kill it.

And Zoey lacks actual combat experience.

It's okay to deal with one person alone.

When the four people go together, her shortcomings are exposed.

.....

Now all the shortcomings of Zoey have been exposed.

First, lack of experience!

Second, the means of attack and defense are still limited!

Third, I still can't use all my power!

...The

shortcomings are increasing.

But Zoey's combat power is still super strong!

Although the four masters entangled Zoey, they were all injured to varying degrees.

If this continues, they too will die.

In a word, although Zoey has shortcomings, she is strong.

Can't attack for a long time.

Been pestered by four people all the time.

Zoey is in a hurry.

"Dead! Die to me!"

Zoey was angry, his momentum rose, and his strength increased.

Suddenly raise to another level.

...

"No, emotions can affect a person's combat effectiveness! But she has reached this point, emotions can affect her so much?"

“Unbelievable! What is going on? Her strength is directly linked to emotions. Yes?”

...

Richard’s men detected the strength of Zoey through the instrument, accompanied by a sharp rise in anger.

Presenting an impossible phenomenon.

“Boom!!!”

Zoey slammed out with a violent punch.

Half of the body exploded, blood flying all over.

“Boom!”

Another person was punched and flew away.

...

Now the four powerhouses have suffered terribly heavy losses.

The eyes of the four of them were full of shock.

They were able to entangle the Zoey just now.

Why did it suddenly become like this?

“Kill!”

Zoey continued to kill Richard, who was not far away, as if death came to the world.

The four powerhouses quickly blocked.

But now Zoey is one level higher than them.

The four were beaten out again.

Can't stop it at all!

“Go, stop her! Don't let her come here!”

Richard ordered again.

The rest of the ss-level powerhouses all come to stop Zoey.

Richard had a sullen face.

Originally, he wanted to use these SS-level powerhouses to kill Zoey.

No other trump cards and big moves are needed.

Unexpectedly, this level of strong

Only Zoey and ten robots were left.

Although the combat effectiveness of the robot is amazing, for Zoey, it is simply not worth mentioning.

They can only delay Zoeying temporarily.

In the robot's setting program, the plum can be dragged to dye for one minute.

This is enough.

Richard and the others have fled to a safe area.

"God's scepter weapon system is ready, the countdown to launch!"

"Three!"

"Two!"

"One!"

...

“Boom...”

Suddenly there was a thunderous roar from the sky, which was more terrifying than the thunder. .

That posture will tear this day apart!

In the depths of the vast and vast space, suddenly a beam of light came, and the sky fell!

This beam of light seems to be God’s punishment, shattering everything and destroying the world.

Where does the light beam come from?

satellite!

The satellite group launched by the laboratory of the gods!

Use the super laser launched from the satellite to accurately destroy and strike.

The Lab of the Gods claims to have the most powerful technology on the planet and has long been deployed in space.

Satellites and space stations are all essential.

And their proud super weapon-the scepter of God.

It is actually a satellite launch.

The scary thing is the attack range of God's scepter-the whole world.

Because the satellites are launched from high altitude, the satellite population is wide, so every corner of the world can be covered by the scepter of God.

In addition, the weapon of God's scepter is too destructive.

So once it is released and launched, it is world-destroying.

No matter what warrior or superpower you are, once locked by this weapon, there will be no way out.

It's just because it's too scary and too advanced.

So this weapon is the trump card of the Lab of the Gods!

Therefore, it took less than a minute to destroy the Tianzhan organization.

In an instant.

This beam has come, and the target is the area where Zoey is.

The light beam has not yet arrived, and the scorching high temperature will bake this piece of heaven and earth into crimson red.

The terrible high temperature even dissolved the remaining robots on the spot.

You must know that the robots produced by the Gods Lab are all aerospace-grade materials and are resistant to high temperatures.

But it still couldn't stop the high temperature before the beam came, and it dissolved directly on the spot.

I have to say that Zoey's physique has reached the level of guarding the sky.

The machines of this kind of material were dissolved on the spot, but she looked like a okay person.

"Boom!" The

beam was about to arrive, and the earth began to tremble, making a rumbling movement.

Located in the desert, it began to collapse crazily...

"Boom!"

Finally, the beam of light came, and it blasted towards Zoey accurately.

It seems that the process is slow, but it is actually instantaneous.

Zoey had no chance to escape.

"Chiff!"

As the center point, Zoey was hit by the beam precisely.

“Kacha...”

This area was forcibly blasted out of a small pit the size of a small town, and mushroom clouds rose up, covering the sky and the sun.

The ground vein trend in this area was completely destroyed.

The area involved is hundreds of miles...

like a meteor from the sky.

Wei Li Jian

“Yeah! We won! Zoey will die!”

“A mortal body, can bear the scepter of God? It’s ridiculous!”

...

Richard’s men cheered when Zoey disappeared.

They have enigmatic confidence in the scepter of God.

“No one can force the scepter of God to survive!”

Richard smiled triumphantly.

If it had been used earlier at the border of the War Eagle Nation, Levi Garrison would have died long ago.

But Richard did not regret not using the Scepter of God.

If it were used, his brother would be dead.

It's not too late now.

Killing such a powerful plum does not lose money.

...

The secret bases in Erudia have exploded.

“What kind of weapon? Have you detected it? This power is too terrifying, right?” The

bear country, the major countries and the major forces all detected the use of God's scepter weapons for the first time.

The amazing power scared everyone.

“What? Zoey was directly beaten???? How is this possible?”

Tiance Mansion and other forces received the news for the first time.

The Zoey is gone?

The masters of Tiance Mansion sent out all stopped one after another.

Zoey is dead, what's the point of them going?

“What? Dead?”

Wen Lei and Mia (Zhou Nanyan) were going crazy.

“I don't believe it, if I don't see it with my own eyes, I don't believe it!”

... the

mushroom cloud skyrocketed, and the scene was still full of smoke.

Richard led his troops to the court.

He is still an idea, to see the corpse in death.

Otherwise he is not at ease.

“Find me! Test me!”

Richard ordered a search for Zoey’s body.

“Dididi...” At

this time, the detector sounded an alarm.

“Alert! What a strong energy fluctuation! Zoey is not dead yet, she is still alive! She is still alive!”

someone exclaimed.

At this time, everyone became vigilant and stared at the pit.

“Boom!”

Richard’s men forcibly dissipated the dense smoke, revealing the appearance of a huge pit.

The deep pit is hundreds of meters long, and the deepest point is estimated to be hundreds of meters.

The beam penetrating ability of God’s scepter weapon is too strong.

But they were suddenly dumbfounded.

Because Zoey is still alive.

Although she was covered in blood, there were wounds in her body.

She suffered a very serious injury.

But she abruptly carried the scepter of God and didn't die.

However, this light beam penetrated her body and destroyed her body structure to the greatest extent.

Had it not been for Zoey's body modification in the experimental accident, he would have surpassed the limits of the human body.

Otherwise it is absolutely impossible to live!

Richard and others present were stunned.

Is there really someone who can force the scepter of God to survive?

"We still underestimated her physical strength! Let's put it this way, her physique is about to approach a pure energy body!"

Richard suddenly showed a sneer, "Unfortunately she is still seriously injured! She is already at the end of the crossbow!"

"Yes! The energy in her body is rapidly draining! If the energy in her body is drained, she will die!"

Richard's men have been detected.

“Well, let’s give her a ride!”

Richard sneered.

Richard waved his hand, and the strong around him immediately swarmed.

“You too!”

Richard pointed at two people, these two are sss-level powerhouses.

The Return of the God of War [The Protector] Chapter 2089

Zoey has already felt the rapid loss of body energy, and her recovery speed can’t keep up.

She can’t even open her eyes now.

She has the heart, but is powerless.

She doesn’t want to die, she still misses Levilia and her family.

But she couldn’t help it.

She underestimated Richard, she underestimated the Lab of the Gods.

She was not strong enough to fight against this behemoth and avenge Levi Garrison.

“What about Mr. Richard? Kill her or catch her back? If we catch her back, we can do a lot of articles! Turn her into our person...”

Li Shiji smiled sinisterly.

However, Richard shook his head directly, "No need, just kill! She is the same as Levi Garrison, she can't stay, once there are too many variables! On the contrary, it is a threat to us!"

Levi Garrison has brought too many failures to Richard .

Let him understand that some people must be killed as soon as possible.

Can't give a chance at all!

Richard glanced at Zoey, "Kill!!!"

A person next to him stepped forward, and the energy gathered on his right arm. This punch would surely make Zoey dead.

Only when there is no bone left, Richard will be relieved.

"Meet Levi Garrison in hell!"

The energy gathered on the power person's right arm, almost transparent.

He fisted fiercely...

"Boom!" At

the moment of the first shot, suddenly a powerful shot came from a distance.

“Sneez!”

This Qi Jin directly tore the right arm of this superpower’s energy gathering.

“what!!!”

The man let out a scream, and his right arm fell directly.

“No one is good!”

Richard and his men were alert, shouting loudly.

“Kill her! Kill her quickly!”

Richard shouted immediately, afraid that things might change.

Everyone shot to Zoey one after another.

“Puff!”

“Puff!”

“Puff!”

... But

any expert approaching Zoey would either explode his arms or legs, and explode his head directly.

No one can get close to one meter away from plums.

This seems to be a restricted area.

Zoey was shocked by the movement, she opened her eyes hard and looked around.

Richard and his men also looked around.

But no one at all.

This is strange.

“Is it a master of the Great Summer Policy House???”

This was Richard’s first reaction.

But he has already prepared a countermeasure for Tiance Mansion.

After all, Xiong Country is too close to Erudia.

If Tiance Mansion or Erudia Master wants to act, they will arrive soon.

How could a man who is so cautious as Richard ignore this.

He had already contacted Huoyun Cthulhu before the action.

The Huoyun Cthulhu had already agreed, staring at Tiance Mansion and Erudia's other masters.

As soon as there is a turmoil, it will be notified immediately.

Not long ago, there was news from the Black Sun of the evil god of Fire Cloud, telling the exact distance between the support masters of Tiance Mansion and Wen Lei.

It can't be reached in a short time.

So who will it be?

"Kill Zoey first!"

Richard knew that someone was coming to rescue, so he would never let Zoey live.

Several SS-level masters killed Zoey one after another.

The Return of the God of War [The Protector] Chapter 2090

The name of the person, the shadow of the tree.

When these three words came out, it was like a bolt from the blue.

“Boom

boom boom ...” The soul that bombarded everyone was not possessed , and the body was about to explode.

Levi Garrison? ? ?

A familiar and terrifying name!

The existence that was previously listed as the number one threat by the Gods Lab!

Mention this critical moment, everyone is going to collapse.

Richard didn't know what was going on. He was soaked in cold sweat and almost incontinent.

The whole person's brain is blank, and it is entirely a subconscious reaction.

Others are basically the same.

After Zoey heard these three words, her whole body trembled, and she seemed to regain strength, who was dying.

... The

sudden three words caused a huge panic.

The mental blow is no less powerful than the power of the scepter of God.

But, no.

Levi Garrison was dead.

Almost the whole world watched his body dissolved.

Richard was sure again and again for such a cautious person, and even his wife ran for revenge.

How could he still be alive?

Richard laughed suddenly, "You said you are Levi Garrison?"

He never expected that someone was stupid enough to pretend to be Levi Garrison?

Levi Garrison himself?

That is impossible!

I was afraid that the other party wanted to pretend to be Levi Garrison and act as a fright in his name.

I have to admit that the moment just now really worked.

Everyone was suppressed.

Including himself!

But how could it be possible to completely scare yourself with the name of a dead person?

“Of course!”

the man at the top replied.

“Hahaha... I really didn't expect someone to pretend to be Levi Garrison! Levi Garrison has no bones left, and he can't die anymore!”

“My friend, your trick is seen through by me, you are not Levi Garrison!”

Richard laughed.

The man smiled, “Who said I was dead? Didn't I live well?”

“Huh?” The

sober-minded Richard was taken aback.

He started to think.

Is there a possibility-Levi Garrison is still alive?

At this moment, his brain is running fast, and he has already thought about everything he should think about.

From the perspective of his knowledge, including the technology and secrets of the Gods Laboratory, Levi Garrison would never be alive.

Unless he is detached from humanity.

But it's impossible!

Others were also wondering if Levi Garrison was alive.

But after thinking about it carefully, Levi Garrison couldn't live.

"Who are you? You are not from Erudia, are you the one who has been against me lately?"

Richard asked.

"Guess what?"

the man sneered.

"I think it is! I met today, don't want to leave!"

Richard looked angry.

“Goodbye!”

But the man on the top of the aircraft waved goodbye.

Instantly disappeared from everyone’s eyes.

“Huh? Gone?”

“No, Zoey!”

Richard exclaimed.

As soon as Richard reminded, everyone looked back.

Where is the shadow of Zoey?

Gone long ago.

The mysterious person just appeared suddenly and said Levi Garrison’s name, which attracted everyone
