

The Return of the God of War [The Protector] Chapter 2276

A solution must be found to prevent Levi from dying.

They give everything they can to protect Levi Garrison.

Everyone looked at each other and determined the next task.

“But everyone must first make sure-the matter of keeping the boss alive has not been resolved, or it is difficult!

But we can delay the onset of the boss’s injury and buy more time to find a solution!”

Azure Dragon (Qinglong)) has a clear mind ! , Very rational analysis.

Others agreed.

“Okay, let’s do this! First delay the onset of the boss’s injury! This is not difficult! Then find a solution!”

Everyone agreed.

...

The people in the dark laughed.

“Impossible! It’s a wishful thinking! Because until now, no one except Maya Industry knows what this substance is...”

“Want to find a solution? Absolutely impossible!”

... But at

this moment Levi Garrison suddenly made a move. Waved his hand, “No! I’m fine! This injury can’t hurt me!”

“No, Master, we are talking about the special element on this knife...”

Before Xiao Feng finished speaking, he was interrupted by Levi Garrison. “I know. This little thing can’t hurt me, and it doesn’t even hurt me at all!”

Levi Garrison didn’t joking.

With his current physique, he didn’t even know what level he had reached.

In the past three years, his strength has reached a position above the gods.

A punch casually is the ultimate speed and strength.

But to pursue the ultimate speed and strength, can ordinary physique work?

can not!

Three years ago, Levi Garrison’s physique couldn’t bear such a punch.

It is estimated that his body exploded at the moment when the power was gathered, and he couldn't bear it at all.

Because Levi Garrison's physique became super powerful in the process of pursuing ultimate strength and speed.

It can even be said that there is no fear of everything!

The knife stabbed on the body and did not harm Levi Garrison in the slightest.

The weapons of the Maya Industry could not cause any harm at all, and were dispelled after entering the body, and even said that they could not penetrate at all.

Still want to corrode?

Less likely!

Levi Garrison's physique was too strong to imagine, and it was definitely not something special elements could corrode.

So Levi Garrison is nothing at all!

It's just that they don't understand at all.

"Master, don't hold on to it! You are all your own, so don't pretend! You are already very seriously injured and dying! You have to pretend to be indifferent!"

Xiao Feng couldn't help directly. .

Others hurriedly said, "Yes, there are no outsiders now! Don't hold on! We know that in your heart you represent Erudia, you must not fall, you must not show comfort!"

"But now No outsiders are gone, they are all your own! Your brother, your apprentice, your family! You don't have to face us with a strong side!"

"You don't have to pretend, there are really no outsiders! The people lurking around are all driven away!"

...

Kirin (Kirin (Qilin)) and the others deliberately drove away the people lurking around one by one.

They always thought that Levi Garrison was bracing and pretending!

But Levi Garrison didn't have it at all!

He's okay!

Levi Garrison was helpless.

The Huoyun Cthulhu on the side couldn't stand it anymore, he couldn't help but said, "Okay, okay, to be honest, sir, there is nothing wrong with it! You don't need to use your medicine at all! You don't need to find a solution, what should you do? Why go!"

Hearing the words of Huoyun Cthulhu, everyone was angry.

“You don’t know how much damage this knife has done, let

alone the changes in this era! You should be with...” Someone excitedly wanted to talk about Huoyun Cthulhu and Levi Garrison, but realized that he had missed it. Levi Garrison sneered, “You still want to say that this era has eliminated me, right?”
