

The Return of the God of War [The Protector] Chapter 2278

Now the Dark God is the existence of the ceiling of combat power in this era.

It is rumored that he wiped out the Lab of the Gods!

This is also the biggest force to be wiped out in the new era!

Also the strongest battle!

therefore!

Dark God ranks first in the list of gods!

Therefore, when Levi Garrison mentioned that it was a dark God conspiracy before, it attracted strong rebuttal and dissatisfaction from many people.

Because the Dark God is number one on the list of gods, in this age where the power is respected, the Dark God is just like faith in many people's minds.

No one is allowed to say that he is not good at all.

But for Levi Garrison and Huoyun Cthulhu, is the number one in the god list a fart?

What is the God of Darkness?

“Okay! Sir, do you need me to go with you?”

Huo Yun Cthulhu asked.

“You’d better retreat and improve your cultivation as soon as possible!”

Levi Garrison said.

Huo Yun Cthulhu asked, “How does the gentleman find the place of the Dark God?”

Levi Garrison smiled, “Don’t look for it! He will come to look for it!”

Levi Garrison changed into new clothes and covered his “scars”.

In fact, the scars have completely healed.

After seeing it, Zoey subconsciously said, “Kunlun Industry’s medicine is really amazing! I’ve heard of it before! I didn’t expect the wounds to heal in such a short time!”

Seeing the wounds healed, she didn’t feel strange, but thought that It is the medicine of Kunlun Industry.

In the past three years, Kunlun Industry’s pharmaceuticals are particularly well-known and are among the top in the world.

It’s not just Zoey who thinks this way, others think the same way when they see it.

Including mother Emma, father-in-law and mother-in-law, etc.

But their eyes are a bit complicated.

The king of the past is worth one million.

But in this era when you can practice martial arts with your full name, one is completely useless, and one day is short, and he will slowly die.

The world is impermanent, good luck makes people.

However, several elders could only sigh, "This is also good, you should rest too!"

Levi Garrison pulled Zoey back to the room.

"Wife, do you want to practice martial arts again?"

Levi Garrison asked.

"Impossible! I'm already a useless person!"

Zoey was hopeless.

"I happen to have a repair method here and the exercises you will practice in the future, so I promise to get you back to the top!"

Levi Garrison excitedly gave Zoey the methods and exercises.

But after Levi Garrison left, Zoey threw it on the bedside.

She thought the same as everyone else. In this era, everything about Levi Garrison was eliminated.

No more practice!

On an uninhabited island in Western Continent, there is a huge base.

There are no living creatures in the sea a hundred miles around...

The Dark God of the Bible Organization is here.

Knowing that Levi Garrison chose this way, God of Darkness expressed relief at first.

As long as it is not opened by Levi Garrison.

But that night, the Dark God tossed and turned, unable to sleep at all.

He desperately wanted to know who had released Levi Garrison.

Soon, the dark god gathered all the people together.

The Dark God expressed his thoughts, "I want to know how he came out? Who helped him! Who else in this world can break the dark cage?"

“I can’t think of who it is at the moment! Someone is possible! He is the inventor of the dark cage , He might have a key to open! But he is dead! I can’t figure out who it is!” The

Dark God is a little impatient now.

“This is easy to handle, don’t you know if you catch him and ask?” At

this time, Underworld God paid attention.

Dark God’s eyes lit up fiercely, “Yeah, you’ll know by catching Levi Garrison back and asking!” The

Dark God was mainly dazzled.

I didn’t expect it for a while. “Go! Hurry up and get Levi Garrison back from me! There are many people seeking revenge on him! Don’t die!”
