

The Return of the God of War [The Protector] Chapter 2304

Closed for twenty-four hours.

Levi Garrison could not survive.

This is the truth.

Li Chengmin didn't speak anymore... But

when the person who was locked in the iron cage with disheveled hair heard the news, it seemed that his eyes became much darker.

It seemed that Levi Garrison's death hit him hard.

"Who is this person?"

Li Chengmin asked.

She also noticed the change in this person.

"Traitor

Li Shiji!" Li Chengmin's father said.

"Ah? It's him!"

Li Chengmin was surprised.

It turned out to be Lee Seki who followed Richard in the Lab of the Gods!

However, after Li Shiji was killed, he also stayed in the laboratory of the gods.

But later the Lab of the Gods disappeared, and he had nowhere to go, so he could only return to the Sanxing Group.

The Sanxing Group, which has already cooperated with Maya Industry, treated him as a traitor and directly locked up and tortured him.

Lee Seki hasn't moved around all the time.

Until he saw Levi Garrison, he went crazy before, and was finally stunned by the high-voltage current.

I guess Li Shiji has something to talk to Levi Garrison.

But now there is no chance.

“Hey!”

Li Chengmin was also desperate.

Levi Garrison couldn't be alive anymore.

But she won't be dead or alive this time. She wants to survive, she wants revenge, and also prevents Sanxing Group's brutal experiments.

...

Soon after, someone in Maya Industry was asking about the progress of the experiment, and it was necessary for Sanxing Group to send in the data of the latest batch of experimenters.

"Sorry we are..."

Sanxing Group told Maya Industry about Levi Garrison.

"Okay, very good! This method is good!"

Maya Industry also strongly agreed.

...

Time passed by every minute and every second.

Levi Garrison has used the method of the poisonous god sect to extract the medicinal substance from the blood.

He wants to take it back to study!

The handsome man of Tiance Mansion?

interesting!

But what Levi Garrison was more concerned about was where the Gods' Laboratory had gone... I

guess the Tianji Pavilion of Tiance Mansion might know it.

He wants to go back and inquire later.

Thinking about it, Levi Garrison fell asleep.

Sun and moon rotation.

Soon it was bright, and the twenty-four hours was about to come.

Everyone from the Sanxing Group came outside the metal fort and waited.

"No, Levi Garrison obviously has no bones, even the bones are scum! Why are we all running so excited?"

"Yes! Levi Garrison will not be left, we will not see anything. Arrived! Why are you still so interested? All gathered early in the morning?"

... After

someone asked this question, everyone was stunned.

That's right!

Can't see anything?

Why do you want to come?

And all know the result, Levi Garrison will undoubtedly die!

"That's because too heavy leaf monarchs in position in our hearts! He is the enemy of our country star, but also the Sanko Group's enemy! He died of natural importance!"

"Unqualified even see a little residue is also very excited Yes!"

...

someone explained.

Everyone is indeed in this way.

"Okay! Now

let's open the device!" "Kakka..."

Soon the various experimental devices of the metal fortress all opened one by one.

“Look at what’s going on?”

someone shouted.

“According to the markings on these mutant monsters, they are grouped together at the west gate! Almost, no, they are all here! All the mutant monsters are gathered here!”

“Presumably Levi Garrison died here too!”

“Open the west gate. Be careful, and be prepared to close at any time!”

...

Hundreds of people from Sanxing Group gathered at the west gate, and they wanted to look at the conditions inside.

They don’t even know what they are expecting...

“Boom...” The

metal gate to the west opened slowly.

“Oh...”

A pungent bloody smell came.

Everyone almost vomited.

The door was completely opened, and everyone suddenly saw a figure standing in front of it. Behind him, the bones become a mountain...
