

The Return of the God of War [The Protector] Chapter 2402

Azure Dragon (Qinglong) immediately said, “Asura God of War, my boss is definitely not such a person! He said that, there must be his reason! I decided to trust the boss once! I will not practice! I give up!”

Azure Dragon (Qinglong) said, everyone was stunned. NS.

Azure Dragon (Qinglong) unexpectedly gave up.

He chose to believe in Levi Garrison at the last moment.

Although this is Levi Garrison, his boss.

But this requires a lot of courage!

It is difficult to give up your own practice!

Seeing Azure Dragon (Qinglong)’s main mindset, Zhuque and Kirin (Qilin) also subconsciously expressed their views, choosing to believe in Levi Garrison and abandoning their own techniques.

Azure Dragon (Qinglong) stopped them at this time.

And secretly winked at them.

“Everyone must follow your inner thoughts! Don’t follow blindly! The boss believes him! But you have to make a decision based on the actual situation...”

Azure Dragon (Qinglong)’s words, everyone understood the meaning.

In fact, Azure Dragon (Qinglong) didn't believe Levi Garrison's words very much.

He has the same idea as everyone.

People who believe in Levi Garrison don't believe in this matter of exercises.

Because there is no basis!

But now the boss begged them to give up.

Azure Dragon (Qinglong)'s IQ was very high, so he naturally didn't want Levi Garrison to be embarrassed.

So he stood up and took the initiative on Levi Garrison's side, unconditionally trusting him, and willing to give up the practice.

In fact, he didn't want to!

But in order to alleviate the situation, not to embarrass Levi Garrison and not to embarrass everyone.

So he chose to sacrifice himself to save everyone!

He can give up the exercises without practicing, or even become an ordinary person.

But other people continue to practice, don't give up!

I have to say that Azure Dragon (Qinglong)'s trick is very good.

Save everyone!

It won't make Levi Garrison feel embarrassed and lonely, and it won't make everyone feel embarrassed.

A fearless spirit!

Everyone cast their appreciative glances at Azure Dragon (Qinglong) one after another.

Really deserves to be the big brother!

Although Azure Dragon (Qinglong) is not the strongest among everyone, it is the one with the most control and leadership qualities.

He is making decisions on all matters!

“Boss, it's not that we don't believe you, but you have no basis! Azure Dragon (Qinglong) is on your side now! We can see, what problems do we have when we continue to practice?”

Kirin (Qilin) said one by one.

They will continue to practice the exercises.

See if there is a problem like Levi Garrison said, it will encounter backlash and go to extinction.

The Commoner Killing God also stood up, “Mr. Ye, you have pointed me! I can be regarded as an old world! But I really can’t find the problem, your statement really has no basis!”

But Zhenger eight classics believe that Levi Garrison also has it. .

Wen Lei and Mia stood up at this time.

“We trust our brother unconditionally! We give up and don’t practice!”

The two people didn’t have as many ideas as Azure Dragon (Qinglong).

Just simply believe in Levi Garrison.

I believed in Levi Garrison before.

I still believe in Levi Garrison!

Levi Garrison felt more relieved when he saw this.

He also understood Azure Dragon (Qinglong)’s thoughts...

but he didn’t want to watch his brothers, his apprentices were going to perish! ! !

What if he can’t control it and save them?

This is something he doesn't want to see.

No one in the room can die!

But now they don't listen to them, and they can't force them to do it.

"Let's do it! Does Kunlun Industry have a large-scale laboratory? You can convert various exercises into data and analyze them in a unified way! See if it is harmful? Just look at what I said."

Levi Garrison Made a suggestion.

Maya Industry can do it.

As long as Kunlun Industry does it, it can be researched out.

"Is this really okay?"

Azure Dragon (Qinglong) asked.

"Yes! Collect everyone's exercises and convert them into data!"

Levi Garrison said. "no!!!"
