# The Return of the God of War [The Protector] Chapter 2480

All the others looked over.

I desperately want to know what happened, what is it that even a few ancestors can't cope with it, so hurt like this?

Especially this powerful breath, golden blood stains, and a series of traces, all revealing mystery.

No one wants to know.

They were considered to have seen the power of "God", and when they were about to enter, a powerful force swept across.

The people who hurt nearly half of them…

 "They call themselves gods! They are the most powerful race we have ever seen! Including Erudiaa's super ancients, it can't be compared! We seldom suffer from people in this life. We ate this time. A big loss, and almost died!" The

female ancestor sighed.

"What??? So strong?"

Everyone was going crazy.

Even the ancestors of Tiance Mansion and Baolong clan said that they were the strongest, and everyone knew what it meant.

"God?"

Everyone was shocked when the title came out!

It's a lot like God.

But it was the first time I met someone who claimed to be a god.

How powerful this is!

Levilia also said, "If you take one out alone, it may sweep the gods list! Let alone hundreds!"

"Then how did you get out of trouble? How did the master do it?"

Hearing this, Zoey was also a little skeptical. .

Can the Dark God alone deal with it?

"Okay, don't ask more! Knowing too much is not good for you! This is the end! No one can talk about it anymore!"

"Moreover, we must not pass on the injured thing!" The

grandfather's ancestor strictly forbids it, and is present. No one can reveal too much about this matter.

Fortunately, it was Azure Dragon (Qinglong), Xiao Feng and the others who were infected with Zoey.

They are all their own, and it is easy to keep secrets.

Eventually everyone left from here.

There is no danger along the way.

After coming to the outside world, the army was amazed.

They are all wondering what happened.

After taking the secret medicine specially made by Tiance Mansion and Baolong clan, several ancestors and Levilia have almost recovered.

It's not like someone who has been injured at all!

The most incredible thing is Maya Industry…

"How is it possible? How could they come out alive after they broke in? Still safe and sound?"

Especially the several high-levels are even more incredible.

This is forbidden area No. 76.

Even the Lab of the Gods is scared.

In the end what happened?

Levilia and several ancestors did not continue to practice, but returned to Tiance Mansion.

They had to tell Tiance Mansion about such a big thing.

Levilia followed his mother back to Jiangbei.

"Levilia, wait a minute… I'll see if your father is there."

Zoey did not let Levilia enter the villa immediately.

now.

In the villa in Jiangbei.

Levi Garrison is studying the major artifacts of the gods.

Zoey and his party walked in.

"Levilia has an accident, can you still be able to stay?"

Zoey scolded.

Originally Levilia was rescued, and she was still in a good mood.

But after coming in, I saw Levi Garrison not talking, still playing with objects leisurely.

Her fire slammed up!

It's maddening!

"Levi Garrison, what do you mean? Your daughter is in dire straits! Her life and death are unknown! You can't find

it anywhere? You are playing leisurely here?" "Are you still not a human? Do you treat Levilia as your daughter? Is it your own flesh and blood?"

Zoey ran away on the spot.

Others also echoed, "Levi Garrison is too much, you are too much! It turns out that everything you said before was pretending! Did you pretend to go to Levilia? The result?"

"Oh, I see! You are Levilia not want to die? so no children, you will be able to marry a logical day government policy little princess? " "

Ye monarchs you really too vicious, right? this insidious strokes are absurd? Do you want early Let Levilia die?"

… After

someone said this, Zoey's body trembled violently.

Looking at Levi Garrison incredulously.

If what they said was true…

Then Levi Garrison was really ruthless to the extreme… But

what he did in front of him, wouldn't it be obvious?
