

# Chapter: 3018

How can you treat your benefactor like that?

Isn't it right to say thank you?

Also blame the benefactor for bad intentions!

Abruptly to other issues!

Only now did I know that it was the benefactor!

Just know to cherish it!

regret!

Just so sorry!

They're going crazy!

You can't blame Ye Junlin for all this, just blame them for being cheap!

Are you saying you can escape without anyone?

Now the scene is reproduced!

See how you escaped from the clutches of the Black Sky Alliance?

“Come on, grab it!”

The people of the Black Sky Alliance started to grab the treasures from them.

After a while, the treasures on everyone's body were cleaned up.

“The rest is to divide them! Hehe...”

Everyone looked at the crowd with terrifying smiles.

Sui Qingqing and the others were all frightened.

One by one panicked.

Regret to the extreme!

If they were given another chance, they would definitely say thank you to Ye Junlin.

wrong!

He should kneel down and kowtow a hundred times to repay him for saving his life!

But where in the world is there any regret medicine?

At this time, I saw a burly man about two meters tall.

He even led seven or eight wolves to the field.

After these eight wolves were affected by the spiritual energy, they became bigger and more terrifying.

“Then these will belong to my babies!”

The burly man looked at Fan Yunpeng and the others and smiled.

The eight mutated wolves he was holding in his hand couldn't hold back the smell of blood.

Roaring wildly at Fan Yunpeng and the others...

“what!!!”

“Save us?”

“We were wrong...”

Fan Yunpeng and the others were struggling frantically.

It's just no use calling anyone now!

Regret is of no use!

They were praying that someone would come down from the sky to save them!

But impossible!

The only thing that fell from the sky was the mutant wolf that had been hungry for three days.

After the burly man let go, the eight mutant wolves rushed towards Fan Yunpeng and the other five.

“Bang bang bang...”

“Ah ah ah...”

At first they could still struggle, and then there were bursts of screams.

The strength of these mutant wolves is too powerful.

Even if they are not injured, they are unable to deal with their strength at their peak, not to mention that they are injured like this.

Soon they became food, from head to toe.

Even the bones, these wolves, will not let go.

Sui Qingqing and Xi Mengxiang witnessed everything from the side—the shocking picture of their companions being eaten up by the wolves, and there was nothing left.

They were going to be terrified.

The body can't stop shaking!

The cold sweat also kept coming.

They're all going to be stupid!

So sorry!

The two of them cried directly.

Cry so much that it rains!

The figure of Ye Junlin was all in his mind.

What's up with an apology and a thank you?

Just move your mouth!

What if Ye Junlin wanted them?

Wouldn't it be nice to have a relationship with a superpower?

...

Seeing their companions like this, they all cried.

“They are ours!”

Everyone in the Black Sky Alliance saw Sui Qingqing's two stunners, and they were all crazy.

Pick up the two and go...

Next, their fate is even worse than Fan Yunpeng and the others!

In the end, the two of them had to die, and they were tortured to death, both physically and mentally!

Fan Yunpeng and the others at least died quickly without much pain!

But Sui Qingqing and the two will be miserable next.

The two struggled desperately, but no one would come to save them.

The people who saved them were forcibly turned into enemies by them!

“Hahaha, it's delivered to the door, what are you struggling with???”

“Ha ha ha ha.....”

Everyone in the Black Sky League burst into laughter.

Not bad!

There are so many treasures from heaven and earth, and there are two beauties.

Seeing that everything was over, Ye Junlin also left.

“It turns out that God will not hack them to death! You are lying!”
