

# Chapter: 3021

This ghostly figure finally approached the location of Junjun's ice bed...

Ye Junlin, who had been exploring all night, came back the next day.

The first time he went to see Junjun.

But after arriving at the residence, I saw that the ice bed shattered.

torn apart.

Although it doesn't melt.

But it was violently shattered...

Junjun fell to the ground.

After the freeze was over, the strongest poison had already struck.

This attack is worse than ever.

Junjun even has traces of dryness.

He was obviously a child, but silver hair appeared on his head.

The whole person is even more dead.

Ye Junlin was anxious.

He quickly picked up Junjun and forcibly suppressed the poison.

Rao was him, and it took a long time to suppress the poison.

But Ye Junlin knew that the next attack of the poison would be stronger than the next.

This means that it is more and more difficult for him to suppress.

Especially when there is no ice bed.

Temporarily unable to freeze the toxin, then the attack will become the norm.

If not treated in time, Junjun is really dangerous.

"Yan Zangsheng!!!"

Ye Junlin clenched his fists tightly.

This guy can obviously detoxify Junjun, but he can't!

Urgent.

He can really tie this kid!

And who the fuck ruined the ice bed? ??

Did that god kill him?

"Did it deliberately target me Ye Junlin? Deliberately not let my daughter detoxify!?"

"Don't be sneaky if you have the ability, come here if you have the ability!!!"

"Don't let me find you! Otherwise, I will definitely cut you into pieces!"

"Wait, I will definitely catch you out! I swear by Ye Junlin! I must avenge today's revenge!"

...

Ye Junlin guessed that there was a high probability of destroying the ice bed and that it was a group of people who controlled Yan Zangsheng.

This is definitely another group of forces.

But the people who came to destroy the ice bed are very powerful.

Unexpectedly, the sound of overseas Chinese affairs sneaked in and destroyed the ice bed without knowing it.

If it wasn't for him running, no one would know that the ice bed was destroyed.

When Ye Junlin told everyone that the ice bed had been destroyed, everyone was stunned.

There were 80 people in total, but less than 50 of Jiao Tianyu and the others went out to work.

There must be at least thirty people guarding here.

These 30 people are all top-level experts, and someone has quietly passed them to destroy the ice bed.

And the ice bed is so hard, if it is to be destroyed, there must be some movement.

But there is not.

Absolute super expert!

"Could it be that there are such masters lurking in Daxia? I suspect it is Daxia! Judging from these two incidents, it is definitely not a force outside Daxia!"

"Teacher Ye, who did you provoke in Daxia?"

...

Everyone said.

This reminded Ye Junlin.

With such a terrifying force, who else can Daxia have?

The town magician?

He guessed that only the strong people of Zhenmo Division could ignore this group of students like this.

There are not many like this in Daxia.

After all, there is no god at all.

But if you talk about yourself, you must have a deep hatred for yourself.

Town Magic Division?

how is this possible?

That is the existence of legend.

Ye Junlin had nothing to do with them, no matter what.

Who would that be?

Someone you know?

Tiance Shenshuai and these people have that kind of strength.

He really can't think of who?

There are many people who have hatred with him, but there are absolutely no such powerful ones.

Can't imagine who it is!

No one else would have imagined such an existence!

"It can't be done like this!!!"

Ye Junlin took Junjun directly to find Yan Zangsheng.

"Yan Zangsheng confesses the people behind you! Otherwise, I will kill you! It's okay not to save my daughter, but I can't kill my daughter!"

After Ye Junlin arrived, he directly questioned Yan Zangsheng.

Fuck I don't need you to detox.

Why the fuck am I being polite to you?

Provoked, he may directly kill.
