

# Chapter: 3024

Hydra is in the base of War Bear Kingdom.

The nine heads of Hydra are together.

Nine of them are arranged from one to nine.

They are waiting for Ye Junlin's reply.

Among them, the leader sneered: "If Ye Junlin agrees, it will prove that we can deceive! In fact, he now understands that we lied to him, just to gain a hope!"

The three heads smiled: "Now that his daughter is on the brink of desperation, he will come to hope! It doesn't matter if he is deceived! It's all for the sake of her daughter!"

It's all for the sake of her daughter!"

"Guess whether Ye Junlin will agree? Knowing that we are lying to him?"

him?"

The four heads looked at everyone and asked.

"Half and half? I'm not sure!"

...

At this time, a subordinate walked in quickly and hurriedly said: "No, the nine leaders, Ye Junlin has agreed to trade with us!"

"But I have to go to Daxia to negotiate a deal! I am afraid that I will be deceived by trading in the War Bear Country!"

The big boss got up and said, "As long as he agrees! No matter where the deal is negotiated, he will be deceived!"

"Who is going to lie to Ye Junlin?"

He looked at the crowd and asked.

As a result, all the other eight leaders raised their hands.

Obviously, everyone is very interested in deceiving Ye Junlin.

Liar Ye Junlin upright and aboveboard will give everyone a sense of accomplishment.

So everyone has to go.

"No! Only three people can lead the team!"

"The third, the sixth, the eighth go! No one else can go!"

said the great leader.

"clear!"

Everyone nodded.

"Remember, go quietly! This is the secret of our separate deal with Ye Junlin! The War Bear Kingdom doesn't even know about it!"

"So we can't take the gods with us, we can go by ourselves!"

"In addition, the organization of revenge Hydra is also watching. If we go in a high profile, they will definitely assassinate them!"

The big head analyzed.

that's all.

In the end, the three leaders took more than a dozen experts of Hydra to Daxia.

In order to show loyalty to the War Bear Kingdom.

Hydra didn't use resources on themselves to create gods for themselves.

So the Hydra so far has no gods.

It all depends on the protection of the gods of the War Bear Kingdom.

But they also understand that the gods of War Bear Country protect them on the one hand, and supervise them on the other hand.

They dare not have the existence of gods.

Shortly after.

The three heads of Hydra brought more than a dozen people to a forbidden area in Daxia.

No one knew they were here.

They came to the agreed place one step ahead.

The three were discussing how to deceive Ye Junlin, and they said the prepared words over and over again.

They have already thought of the picture of Ye Junlin being deceived.

And they are upright liars.

Ye Junlin had to obediently give them everything.

What they want, Ye Junlin has to give.

For example, the antidote to your daughter's poison is in War Bear Country.

But you need to give us ten tons of aura crystals first.

Didn't Ye Junlin have to take it out obediently?

There is no way!

He is a hope!

Whether it's true or not, he has to try it.

They have arrived.

But when Ye Junlin and his party were about to come, they encountered obstacles.

It turned out that Long Wu and Long San brought a group of young people from Tiance Mansion to stop Ye Junlin.

I don't know who leaked the information, but this person from Tiancefu learned that Ye Junlin was going to trade with Hydra to send the resources out.

They came to stop.

"Ye Junlin, are you confused? People are lying to you!"

"Junior Sister Junjun's poison is from the Hydra, do you expect them to give you the antidote?"

"Impossible! Don't be fooled by them!"

"Yes, not to mention such a strong poison, they have no ability to develop an antidote!"
