

Chapter: 3032

Jiao Tianyu's mission is still to find the existence of the Zhen Mosi.

But there is always no clue.

They never seem to show up in general.

However, Ye Junlin firmly believed that the people he saw on the Antarctic glacier belonged to the Demon Squad.

Obviously they are also attracted by the aura.

Ye Junlin guessed that the environment where they existed before was rich in spiritual energy, and the world was lacking in spiritual energy, which was not suitable for them to survive.

Now that the aura is sufficient, they run out.

Ye Junlin guessed right.

There are indeed a lot of people running out of Zhen Mosi.

They searched all over the world for heaven and earth treasures and spiritual stones.

It's just that they have treasures that can hide their aura, even if Jiao Tianyu has encountered them, they won't be able to find them.

unless he comes across it himself.

This is what Ye Junlin never thought of.

Although he taught Jiao Tianyu how to distinguish these people from the Demon Suppression Division.

But they hide their breath, no doubt like ordinary people.

They don't notice it.

Doctor Dark has also found many evil ways during this time.

But Ye Junlin's first step is to do experiments on himself.

He first took the poison that had no effect on him, and then used these evil methods to detoxify to see the effect and whether there were side effects.

In this way, every day is in the experiment.

I can't find one that can really detoxify Junjun.

On the contrary, these evil methods have backlash.

Fortunately, Ye Junlin himself was able to resolve them one by one.

There may be a way the Empire will never set.

Maybe it has an effect on Junjun's poison, but the backlash is too terrible.

In the end, the human body will rot to the blood and mud, and there is no way.

It is equivalent to changing from one state to another terrible state.

But the end result is the same.

all to die!

The dark doctor also found an evil way to detoxify, but the backlash is to refine Junjun into a kind of puppet, without something with his own thoughts and consciousness.

Ye Junlin couldn't stand it either.

This is not as good as what the experts of the Sky Shield Bureau did at the beginning, which can at least retain Junjun's consciousness.

It's like the people in the Zhao family have been turned into pure energy bodies.

Apart from the fact that the body is not your own, the consciousness is still there.

Now his body is still there, but he has no consciousness and has become a puppet.

Ye Junlin could not accept either way.

He wants a healthier Junjun.

Or backlash is not so scary.

...

The parties then proceeded.

Finally, the effort pays off.

The evil evil spirit found a way—

A traitor from Daxia Miaojiang became the king of evil gu.

Miao Jiang's Gu technique was actually used to cure diseases, and only a few people used it to harm people.

But this is the king of evil Gus through and through.

Since childhood, he has refined all kinds of evil Gus and used them to harm people.

Did a lot of heinous things.

He even used living people to refine evil gu.

It is said that there are tens of thousands of living people used by him to refine the evil Gu.

He is also a big traitor of Miao Jiang!

And this king of evil gu has always been refining one of the strongest evil gu.

The biggest feature of this evil gu is to nourish the evil gu with poison.

The strongest evil gu devoured an unknown amount of highly poisonous and evil gu.

And the strongest evil Gu has been refined by him for decades.

It's now terribly strong.

Therefore, the idea of the evil god of poison is to use the strongest evil gu to deal with the poison in Junjun.

The strongest evil gu can devour all kinds of poisons.

This evil gu has become a climate, and it has long passed the point of refining gu with the blood of living people.

Now rely on all kinds of highly toxic as nutrients.

The King of Evil Gu is also frantically searching for poisons all over the world...

After the aura recovered, many highly poisonous treasures of heaven and earth were born.

The King of Evil Gu has collected quite a few.

"The poison on Junjun's body is probably the favorite of the strongest evil Gu, and it is easy to swallow it!"

After listening, Ye Junlin stood up excitedly.
