

Chapter: 3034

The first-level forbidden area is too terrifying, and the beasts inside are more terrifying than the gods.

Too many to die for.

It's not that easy to explore.

But the dangers in the forbidden area where the Evil Gu King is located are all poisons, and he can control them.

This is a once-in-a-lifetime opportunity.

Among these forces is the Black Sky Alliance.

There are still many forces that hold together, and when they gather together, they will attack the King of Evil Gus.

The justice Ling Ran said was to eliminate harm for the people and seek justice for those victims.

To save those living people who were used to refine poison Gu!

But they are all planning for themselves.

What's more, the King of Evil Gu was not the first person they jointly targeted.

They have swallowed one force after another under such a banner before.

Daxia is actually in a mess right now, and there are fights everywhere.

This kind of mutual annexation is very common.

For a piece of aura crystal, the blood was poured into rivers, and I don't know how many innocent people lost their lives.

The key point is that these murderous forces are all under the banner of justice.

In fact, they don't have these concepts of the Daxia country at all.

They appeared because of the recovery of spiritual energy, the strong spiritual energy outside, and the many treasures of heaven and earth, so they ran out one by one.

When there is a crisis in Daxia, none of them will appear.

Even play dead.

And for them, it doesn't matter to them who controls the land in Daxia.

They are indifferent to it and only care about their own interests.

This is not the case with Sui Qingqing and Heitian League that Ye Junlin met before.

Driven by profit, one by one, they killed an unknown number of people.

All are demons.

Now there are a total of eleven major forces, ready to attack the King of Evil Gu.

But they were worried they wouldn't be able to eat it in one bite.

He also specially sent a message to Tiancefu, asking Tiancefu to also send someone to annihilate the great devil, the King of Evil Gus.

They also counted that after the aura recovered, a total of 738 people were captured by them to refine Gu, and more than 400 people were killed.

After receiving this list and after request.

No matter what, the Tiance Mansion would send someone there.

It just happened that there were a lot of gods recently, and it would be better for them to go into actual combat.

It also happened to destroy the big devil, the King of Evil Gus.

In fact, the Tiance Mansion itself has this idea.

Now Daxia has internal and external troubles, especially the internal troubles that have been unable to solve, and have no ability to solve them.

Now that there are more gods, Tiance Shenshuai has long had an idea to solve it.

It just so happened that these forces jointly requested Tiancefu to send someone to destroy it.

Just starting with this, let's carry out a round of Thunder Action for internal cleanup!

And now Tiance Mansion is strong enough!

Ye Junlin's resources are sufficient, and the magician's methods are terrible.

Therefore, Daxia's current gods have risen sharply, and they have reached three digits.

Tiance Shenshuai became a god himself.

They put all the gods into a team called – Tenjinji!

The members inside are called Tenjin Guards.

This time, twenty-eight heavenly guards were dispatched at one time.

Led by Long San and Long Wu.

After all, the two people entered the divine realm first, and their strength was also stronger.

It is enough to unite these forces to destroy the King of Evil Gu.

It was the first battle since Tenjin Division was established.

Therefore, it can be regarded as a mobilization of teachers, especially in Daxia.

What's more, the old nest of the king of evil gu is a first-level forbidden area, which is just used for resource mining.

After confirming the location of the king of evil gu, the evil god of poison immediately ran to find Ye Junlin.

Just now, Ye Junlin was chatting with Qinglong.

Qinglong and the others were all selected because of their good aptitudes and became gods, and they were all incorporated into the Deity Division.

The Tenjin Division just sent a message that they have a mission.

“Location found, master!”

The evil evil spirit said.

“Okay, let's go right away!”

Ye Junlin hurriedly carried Junjun behind his back and set off with Doctor Dark and others.
