

# Chapter: 3046

According to what everyone knows, Ye Junlin lost too many resources during this time.

The first is the reward order, so many people have benefited from Ye Junlin.

The key point is that he has also been “looted” by Heilongguo, occupied by Tianqi Empire, deliberately deceived, and given so much to Daxia.

As a result, he was able to release a bounty.

Where did his resources come from?

How are the resources obtained?

Isn't this secret told to the Apocalypse Empire?

This series of questions is plaguing everyone.

And according to recent information, Ye Junlin never left Daxia at all.

His resources should be empty.

No one was brought in from abroad either.

Where did it come from?

His resources seem to be picked and digged anytime, anywhere...

It's puzzling.

The most important thing is that the War Bear Kingdom has been staring at the Apocalypse Empire?

But since the Apocalypse Empire got Ye Junlin's secret, they haven't “goed out”.

There is no action!

In the end, there is no resource to get Ye Junlin, no one knows.

As for the War Eagle Nation and the forces behind it, they don't care about it at all.

They won't worry about or wonder where Ye Junlin's resources come from.

No matter how it is a secret, it is nothing more than related to the recovery of spiritual energy, and it is related to the super spiritual veins under the Antarctic glaciers.

Unchangeable.

These are the sources!

This resource is not enough for the forces behind the War Eagle Nation.

Outsiders don't know, but in Daxia, especially those who know Ye Junlin well.

Where Ye Junlin is located, resources are piled up again.

If the aircraft of the Brain of God were used to fill it, it was estimated that it would take ten aircraft to fill it up.

And as always high quality.

Anyone who sees it will drool.

This is what Ye Junlin recently collected in the first-level forbidden area in Daxia.

The overall quality is even slightly higher than what was collected before.

Junjun, who can move now, is playing in these mountains of resources.

Of course, the location of this resource is hidden, and no one but a few people know it.

Although Ye Junlin is not afraid of being missed, he is afraid of trouble.

If this place is exposed, people will come to harass it every day.

Ye Junlin was annoyed to death.

I am afraid that thieves will miss you.

Thieves abroad are concerned, but it is difficult to implement.

The first thing to do is to enter the summer.

Daxia does not say whether there are people behind it, but the number of Tianshen guards is still increasing.

The gods appeared one by one.

Don't dare to enter the big summer, let alone go to Ye Junlin's resources.

But Daxia's thief is always thinking about it.

It is the forces of the Black Sky Alliance.

Although they have been constantly fighting, they are constantly plundering the resources of others.

But after all, it's a small fight.

With the resources that Ye Junlin has now, as long as they get a share of the pie, they don't have to kill others and rob others...

It can even be said once and for all.

Therefore, they are very envious, especially after the idea was born last time.

They have been contacting other major forces, preparing to swallow Ye Junlin's resources together.

After some contact.

There are twenty-four big forces like the Heitian League, and there are forty or fifty other small forces.

All parties added together, and now the army is strong.

You can do it to Ye Junlin.

It's just that the depressing question now is – where Ye Junlin's resources are located, and I haven't found it yet.

This is a technical job.

This place is so secretive.

They had already sent people out to look for it, but they haven't found it yet.

Just when they were in a hurry, one of the forces “Blood Hand Palace” brought a message.

“I really didn't think that Ye Junlin would put resources in this place, no wonder we have been unable to find it!”

The Palace Master of the Bloody Hand said in surprise.
