

Chapter: 3056

“No! Are you stealing the concept? We haven’t joined forces with Hydra?”

“Have you seen us go to contact Hydra? No!”

“It’s just a coincidence now, we just have the same goal as Hydra. We didn’t join forces with them!”

“Hydra is still our enemy, we have been growing ourselves, and everything we do is to avenge the Hydra!”

...

“But the same goal as the enemy, can you bear it yourself? Shouldn’t we protect what the enemy hates?”

“I think Hydra is dealing with Ye Junlin’s father and daughter. We should provide help and protection! Instead of targeting them like Hydra!”

“What’s the difference between what we do now and Hydra?”

...

These people really have a bloody feud with Hydra.

I can’t wait to get revenge right away.

So they get emotional when it comes to Hydra or anything related to Hydra.

In a word – they hate what Hydra likes, and they like what Hydra hates.

It’s going to be the opposite of Hydra.

Therefore, this behavior now touches their inverse scales!

Absolutely not!

“You are wrong!”

“Let’s put it this way, Hydra is everyone’s enemy, and so is Ye Junlin!”

Those few people were in a hurry, and they even hit back and said they were wrong.

“I want to ask why Ye Junlin is our enemy?”

The people stared at them and asked.

In fact, everyone in this organization is very confused now.

What happened to Ye Junlin?

Is it worth making everyone target like this?

Stop his daughter from detoxification!

He also deceived Ye Junlin with such resources!

But everyone thought about it.

It seems that Ye Junlin has no hatred with himself.

Ye Junlin didn’t do anything to everyone.

It’s just that people are detoxifying their daughter now, and they don’t have the time to take revenge.

Just don’t join this organization.

Is this also guilty?

What’s more, there are many people who don’t take revenge on Hydra.

Don’t add more to this organization?

Why didn’t you see everyone targeting them one by one?

Why do you have to target Ye Junlin?

“this.....”

The people who had invited Ye Junlin were obviously taken aback when they heard this question.

They couldn’t answer this question for a moment.

They really can’t say what kind of grudge against Ye Junlin.

“What kind of hatred does Ye Junlin have with us? His attitude! He is cowardly and timid, and he doesn’t dare to take revenge against Hydra! Those who dare not take revenge against Hydra are just fueling Hydra’s arrogance! This is hatred!”

“The key is that his daughter was poisoned like this, and he didn’t even dare to put a fart. What do you think? Isn’t the Hydra even more arrogant?”

“The most important thing is his identity! Why don’t we target others, but Ye Junlin? His status is special, he doesn’t express his position, causing too many negative influences!”

“What’s more, he has so many resources in his hands. If it falls into the hands of Hydra, our revenge will be far away!”

“Therefore, we have to get rid of Ye Junlin first! This is also an important step in taking revenge on the Hydra! Let everyone know our determination – we must avenge the Hydra!”

“Yes, we do all this to avenge the Hydra!”

...

False!

They are the complete idiot!

But once these words came out, everyone could do nothing.

Because what these people are talking about is revenge on Hydra.

As long as this is clear, there will be no objection.

As long as everyone remembers the hatred of Hydra!

It doesn’t matter what happens to Ye Junlin.

Next, they still comprehensively target Junjun’s detoxification...

Fire Cloud Evil God is really efficient.

It took three days to really find the magic medicine.
