

# Chapter: 3062

“This……”

It’s boiling!

burst!

When the wooden box came on stage, everyone was excited.

This magic medicine is terrifying.

As expected of a magical medicine comparable to a hundred thousand years of snow lotus!

At the beginning, Yan Zangsheng said that it was better than half, but it was actually a modest statement.

Comparable in time.

I don’t know what this magic medicine is and what year it is.

But compared to the words of 100,000-year-old Xuelian.

That’s the equivalent of being refined.

therefore.

Everyone stood up.

Staring at the wooden box.

If you don’t know that this is an exquisite box.

Everyone wants to get started.

Ye Junlin was also excited.

There is no need to distinguish whether the magic medicine inside is real or fake.

Just exuding a ray of breath, it is so strong.

Isn’t this magic medicine?

Ye Junlin was breathing rapidly.

What the genius doctor Yan Zangsheng said was absolutely right.

The potency of this magical medicine is terrifying!

The last time I felt this way, it was the Holy Spring.

Of course, this is a little more terrifying than the Holy Spring.

If you get this magical medicine, Junjun’s poison will definitely be solved.

At this moment, everyone is observing this trap box.

Ning Jinye suddenly said: “This trap box is definitely from Daxia, and it is a lost trap technique – Tianji Lock! I heard my grandfather say a trap box before, and it’s very similar to this one!”

“The lost mechanism of Daxia?”

Ye Junlin’s face sank, his expression condensed.

So the mysterious force that controls Yan Zangsheng belongs to Daxia?

Du Daxia’s lost organ technique.

Is it difficult for other countries to have it?

And that’s what I said before – the magician has just been exposed, and nothing has spread inside Daxia.

The magician is under control.

No one from abroad would know.

Moreover, even Tiance Shenshuai and the others were aware of this information.

That means that this group of forces belongs to Daxia.

And they have great powers, they had already controlled the magician when Tiancefu knew about it.

Amazing!

…

After thinking about it comprehensively, Ye Junlin could only sigh.

However.

You should have no grudge against them, right?

Why target it this way?

Ye Junlin already had a rough guess about their identities.

Next, as long as he gets the magic medicine, he will take off the masks of these people and examine them one by one.

Look who is it?

In addition, the Evil God of Fire Cloud kept staring at him.

Even if this group of people is entrusted, this mysterious force will be discovered as soon as they get in touch.

The real protagonist is here today.

Everyone was very excited.

This time, even the major forces that have not been bidding for a while will rush.

But everyone is very afraid of Ye Junlin and that mysterious person.

They shouted the price, so terrifying.

Who can stop it?

not only.

Even the forces behind the War Eagle Nation’s eyes lit up fiercely.

They ignore everything and don’t take resources seriously.

Indifference to everything.

But that was nothing good.

Good things come up and still the same.

Now the magic medicine of the genius doctor has attracted him.

Obviously very interested.

Those useless things in the front will cost so much to compete.

Now that you have something you are interested in, don’t go crazy!

He glanced at Ye Junlin, and Ye Junlin also gave him a deep look.

The two of them are going to make crazy bids.

But this is a good thing for Hydra and the organization of revenge Hydra.

Their purpose is to prevent Ye Junlin from getting this magic medicine.

But if you can, it’s better to get it yourself.

But now a mysterious man appears.

There is little chance of them getting it.

However.

Ye Junlin can’t even imagine it.

This is good for their purpose.

They don’t even have to shoot.

Unfortunately, such a good thing is not available.

“Everyone be quiet…”

The person in charge of the auction motioned everyone to be quiet.

Everyone shut up obediently and didn’t make any sound.

Staring straight at the stage.
