

Chapter: 3069

“Ho ho...”

Ye Junlin smiled directly.

For these guys, there is such an operation, it is not surprising at all.

For yourself, it's all kinds of rogues.

Otherwise it doesn't fit their style!

In order to prevent myself from bidding, I really used all kinds of methods.

Do everything possible.

I just want to let myself watch this magical medicine being auctioned off by others, and to make Junjun's hope abruptly rectified.

but it does not matter.

He didn't want to bid for it.

He's going to steal it!

This group of people thought that there was a secret lock, and it was useless to grab it by themselves, and they would not open it at all.

But who would have thought that someone around Ye Junlin knew about the secret lock and hoped to open it.

So he grabbed something to try.

If you don't grab it, there is no chance at all.

“Clap clap clap...”

Ye Junlin also began to applaud.

“good very good!”

The person in charge of the auction smiled at Ye Junlin: “Probably Mr. Ye thinks so too?”

“Yes, that's right!”

Ye Junlin smiled.

The person in charge of the auction took a deep look at Ye Junlin and said with a smile, “The magic medicine belongs to this gentleman!”

As soon as he spoke, his men immediately handed the box to the man in person.

In front of Ye Junlin!

Hydra and others targeting Ye Junlin are happy.

In the end, this magical medicine did not fall into Ye Junlin's hands.

Moreover, this buyer has such terrifying resources, and his strength must not be underestimated.

Although everyone doesn't know who he is, everyone is not worried, Ye Junlin can get benefits from him.

Now everyone's task is complete.

Ye Junlin didn't let Ye Junlin get this magical medicine.

Even the head of the auction has done their job.

After all, Ye Junlin still had no hope of seeing his daughter.

“Let people start to stare! So many resources will definitely be exposed! In addition, this mysterious force has transported so many resources, I don't believe it can disappear out of thin air? Let's see where they can transport these to?”

Ye Junlin whispered to the dark doctor.

The problem of the delivery of resources is the clue that can really find out their identity.

After all, it is a piece of aura crystal, bad luck.

“Sir, take this secret box away first! After you are sure it is safe, we will send someone to unlock this secret lock for you!”

said the auctioneer.

They will not give Ye Junlin the slightest chance.

“Okay, I'll have someone send the aura crystal back later!”

That person doesn't care.

“Send it anytime! We trust sir!”

said the auctioneer.

The Lord in front of him didn't care about these resources at all, so they weren't worried.

“Then sir, leave first! Just in case!”

The person in charge of the auction asked this person to leave first.

At this time, the person sent by Hydra said: “For the safety of Mr. Zhanxiong, the War Bear Kingdom has decided to send 200 gods to protect you from leaving!”

In order not to give Ye Junlin any chance, Hydra even arranged a large number of gods around.

The person in charge of the auction was stunned for a moment, then smiled and said, “Then trouble the gods of Zhanxiong Nation!”

All this is for Ye Junlin.

Although they don't take Ye Junlin seriously.

But recently I heard that there are many masters around Ye Junlin.

There are many gods in the big summer gods who are Ye Junlin's brothers and apprentices.

They even knew that there was a super expert by Ye Junlin's side, and he found the magic medicine repeatedly.

Therefore, they are worried about the people around Ye Junlin, not because they are afraid of Ye Junlin.

Under the escort, the mysterious man left here first.

The person in charge of the auction looked at the audience and said,

“Just please stay here for a while! We are afraid of any misunderstandings and incidents! Please forgive me!”
