

Chapter: 3076

Give the Tenshin Division resources, he can't control, or even support.

But, if you target me, I will fuck you!

Seeing the back of Ye Junlin leaving, Tiance Shenshuai and his son were also puzzled.

Who is this?

Why do you have to target Ye Junlin?

Unreasonable.

Daxia, they all know who Ye Junlin offended.

Then there will be others?

...

At this moment, the island is also in chaos.

Hydra is all messed up.

All the two hundred gods they sent out died?

Incredible!

who did it?

They suspect a lot of people.

Only there is no doubt about Ye Junlin.

Because almost all of Ye Junlin's men are here, and Ye Junlin has proof of his alibi.

So it won't be him.

"It can only show that there are many people staring at the magic medicine, and many of them have exceeded our expectations! Even the two hundred gods of the War Bear Kingdom can be easily wiped out! This shows that the power to steal the magic medicine is not easy!"

In the end, everyone can only come to this conclusion.

And Doctor Dark, they were also released.

After all, they are not suspicious at all.

Originally, Doctor Dark and the others wanted to check the person in charge of these auctions.

See who is behind their masks.

But get Ye Junlin's message and let them come back.

This force obviously thought of the details of each step, which can be seen from the fact that the Tenshin Division came to transport the resources.

They also must have known they were going to check out these masked people.

So even if you go to check them, you will definitely find nothing.

Since it doesn't make sense, what else is there to do?

Ye Junlin hurried them back.

Just let the Huoyun Evil God stare at a little bit.

A group of people all came back.

Seeing Ye Junlin, everyone asked, "Did you succeed?"

Ye Junlin raised the trap box in his hand.

"Jinye will rely on you next, find someone who can unlock the secret lock!"

Ye Junlin was waiting for Ning Jinye to come.

"Teacher Ye, don't worry, leave everything to me!"

Ning Jinye immediately went to find it.

Ye Junlin also arranged for Zheng Haobo and other three to be with him, so that they could take care of each other.

Ye Junlin is now too curious about this mysterious force and is also very angry.

The identity of this force is unknown.

He knew about the other forces behind War Eagle Nation.

"Everyone is ignorant of this force! There is no way to find out!"

The Dark Doctor said.

Ye Junlin pursed his lips and said, "Maybe we are heading in the wrong direction?"

"Mr. Ye, do you mean to check other people?"

Ye Junlin nodded: "Why don't we check the origin of Yan Zangsheng? He is not a genius doctor for no reason! He is incognito, and his identity may not be simple!"

"If he can be found out, it might have something to do with that faction! In the past, that faction didn't care about him, but he didn't expose him. Now that he is exposed, immediately target me!"

After Ye Junlin said this, everyone suddenly became enlightened.

The idea suddenly opened up.

This is indeed the case.

Check in another direction.

"There are so many enemies! Wait until Jun Jun's poison is solved! I, Ye Junlin, will definitely come to you one by one!"

A cold light flashed in Ye Junlin's eyes.

And this moment.

The head of the War Eagle Guotian Shield Bureau, Smith and senior Nielsen, also learned the news of who disappeared.

This is actually the messenger who is in contact with the forces behind them.

This time he couldn't hold back and ran to target Ye Junlin, which ended up like this.

"All the 200 gods in the War Bear Kingdom are dead, and the magic medicine has also been robbed. This god envoy must also be dead!"

Smith said in fear.

"Then hurry up and send them the message!"

Nelson said.

Although this is their messenger, they also have other urgent ways to contact the forces behind them.

Now that the messenger is dead, they immediately send the message to the forces behind it!
