

18:55 

Chapter 1121

Both of them were baffled. They looked at Tobias and asked, "Tobias, even if we fight, we might not lose. Why..."

Tobias pointed in Fade's direction and said in a deep voice, "Look over there; that is a true master!"

Jackson and Phyton raised their heads instantaneously and looked in Fade's direction.

Just glancing at Fade's cold eyes, they felt a chill down their spines. They were almost frozen in place, and were unable to move anymore.

"Yeah, that's a true master!"

"L-Let's run!"

At that moment, the only thing on their minds was to run away.

They then proceeded to turn around and run away.

Upon seeing this, Abell and the group of young people felt relieved. They dropped to their knees with pale faces and in cold sweat.

"T-Thank you!" They thanked the Stealth Team members and recognized Falcon from the team instantly.

Immediately, Abell grew excited. "Captain, it's you! Why are you here?"

18:55 

Falcon heard Abell and looked at him. He was slightly surprised and asked, "Abell, why are you here?"

Abell pointed to his friends beside him and answered, "We were here to have fun in Jade City. I heard that there was a Martial Arts Convention here so I wanted to come and have a look."

Hearing this, Falcon frowned. "This Martial Arts Convention is very dangerous for you. You're not supposed to be here. Now, go down the mountain!"

"But, we are finally here..." Abell was a little bit reluctant but then he smiled and flattered Falcon. "Besides, you are here as well, and with you here, we won't be in any danger."

Falcon's brows knitted together. "We are responsible for the patrol and security here; there is no way for me to protect you. Moreover, even with us, it's still not totally safe here. There are no fighting rules at the Martial Arts Convention happening today; it's all about life and death."

Falcon could feel that the thin old man just now was not a person he could simply mess with. In the end, the reason the old man had retreated wasn't because he was afraid of Falcon, but because of instructor Chen behind him. However, he couldn't explain this to these young people.

"Life and death!" The young men felt a little terrified.

However, Abell still didn't want to leave, "But, this kind of opportunity..."

"Well then, stand a little farther and just watch from the outside. If something goes wrong, go down the mountain and leave immediately, understand?" Falcon asked.

Abell nodded quickly. Falcon asked the team members to pay more attention to this side and then led them away.

18:55 

Abell and the others were looking after them with envy and excitement as the Stealth Team members were leaving.

This was true especially for Abell, who was now holding his head up, and said proudly, "If it wasn't because of Falcon, we wouldn't know what would happen to us now."

"I beg to differ. Captain Falcon must have helped us because of you, Young Master Abell. So in a way, I have to thank you as well," Sonia flattered.

Harper was so frightened that he hadn't recovered fully. His face was still pale and he didn't say anything.

Whereas Momo was staring at the Stealth Team leaving, she was curious and whispered to herself, "That person, he looks like Fade! Fade has said that he also had relations with the Stealth Team!"

.....

Not long after, with the rumbling of drums, the originally boisterous scene grew even more lively.

"It's about to start!"

"Things are getting more interesting."

"I would like to find out how capable this new Martial Soul of Jade City is."

.....

Amidst the discussion, several men in their robes walked onto the stage. The locals of Jade City recognized them immediately. They were all renowned figures in the martial arts world of Jade City.

The leader among them was Maxwell Song, the former disciple of Titan Studio and the personal disciple of Titan Chiu.

18:55 

Maxwell gestured by pressing both of his hands down to silence the exuberant audience, and then said loudly, "Today, all martial artists have come from China and also from the corners of the world to gather here and join our grand event. We are truly honored by your presence to witness the birth of the new Martial Soul of Jade City."

"Next, please welcome our new Martial Soul of Jade City, Master Xie to come forward!" Maxwell announced.

In the backstage, Lucas took a deep breath and looked at Fade beside him. "Master Chen, I..."

Fade patted him on his shoulder, smiled and encouraged him. "It's fine, just go ahead. Your current strength is good enough. Besides, am I not here with you?"

"Yes!" Lucas nodded firmly, and then stepped out.

Then, with everyone's gaze on him, Lucas in his cyan robe, flew swiftly from the top of the Great Hall of Titan Studio and finally landed firmly in the center of the stage.

"Ladies and gentlemen, I am Lucas!"

Just by making his entrance, he had shocked many in the audience.

"His prowess is still acceptable!"

"If he was not capable, do you think Maxwell would recommend him as the new Martial Soul of Jade City?"

"With his strength he should be at least at the latter stage of the Black Level!"

.....

Some were impressed, but it was also natural for others to be displeased.

18:55 

"Who the hell is he? How could a person with no name become the Martial Soul of Jade City without any. I, Leopard Kuang, will be the first person to disagree."

"Does he think that he could reign Jade City just with this level? I'm afraid it's not that easy!"

"I think that someone is pushing for this behind the scenes!"

.....

Aside from the Chinese martial artists, there were also foreigners amongst those who were impressed.

At that moment, Phyton and Tobias were discussing amongst themselves after observing Lucas.

Jackson and Phyton looked at Tobias and said, "Tobias, Master Xie's strength should be at a similar level with yours. In this way, you also have the chance to become the Martial Soul of Jade City."

Tobias squinted his eyes and muttered, "Maybe!"

However, when he was speaking, he couldn't help but recall the young man who was staring at him just now. His body trembled suddenly.

.....

During the heated discussion, there were also many objecting voices that were rising.

"We are not convinced. How did he qualify to become the Martial Soul of Jade City!"

"Yeah, we should choose a local to be the Martial Soul of Jade City."

18:55 

"If he is qualified for this with his current strength, so am I."

"This is not fair, I am not convinced!"

.....

Amidst the ruckus, Lucas glanced at everyone. With his hands behind his back, he said loudly, "Those who are not convinced with me as the Martial Soul of Jade City, you may come up and challenge me. If you can defeat me, I will surrender this position!"

As soon as he finished his sentence, the audience quietened down immediately and everyone was staring at the center of the stage with a scorching gaze.

Many who had been displeased previously didn't dare to step up.

In the end, it was Leopard, who had been the loudest just now, who stepped on stage. "If there is no one else, then I, Leopard, will be the first!"

Leopard was burly and he had a hard, wooden club in one hand. It was obvious that he wasn't an ordinary man just from one glance.

19:42 

Chapter 1122

Everyone else immediately grew excited and cheers erupted from the audience.

Leopard also seemed thrilled. He tightened his grip on the club like a ferocious wild bear. He was stepping heavily and rushing towards Lucas violently.

With such an explosive move, the atmosphere became even more lively. Finally, there was a battle.

"Leopard has good grandeur and strength!"

"Look at him; his appearance is wild and brutal but he is still very cautious. If Lucas is confused by his appearance and lets down his guard, he might lose."

"Leopard might have the strength of the middle stage of the Black Level."

"Lucas should be able to win; it's just uncertain how long that will take."

.....

Just as everyone was discussing, Lucas looked at Leopard who was dashing towards him. His eyes flickered, then he quickly moved his right hand forward to attack Leopard.

Suddenly, a strong surge of wind hit Leopard and his entire body fell away from the stage.

19:42 

Everyone was shocked and they looked on in surprise. After a few moments, voices sounded again.

"Lucas is very strong!"

"I can't believe that Leopard was defeated in just one move."

"It seems that things are not as simple as we imagined!"

.....

Amidst the discussion, Lucas retracted his right hand as he stood still and glanced at the crowd. "Anyone else?"

The audience was in another clamor and soon, several people stepped on stage.

However, they received the same results as Leopard. Their abilities were within the middle stages of Black Level and they were defeated by Lucas within three moves.

In less than half an hour, Lucas had already defeated eight challengers without a break.

At that moment, Lucas has already shocked most of the martial artists at the scene.

Under such circumstances, the debate among the crowd grew even stronger.

Jackson, Phyton and Tobias' expressions fell as they watched the fights on stage.

The three of them had come all the way to Jade City, hoping to take advantage of their reputation and strength to get a piece of the pie.

However, looking at the fight on the stage, they realized that they were too naive. The Chinese population was huge and they had

19:42 

too many martial artists. The strong ones were just a dime a dozen.

Although Jackson and Phyton had their own fame, in terms of strength, they were not even as good as some of the martial arts who had just challenged Lucas.

They had wanted to win so badly, but in the end they had no choice but to give it up.

Jackson wanted to retreat so he said, "Let's leave. I am worried that the international police will come if we stay any longer."

Phyton's expression had also become grim and there was a slight of hesitation in his eyes.

Just as the both of them were hesitating, Tobias said, "Don't worry. Lucas is powerful but have you ever thought of how he could ensure that his strength will be maintained after fighting so many people?"

Upon hearing this, Jackson and Phyton were swayed. They understood what Tobias meant. "You want to wait until Lucas has fought really hard before we go on stage and take advantage of him."

Tobias nodded. "We shall see. The real master has not been on stage yet."

Hence, the three of them continued watching.

There were many others who held the same thoughts, waiting for others to fight with Lucas to tire him out before they took advantage of him.

However, as Lucas continued to defeat his opponents, the martial artists who continued to challenge him were even stronger and had reached the later stage of the Black Level.

The battle was much more intense compared to before. Lucas had to pull out over ten moves before he could knock down the

19:42 

opponents.

Moreover, after several fierce battles with the martial artists at the later stage of the Black Level, Lucas had suffered from some minor injuries. It was obvious that he had started to gasp for air.

Under such circumstances, Tobias, who had been waiting for the opportunity, finally made his move. After Lucas knocked a muscular man off the stage, Tobias gently leaped onto the stage.

The audience started to question him as they noticed such a fragile elder going up the stage to challenge Lucas.

"What's wrong with this old man? Going up to challenge at such an old age; is he not afraid of dying here?"

"He looks like he'd fall over at the blow of the wind. Is he here to joke around?"

"You ignorant people. He is Tobias from the Golden Triangle. What do you think he is here for?"

"What, Tobias from the Golden Triangle! Could it be that he is the notorious killer!"

"He is the villain who had murdered hundreds of innocent people!"

.....

After Tobias' identity was exposed, the atmosphere at the scene suddenly grew even more intense.

Just then, Tobias, who was standing on the stage, looked at Lucas with a cold smile. "The position of Martial Soul of Jade City will be mine!"

Lucas narrowed his eyes and snorted, "You won't be able to take away my position."

19:42 

"Really? Who knows." Tobias smirked, and then moved instantly.

He looked fragile but his moves were explosive and terrifying. He attacked Lucas ferociously.

Lucas' eyes sank, as he stared at Tobias who was attacking. His hands moved quickly to block Tobias' attacks.

"Pitter-patter!"

"Bang, bang!"

The battle continued. Within a few seconds, the two had fought in more than tens of moves. Their movements were so dazzling that the audience could not see anything clearly. They could only hear the sounds from the fight.

"They are fighting too fiercely! It's so direct and rough!"

"Tobias looked fragile but I didn't expect that he could fight so fiercely!"

"However, if this continues, Lucas would still win. After all, Lucas is stronger as he is at the peak of the Black level, while Tobias is only at the later stage of the Black Level."

"No, maybe there will be an accident."

"Why do you say so?"

"Look at it carefully, although Tobias' moves are random every time, all of them are aimed at Lucas' wounds. Also, Lucas' moves are slower now as compared to in the beginning. If he's being attacked at his weak spot, who knows who will be the final champion?"

"Keep attacking his weak spot! Tobias is a true killer who has murdered numerous people. He is so experienced in terms of

19:42 

actual combat."

.....

At that moment, Lucas began to feel pressured. Although Tobias' strength was a level lower than his, he was able to attack his weak spot all the time. Moreover, his moves were unpredictable and bizarre that they had caught him off guard.

If he continued like this, he might eventually lose.

19:43 

Chapter 1123

As he thought of this, Lucas narrowed his eyes and thought to himself, "I can't continue to let him take the lead; I have to beat him fast."

Lucas suddenly took a step back and put a distance between them. Before Tobias could get near him, he moved his hands, accumulating his Vital Energy and converted into a virtual sword. He then rushed towards Tobias.

"Vital Energy has been formed; Lucas is being serious now."

"Tobias is going to lose!"

"Let's see how many moves he can avoid!"

.....

Just when everyone thought Tobias was about to lose, he smirked as he noticed what Lucas was doing. He said in a low voice, "At last, you're going to use all your strength. I have been waiting for this moment for a long time."

As Lucas held the sword and attacked, Tobias straightened his frail body and released powerful energy. Black energy condensed around him, that was then turned into a machete, and he rushed towards Lucas.

In an instant, they clashed against each other, the sword and the machete swung around them continuously. Vital Energy spread all over the venue, setting off gusts of strong wind.

19:43 

Tobias, who originally had the disadvantage in this battle as he was against Lucas who was strong and explosive, was not showing any vulnerability. In fact, his experience gained from actual combat had become his advantage and it was forcing Lucas to retreat.

This was beyond everyone's expectations. They were all shocked.

"Tobias has also formed his Vital Energy."

"What's going on? This is also the strength of a master of the Black Level at its best!"

"Tobias has hidden his true strength from us."

"T-This result. Could it be that Tobias desires to be the Martial Soul of Jade City?"

.....

The audience was shocked. Not even Jackson and Phyton knew that Tobias had hidden his strength from them. For a moment, they felt a chill in their bones and began to fear him. However, soon after that, they started to feel happy.

If Tobias took the position of Martial Soul of Jade City, both of them would still be able to share the pie.

They were very excited, but on the other hand, the martial artists who had purposely come to Jade City started to become more serious. After all, they didn't hope that Tobias, who was an outsider as well as a notorious villain, would take that position.

The pinnacle of the Black Level was considered the highest strength level of the martial arts at the scene. Although there were many martial artists present, few had reached that level. They could only feel dissatisfied as they did not have sufficient capability to fight Tobias on stage.

19:43 

For a moment, the audience shared different expressions and they were divided into two teams. One team cheered for Lucas while the other supported Tobias.

The battle on the stage was growing more and more violent. The constant collisions, the surge of their auras, and the splashing of blood had aroused the audience even more.

If the previous battles were to be considered as Lucas's one-man show, then this would be the true fierce combat between two martial artists who had similar strengths.

Moreover, one of them was the bloody killer Tobias. It was not difficult to imagine the degree of damage that he could cause.

Blood splashed, energy surged and the both of them were already soaking in their blood after attacking each other incessantly.

The audience became speechless as they observed the scene.

Especially Abell and the others who watched the battle from afar. For pampered children like them, they had only seen martial arts performances before, but not battles as fierce and bloody as this.

Fresh blood was splashing and energy was surging all around.

The blood and the energy were stimulating their visions and they started trembling.

The two girls, Sonia and Momo, could not watch any further. Harper, on the other hand, had turned pale and his body trembled in fear.

Even the martial artist Abell looked gloomy at that moment.

Seeing the fights and strengths of the martial artists, Abell couldn't help but feel ridiculous when he recalled his claim that he

19:43 

would win the championship.

His strength was nowhere near enough to defeat the true martial artists. He was just like an ant before them.

At that moment, his arrogance and self-esteem had been crushed. His expression fell.

.....

The battle on the stage continued and Lucas had lots of wounds on his body. He hadn't expected to have battled to this state.

However, he had come to a point of no return. Otherwise, he would let Fade down. He must persevere and defend his position of the Martial Soul of Jade City.

Thinking of this, Lucas gritted his teeth, gathering all his strength as he attacked Tobias fiercely.

Upon seeing this, Tobias smirked, releasing a black glow around his body. Drawing a strange arc using his body, he stabbed Lucas.

At that moment, Fade, who was watching amongst the audience, narrowed his eyes. His eyes flickered as he suddenly realized something. "Oh no, Lucas was too hasty. He has been tricked by Tobias," he thought to himself.

Lucas was fighting hard to defeat his opponent. However, he had also exposed his flaws as he rushed his moves. Tobias caught his flaw with his sharp eyes and he swung his machete to pierce through Lucas's stomach.

In an instant, a long wound appeared in Lucas's lower abdomen and his blood splashed everywhere. Lucas couldn't stand it anymore and fell onto the ground.

Tobias stood straight with pride at the center of the stage with his face covered in blood. He raised his arms and said loudly, "I

19:43 

won!"

Suddenly, the scene grew quiet and everyone looked at Tobias in surprise.

Although many people had already heard of Tobias's infamy, they also knew that he would come to compete. However, no one had thought that Tobias could actually defeat Lucas and become the champion.

After all, the strength that Lucas had demonstrated was definitely at the top of the Black Level, and it was not far for him to cross into the Earth Level.

According to the rumors, Tobias had only the strength at the later stage of the Black Level.

After the silence, hot discussion ensued amongst the audience.

"Tobias has won; he has really won! This, this..."

"Tobias is so cunning; he hid his strength."

"Are we, the martial artists of Jade City, going to work for him in the future?"

"I can't agree with this!"

.....

The people of Jade City and the Chinese martial artists were dissatisfied and refused to accept the result, while on the other hand, the foreign martial artists seemed to be all over the moon at that moment. Especially Jackson and Phytton who came with Tobias, they almost could not contain their excitement anymore.

"If you are not convinced, then go up and challenge him!"

19:43

"Yes, the rules are all set. Whoever wins will be the Martial Soul of Jade City. Tobias wins according to the rules; are you still dissatisfied?"

"Well, all of you are like this, are disobeying the rules."

"Jade City is a good place. From now on, we will make a fortune here. Hahaha!"

.....

19:43 

Chapter 1124

Fade did not pay attention to the commotion amongst the audience.

After Lucas's defeat, he immediately arranged for the Stealth Team members to bring Lucas back.

Lucas was covered in blood as he laid on the stretcher and looked up at Fade. He was filled with regret as he said, "Mr. Chen, I have lost and let you down. I..."

Fade patted Lucas on the shoulder and said, "It's okay. You have tried your best. Tobias showing up was not anticipated."

"However, the position of Martial Soul of Jade City, about the Chief Executive and Sergeant Xu..." Lucas's face was filled with guilt and worry.

Fade smiled gently and said, "Don't worry, it's okay. If worse comes to worst, I will handle it myself. Isn't the rule that the winner will be the Martial Soul of Jade City? I am your strongest backup."

Hearing this, Lucas finally felt relieved.

As long as Fade intervened, no one would be able to snatch away the position of Martial Soul of Jade City.

"Great, Mr. Chen, you..." Lucas said with a smile, but he tore his wound accidentally and his blood started to spill again.

Fade held Lucas down immediately and took out a silver needle. "Don't move. I'll treat you."

19:43 

Immediately, Fade worked with his silver needle and healed Lucas's injuries quickly.

Although Lucas's injuries looked serious, fortunately, most of them were only skin injuries, which were not a difficulty to Fade. After acupuncturing the meridian points with the silver needles to stop the blood, he then used his Vitality Energy to heal Lucas' wounds so that the state of the injuries could be stabilized soon.

While Fade was healing his injuries backstage, Tobias stood victorious on stage. He wiped off the blood from his face and shouted, "Who wants to challenge me?"

The audience was bustling as they hesitated.

In the end, a well-known local martial artist from Jade City jumped onto the stage.

This martial artist only had the strength of the later stage of the Black Level, and there was still a certain gap from the pinnacle of the Black Level. Under normal circumstances, he would not be going onto the stage. However, at that moment, considering that Tobias had just gone through a long fight, he might have a chance. That was why he went on stage.

However, the result was completely out of his and the audience's expectations.

Tobias, who had fought hard with Lucas, was ready to fight again, without the slightest decline in his strength. It took him less than five minutes to defeat this local martial artist of Jade City.

Moreover, he brutally broke the arm of the opponent.

With such strength and a bloody and cruel scene, the other martial artists of Jade City dared not to act rashly anymore.

For quite some time, no one dared to step onto the stage to challenge Tobias.

19:43 

Tobias smirked upon seeing this. He turned his gaze and looked towards the crowd, and said loudly, "The time is up, you can come on stage."

The audience was confused at Tobias' word;, they didn't understand who Tobias was calling out for.

Under everyone's doubtful gaze, the crowd slowly separated and a few Southeast Asians came near to the side of the stage while pushing a wheelchair.

They helped each other as they carried the wheelchair up onto the stage.

The person who was sitting in the wheelchair was a young man in his 20s or 30s. His legs covered with a blanket and he had long hair covering his eyes as he looked through the strands of hair, hatred gleaming in his eyes.

"Who is this guy?"

"What's the matter, letting a disabled person go onto the stage?"

"What is Tobias doing?"

.....

While everyone was perplexed, Tobias walked towards the man in the wheelchair, pushed him to the center of the stage and then announced, "This martial artist has challenged me and I declare I am defeated."

As soon as his remark was made, there was an outcry at the scene.

"D*mn, what's happening?"

"Tobias declared that he lost, what the hell is he doing?"

19:43 

"That disabled person; how could he have defeated Tobias? He lost on purpose!"

"Who is that young man? Why should Tobias admit to being defeated?"

.....

In the midst of doubts and the noise, Tobias lifted the young man in the wheelchair and pushed away his hair that was covering his eyes, and then he announced, "The winner who defeated me is Brayden, Young Master Chiu!"

"Brayden!"

As the audience heard his name, they started to discuss, especially the martial artists of Jade City.

"Brayden, it's Brayden. He is back."

"Isn't Brayden the youngest disciple of Titan? His legs were disabled by Master Chen. After that, when Titan was killed by Master Chen, he disappeared."

"How did Brayden get involved with Tobias?"

"Looking at this situation, it seems like Brayden has found a helper like Tobias to help him regain the Titan Studio!"

.....

Amidst the discussion, Brayden glanced at the audience and stated loudly, "I, Brayden, am the personal disciple of Titan and I'm also the legal heir of Titan Studio."

"Now, I'm back. I have inherited Titan Studio from my master and also his title of Martial Soul of Jade City. Does anyone have any objections?"

19:43 

The audience fell silent. Although there were many who were confused, no one would dare step up at such a time.

Seeing this, Brayden was satisfied. He snorted and said, "Since there is no objection, then, from now on, I, Brayden, will be the owner of Titan Studio and the new Martial Soul of Jade City."

"As the leader of the martial artists of Jade City, I am now giving you the first order, which is... to kill Master Chen..."

As soon as he made his remark, there was an uproar at the scene.

"How is it possible to kill Master Chen?"

"Master Chen is a master of the Earth Level!"

"Furthermore, he is not an ordinary Earth Level master but at least at the middle stage. After all, he has killed Titan!"

"Brayden is trying to avenge for his master!"

.....

"However, it sounds strange. Why didn't Master Chen show up on this occasion!"

"If Master Chen makes a move, he will definitely be the champion!"

"Could it be that Master Chen has already left Jade City? Maybe there are other reasons."

.....

Amid the enthusiastic discussion, Abell and others, who were away from the crowd, had also begun to discuss.

Sonia and Harper looked puzzled, and they asked, "Who is Master Chen? He sounds like a strong person."

19:43 

Momo frowned, as she felt familiar with the name of Master Chen.

On the other hand, Abell looked stern and he said, "How could you not know Master Chen? I shall tell you, Master Chen is an extremely famous and strong martial artist in Jade City some time ago."

"He killed the previous Martial Soul of Jade City, Titan. Besides, he is also considered to be the youngest master of the Earth Level. At the same time, he is also a business tycoon who owns a conglomerate that is worth tens of billions, but... most importantly, Master Chen is not even 30 years old yet. He is definitely an exceptional man."

19:43 

Chapter 1125

Abell told Sonia and Harper excitedly about the various deeds of Master Chen. Sonia and Harper were both astonished, feeling that it was incredible.

As the children of rich families, they were considerably outstanding amongst their generation. They were usually proud of their status amongst their peers. However, when compared to Master Chen, it was a whole different story.

In fact, even their forefathers and families were no match for his status, not to mention that they were only the younger generation who were still relying on their parents.

Below the stage, while everyone was discussing, Brayden smirked as he glanced at the crowd. He muttered to himself. "Fate, why are you still not coming out? If so, this position will be mine."

Brayden waved his hand and his men who were already well-prepared moved out a huge and heavy mahogany chair. The chair was carved with exquisite figures of dragons; the design was complex but magnificent. It was the seat of Titan in his studio.

As the chair was placed in the center of the stage, the other two men ushered Brayden towards it.

Brayden stared at the chair before him, mixed emotions surging in his eyes. He then turned around and looked at the crowd and announced, "I, Brayden, from now on, will be the new Martial Soul of Jade City and you shall pay your respects to me."

After finishing speaking, Brayden asked his two goons to let go of him to sit on the mahogany chair while holding onto the

19:43 

armrests.

The audience looked at Brayden with different expressions. Some people were dissatisfied, but they dared not to challenge him as they had witnessed Tobias' strength earlier. They could only allow Brayden to take over the position of Martial Soul of Jade City.

For quite some time, there were countless sighs.

Especially the local martial artists of Jade City, there were many of them who were sighing in despair.

After all, they were locals, and they knew all the misbehaviors of Brayden. They could foresee the misfortunes that would be coming as someone like him took the position of Martial Soul of Jade City.

"Alas!"

With a sigh, Brayden, who was smiling, was about to sit down.

However, at this critical juncture, a clear and deep voice rang from the crowds. "Who has allowed you to sit?"

Everyone turned around to the source of the sound.

Then, they saw a charismatic and firm young man in his uniform walk out from backstage.

Of course, this man was Fade. Brayden had noticed him when he first appeared. It was just that Fade had to deal with Lucas's injury, so he wasn't able to come out earlier.

As Brayden was about to sit, he saw Fade. He glared at him coldly and gritted his teeth. "Master Chen, you finally dare to show yourself."

19:43 

The audience became excited as they heard Brayden.

"He is the famous Master Chen whom everyone has been talking about lately!"

"I heard that Master Chen is a master of the Earth Level. Are you sure he is really that master? He looks younger than 30 years old."

"Master Chen has finally appeared; it looks like there will be a good show for now."

"Not even Titan could win against Master Chen; how could Brayden have the confidence to confront Master Chen?"

.....

Amidst the commotion, Momo and the others who were standing at the outermost periphery, stood on their tiptoes and craned their necks, and tried to witness the well-known Master Chen from Jade City.

However, because the distance was too far, they could only see his silhouette but not his exact visage.

However, even if they couldn't see clearly, they were still very excited. After all, that was Master Chen, the real deal.

Just as Sonia and Harper were struggling to observe Master Chen, Momo stared at the figure on stage. She felt that he looked familiar, and she felt that he looked similar to her brother-in-law.

Momo couldn't help but whisper to herself, "How could Master Chen look so familiar to my brother-in-law? Could he really be my him?"

She was talking to herself, but Abell and the others heard her. They immediately laughed and mocked her.

"Your brother-in-law? Momo, are you talking about that fella a few days ago? Don't be ridiculous, how could that even be

19:43 

possible?" Harper laughed instantly.

Abell was expressing his contempt, and he snorted, "Don't compare that coward who fled the battle with Master Chen, that is an insult to us as martial artists."

Sonia also laughed and said to Momo, "Momo, didn't you rest well?"

Momo just listened and was not bothered to argue or explain, but instead looked at the stage.

At this moment, Fade was approaching Brayden on the stage. He said to Brayden in a calm and indifferent tone, "Aren't you going to kill me? Now, you have your chance to do it."

While speaking, Fade opened his arms and stood right in front of Brayden.

However, Brayden, who was supporting himself on the armrest of the seat with his hands, could not do anything to Fade. Hence, Fade's magnanimity of inviting Brayden to kill him was in fact exposing his vulnerability and insignificance.

Brayden grew furious as his expression became sinister. He glared at Fade and gritted his teeth. "Die!"

As he spoke, Brayden turned to look at the crowd on his right side, waving his hand to his men on stage.

However, just as he was about to speak, Tobias suddenly said, "Young Master Chiu, let me deal with Master Chen."

"This..." Brayden hadn't expected that Tobias would offer himself and he couldn't help but be a bit shocked as he looked at Tobias.

Tobias glanced at Fade, smirked, and said, "Young Master Chiu, I would like to see how great Master Chen really is."

Brayden's expression fell and he turned to Tobias. He asked, "Tobias, he has defeated my master before. Are you sure about

19:43 

this?"

Tobias nodded and said, "I am very confident of my strength."

Brayden could only nod and say, "Then you do it!"

After that, Brayden's men carried him off the stage.

While Tobias was cracking his neck, he looked at Fade and sneered, "I have heard of your name a long time ago but I just want to see how great you really are."

Fade glanced at Tobias, with his hands behind his back. "You are no match for me."

Upon hearing that, Tobias narrowed his eyes. He said, "How can you be so sure about that before we've even fought? Moreover, I don't really believe in rumors. I only believe the truth in my own eyes."

19:43 

Chapter 1126

"Then prepare to die." Fade beckoned to Tobias. He appeared both calm and proud, as if he was sure that he could win.

"It's still too early to be certain of that!" Tobias heard Fade and he snorted heavily. He then moved his body and rushed towards Fade quickly.

While rushing, Tobias' energy surged out like numerous sharp blades, producing blasts of wind that were cutting towards Fade.

His fierce stance was even more ferocious than when he had fought with Lucas.

Strong surges of energy engulfed Fade, surrounding him whole as he stood there. The spiraling cyclone of Tobias' energy resembled countless sharp daggers that were about to cut Fade into pieces.

The audience exclaimed in surprise.

"What kind of move is this? It's too fierce."

"Tobias is even stronger than just now. Is he already in the realm of the Earth Level?"

"I don't think so, but he is not far from it. It's absolutely the strength of the pinnacle of the Black Level. It's fair that Lucas lost to him!"

.....

19:43 

"Why is Master Chen still not moving? Is he already frightened?"

"Not really; isn't Master Chen a master at the middle stage of the Earth Level? How could he be deterred by Tobias?"

"But Master Chen is not responding! Could the previous rumors be wrong?"

.....

Amidst the discussion, Tobias was getting closer and closer to Fade, his energy growing more ferocious. He smiled triumphantly as he laughed. "Are you the so-called Master Chen, the strongest master in Jade City?"

"The so-called Chinese martial artists will not even be worth mentioning if their strengths were at your level! Today, I will defeat you, the best martial artist in Jade City."

"Ha, eat this!" Tobias yelled triumphantly and attacked Fade fiercely. He was already less than half a meter away from Fade.

Under such circumstances, Fade, who had not moved at all, suddenly acted.

He raised his right hand with a ray of crimson light. The light surged, flowing along Fade's arm to stretch itself longer in the air before turning into a red sword.

With a stabbing sound, the big knife slashed through Tobias' waist directly .

The movement was so fast as if nothing had happened; even Tobias himself seemed to be unaware and he laughed. "So this was your attack? It didn't even harm me at all. The greatness of the so-called Master Chen was all just baseless rumors! Then, prepare to be defeated by me, Tobias..."

Just as he was shouting in delight, his entire body suddenly stiffened. He looked down in surprise at his own waist.

19:43 

Then, Tobias saw blood oozing out of his waist. His upper body slid down directly from his legs.

"Ah, my body..." This was Tobias' last exclaim. In his eyes, the last scene he saw was his blood gushing out like a fountain from the fracture of his waist.

Blood gushed out into the air, splashing down like rain. Tobias' body broke into two pieces that were stained by his blood and they fell onto the stage. The scene was extremely horrifying.

At this moment, Fade retracted his right arm faintly and his expression was cold. He said coldly, "The villain who murdered hundreds of innocent people deserved to be killed."

The lively audience immediately quietened down.

Even though there were many martial artists and villains at the scene, it was rare for them to witness such a scene. Every single one of them was looking at the center of the stage, dumbfounded. After a long pause, they burst into a fiery discussion.

"T-That was too bloody!"

"It only took one move, just one move to kill Tobias. He is the so-called Master Chen?"

"He is indeed Master Chen; that was too amazing."

"Tobias was digging his own grave; he deserved it."

.....

At the side of the stage, Tobias' blood splashed onto Brayden's face. His expression was grim as he glared at Fade, gritting his teeth in deep hatred. "Fade, y-you..."

19:43 

Just then, a palm patted his shoulder and a voice rang out. "There's no need. It's my turn."

When he heard this, Brayden's body trembled as he turned to look at the person behind him immediately. He was filled with respect as he exclaimed excitedly, "Senior, you must defeat Fade..."

The old man replied, "Don't worry, he is my enemy. Even without you, I would've killed him all the same."

After that, an old figure slowly walked onto the stage.

Everyone's attention was immediately captured by him. They all turned to look at him.

"Another person to continue the challenge?"

"Master Chen is so powerful; whoever challenges him is going on a suicide mission!"

"Yet another old man. This guy looks even older than Tobias. Can he really do it?"

"What the hell is Brayden thinking? It's not that he doesn't know Fade's strength, and yet he still wants to challenge him. He's asking for his own death."

.....

Amidst the discussion, the frail elder stood before Fade. He said coldly, "Today is the day I take my revenge. You will die today."

Fade frowned upon hearing his words. He stared at the man before him and tried his hardest to think about it, but he was clueless as to who he was.

The elder realized that and he continued, "Don't you remember? Then let me remind you, Master Chen. A few months ago in Dragonville, Kenny and the poisonous snake."

19:43 

Fade immediately thought of something and narrowed his eyes. "Are you from Blood Blade Killer Organisation?"

"Kenny and Davina were my disciples whom I had trained personally and they were like my children. Because you killed them, I will avenge them myself," the old man said solemnly.

Fade narrowed his eyes, stared at the old man and thought for a while. "Are you Song Khan?"

"Oh, I didn't expect that you would know me." The old man laughed dryly. "Since you know that I am Song Khan, then either you came here to accept your death or I will do it myself!"

Fade looked at Song Khan in silence.

At this time, below the stage, there was a heated discussion while pointing at the both of them on the stage.

Momo and her friends were also debating hotly when noticing the scene on the stage from the side.

Harper didn't really understand martial arts so he said casually, "That old guy is very arrogant. I don't like him."

Abell snorted, and said in a deep voice, "Master Chen just showed that his strength is at least in the realm of the Earth Level when he killed Tobias. The old man is just seeking his own death when he dares to threaten Master Chen."

Sonia heard Abell and said, "So what you mean is that Master Chen will definitely win this time as well."

Abell nodded and said, "The odds of winning is ninety-nine percent."

19:43 

Chapter 1127

While they were talking, someone was mocking them from the side, "A few brats who don't really understand anything dare to talk nonsense here."

"What did you just say?" Abell was displeased and he glared at the person who was speaking.

That person was not afraid of him and he sneered, "Why? Are you not happy with what I said? I'm telling you, the nonsense you just said isn't a big problem, but if it was heard by Song Khan, you might already be killed altogether."

"Does the old man dare to do it? I'm from the Soo family in South Bay City, if he dared..." Harper said confidently.

Hearing this, the person smiled even more disdainfully, "Soo family of South Bay City. You must be kidding me! Do you really not know who Song Khan is?"

"Who is he? Isn't he just an old man?" Harper said in contempt.

Although Sonia and Abell didn't say anything, they were also showing scornful expressions. They obviously didn't care much about Song Khan.

Hence, the person sneered and shook his head, "You're really just some little snips who don't know their place. You all don't even know who Song Khan is, but you dared to come here to have your fun. Listen to me, leave as soon as possible. Otherwise, you won't know how you would die."

19:43

When it came to death, the group couldn't help but feel a little strange. They frowned, "So the old man is really strong?"

The person snorted, "Strong? I am telling you, your so-called old man is the head of the Blood Blade Killer Organization in Asia."

"Blood Blade Killer Organization?" Hearing this, they were a little bewildered.

The person continued, "The Blood Blade Killer Organization is an infamous killer organization across the globe. As long as they are paid enough, they will assassinate anyone for you, be it the royalties and nobles, or the statesmen, or just some ordinary people."

"Song Khan is known as the best killer in Asia. It is said that his realm of strength is already at the terrifying later stage of the Earth Level."

"Now, do you know how terrifying Song Khan really is?"

After listening to the person, Abell and his friends were all dumbfounded. Their astonishment and admiration were evident on their faces. They kept repeating the impressive experiences under their breaths.

"Blood Blade Killer Organization!"

"Asia's number one killer."

"Later stage of the Earth Level. T-This..."

.....

Many martial artists who were present were too shocked because of Song Khan's strength, let alone Abell and the others.

Those who were still marveling at Fade's strength just then could not help but show worry in their eyes.

19:43 

After all, Song Khan came from an extremely great background and he was too powerful. Surely even Fade could not defend himself from a martial arts master at Song Khan's level.

.....

On the field, Fade acknowledged Song Khan's identity. He paused to look at Song Khan and he said in a deep voice. "Song Khan of the Blood Blade Killer Organization. You should have received the gift that I asked Davina to bring to you."

Song Khan pulled a long face when he heard about this. His face was grim.

At that time, Fade killed Kenny, but he let Davina escape on purpose so that she could return to the headquarters of Blood Blade Killer Organization in Asia and expose its location. However, she eventually died. As a result, the headquarters of the Blood Blade Organization in Asia had to be relocated. Song Khan had also received criticism from the headquarters due to the incident.

"I trained Davina myself. Killing her is the same as killing my daughter. Therefore, I must avenge her," Song Khan stared at Fade and said coldly while his energy surged exponentially.

Fade sensed Song Khan's intention of killing him and he snorted, "Avenge? I'm not surprised if others are saying that, but you are from Blood Blade, which is a killer organization. Don't you think it's funny to say such a thing?"

"How many innocent people have been killed by Blood Blade Killer Organization for money over the years? Have you considered what would be the result if their friends and relatives come for revenge?" Fade said coldly.

Song Khan paused as he was being questioned, and then snorted, "There are no innocent people to us. Only lives at a higher or lower price. As for revenge, they can do so, as long as they have the capability."

19:43 

"You can also train your friends and relatives so that they can avenge you in the future," Song Khan mocked.

Fade's face became gloomy when he heard those words. He squinted his eyes and said sternly, "I don't need revenge. Save it for yourself."

"Save it for myself! Do you think you can kill me?" Song Khan laughed and his energy expanded even more from his body. "Young man, I know that you can kill Kenny and Davina, as well as Titan. Your strength should be around the middle stage of the Earth Level."

"It's pretty good considering that you have reached such a high level at your age. But sadly, I am your opponent, which means you'll definitely die!"

As soon as he finished speaking, Song Khan transformed himself into a strong man from his skinny body all of a sudden. With the fierce energy surrounding him, he rushed towards Fade.

The overwhelming and ferocious energy of Song Khan had made the audience agitated and anxious.

"Is this the strength of a master of the Earth Level? It's terrifying." 

"He is a master in the later stage of the Earth Level! He's not far from the masters at the Heaven Level!"

"I think I'm going to explode despite standing so far away. I don't know how much pressure Master Chen is taking under the position he is in!"

"With this kind of strength, Master Chen will definitely lose!"

.....

19:44 

"Go... to... hell!"

Song Khan, who was exceedingly stalwart, rushed towards Fade with his gushing and powerful energy. It made him look like a huge mountain.

However, at that moment, Fade calmed down. An unparalleled freezing energy contained in his pair of eyes and the illuminating red dots were beginning to ignite.

As Song Khan approached, the light in Fade's eyes became brighter and eventually turned into two burning flames. Right as Song Khan pounced, Fade raised his head, looked over and bellowed in a low voice.

"Blazing Vision!"

Instantaneously, red flames burst out from Fade's both eyes and shot towards Song Khan's eyes.

It looked almost inevitable. However, just at the critical juncture, Song Khan managed to dodge it. The flames barely scratched him.

The flames burnt Song Khan's cheek, leaving two black lines on his face.

Song Khan rubbed his injured cheeks and with a proud and wicked smile, he said, "Is this your masterstroke? This was the move you used to attack Kenny and Davina, right?"

"Don't you think that I wouldn't be prepared before taking revenge on you? I've been ready for this since ages ago," Song Khan said complacently. "Since you have failed, now it's your turn to die!"

Song Khan laughed. His burly body smashed at Fade with a mighty force.

19:44 

However, at this time, Fade's eyelids fluttered and he said lightly, "Who said that it's my masterstroke?"

19:44 

Chapter 1128

In those words, the red light in Fade's hand streamed and whistled whilst turning into a formation.

Song Khan was stunned as he saw this and his face became a little distorted.

However, he reacted quickly and continued to attack. He snorted, "Are you trying to mislead me? Your tricks are of no use when you are fighting with someone who's truly strong."

Before he could finish his words, Song Khan, who was burly at that moment, had reached in front of Fade and attacked him.

Fade lined his fingers into a sword and the red energy in his palm had transformed into a red virtual sword. Then, he moved forward and slashed Song Khan while shouting fiercely.

The red surging flame of Fade's energy together with the aggressive power of the virtual sword exuded a beam of red light. It swept through a vortex of scorching air when cutting towards Song Khan.

At the same time, Song Khan, who had a huge physique, was radiating his dark red energy incessantly. He was like a boiling hot broth, dispersing his energy everywhere and burning everyone who came into contact with it.

"Clash!"

Fade's red virtual sword hit Song Khan and countless sparks were released when the bright red light of the virtual sword collided with the dark red light of Song Khan's energy. At that instant, the entire field was encircled by red lights.

19:44 

The light exploded and blocked the vision of the audience.

They could only feel the strong energies shooting forth towards them. It hurt them badly as if they were sliced through by numerous small blades.

The people who were standing in the front row immediately used their positive energy to protect themselves.

Even Abell and his friends standing far away were nearly tumbled by the red energies.

For a moment, they were frightened by what they saw and their faces turned pale.

"Is this the strength of a master at Earth Level? It's just so terrifying!"

"They are the true martial artists. Their strength is completely beyond what a normal person is capable of!"

"Song Khan is so powerful. Can Master Chen really handle him?"

.....

The audience, who had the same thought as Abell and the others, were also flabbergasted. They started to discuss with each other.

"It feels like Master Chen's explosive strength was even stronger than the time he fought with Titan."

"However, Song Khan is too strong. Master Chen is still in danger!"

"I hope Master Chen won't lose. We can't have a notorious killer be the Martial Soul of Jade City!"

.....

19:44 

Most of the audience was worried and cheered for Fade. Of course, there were also some of them who had different opinions.

"That Master Chen was so proud of himself when he was showing off in Jade City. Then why can't he defeat Song Khan now?"

"He isn't a master. He is just a cowardly bully."

"It's best for him to be defeated because the position of Martial Soul of Jade City is only for people who are truly capable."

"I think Song Khan is really good and powerful. He is truly an exceptional master at the later stage of the Earth Level. If he becomes our Martial Soul of Jade City, no one would even dare to bully us anymore!"

"Yes, I agree as well. Song Khan, all the best!"

.....

Due to the different perspectives, the audience started to quarrel with each other. If it hadn't been for the impact of the fighting on the stage, they might have started fighting themselves.

As the audience was debating, Fade and Song Khan, who were at the centre of the explosive energies on the stage, somehow seemed to be different at that moment.

Song Khan, who was initially confident of himself, knocked hard against Fade. He thought he could defeat Fade easily.

However, as he was fighting with Fade, he was surprised that Fade was even much stronger than he had expected. It seemed that Fade would become stronger and he eventually would surpass Song Khan.

Under such tension, Song Khan snorted and shook his body. His already bulky body became even more burly.

Song Khan had transformed himself into a two-metre-tall, masculine man. And with the additional strength he had, he rushed

19:44 

towards Fade and yelled, "Die!"

"Boom!"

There was another deafening bang on the stage and their energies were seething even more intensely.

The strong energies came like a bolt from the blue and made the audience stop quarreling.

On the field, Song Khan looked at Fade who was suppressed by him. He smiled proudly and said, "Can you feel my strength? You have no other options but to die now."

When the crowd out of the field heard Song Khan, they were even more shocked.

Those who supported Master Chen looked pale and became more worried.

While those who supported Song Khan were jumping in excitement.

"Come on Song Khan. Win the championship!"

"Master Song Khan, you are the true master! The so-called Master Chen isn't really worthy of the title."

"Jade City welcomes you, Master Song Khan."

.....

The furious supporters of Master Chen stared at Song Khan's supporters as if they were traitors but there was nothing they could say. That was because at that moment, they were more concerned whether Fade was able to survive Song Khan's attacks.

Even the Stealth Team members who were on duty worried about Fade when watching from the periphery of the field.

19:44 

Some look at Falcon and Leonardo, who were leading the team, and they spoke worriedly.

"Captains, Instructor Chen is in danger. Shouldn't we help?"

"Yeah, Song Khan is too strong. Instructor Chen seems to be unable to resist him anymore."

" We can't let Instructor Chen be in danger."

.....

Looking at the concerned members, Falcon and Leonardo also became uneasy.

However, both of them calmed down and said sternly.

"Don't need to worry. We must do our own duties first."

"Yes. It is our top priority to perform the orders that Instructor Chen gave us well."

"But Instructor Chen..." Many team members were very worried.

Falcon said sternly, "It's normal for you to be worried about Instructor Chen. However, how can we even help if Instructor Chen himself was no match to Song Khan?"

Hearing that, many Stealth Team members were apprehensive and helpless.

Noticing this, Leonardo assured them, "Everyone, don't let your spirits down! I know you are all worried, and so am I. However, don't forget that Instructor Chen isn't an ordinary person. He is the Special Instructor for the Stealth Team headquarters."

"We, the members of the Stealth Team, will not be defeated so easily!" Leonardo shouted.

19:44 

Chapter 1129

These words immediately encouraged the members of the Stealth Team. They couldn't help but feel uplifted, making fists together.

"Yes! We are the Stealth Team and we will never be defeated!"

"The Stealth Team will never give up."

"Master Chen will win!"

.....

Amidst the passionate voices, Fade was facing an even more difficult situation on the field.

Song Khan, who was appearing as a giant, had completely suppressed Fade at that point. Fade's red sword was quivering and seemed to be unable to resist Song Khan.

It appeared that it was only a matter of time for Fade to lose.

Looking at this situation, many people from the audience sighed.

Some people with ulterior motives had already begun to plan for their next steps if Master Chen was defeated.

Fade was unable to move another inch as he was suppressed by Song Khan. He looked at Fade triumphantly under such an

19:44 

atmosphere and said with a confident smile, "Are you aware of my strength now?"

"Actually, I'm quite reluctant to kill you. You have the strength of the middle stage of the Earth Level. What's more, you can even fight with me for so long. Considering your current age, you are really good."

"If you would like to join Blood Blade Killer Organization, perhaps I can consider sparing your life," Song Khan looked at Fade and he tempted. "What do you think?"

"You want me to consort with you as a killer? Ridiculous!" Fade retorted.

Song Khan snorted, shook his head, and he continued to emit energy to oppress Fade. He replied, "Being a killer is better than being a dead person."

While speaking, a dark dagger appeared in Song Khan's right hand. He pointed it at Fade and was about to cut Fade's throat, "This is your last chance. So choose wisely. You..."

Without waiting for Song Khan to finish, Fade suddenly scoffed and laughed, "Dead? Last chance? I don't think so."

"What are you..." Song Khan had a bad feeling. He originally wanted to use the dagger to threaten Fade into surrendering. However, at that moment, Song Khan increased his speed instantly and stabbed Fade violently in order to kill him in one move.

Yet when Song Khan was about to stab Fade, a red light ray suddenly emerged from the surface of Fade's body.

The light ray seemed to form a shield, blocking Song Khan's dagger. With a click, the dagger was broken.

"How is it possible? My dagger was specially manufactured from meteoric iron! How..." Song Khan was shocked.

19:44 

At that point, Song Khan felt a huge force surged toward him. Fade, who had been suppressed by him, had counterattacked with a smile at the corner of his mouth.

"After wasting so much time, it's time to get serious," Fade smiled and a ray of red light burst out from his right hand, turning into a red long sword.

When Song Khan saw this, his face was grave. He snorted, "Your same move didn't work just now. Do you think it will work now?"

Fade shook his head and said with a smile, "You will soon know whether it's the same move."

"Nineblaze Sword!"

With a screech, Fade's red virtual sword burst from his fingertips. The sword exuded its light extensively and with its scorching flames, it rushed down towards Song Khan like a roaring fire dragon.

Perceiving the terrifying power of Fade's assault, Song Khan couldn't help but be flabbergasted, urging his positive energy frantically to form a thick shield around his body and trying to block the powerful attack.

However, as the fire dragon was coming upon Song Khan, the multiple layers of his shield was like paper, unable to resist the offense of the fire dragon.

"Die!"

Fade pointed his fingers upwards and the fire dragon that was roaring lashed to Song Khan with an unstoppable force.

"No..." The energy that Song Khan felt terrified him and made him want to flee from the battle.

19:44 

However, the howling fire dragon had already come down and it went through Song Khan directly .

Song Khan, who was gigantic, noticed the huge blood hole in front of his body. He couldn't believe it but his blood gushed out from his mouth and his body shrank rapidly. He turned back into the thin old man he was before falling to the ground.

At this moment, Fade walked up to him and looked down at him from his elevated position. Fade faintly asked, "Any last words?"

Song Khan looked up at Fade in disbelief, as if he still could not believe that he had lost. He gritted his teeth and said, "I-If you kill me, everyone in the Blood Blade Killer Organization headquarters will come after you."

Fade shook his head when he heard the words, and said coldly, "Do you still think threatening me will work?"

After speaking, Fade raised his hand and was about to end Song Khan's life.

When Song Khan felt that he was about to die, he yelled, "What is your level of strength? I still can't believe that I'm dying in the hands of a martial artist at the middle stage of the Earth Level."

Fade paused and shook his head lightly. He whispered, "Of course you didn't die in the hands of a martial artist at the middle stage of the Earth Level. I am at the pinnacle of the Heaven Level."

"The pinnacle of the Heaven Level!"

Hearing those words, Song Khan's eyes widened in disbelief. His face was full of horror and shock and it all turned into endless remorse, "The pinnacle of the Heaven Level... No wonder! I shouldn't have..."

However, before he could finish, Song Khan choked on his last breath and fell to the ground.

At that moment, Fade waved his hand and set off a strong wind to blow away the smoke and the energy on the field.

19:44 

Then, he glanced at his surrounding area and the audience and announced loudly, "Song Khan is dead!"

Hearing this, the clamoring audience dropped silent. Everyone was dumbstruck when they looked at the center of the stage. They were flabbergasted and incredulous.

However, after that, the crowd suddenly erupted and turned into an uproar, rumbling to the sky at Sunset Mountain.

"Song Khan, who was from the Blood Blade Organization and at the later stage of the Earth Level, is dead! He is indeed dead!"

"What the hell happened? Didn't Song Khan have the upper hand just now?"

"Master Chen defeated Song Khan, so it means that Master Chen is at least at the later stage of the Earth Level."

.....

After the shocking moment, the supporters of Master Chen looked at Song Khan's supporters.

"Didn't you just say that Song Khan would win? So now what?"

"You told me that Song Khan was better than Master Chen to be the Martial Soul of Jade City? Now, say that again!"

"Master Chen has won. What else do you have to say?"

.....

Those people who had supported Song Khan just then cowered and dared not say a word at all.

Some people lowered their heads or even laid on the ground, waiting for an opportunity to escape.

Fortunately, Fade didn't even bother to pursue the matter and let them leave. Otherwise, more would die there.

19:44 

Chapter 1130

Fade looked at the lively audience, then turned his head to glance backstage as he vaguely felt something. He lifted the corner of his lips and smiled.

Then, he raised his right hand and the crowd quietened down immediately.

Fade said, "I've defeated Song Khan so I am the Martial Soul of Jade City. Does anyone have any objections?"

The once lively scene was silent. Everyone looked at Fade on the field and didn't say anything.

Fade spoke again, "Whoever disagrees can challenge me on the stage."

Just the thought of challenging Fade alone could make the people shudder from fear.

Immediately, someone shouted, "I don't object!"

"Me either!"

"We all agree! No objections!"

.....

The rest of the people joined in once the first person started to show their stance. Eventually, all of them chanted together, "Master Chen, the Martial Soul of Jade City! Master Chen, the Martial Soul of Jade City."

19:44 

Looking at the enthusiastic audience, Fade nodded and he beckoned to someone from backstage, "Come out!"

Then, Lucas came out from the backstage, looking flushed. The crowd's eyes flickered in surprise.

After all, Lucas was injured in his fight with Tobias. Yet, he came on stage in good form and it piqued the audience's interest.

Fade glanced at the curious crowd and then said loudly, "Although I'm now the Martial Soul of Jade City, I still have my own affairs and I can't deal with a lot of things by myself. So, I'll need to nominate a deputy to help me deal with the relevant matters."

"And I choose Lucas to be my deputy. Do you have any questions?" Fade looked at the audience.

The crowd clamored almost instantaneously.

"They knew each other beforehand?"

"I knew that Lucas was probably Master Chen's underling. It looks like I'm right after all!"

"I have no question with whoever is supported by Master Chen."

"I also support Master Chen."

.....

Many of them consented. However, surely there would be some who wouldn't agree.

"Lucas lost just now. Is he really qualified to be the deputy?"

"So many people spent time fighting for the position, but now Master Chen wants to name Lucas directly? I don't think it's really appropriate."

19:44 

"Yeah, I'm afraid it's not convincing enough!"

.....

Fade comprehended their thoughts but he didn't explain. He only nodded to Lucas and said, "You may start."

Lucas nodded, took a step forward, and said loudly, "I know that some of you have doubts about my strength. You might think that I'm not capable of being Master Chen's deputy because I lost just now."

"I won't say much on this matter, but I'd like to have everyone watch what I'm going to do next," Lucas continued.

He easily got the crowd's attention.

"What is he going to do? Is he going to show his strength right now?"

"He's injured. What kind of strength can he show now? I don't think it'll be good enough!"

"What he said sounds like an empty promise to me. Who knows what will happen in the future?"

.....

Lucas also heard their doubts but didn't explain much. Instead, he gathered his energy. Almost immediately, he trembled and a burst of energy spread out and encompassed the entire venue.

Everyone from the audience was startled by what they had seen.

"H-His energy is so strong."

"I can really feel the pressure!"

19:44 

"Lucas' strength seems to be stronger than before. What happened?"

.....

While everyone was discussing, Lucas's positive energy burst out of his palm and condensed into a ribbon in the air before flying towards the audience below the stage.

"This is Vital Energy, the mark of a master at the Earth Level!"

"Lucas is an Earth Level master? Then how did he lose to Tobias just now?"

"No. He had a breakthrough. An impromptu one. He just achieved it!"

.....

Amidst the discussion, Lucas shook his arm lightly and his Vital Energy formed into shape and it brought someone to the field.

When they looked closely, that person was none other than a limping Brayden who was trying to flee.

At this point, Brayden, who was horrified, bowed to Fade and implored for mercy, "Master Chen, I'm sorry! Please, give me a chance and forgive me. I will never do it again!"

Fade didn't respond to him. Instead, he just glanced at Lucas. Recognizing the cue, Lucas translated his Vital Energy into a sharp blade and wielded it to pierce Brayden's heart.

Brayden instantly fell to the ground and his blood gushed out from the cut. His energy dissipated and it wasn't long before he became a cold corpse.

After killing Brayden, Lucas looked at the audience and said loudly, "This is what I said I was going to do. Now, does anyone still

19:44 

have any objections? Those who object can come up and challenge me. If I lose, the position will be yours."

Lucas' domineering and even slightly arrogant words had quieted the audience.

The people exchanged looks but just shook their heads and retreated.

Lucas was already quite powerful when he was fighting Tobias, not to even mention that he had a breakthrough and stepped up to the Earth Level. No one from the audience would be a match for him.

No one came onto the stage to challenge Lucas and their unified silence eventually turned into a unanimous answer, "No objections!"

Upon seeing this, Fade nodded in satisfaction, "In that case, I conclude that the Martial Arts Convention at Sunset Mountain has come to an end. I, Fade Chen, will be the new Martial Soul of Jade City, and Lucas Xie will be my deputy as well as the Guardian of Titan Studio. He will help me manage all matters relating to it."

"Congratulations, Master Chen. Congratulations, Guardian Xie!" Everyone chanted in unison.

Right after that, everyone turned around and started to leave.

At the outermost area, Momo and the others also turned around first and prepared to leave.

However, when Momo heard Master Chen say his name "Fade Chen" on the field, her eyes lit up. She turned and looked at the field with curiosity and doubts before mumbling to herself, "Master Chen is also called Fade. He has the same name as my brother-in-law. Could he be my brother-in-law?"

When Momo turned her head to look back, Fade was also staring in her direction. He moved his lips.

19:45 

Immediately, Momo, and only she alone, heard a voice, "Momo, when things are done here, I'll come and visit you. Be safe when you are leaving the mountain."

"This voice..." Momo was astounded when she heard the familiar voice of her brother-in-law. She looked at Fade who was standing on the stage and found that he was smiling at her. Momo gasped in surprise, "He's really Master Chen! He's really my brother-in-law!"

Everyone around her looked over when they heard Momo. Abell, Harper and Sonia also turned their heads to look at her.

Then Sonia quickly held onto Momo's arm and left, "Momo, what are you talking about? Hurry up or else there will be a lot of people."

Seeing this, people around them laughed.

"Another little girl who was charmed by Master Chen."

"By the way, my sister is single. Isn't it great if Master Chen marries her?"

"Stop dreaming. She's not worthy of Master Chen."

.....

As they left the mountain, the people had fun talking rubbish with each other.
