

04:05

Chapter 1311

Cynthia glanced at Fade and Yuri, then she told Noah, "Mr. Noah, just now, back on campus, they met Savir."

He exclaimed, "Savir!"

When this name was mentioned, even Noah's expression changed. After all, Savir was a famous young master in Capital City Music Academy. Because of his strong family background and immense arrogance, he had done a lot of outrageous things in the school, but in the end, not only did nothing happen to him, he even had a lot of pursuers.

Therefore, when Savir was mentioned, even Noah could not help but become serious.

"So they met Savir. What happened?" He asked.

Cynthia continued, "Mr. Noah, of course something happened, and it's not a small matter too."

"Uh..." Noah's face fell.

Cynthia continued, "In campus, Savir had a conflict with this Mr. Chen. In the end, Mr. Chen actually beat him and his bodyguards up."

"What!" Hearing this, Noah was extremely shocked.

Cynthia continued. "What's more, I heard their conversation. Mr. Chen seems to have had a conflict with Young Master Xu. I heard that this was the second time."

04:06

"Young Master Xu was beaten so badly that he returned home. Judging from his and the Xu family's characters, I am afraid that this might not be the end of it. By then, not only will Mr. Chen be unable to protect himself, I am afraid that he might even get others involved. The school might even get involved."

Speaking of this, Noah's face completely fell. He looked at Cynthia seriously and asked, "Is all of this true?"

Cynthia nodded and confirmed, "Mr. Noah, what I said is all true. Many people in the school saw it too. Moreover, if you don't believe it, you can ask them for yourself."

Upon hearing this, Noah looked at Fade and Yuri. He paused for a moment and then asked, "Yuri, is Cynthia telling the truth?"

"Mr. Noah, about this, we..." Yuri wanted to explain.

At this time, Fade replied calmly, "Mr. Noah, that's true. I did hit Savir. I also had a conflict with him back in the past. However, he was the one at fault; he always has been. I had to teach him a lesson."

When he heard this, Noah was really anxious. He could not help but stomp his feet and said, "Mr. Chen, this isn't the matter of who's right or wrong. What's important is that the other party is Savir, the young master of the Xu family!"

Fade was still as calm as ever. "I know who he is. He is just a member of the Xu family. To me, he is still not a big deal."

When she heard this, Cynthia immediately sneered and repeated in a sarcastic tone, "Haha, the Xu family is not a big deal? Do you know how big his family's business is? Do you know that his family's assets have reached over a billion yuan?"

"You poor little thing, how dare you look down on the Xu family? You are such a braggart."

Obviously, Noah did not believe Fade's words either. He frowned and remarked, "This is indeed quite a troublesome matter."

04:06

After a pause, he continued, "Yuri, Mr. Chen. Why don't you two hurry up and apologize to the Xu family? If you are sincere, there might be more room for negotiation."

Hearing this, Fade could not help but frown. He said, "Savir purposely attacked me before. This time around, he spoke rudely and even teased Yuri. Should we apologize to him even after he has done something like this?"

Hearing this, Noah frowned unpleasantly and continued, "Mr. Chen, I am saying this for your own good. We are just normal people and nothing good will come out of bullying a young master like him."

"Mr. Noah, whether it is good or bad, it has nothing to do with you," Fade commented coldly.

At this time, Yuri also tried to ease the situation. She told Noah, "Savir has indeed gone too far this time. Moreover, Brother Chen has the strength to fight against the Xu family. There is no need to worry about this."

"There is no need for you to worry about this matter. I can handle it." After all, the other party was Yuri's teacher and Fade did not want to have a fall out with him, so he changed the topic.

However, after hearing this, Noah's expression got even more gloomy, he said, "You can handle it? How are you going to handle it? Do you know the consequences of offending Savir?"

"Mr. Noah, we..." Yuri still wanted to explain.

However, at this moment, Fade sneered and he stopped Yuri, saying, "Yuri, there is no need to explain. I think that the reason why Mr. Noah is so anxious is because he will be implicated in this matter."

"Don't worry. Savir's matter has nothing to do with you. Nothing will happen to you."

04:06

After that, Fade pulled Yuri up, and he said, "Yuri, there is no need to continue this meal anymore. Let's go!"

When Yuri saw the change in Noah's expression, she suddenly understood that Fade was right. Noah was indeed worried about getting himself into trouble, so he had asked them to apologize so hastily.

At the thought of this, Yuri felt really disappointed. She did not expect her beloved teacher to have such a cowardly side. She shook her head and was about to leave.

Noah's face changed dramatically. He looked at the two of them as his face fell.

As for Cynthia, she was smiling with a hint of pride. After all, after this incident, Yuri and Noah would not be so close to each other anymore. She would naturally be able to gain some benefits from this.

Fade and Yuri were about to leave the room.

However, at this moment, there was a noise at the lower part of the restaurant, and a burst of noise could be heard.

Upon hearing the sound, Noah was shocked and asked, "What's going on? What happened?"

Cynthia walked to the windows and looked out. She suddenly exclaimed, "Mr. Noah, bad news. Savir and the Xu family are here."

"What? Savir has brought his men here?! Noah suddenly turned pale with fright and his expression became flustered.

Fade and Yuri were also slightly stunned, but they did not think too much about it. They continued to move forward and were ready to leave.

But at this time, Cynthia got close to Noah and whispered, "Mr. Noah, we can't let them leave! If Young Master Xu and the others have arrived here, then they know for sure that you are having a meal with them. If the Xu family investigates this matter, I am

04:06 A small grey battery icon with a white level indicator.

afraid it will cause trouble to you!"

When Noah heard this, his whole body trembled and a touch of worry could be seen on his face. His expression got serious. After hesitating for a few seconds, he turned around, looked at Fade and Yuri, and shouted, "You two, stop."

The two of them stood still, they turned around and looked at Noah.

Yuri was a little curious, she asked, "Mr. Noah, is there anything else?"

04:06

Chapter 1312

Noah's expression was grim as he ordered in a low voice, "You two, you can't leave this place!"

"Why can't we leave?" Yuri was puzzled.

Noah did not explain. He only insisted again, "You mustn't leave!"

Yuri still wanted to continue asking, but Fade stopped her and he glanced at Noah coldly. He then questioned, "You can't wait to express your contributions now that the Xu family is here?"

Noah's face fell. He just looked at Fade but he did not explain himself. He only repeated himself, "No matter what, you two can't leave this place."

After hearing this, Yuri understood Noah's thoughts. She was thoroughly disappointed and she stopped looking at Noah. In fact, she did not want to see him anymore.

At this moment, Fade looked at Noah and snorted, "If we want to leave, what can you do to stop us?"

"You, you..." Noah's expression changed. Naturally, he did not dare fight Fade. He could only grit his teeth and threatened Yuri, "Yuri, you are my student. Are you going to disobey my words now?"

Yuri glanced at Noah and she shook her head as she ignored him.

However, Fade stated coldly, "You don't deserve to be Yuri's teacher. When we go back to school, I will find someone else to be

04:06

Yuri's teacher."

"You, you two..." Noah was extremely angry now.

Cynthia sneered, "Get her a new teacher? Haha, do you think you can still go back to school after offending Young Master Xu?"

Ignoring their words, Fade and Yuri opened the door to the room and they were about to leave.

Noah rushed over and wanted to stop him, but before he could do it, sounds of footsteps could be heard outside the private room. Then, a group of people rushed in and they immediately filled half of the room.

Savir was the leader among this group of people. Beside Savir stood a middle-aged man in his forties or fifties. He was dressed in a suit and he looked very stylish. One could tell that he was wealthy at first glance.

At the sight of these people, Noah immediately bowed down with a smile. "Savir, Mr. Xu!"

Cynthia greeted them as well.

Upon hearing this, Savir and Mr. Xu looked over, they were a little surprised. "Mr. Noah, why are you here?"

"Uh, I..." Noah did not know how to explain himself at the moment. When he saw Fade and Yuri, he thought of something and said, "I knew that they had offended Young Master Xu, and Yuri is my student. Therefore, I called them here to criticize and punish them, and I was asking them to apologize to you two."

After that, Noah looked at Yuri fiercely and shouted in a low voice, "Yuri, come and apologize to Young Master Xu and Mr. Xu. Hurry up!"

Upon hearing this, Yuri continued to stand still; she did not move. She only stared at the group of people in front of her coldly.

04:06

Fade then spoke in a cold, rude and sarcastic manner, "Mr. Noah, you don't have to take your stance so anxiously! After all, you are a teacher. You are embarrassing yourself like this."

"You, what nonsense are you talking about!" Noar roared and then shouted at Yuri, "Yuri, I'm asking you one last time. Come over and apologize to Young Master Xu and Mr. Xu. Otherwise, I won't have you as my student anymore."

However, Noah was only greeted with Yuri's cold and contemptuous gaze.

Mr. Xu, who was wearing a suit and leather shoes, looked at Noah and remarked in a low voice, "Mr. Noah, this student of yours seems to be a bit disobedient!"

Noah's face fell, but he still forced a smile onto his face as he reluctantly explained, "Mr. Xu, t-this student is a little rebellious. I can't discipline her either. I don't know what to do since she has done such an outrageous thing."

"Actually, I have only heard about it a little while ago too. I knew nothing about this beforehand. If I had known in advance, I wouldn't have allowed them..." Noah desperately explained as he tried to clear his relationship with her. He did not want to get involved.

Maeve was a businessman so how could he not understand Noah's thoughts? He snorted softly and said, "If a student makes a mistake, it is not the teacher's fault. Mr. Noah, you are a good teacher, or so I've heard."

Hearing this, Noah immediately heaved a sigh of relief. From his meaning, he would not be implicated. He stopped feeling anxious and was now completely relaxed.

Meanwhile, Savir, whose eyes were filled with anger, was staring at Fade with icy-cold eyes. It was as if his gaze was about to pierce through Fade. "How dare you hit me? Now, it's time to pay the price."

04:06

Fade's gaze was calm as he shook his head. He looked at Savir and said, "If I remember correctly, I have already warned you. I've shown you mercy the first and second time, but I won't hold back if there is a third time."

His tone was cold and Savir could not help but tremble. He seemed to have recalled the scene of how Fade had taught him a lesson twice.

At this moment, Maeve stepped forward as he stared at Fade and said in a low voice, "Young man, it would be wise to keep a low profile."

Fade then returned, "You should say that to your own son."

Maeve replied in a deep voice, "I will teach my son well, but you, you seem to lack discipline."

"You don't have the right to discipline me!" Fade returned coldly without any trace of politeness.

Maeve's gaze turned cold and he said, "Of course I am not interested in teaching you. However, you have tried to scheme against my son time and time again, especially back in the ravine in the mountains. You should give me an explanation."

"You're asking me for an explanation?" Fade sneered. "Why don't you ask your son about what he did back then? I was kind enough not to ask your family for an explanation. How dare you ask me for one?"

"No matter what had happened back then, the fact remains that my son was hurt. Hence, you must pay the price for that," Maeve insisted in a harsh voice.

"Haha!" Fade laughed coldly. "You two are indeed father and son. You two are equally unreasonable."

"I don't want to waste time talking to you. Don't you want to take revenge on me? Then come at me! But you should make sure

04:06 A small grey battery icon next to the time 04:06.

that you can handle the consequences." After that, Fade narrowed his eyes. A cold and majestic pressure emanated from his body as he walked towards the group of people.

All of a sudden, those men all felt an invisible pressure pressing down on them and their movements became much more rigid.

Maeve's face turned pale and he took a few steps back. He waved his hand and ordered, "Go, get him!"

In an instant, two tall and imposing men in their forties who were standing behind Maeve walked out. They were his professional bodyguards whom he had hired with a large sum of money. Their strengths were all at the Black Level, and it was obvious that they were definitely masters.

04:06

Chapter 1313

The two bodyguards rushed towards Fade and Maeve's pressure was immediately relieved.

He looked at Fade and said, "I know you have some knowledge in martial arts, but upon facing real martial arts professionals, you are no match for them at all!"

"Is that so?" Fade smiled. He immediately faced the two bodyguards who were rushing towards him as he remarked, "Early stage of the Black Level. If I were you, I would just turn around and leave while I still can."

Upon hearing this, the two bodyguards' expressions suddenly fell.

"Young man, you are young, yet you are so arrogant!"

"Since you can see how strong we are, it seems that you are quite impressive yourself, but, let's see how strong you really are."

.....

"Don't waste your breath on him. Just fight him!" Savir gritted his teeth in impatience as he said that.

The bodyguards' expressions darkened. They stepped forward, one on the left and one on the right. Their positive energies spread, then they attacked Fade from both sides.

The burst of energy from the Black Level martial artists caused a burst of explosion in the private room and everyone in the room was shocked. At the same time, they were filled with excitement. It seemed like they could already see Fade and Yuri's

04:06

demise.

However, under their expectant gazes.

Facing the attacks of the two bodyguards, Fade's expressions darkened as he took a step forward. A majestic momentum then burst out and it was a huge pressure for the two bodyguards.

The two confident bodyguards felt the oppression of the huge momentum and they were immediately shocked.

This was because they could feel that his power was not one that they could resist. The strength of the energy was at least at the late stage of Black Level. They wouldn't dare fight someone at this level.

The two of them stopped at once and they quickly took a step back and begged for mercy.

One said, "Sir, we were wrong!"

The other said, "We wouldn't dare, please forgive us!"

Fade replied calmly, "You're only regretting your actions now? Too late!"

After Fade said that, a powerful energy surged out like a tsunami. It swept over the two bodyguards ferociously.

The two bodyguards' faces instantly turned pale. They turned around and wanted to escape, but as soon as they took a step, they were directly hit by Fade's attack. They both slammed onto the ground, groaned in pain, and then fainted on the spot.

While this was happening, Maeve and the group all had a confident look on their faces; they were ready to see Fade get destroyed.

Who knew that in an instant, the battle had ended. The result was something that no one had expected.

04:06

"What, what happened? The bodyguards, they, they lost."

"How is that possible? They are both martial artists at the early stage of the Black Level. How could they be defeated?"

"This isn't real. This can't be real."

.....

Fade then stepped forward while they were shocked. He looked at Maeve and questioned coldly, "So, are you still trying to get revenge?"

Maeve's face fell but he still managed to calm himself down as he said, "Your strength is beyond my expectations, but not everything can be solved by force."

"Oh, so you have other ways to deal with me?" Fade smiled as he looked at Maeve.

Maeve replied with confidence, "I am a businessman. Before I do anything, I always investigate it thoroughly."

"Your name is Fade and you are a teacher in Capital University. Yuri is a student of Capital City Music Academy. I heard that she is even a little famous now."

"Just think for yourself. If I wish to, I can get someone to make a story of a teacher in Capital University attacking people. I can even reveal your odd relationship with Yuri."

"Just think about it. What will happen to you? Won't your road to fame be ruined after being expelled by the school? Or will things be more serious? Try to imagine it!"

After that, Maeve turned to Fade and Yuri. There was a look of confidence on his face.

04:06

It seemed that he did investigate a little bit about them and wanted to use it to threaten Fade and Yuri. Moreover, he thought that it would really be effective.

Suddenly, Fade and Yuri fell silent.

Seeing this, Savir, Noah, Cynthia and the others, who had been shocked by Fade's strength just now, smiled again at this moment, feeling very proud.

"Haha, what's the use of only knowing martial arts? In this modern society, money and power are the true strength," Cynthia sneered.

"I have tried to persuade them just now, and they did not do the right thing themselves. This is what happens to people like them, who else can be blamed except themselves?" Noah said.

"Hahaha, let's see how proud you two can continue to be!" Savir exclaimed gleefully.

.....

Following Fade's silence, Maeve stepped forward as he said confidently, "What do you think? Are you willing to yield now?"

"By the way, I forgot to tell you. Not only does the Xu family have money from doing business, we also do business with the Luo family from Capital City, so we have a very deep relationship with each other. If you still refuse to give in, I don't mind using the Luo family to teach you a lesson."

Hearing Maeve's words, they grew even more pleased. They crossed their arms and watched the show in delight.

However, at this moment, when Fade heard Maeve's words, he laughed. "The Luo Family, what a coincidence. I was going to ask

04:06

Gentro about it. Now, it seems like there is no need for that."

After that, Fade took out his mobile phone and dialed a number.

Upon seeing this, Maeve sneered and said disdainfully, "Are you going to call someone? Haha, I'll give you a chance to call someone. I want to see who you can call!"

Cynthia even satirized unceremoniously, "The Xu family and Luo Family are close. Who else can you even call? Just give up, stop struggling."

Noah then added, "Yuri, you have to think about your own future! It is not a good choice to ruin your own future for such an unreliable person!"

Savir's face was filled with hatred. He gnashed his teeth and said, "This time, you won't be able to escape, no matter who you are."

Fade ignored their sarcasm as he called Gentro and said, "Is this Gentro? I am Fade. I need your help with some things. Come over now! Okay, I'm at..."

After listening to Fade's phone call, they were slightly stunned. Then, their sarcastic remarks grew even worse.

"Gentro, isn't that the name of the young master of the Luo family? Is he seriously calling the young master of the Luo family?"

"How is it possible? Does he even know the young master of the Luo family? Don't make me laugh."

"I think he's just putting on an act. He heard Mr. Xu mention the Luo family, so he wanted to use Young Master Luo's name to scare us. How lame."

04:10

.....

Maeve had a cigar in his mouth. He looked at Fade with a mocking expression as he said, "Young man, you are still too young. These tricks have no effect on me."

Fade smiled and asked, "Really? Then we'll see whether it's useful or not in a little while."

After that, Fade relaxed and he started to chat with Yuri.

04:10

Chapter 1314

After more than ten minutes, it was still as quiet as ever; nothing had happened.

Maeve and the rest could not wait any longer. They started to mock him with disdain.

"Where is the person you called? Why hasn't he arrived yet? You must be lying!"

"Haha, he's the young master of the Luo family, a real big shot. It'll be a real shock if he really arrives."

"There's no need to wait. Oh look at me, I'm so scared now."

.....

After a few more minutes, it was still the same; nothing happened. Maeve and the people on his side were getting impatient.

Savir said, "Dad, let's just do it. Don't waste any more time. This guy is just trying to stall for time. He's deliberately lying to us."

Cynthia agreed, "That's right. When he was at school just now, he only drove the most basic BMW. How could he even know Young Master Luo, much less get him to come here?"

After listening to everyone's words, Maeve frowned slightly as he looked at the time, and immediately said, "I don't have time to waste on you. I will give you one last chance. Get down on your knees, break your arms and apologize to my son, Savir. I might consider sparing you if you do that."

04:10

Savir's face was full of ferocity and arrogance. He glanced at Yuri and added, "Dad, that's Yuri. I like her and I want her." Hearing this, Maeve glanced at Yuri and then told Fade, "If she goes with my son, I won't make things too difficult for you." Fade ignored them.

Maeve grew even more displeased. He frowned and shouted coldly, "I have given you a chance. Since you won't appreciate it, don't blame me for not going easy on you."

As he spoke, Maeve took out his mobile phone. He was about to give some orders to take revenge on Fade and Yuri. However, at this moment, there was a flurry of footsteps at the door of the private room and someone entered.

The person quickly rushed into the private room. He looked around and saw Fade. He immediately stepped forward and said, "Mr. Chen, I'm sorry. There was heavy traffic on the road so I'm late. Is it urgent? How should I deal with this matter?"

Fade waved his hand and replied faintly, "It's okay. It's not a big deal. It's just a small matter. I might have troubled you to come over here."

Gentro smiled at Fade and said, "It's not troublesome for me to come for you at all, Mr. Chen."

As they were talking, everyone else was watching them.

Cynthia frowned, she sneered and said, "Haha, you two sure are putting on a good act! You even found someone to play the role of Young Master Luo. However, do you really think we will be frightened by this?"

Cynthia was just an ordinary student and she had had no chance to meet Gentro, a young master, at all. Therefore, at this moment, when she saw Gentro coming over in a hurry, she instinctively suspected that he was not the real person, but a fraud

04:10

whom Fade found to help him out.

After that, Cynthia thought that she had seen through Fade's lies as she looked at him proudly.

At this time, Gentro also learned the ins and outs of the matter. He nodded and walked over with a gloomy face.

Seeing this, Cynthia sneered and said, "Haha, even though you are exposed, you are still acting! Where did you come from? How dare you pretend to be Young Master Luo? You're digging your own grave."

After that, Cynthia looked at Maeve and Savir with a proud expression, hoping that she could win their praise.

However, what she did not expect was that when Savir and Maeve looked at Gentro, their faces fell and they were completely shocked.

"Mr. Xu, what's wrong with you? This Young Master Luo is obviously a fake. Why are you so nervous? He..." Cynthia still did not understand the situation.

At this time, Savir stepped forward and slapped Cynthia on the face and he shouted angrily, "Shut up."

"Young Master Xu, you..." Cynthia was stunned. She did not understand what was going on.

At this moment, Maeve forced a smile as he approached Gentro. He smiled brightly as he asked, "Young Master Luo, why are you here?"

Gentro's face was cold. He pointed in Fade's direction and returned coldly, "Mr. Chen is my friend. Why do you think I'm here?"

"About that, I-I don't know. Young Master Luo..." At this moment, Maeve stammered.

Cynthia, who had just been slapped, covered her red and swollen cheeks as she looked at the angry Savir. She finally understood

04:10

why she had been slapped.

It turned out that the fake Young Master Luo she was mocking, was actually the real one; he was not a fraud at all. If Young Master Luo was real, then Fade really was someone whom she could not offend.

At the thought of this, Cynthia could not help but shudder. She started to tremble and her face was filled with horror.

On the other side, Maeve and Savir trembled while Gentro walked towards Fade as he frowned. "Mr. Chen, they have admitted their mistakes. How do you want to deal with them?"

Maeve stood respectfully in front of Fade and he was not that arrogant anymore. "Mr. Chen, we didn't know that you were Young Master Luo's friend. I have offended you just now. Please forgive me."

After saying that, Maeve glared at Savir who trembled and kneeled down in front of Fade. He kowtowed and pleaded, "Mr. Chen, I was wrong. I was really wrong. Please give me a chance. I was wrong..."

Fade looked at Savir, who was kowtowing and apologizing. He then said faintly with a cold expression, "I have already given you a chance. In fact, I gave you two chances. However, you never stopped. Now, you have to pay for what you've done."

"Mr. Chen, I..." It seemed like Savir still had words to say.

However, before he could finish speaking, Fade waved his arm and shot out a few beams of light right into Savir's limbs.

Suddenly, a loud scream echoed in the room. Savir was covered with sweat as he fell to the ground with his face all red. He could not move at all, as if his limbs were all broken.

Fade immediately withdrew his hand and said faintly, "This is what you get."

04:10

Maeve looked at his son, who was crippled and in great pain, feeling sorry for him. However, he did not dare do anything. Instead, he gratefully told Fade, "Thank you for your mercy, Mr. Chen."

Fade ignored Maeve and waved his hand, indicating for them to leave.

Maeve immediately turned around and prepared to leave. It looked like he had been granted an amnesty.

However, Gentro stopped him, and he said in a cold voice, "In the future, the Luo family will no longer cooperate with the Xu family."

"What, this..." Maeve was shocked. His body shook violently and he almost fainted on the ground.

"Yes, thank you, Young Master Luo." Maeve left with a pale face and he carried the disabled Savir with him.

Noah and Cynthia, who were still in the private room, felt really uncomfortable, as if they were sitting on pins and needles. They did not know whether they should stay or leave.

It was not until Fade waved his hand and motioned them to leave that the two of them hurriedly ran away.

04:10

Chapter 1315

After settling this incident, Fade and Yuri did not have the mood to continue their meal. After paying the bill, they left the private room.

After waving goodbye to Gentro, Fade sent Yuri back to school.

Under the dormitory building, Fade told Yuri, "I will find another teacher for you later. There is no need to follow someone like Noah anymore."

Yuri nodded and then added, "Brother Chen, let's wait until Sister Song comes back before we decide on this. After all, she was the one who had introduced me to him. If I change my teacher now, I'm afraid..."

Fade nodded and agreed, "Alright, then. We'll wait until Susie returns."

After they reached an agreement, Fade waved his hand and he was ready to bid her farewell.

However, at this moment, a group of people came over. Two men in their fifties were the leader of the gang. They were dressed in suits and ties. Behind them was a group of people who looked like teachers. They looked like leaders.

This group of people walked towards the dormitory. They were about to go upstairs, but when they saw Fade and Yuri at the door, they were stunned.

The middle-aged man with glasses quickly walked over with a smile on his face and he took the initiative to reach out his hand.

04:10

"You must be Yuri, right?"

"If I'm not mistaken, you must be Mr. Chen!"

The spectacled man greeted him enthusiastically, which surprised Fade. "You..."

Yuri was stunned for a moment, but she came back to her senses in a while. With a surprised look on her face, she looked at the middle-aged man in shock. "Mr. Zhao, you, you..."

The middle-aged man with spectacles was Danny Zhao, the principal of Capital City Music Academy.

Yuri obviously didn't expect the headmaster to be so polite to her, an ordinary student. She was surprised for a moment.

At this moment, Danny turned his gaze towards Fade and explained, "Yuri, Mr. Chen, I am here to apologize to you two."

"Apologize?" Yuri repeated in confusion.

The teachers and staff of the school who came along with him were all surprised as well. They didn't understand why Danny, a dignified headmaster, had taken the initiative to apologize to a student.

"Mr. Chen, Yuri. I just learned about the matter between Mr. Noah and Savir. I also learned about the troubles they have caused the two of you. This is a mistake from the school, which is an oversight of mine. I hope that you both can forgive us." Danny's attitude was very humble.

Upon hearing this, Fade immediately understood what had happened. It seemed that Danny had learned about what had happened just now and he understood Fade's relationship with Gentro. Therefore, he immediately apologized and expressed his stance.

04:10

Although Fade did not like this kind of behavior, he could understand him. He nodded and said, "Mr. Zhao, we can understand this. It's just that I may have to trouble you with changing Yuri's teacher."

Danny hurriedly agreed, "I will definitely find her the best teacher. I won't let the both of you down."

Fade said, "Thank you very much, Mr. Zhao. Young Master Luo and I will remember how you have taken care of Yuri."

Fade had deliberately mentioned Gentro in order to make Danny feel less worried.

Sure enough, after hearing this, the smile on Danny's face became brighter. He smiled and rubbed his hands, "That is my job. Thank you, Mr. Chen."

Fade nodded and Yuri immediately expressed her gratitude too.

This matter was settled but Danny did not leave yet. Instead, he continued to talk to Yuri, "Yuri, a friend of mine wants to see you. There is something we need to discuss with you."

"Mr. Zhao, your friend?" Yuri was a little surprised.

At this point, the other middle-aged man, who was the leader, stepped forward with a smile. He smiled at Yuri and Fade before introducing himself. "Miss Zhang, Mr. Chen, hello. I am Dante."

Upon hearing this name, Fade did not show too big of a reaction. He only shook hands with Dante.

On the other hand, Yuri showed a look of great shock. She was stunned for a moment before she frantically shook hands with Dante.

The other students and teachers around were even more surprised. They all looked at Dante.

04:10

"Who is..." Fade curiously asked Yuri.

Yuri explained in a low voice, "Dante is the founder and president of Dante Entertainment. It is now one of the largest entertainment companies in China. There are many big stars under his company. Sister Song is part of Dante Entertainment too."

After listening to her words, Fade finally understood Dante's identity and status.

Dante said with a smile, "I came to school to catch up with Mr. Zhao today. I heard that there's a very excellent singer on campus, so I had specially asked Mr. Zhao to come have a look with me."

"Now that I have seen you in person, Miss Zhang, I am even more sure of Mr. Zhao's words."

"I would like to invite you to join Dante Entertainment. I don't know if you're interested or not!" After saying that, Dante turned to Yuri with a smile on his face.

Before Yuri could react, the teachers and students around her were already all excited. Their eyes were shining; all of them wanted nothing more than to accept Dante's invitation on behalf of her.

After all, this was an invitation from Dante Entertainment. It was a contract from the best entertainment company in the country. Furthermore, it was from the chairman himself.

Everyone believed that as long as Yuri agreed to sign the contract, Dante Entertainment would definitely support her. She would become a first-line singer in the future and even a huge celebrity. Anything was possible.

Many students grew jealous when they saw this.

04:10

Yuri hesitated for a while, then she shook her head and told Dante, "Thank you for your invitation, but I have just entered the academy and I think that I am not good enough. I am afraid that I am not qualified for a position in Dante Entertainment, so I can't agree to your invitation now. Please forgive me, Mr. Jee."

Upon hearing this, Dante smiled faintly and said, "Miss Zhang, you are modest, since that's the case, I won't force you, but please keep my personal business card. If you change your mind in the future, you can contact me at any time. The gates of Dante Entertainment are open for you at any time."

"Thank you, Mr. Jee." Yuri accepted the business card with both hands.

Then, after saying goodbye to Dante and Danny, they left.

The students who were watching the scene exclaimed with regret and they sighed with emotion before dispersing.

In the lobby of the dormitory, it became quiet once more.

Fade looked at Yuri and asked with a smile, "Yuri, that was such a good opportunity. Why didn't you agree to them? If you had agreed to them, you could have been a celebrity."

04:10

Chapter 1316

Yuri smiled and said to Fade, "Brother Chen, you're just purposely making fun of me. I know what my strengths are and I don't think I would be a qualified artist with my current potential."

"Yuri, you're being too tough on yourself. Yuri, when you sing, your voice is incomparable to that of many professional singers," Fade complimented her with a smile.

"Brother Chen, you are laughing again. I cannot agree with your statement. On one hand, it's because of my own capabilities, while on the other hand, the invitation of Mr. Jee was not for me, but rather for you, Brother Chen."

"Because of me? How is that so? I'm not the one with a good voice," Fade returned.

Yuri waved her hand saying, "Brother Chen, it's not about singing. I'm talking about your relationship with Young Master Luo."

"Oh, why would you say that?" He asked.

"More than a year ago, when Sister Song sent me to school, she took me to Dante Entertainment Company. She wanted to refer me to Mr. Jee so that the company can sign me."

She then continued, "It was just that during that time, Mr. Jee was quite busy with his work and didn't have the time to meet me. We then finally left a recording file in the company and left. At a later time, Sister Song tried to ring them up many times, but there was no response from the company, and eventually the matter came to an end."

04:10

"They didn't sign me at that time, but now, Mr. Jee has taken the initiative to sign me on together with President Zhao. I think it must be because of you, Brother Chen," she finished.

After hearing this, Fade thought about her words. Meanwhile, he did think that Yuri's assumptions were probably true. It seemed that Mr. Jee was rather interested only because of his relationship with Gentro, hence he was doing this solely for the sake of the Luo family.

Otherwise, it would be difficult to explain the major change in Mr. Jee's attitude then and now.

Of course, this was human nature and Fade could understand their thoughts.

After that, he bade farewell to Yuri and drove away from Capital City's Music Academy.

Not far from campus, there was a traffic jam on a narrow road ahead. The road was so packed that the cars couldn't move at all.

Some of the impatient drivers were honking their horns, but to no avail. All they could do at the moment was to patiently wait as they cursed.

Fade was in the car for more than ten minutes, but there was still no progress of the jam. Rather, the cars kept piling up, making the queue longer and longer. Some people who were impatient got out of their cars to see what was causing this traffic.

Fade could vaguely make out a group of people shouting a few hundred meters ahead and they were pushing each other around. It was a chaotic scene and there were occasional wails of people being beaten up.

Upon seeing this, Fade frowned. He then got out of his car and headed over.

Soon, Fade reached his destination. It appeared that the frontmost car had stopped right in the middle of the road, causing all

04:10

the cars behind to be stuck in the traffic.

At this very moment, many disgruntled drivers and passengers had gathered around and collectively started discussing it.

Several brawny men in suits and sunglasses, dressed like bodyguards, got out of the cars and shoved people away who were surrounding them.

Amidst the shouts of the two parties, a conflict occurred and it seemed to be getting worse.

Upon seeing this, Fade squeezed through the crowd. He then looked at the car parked on the side of the road and was rather surprised as the person in the car was not just any person, it was Dante, the president of Dante Entertainment. Fade had just seen him back in the Capital City's Music Academy.

Dante had turned pale and he was sweating profusely as he clutched his chest, and leaned against the back seat. He appeared to be in immense pain. The driver was giving Dante first aid treatment, but with little to no effect. Fade could tell from the expression on Dante's face that the situation was getting worse.

"Why isn't the ambulance arriving yet? Are all the people in the hospital dead?" A secretary made calls on his phone anxiously while cursing.

Someone then came to report, "Secretary Qin, the hospital has rushed an ambulance to this place, but it is currently rush hour and the traffic jam is too bad for it to arrive here."

"Then use the helicopter! If there is anything wrong with Mr. Jee, we'll be done for," Secretary Qin demanded angrily.

The subordinates didn't dare to say anything more and they only could nod their heads and did as he said. They immediately began to make calls as they tried to find a way.

04:11

By this time, Dante was twitching fiercely when he suddenly let out a cry of pain and fainted.

His subordinates became even more flustered, and for a moment, they were puzzled about what to do next. The drivers and passengers blocked by the traffic didn't know what was happening, and as their impatience accumulated, they too began to break down. Those bodyguards could no longer withstand the united force of the crowd.

Seeing that the situation was getting worse, Fade walked over quickly as he said, "I am a doctor, let me through so I can treat Mr. Jee!

"You..." Several bodyguards looked suspiciously at Fade and didn't allow him to proceed.

Secretary Qin, who was on the phone, was surprised when he saw Fade. "Mr. Chen, it's you! Get out of the way and let him through.

Secretary Qin had been following Dante around when he was on campus. Of course, he had met Fade then, so he asked the bodyguards to make way for him.

"Secretary Qin, what's wrong with Mr. Jee?" Fade asked.

Secretary Qin hurriedly answered, "Mr. Jee has suffered from a coronary heart disease for many years. He just suddenly became ill and there was no medicine by his side. The ambulance is stuck in traffic now and his condition is getting worse by the minute."

Let me have a look! " Fade hurried forward and proceeded to hold Dante's wrist, trying to find his pulse.

Although Secretary Qin did not believe that Fade could cure the disease, he was still a friend of Young Master Luo. He didn't mind at all and allowed Fade to treat him.

04:11

Soon after Fade felt Dante's pulse, he pulled out a bunch of silver needles and stated, "I can treat Mr. Jee's illness!"

Before Secretary Qin could react, Fade had already inserted the silver needles into Dante's body.

Watching the finger-length silver needles entering Dante's body, Secretary Qin grew worried. If something went wrong, he would be held accountable.

As of now, Fade had performed the procedure and it was too late to stop him. He could only pray that Fade really had the ability to treat Dante.

Under Secretary Qin's worried gaze, Fade's hands moved swiftly with the silver needle. He then injected the aura of True Energy into Dante to stabilize his condition.

After a short 3 minutes later, Fade took out the silver needles, stood up, and announced loudly, "It's done!"

04:11

Chapter 1317

"Ah..." Before Secretary Qin came to his senses, he saw the unconscious Dante slowly opening his eyes.

He was filled with immense joy as he rushed over. "Mr. Jee, you're awake. Are you alright?"

Dante replied in a daze, "I feel much better. Have we arrived at the hospital?"

Secretary Qin helped Dante sit up as he pointed to Fade and replied, "Mr. Jee, we are still in the car. We happened to meet Mr. Chen. He is the one who saved you!"

Then, Secretary Qin quickly talked about what had happened earlier.

When Dante heard this, he couldn't help but feel grateful. He reached out his hands and held Fade's hands tightly. He then said excitedly, "Mr. Chen, thank you very much. Thank you so much. I-I don't know what to say."

Fade smiled and waved his hand. "Mr. Jee, you're welcome. I'm just doing what I have to do."

"For Mr. Chen, it could just be you doing what you had to, but for me, it's a life-saving favor!" Dante answered gratefully.

"Mr. Jee, enough with the compliments. You've been ill for some years, haven't you?" Fade asked.

Dante nodded. "It's an old disease. I have been ill for 16 or 17 years. I have visited all doctors all over the world, searching for renowned doctors, and I even took a lot of medicine. I tried many ways but there was no cure for the disease.

04:11

After hearing this, Fade immediately said, "Mr. Jee, if you trust me, I can cure your illness."

"Mr. Chen, can you cure it?" Dante repeated in surprise.

Fade nodded and confirmed firmly, "Yes I can, and I can guarantee it."

"T-This is really good news!" Dante was very shocked. "When will you have time to treat this illness?"

"I can do it at any time, that is, if it is convenient for you, Mr. Jee. But for now, you should head to the hospital."

At this very moment, a rumbling sound echoed in the skies. As everyone looked up, a helicopter was approaching.

When Secretary Qin noticed it, he said, "Mr. Jee, the helicopter is here."

Dante looked up and then said to Fade, "Mr. Chen, if you don't mind, could you come by my house? I have a private hospital there."

"Sure!" Fade did not refuse and had someone help him drive the car back as he got on Dante's helicopter and flew home with him.

After ten minutes or so, the helicopter landed in a quiet villa area on the western outskirts of Capital City.

When the helicopter landed, the cabin door was opened. In front of Fade was a quadrangle building, but it was not an old home of any sort in Capital City. It was a rather well-decorated mansion with various modern quirks.

As soon as Dante got off the helicopter, a group of people rushed out of the courtyard and greeted him anxiously.

"How is Mr. Dante? Is he alright?"

04:11

"How's my dad?"

"Uncle, how could you forget to bring the medicine!"

.....

In a hurry, Dante waved to them with a smile and said, "Don't worry, I'm fine."

The family members were surprised when they saw that Dante was healthy and was able to walk down from the helicopter on his own. Coming up one by one, his family members tried to help Dante into the house.

However, Dante stopped them. Instead, he turned back and respectfully said, "Mr. Chen, please!"

Fade then got off the helicopter. Dante greeted him with utmost respect.

Seeing this, the people of the Jee family could not help but feel surprised. They looked at Fade with shock and confusion written on their faces.

Among them, a twenty-four-year or twenty-five years old girl walked over to Dante and asked, "Dad, this is..."

Dante smiled and then introduced Fade to the Jee family members in a clear voice. "This is Mr. Fade Chen, both my savior and my friend."

Then, he introduced his family members to Fade.

"Mr. Chen, this is my daughter, Ingrid. This is my wife, this is my..."

Fade nodded, as a way of acknowledging and to greet them as well.

04:11

Dante then warmly and enthusiastically welcomed Fade into the living room.

After that, Fade smiled. "Mr. Jee, there's no need for all of this. Let's hurry this up and get down to business!"

Dante nodded, then turned to Fade as he said, "Sorry to trouble you, Mr. Chen. Excuse me as I would have to go and prepare."

Then, Dante left the living room, leaving his wife and family members behind in the living room with Fade. His daughter, Ingrid, followed behind Dante to the bedroom with a puzzled and curious look.

"Dad, what the hell is going on? Who is Fade?" She asked.

"Didn't I tell you? That he is my friend and my lifesaver?" Dante glanced at her.

"Dad, stop kidding around. When have you ever made friends this easily, and even brought them back to your home? Furthermore, he is still so young. What does he have to do with you, and how did he become friends with you?" Ingrid questioned doubtfully.

"Ingrid, Mr. Chen's relationship with me was an accident because of a student of the School of Music in Capital City. At that time, we..." Dante explained.

He then told her that he had met Fade, and that he had saved him on the way.

After hearing this, Ingrid couldn't help frowning as she said, "Don't you think it's too much of a coincidence? He, a nobody who suddenly appeared, became a friend of Young Master Luo without any reason, and happened to cure your illness and saved your life."

"I'm deeply worried that someone had deliberately staged this incident. Is he trying to hurt you?" Ingrid frowned as she voiced

04:11

her thoughts in a deep voice.

Dante frowned slightly. "Ingrid, don't think too much. Mr. Chen is not that kind of a person."

"Dad, it's not that I think too much. It's just that you have quite a big business now and just so happen to have a lot of enemies. In the past few years, there have been lots of accidents. To add on to that, I haven't found the one from that year," Ingrid reminded him.

When it came to "that person", Dante's face couldn't help but sink and he shook his head and said, "No, Dad can't have anything to do with that person."

"Dad, we have to be alert!" Ingrid insisted. "Besides, even if it is not his identity, he, a young man in his 20s, has claimed that he can cure your illness. Do you think this is very credible? You have visited so many famous doctors, but they haven't cured you!"

"Uh..." Dante was stunned for a moment when he heard those words, but he quickly said, "I trust Mr. Chen. After all, he didn't know me and he had no interest in me whatsoever. He wouldn't need to hurt me at all."

04:11

Chapter 1318

"But Dad..." Ingrid was persistent in persuading him.

However, Dante shouted in a low voice, "Enough, Ingrid. It's good that you're cautious, but it's not good to judge others with malice at all times."

After that, Dante got up and walked out. "Help me arrange a session for the private hospital. I'm going to ask Mr. Chen to treat me."

Ingrid saw that her father was so stubborn, and grew even more anxious and worried. However, she also knew that it was useless to try to persuade him now. She could only catch up to him and say, "Dad, the magic medicine I went to the East Coast Island to ask for has arrived. Perhaps you would want to take that first?"

As she spoke, Ingrid took out a green jade bottle.

Looking at the "immortal medicine", Dante's expression changed, but then he thought of something and said, "You'd better ask Mr. Chen for his opinion!"

"Dad, you have taken this immortal medicine before and it worked well. Now, you don't even believe in the immortal medicine, but believe in that kid instead?" Ingrid felt that her father was being possessed by the devil.

Dante, however, replied solemnly, "Mr. Chen has cured me with a few needles on the highway just now and now, I feel much

04:11

better. So, I do believe him."

"But Dad..." Ingrid still wanted to say something, but Dante had already gone out.

Later, they came to the private hospital of the Jee family. It was well-equipped with all kinds of equipment and tools, with professional doctors on standby. The conditions were absolutely no less than that of the ordinary hospital.

"Mr. Chen, do you need any equipment or medicine that you require? I'll have someone to prepare them," Dante turned to him and said.

Fade looked around and responded, "No, it's unnecessary. I'm using acupuncture for treatment. There's no need for any medicine. The other tonics here are enough."

When Dante heard this, he couldn't help but feel a burst of joy. He was about to lie down in the hospital bed and start receiving the treatment.

However, at this time, Ingrid came over with a group of family members with a worried look and said, "You, stop right there!"

Hearing the voice, Fade stopped, turned to look at Ingrid and asked, "Miss Jee, what's the matter?"

Ingrid looked at Fade with a look of scrutiny and questioned, "My father's illness is very complicated. Many famous doctors can't cure it after they examine it, but you said that you can cure it. I want to know which medical college you graduated from and which hospital you work with. What successful medical records have you got? You..."

Upon hearing this, Fade understood that they were doubting his medical skills.

Suddenly, his face fell as he replied in a cold voice, "I don't study at any medical school, nor work in any hospital. If you don't

04:11

believe me, I'll leave."

After that, Fade looked at Dante and said, "Mr. Jee, since that's the case, I'll take my leave first."

Dante saw that Fade was angry and immediately became anxious. He glared at his daughter, and then quickly got up and pulled at Fade. "Mr. Chen, I'm sorry. I didn't make it clear. My daughter didn't mean it. She was just worried too much about my illness, so..."

At this moment, Ingrid continued to ask, "Dad, why do you believe in a nobody like him?"

Behind him, the other family members also began to worry.

"Dante, the treatment of patients is no insignificant matter. You can't just do it as you wish!"

"Uncle, didn't Ingrid ask for the magic medicine for you? Take the medicine and you'll be fine."

"Uncle, you can't treat your body as a child's play!"

.....

As she spoke, Ingrid took out the jade bottle again and poured out a small black pill.

The pill was giving off a strong fragrance. As soon as it was out, it immediately filled the room with its fragrance. Everyone couldn't help taking a deep breath, which felt intoxicating.

Ingrid handed the pill to Dante as she said, "Dad, take this elixir, please. Haven't you tried it before? It works very well."

"Uh..." Dante looked hesitant.

04:11

"Dad, there's no need to hesitate," Ingrid urged.

At this moment, Fade took a deep breath and savored it for a few seconds. Then, he frowned and his expression sank.

Just as Ingrid was about to feed Dante with the medicine, Fade shouted coldly, "Wait a minute!"

Hearing this, Ingrid frowned and looked at Fade and said with pure disdain, "What are you doing? You deliberately disturbed my father from taking the medicine. Do you want to save him or hurt him?"

Fade then repeated coldly, "Save him or hurt him? Hmph, if you wanted him dead, you could've just handed him this medicine."

"What!" Upon hearing this, everyone in the room was stunned

Ingrid glared at Fade and gritted her teeth. "What are you talking about? This is my father. Of course I want him alive."

"But it's you who is the one interfering with my dad's treatment. What are you even thinking about? Did someone send you here to target my dad?" Ingrid questioned.

Without a chance for Fade to reply, Dante quickly apologized. "Mr. Chen, I'm sorry, Ingrid was impulsive. She spoke without thinking. I formally apologize to you, Mr. Chen."

"But, I would like to ask you, what did you mean just now?" Dante asked curiously.

Faced with Dante's respectful attitude, Fade collected his mood and calmly answered, "What I mean was very simple. The so-called magic medicine in your daughter's hands can't cure your illness at all. Instead, it has poison in it, which will accelerate the decline of your body and grant you an early death."

"What!" Dante could not help but be shocked.

04:11

However, Ingrid had disbelief written all over her face. "What are you babbling on about? This is the magic medicine that I have worked so hard to get, and my father has also taken it before. It works very effectively."

"Mister Chen, I have taken this before. It's really effective. This..." Dante paused in confusion.

Fade then stepped forward, and grabbed the pill from Ingrid's hand.

"What are you doing? Return the medicine to me!" Ingrid was extremely furious.

At this time, Fade came to the laboratory rig, crushed the pill, added a little water, and turned it into a pool of black mud. Then, Fade took out a little mud and dropped it into a petri dish.

"If you don't believe it, you can observe it. What's the effect of it?" Fade questioned coldly.

The Jee family was puzzled and in disbelief, but Dante still waved his hand and allowed the doctor to observe the sample.

Ingrid gritted her teeth and glared at Fade. "You destroyed the magic medicine I asked for. You won't be able to afford it even if you sell it."

Fade ignored her. At this time, the observing doctor gave a cry of surprise, "Oh!"

"What's wrong, Archer?" The Jee family asked.

Dr. Zhu then replied, "The cells in the petri dish have deteriorated many times faster and many cells have decayed."

"Oh, this, how can it be, how can it be..." The Jee family did not dare to believe it.

04:11

Chapter 1319

Dr. Zhu then zoomed in the image under the microscope and showed it to the Jee family. "Look, the cells in these two petri dishes are completely the same. One is the dish where Mr. Chen has placed the drug in, and the other is the one without the added drugs."

The cells in the petri dish with added drugs were dying at a very fast rate, while the cells in the petri dish with no added drugs were behaving normally.

This time, the Jee family couldn't help but be shocked and their faces were filled with doubts.

"How could this be?"

"No way, this is an immortal medicine."

.....

Ingrid still couldn't believe it at the moment. "No, this experiment is not well examined at all. Also, you can't explain why my father is still alive when he has been taking it then?"

Fade snorted, "You still don't believe it? Archer, please try again. This time, use the lab rat!"

"Yes!" Dr. Zhu quickly started to do as he said.

Soon, a little white mouse was fed with the medicine, and then it was locked back into the cage.

04:11

The little white mouse, who had just taken the medicine, had no reaction yet and was as lively before, but not long after, the movements of the little white mouse became sluggish and it became slower and slower. Its skin grew wrinkled and the mouse seemed to have aged a lot.

Eventually, after about ten minutes, the little white mouse laid down without any movement.

Dr. Zhu examined its body and exclaimed in surprise, "It's dead. The rat is dead."

"What? How could that be possible?" The Jee family was stunned.

Dr. Zhu examined it again and added, "Moreover, judging from the symptoms, the cause of the death of the little white mouse was heart failure, a natural heart failure. To put it in a better way, it died of old age."

"How is that possible? Just now, the little white mouse was still alive and kicking, how could it have died so quickly?" When they heard this, everyone became shocked.

Fade then asked coldly, "Now, do you understand my words?"

Dante's heart was still beating fast with fear, and he thanked Fade again and again.

However, it seemed that Ingrid was still unable to accept the facts presented before her. She shook her head and muttered, "How could it be? It can't be. Why is it like this? Why was everything alright before?"

Fade then replied coldly, "He was fine before because human beings are much larger than lab rats and the dosage required for death is much higher. Moreover, the other party that was behind the whole operation had handled this medicine well, so the effect of the medicine is not as fast. That's why you wouldn't notice it."

04:11

"This, I, I..." Ingrid fell speechless for a moment.

Fade continued to ask, "Mr. Jee, where did you get these so-called magic medicines? Who gave them to you?"

After asking this, Dante couldn't help but fall into deep thought, and then he slowly explained, "I was working abroad last year and I had another attack back then. We were so afraid that we headed to a temple to pray, along with Ingrid."

"In the end, we met an old man in a Taoist robe from the temple. The old man claimed that he was an immortal who had traveled everywhere and knew that I was sick. We had the chance to meet that time and he was able to help me with my treatment."

"At that time, when we heard it, we naturally did not believe it. We only thought that he was a swindler and wanted to drive him away. But then, this old man managed to state my name, my family background and even some small matters that happened to me decades ago, which made me start to believe him."

"Then, he felt my pulse again, which made me feel more comfortable and more convinced. In the end, he left a pill and said that it could cure my illness as he left."

"Until then, I was still skeptical, but then, two days later, I suddenly fell ill again and an emergency occurred. I took the pill and the effect was really good. Therefore, we trusted the old man very much."

"We sent people to the temple to look for that old man, but he had already left. Later, we asked around for news about the old man and wanted to ask for the medicine again, but there was no news of him until a few days ago when Ingrid finally heard something. She found the old man on a small island in the East Coast and asked for the medicine. So..."

After hearing this, Fade nodded and finally understood the entire matter. He then said to Dante, "According to my assumptions, the old man is probably a cultivator who pretends to be mysterious, but I can't guess why he wants to hurt you."

04:11

"A cultivator trying to hurt me!" Dante's expression fell.

The faces of the other members of the Jee family also sank and their expressions grew grim and nervous.

Seeing this, Fade asked, "Mr. Jee, what's the matter?"

Dante shook his head and replied, "No, nothing."

Since Dante was unwilling to answer, Fade did not continue to ask. He changed the subject and said, "Mr. Jee, if there is nothing else, let's start the treatment!"

"Yes, sorry to trouble you, Mr. Chen." Dante nodded.

Although Ingrid and the others were still a little worried and suspicious after witnessing what had happened, they could only stand aside speechlessly.

Fade did not ask the others to leave. He just treated Dante with acupuncture right in front of them. While he was treating him, he injected the aura of True Essence into Dante's body through the silver needles to repair the disease in his heart.

Finally, after a half an hour later, Fade, who had a thin layer of sweat on his forehead, took out the needles and said, "Mr. Jee, it's over."

Dante got up from the hospital bed and stretched his body. Suddenly, his face was filled with surprise. "I really do feel much better and I feel relaxed all over. The feeling of being flustered all the time is gone now."

The Jee family immediately surrounded him.

"Dante, are you really all right?"

04:11

"Dad, are you alright? Do you feel unwell anywhere?"

.....

Fade stood aside and stated, "If you don't trust me, let Archer have a look."

"Yes, yes. Dr. Zhu, sorry to trouble you," Ingrid agreed in a hurry.

Dr. Zhu then used many instruments to have a good look at Dante. After examining him, a large collection of forms and data came out. Dr. Zhu stared at them carefully and then cried out, "Oh!"

"Archer, what's wrong?"

"Archer, are there any problems?"

.....

The Jee family was extremely nervous.

Dr. Zhu answered with surprise on his face, "There is no problem at all. According to the results of the examination, Mr. Jee's coronary heart disease is now completely cured and all the data readings are normal. Not only that but his heart function has become stronger. He doesn't appear to be a middle-aged man in his fifties at all but rather, a young man in his thirties."

04:11

Chapter 1320

"T-This is great!" Dante was extremely surprised and delighted. He jumped down from the hospital bed, held Fade's hand and said gratefully, "Mr. Chen, thank you so much."

The rest of the Jee family members were in a daze. They turned to Fade in disbelief.

Ingrid frowned and asked Dr. Zhu again with uncertainty, "Archer, are you sure the results of the examination are correct?"

Dr. Zhu replied, "Miss Jee, I have treated Mr. Jee for more than ten years. I will not make such a rookie mistake."

"How, how is this possible..." Ingrid still found it somewhat unbelievable.

At this time, after Dante had thanked Fade, he turned to Ingrid and shouted, "Ingrid, come here and apologize to Mr. Chen."

"I-I..." Ingrid hesitated for a moment, but still stepped forward and bowed to Fade to apologize. "Mr. Chen, I'm sorry. I was too ignorant just now and have been rude to you. Please do forgive me."

Fade replied, "It's nothing. I can understand why you questioned me so much."

"I..." Facing Fade's cold attitude, Ingrid didn't know what to reply.

Dante also noticed the cold tone in Fade's words. Knowing that he was still a little angry, he quickly stepped forward and said, "Mr. Chen, you have saved me once again. You've done me such a great favor. I don't know how to repay you."

04:11

"Tonight, I must ask you to stay for dinner. I want to thank you, Mr. Chen," Dante insisted.

Getting to know a big shot like in the entertainment circle was of little use for Fade himself, but it was good for Yuri and the others. Therefore, Fade did not refuse and nodded in agreement. "Well then, sorry to trouble you, Mr. Jee."

"No, there's no trouble at all!" Dante replied quickly.

Dante then arranged for his family to entertain Fade, while he went to prepare for dinner.

After all, Fade had done him a huge favor this time. He naturally needed to think about what gift he needed to prepare for Fade so as to repay his kindness.

Ingrid didn't want to stay with Fade, so she followed her father out.

Dante saw his daughter pouting and remarked, "Ingrid, this time, you were reckless. Mr. Chen did not blame you so it's fine."

Ingrid was still somewhat unconvinced and replied, "That's just a normal reaction. After all, so many famous doctors couldn't manage to cure your illness. I didn't know that a nobody like him could really cure you, Dad."

Dante then replied in a deep voice, "Our country is vast in territory and rich in resources. There are many hidden talents. Many high-ranking people live in seclusion. Don't judge a person by his appearance and age. You will suffer in the future if you do that."

"Besides, Mr. Chen is a friend of Young Master Luo. Don't you know how his personality is? Would he make friends with ordinary people?"

"H-How would I know!" Ingrid pursed her lips..

04:11

At this time, someone knocked on the door. Secretary Qin came in and said to Dante, "Mr. Jee, the investigation about Mr. Chen is out."

"Go ahead!" Dante said to Secretary Qin.

Dante, being such a big boss, was naturally curious about Fade's sudden appearance. Even if it was for his own safety, he was curious about who Fade was.

Therefore, Secretary Qin had arranged for someone to investigate Fade's identity and information, and now the result was clear.

At this moment, Ingrid also looked curious and quickly said, "Uncle Qin, hurry up and tell me, what exactly is Fade's background?"

Secretary Qin said, "Mr. Jee, and Miss Jee. According to my investigation, Mr. Fade Chen, a 24-year-old man, is working as a teacher at the School of Chinese Medicine of Capital University."

"What? He's so young, but he's already a teacher at Capital University?" Mr. Jee repeated in surprise.

A look of disbelief flashed across Ingrid's face. "Don't tell me he's staying in the school as an associate master student?"

Secretary Qin shook his head and replied, "Mr. Chen is neither a graduate student nor an associate professor. He just came to the capital from Dragonville a few months ago. Moreover, he is a professor specially hired by Capital University."

"What? Professor!"

"A 24-year-old professor at a university in Capital City. This, this..."

Both father and daughter felt that this was rather unbelievable.

Secretary Qin then continued, "Mr. Chen had a conflict with Faber Chiang during the period when he was teaching at Jing City University. He expelled Faber, and in the end, he went against the Chiang family of Chiang Medical Center."

"The Chiang family is a well-known family of traditional Chinese medicine in Capital City. I have also seen Edmund before when I was ill," Dante added.

"It's not easy to confront the Chiang family! What's the final outcome? Did Young Master Luo help him solve the problem?" Ingrid asked.

Secretary Qin shook his head and answered, "Mr. Chen was not very close with Young Master Luo then. At that time, the Chiang family went to Capital University. Everyone thought that Mr. Chen was doomed. Unexpectedly, the president of the university had personally saved Fade."

"This..." Dante and Ingrid both didn't expect this.

Secretary Qin was a little excited as he continued to say, "In this case, of course, the Chiang family would not give up. Then, Chiang Medical Center attacked Mr. Chen's company and wanted to bring it down."

"By the way, when it comes to the company, I want to add on something. Fei's Life Elixir Wine, that has been all the rage in Capital City last time, was produced by Fei Enterprises Holdings Inc, which is also Mr. Chen's company."

"What? Fei's Life Elixir Wine belongs to his company!" At this point, both father and daughter were extremely shocked.

Secretary Qin nodded and continued, "The Chiang family made all kinds of public opinions against it, which almost destroyed Fei Enterprises Holdings Inc, but at the critical moment, Mr. Chen personally showed up and exposed the lie of the Chiang family in the science lecture held by Chiang Medical Center. He invited two talents of national medicine, Jason Tu and Flynt Choi, to set

up a real pharmaceutical center and compete against Chiang Medical Center."

"Moreover, at that time, James Wen, secretary to Chief Director of the Drug Administration, Director Qi, had personally stood up for Mr. Chen and made a huge announcement. That was that Mr. Chen was the recipient of the special contribution reward of the country. The reason behind that was because Mr. Chen was the inventor of the Ephedra Syrup."

"Later on, Mr. Jee and Miss Jee, you probably know about how everything ended. Edmund was caught and Chiang Medical Center didn't last long and later completely closed down. Now, the Chiang family has been completely exiled from Capital City."

After listening to this, Dante and Ingrid were completely shocked.

"Mr. Tu, Master Choi, the two National Medical Chinese Medicine Masters!"

"Director Qi, James Wen, they're the most powerful people in the pharmaceutical industry!"

"Special contribution reward! That's the highest honor in the country!"

"The Ephedra Syrup is the drug that fought against the monopoly of foreign antibiotics and saved thousands of lives. I remember that the official TV station made many reports at that time. I didn't expect that it was Mr. Chen who had invented it."
