

18:33

## Chapter 1361

"Laney, what did you just say? Baldrick said that our instructor has been arranged?" A short-haired woman in tight-fitting clothes looked at Laney in surprise and asked.

"Yes!" Laney nodded. "Belinda, Baldrick told me this in person."

Belinda, whose figure was perfect, was the captain of the Five Elements Squad's Water Squad. She was also the captain of Laney's team. However, she usually had a good relationship with the team members, so they didn't enforce many rules.

Just then, on the other side, a thin man with a pair of glasses pushed his glasses up his nose bridge and asked, "Laney, did Baldrick tell you who the instructor he arranged for us is?"

Laney shook her head and replied, "Captain Lin, Baldrick only said that the instructor has been arranged, but he didn't tell me who it was."

This man was the captain of the Five Elements Squad's Wood Squad, Arthur Lin.

Arthur then nodded his head and thanked Laney.

Lester, who had been frowning and did not speak, glanced at Laney and remarked disdainfully, "Baldrick didn't say who this new instructor is. He must not be a famous powerful person. Choosing such a person as our instructor is a waste of time. It's better for us to practice ourselves."

18:33

When Laney heard this, she didn't reply to him. She only frowned slightly.

Then, Lester continued, "What's more, we have discussed it before. If we can't find a qualified instructor, we will have Romeo train us. We all know his strength. He is also our boss. It's better for us to practice with him than have a new instructor."

After that, Lester looked at the captains and asked, "What do you think? When Baldrick brings the new instructor here later, we can propose it together. We don't agree with the new instructor arranged by him."

Beside him, Belinda and Arthur remained silent for a while before they spoke.

"Romeo is not bad. He's the captain of the Gold Squad and is quite close with us. We've been together for several years. His strength is slightly stronger than ours. If he comes to train us, the results should be quite effective. If the new instructor is not exceptionally good, I would rather have Romeo be our instructor," Arthur agreed.

When he received words of agreement from Arthur, Lester nodded excitedly at him.

Then, he looked at Belinda with an inquiring expression.

Belinda frowned slightly and commented, "Romeo is not bad, but I don't think it's good for him to be our instructor."

"Well... Belinda, don't you trust Romeo? His strength has reached the later stage of the Earth Level, which is one realm higher than us. Why don't you think that it's a good idea for him to be our instructor?" Lester questioned.

Belinda looked displeased at his words. She looked at him and returned coldly, "Lester, don't put words in my mouth. You have a good relationship with Romeo and we are teammates. There is no trust or distrust between us."

"The reason why I said he was inappropriate is that of my own judgment."

18:33

"Then tell me about it," Lester snapped.

"First of all, you have to understand why Baldrick has arranged a new instructor for us. There is only one purpose, and that is because of the Martial Arts Convention held by the Martial Arts League in three months. He wants us to achieve good results by then," Belinda started.

"We all know that." Lester glanced at her.

"I'm not finished yet. Don't interrupt me!" Belinda glared at him unhappily and continued, "We all know that the Martial Arts Convention of the Martial Arts League is a gathering of powerful martial artists, the top competition amongst the domestic martial artists."

"The strength of the Five Elements Squad of the Stealth Team is not bad and can be considered as the top group. However, it is still not enough to win the championship. Not to mention those well-known martial arts clans who might send their disciples to participate, we may not even be able to defeat those masters trained by the Martial Arts League themselves. In addition, our country is vast and rich in resources. Maybe there will be some self-learners. By then, would you have the confidence to guarantee the accomplishments of our Five Elements Squad?"

When they heard Belinda's doubts, all of them were stunned and they looked a little depressed.

After all, what she said was true. Although the Stealth Team's Five Elements Squad was good, their strength couldn't be considered the strongest. Not to mention that they had fought with the experts of the Martial Arts League themselves and were indeed slightly inferior to them.

Moreover, it was common for unknown masters to appear at the Martial Arts Convention.

18:33

Their memories were still fresh. At the Martial Arts Convention 20 years ago, a master named Moore Chen suddenly appeared and defeated many popular contenders as a dark horse. He won the championship in the end, which made his name instantly blow up amongst the audience.

Later, they found out that Moore was very likely to have obtained the treasure of the Dragon Mausoleum, and it explained how he suddenly rose from a nobody. For a period of time, Moore had set off the events at the Dragon Mausoleum that had been dormant for many years, causing a great upsurge of treasure searching. 📖

After that, Moore had only been active in front of the public for a year before he vanished. However, the incident of Moore winning the championship as a dark horse had been the discussion at the Martial Arts Convention for many years. After so many years, people were still talking about it whenever the convention was held.

As they fell silent, Belinda continued, "We are all familiar with Romeo and I don't doubt his strength. However, we are too familiar with him. It would be very difficult for us to rely on him to improve our strength and become the strongest team to win the championship in three months."

"So, in my opinion, in order to win the championship, I think we should choose a new instructor. As the saying goes, no breakthrough, no improvement. Maybe the new instructor can lead us to a breakthrough."

After listening to Belinda's words, Arthur couldn't help but nod his head. He felt that it was quite reasonable.

Lester frowned, looking dissatisfied, and he remarked, "It's not so simple to make a breakthrough. If the new instructor can't help us to make a breakthrough, our results would be even worse."

Belinda returned coldly, "That's better than staying put, not moving forward and always sticking to the rules!"

18:33

"You..." Lester was dissatisfied, and was about to argue with Belinda. However, since he was in the base, he still controlled himself. He turned to a stocky man next to him who had not been saying anything. "Gallen, you are the captain of the Earth Squad. Tell me, what do you think?"

Gallen kept a crew cut, and looked simple and honest. He smiled and replied, "I am fine with whoever the instructor is. I'll support whoever can make me stronger!"

"A bunch of nonsense. It's no different from saying nothing!" Lester commented discontentedly.

Gallen was not angry at his words. He smiled and stated, "I'm telling the truth. That's what I think, truly."

18:33

## Chapter 1362

Lester frowned, then took out his mobile phone, turned around and said, "Romeo is still on a mission outside and hasn't come back. I'll call him and ask for his opinion."

Belinda couldn't help but frown when she saw this. Arthur and Gallen, however, acted as if they were already used to it and didn't say anything else.

Lester called several times, but Romeo's phone had been turned off. Finally, he had no choice but to frown and put away his cell phone. He glanced at the other captains of the Five Elements Squad and repeated, "In any case, I don't agree with this new instructor."

The other three were about to talk. At this moment, Baldrick entered with Fade.

Seeing this, several people greeted them one after another, "Mr. Mu, you are here!"

When Lester saw Fade and Baldrick coming together, he couldn't help but frown and question in a cold voice, "Why did that guy come?"

Belinda, Arthur, and Gallen turned to Lester in confusion.

Lester pointed at Fade and said to them, "That guy is the culprit of the Hsia family's destruction. He had been caught and brought back to our base by Laney and Chelsea. I thought that Baldrick would just give an order to lock him up. Why did he bring

18:33

him here?"

When they heard that Fade was the one who caused the destruction of the Hsia family, they were shocked and surprised. They looked at Fade and started judging him. At the same time, they began to discuss in low voices.

"He looks very young. Did he really destroy the Hsia family?"

"No way. Even if the Hsia family is not as powerful as the first-class families like the Luo family and the Chung family, they are not easy to deal with. It's not difficult to hire an Earth Level master to protect them! Is that kid an Earth Level master?"

"It looks like he and Baldrick are talking and laughing. He doesn't look like the person Baldrick would want to arrest!"

.....

Lester frowned and gritted his teeth, "Don't be fooled by him. That guy is very arrogant. He just talked nonsense to me in the office."

The other people were surprised and were about to ask about the details. However, Baldrick and Fade had already come up to them, so they could only stop talking.

"You are all here!" Baldrick looked at them and said, "Just now, I asked Laney to inform you. Have you received the news?"

"Yes!" Belinda nodded, and then couldn't wait to ask. "Baldrick, who is the new instructor you have for us?"

Arthur added, "What's his strength like? Did he win anything before?"

Gallen smiled aside and remarked, "As long as I can become stronger, I'm fine with any instructor."

Lester frowned slightly and commented, "Baldrick, I still stand firm with what I've said before. I think that Romeo is more suitable

18:33

to be our instructor."

After hearing this, Baldrick said in a low voice, "I know your opinions very well. I can assure you that the new instructor I have invited this time is absolutely qualified to be your instructors. He definitely has the ability to improve your strength before the Martial Arts Convention."

Hearing his resolute words, the captains of the Five Elements Squad felt surprised and curious simultaneously.

After all, when it came to the martial artists at the level of the Five Elements Squad, their captain's strength had almost all reached the Earth Level. If they wanted to continue to improve, it would be very difficult.

Before, they also invited a lot of well-known masters and instructors from both inside and outside the military, but after trying, the effects were no more than ordinary.

Now, Baldrick had stated that the new instructor was absolutely competent, which made them feel surprised and curious, but also a little doubtful at the same time.

Baldrick knew what they were thinking, so he didn't say anything. He glanced at Fade, then pushed him out and announced in a loud voice with a smile, "This is Mr. Chen. Fade is the new instructor I have hired for you."

As soon as these words were said, the scene suddenly became quiet. Everyone was stunned and looked at Fade with disbelief.

Even Laney, who had been the most respectful towards Fade, covered her mouth with her hands. Her eyes were filled with surprise and she could not believe it at all.

"Hello everyone, I am Fade. In the next three months, I hope that we can get along well with each other and make progress together," Fade glanced at the few people in front of him and said with a smile.

18:33

However, at this moment, they did not pay attention to what Fade said, and almost all of them had a surprised look on their faces.

Lester was probably the most agitated person amongst them. He pointed to Fade and said to Baldrick, "Mr. Mu, are you kidding me? You're letting him, a self-learner outside, to be our instructor?"

Arthur was also doubtful as he said, "Mr. Mu, there are only three months left before the Martial Arts Convention. We don't have any extra time to waste. This, I'm afraid it's not very appropriate!"

Gallen took a look at Fade and asked, "Are you very good?"

Belinda was the only one who frowned and asked Fade, "Mr. Chen, can you show me your strength?"

When faced with doubts, Baldrick replied, "Mr. Chen is not a self-learner. He is one of the Special Instructors of our Stealth Team."

"One of the Special Instructors."

Upon hearing this, they fell into shock again. They immediately thought of something and their gazes became a little strange.

"That's him? More than a year ago, our Stealth Team suddenly had a Special Instructor."

"The requirements to become a Special Instructor are very strict. I would like to know what qualifications he has to be a Special Instructor of our Stealth Team."

"I would like to witness his strength as well."

.....

18:33

Baldrick continued, "What qualifications does he have? I can tell you this. Mr. Chen was responsible for the special training of our Stealth Team in Jade City. You all know about the results of the training."

Speaking of this, they looked at each other and then began to discuss in a low voice.

"The result of the special training in Jade City was really outstanding at that time, and they even defeated foreign martial artists."

"If that's the case, I'm looking forward to it."

"Well, no matter how powerful the special training in Jade City is, it is just a branch. We are the members of the Five Elements Squad and the elites amongst the elites of the Stealth Team. Ordinary teams can't compare with us."

.....

Upon seeing this, Baldrick grinned. He continued, "Are you still questioning me? Then, I'll tell you one more. In addition, Mr. Chen is ranked first on the Dragon List."

Everyone was flabbergasted. Even Lester, who was the most dissatisfied with Fade, fell into shock.

That was because the Dragon List was one of the lists announced by the Martial Arts League. The young Chinese martial artists below the age of 36 would be listed on it. The results of the Martial Arts Contest in three months would also affect the ranking of the Dragon List.

18:33

## Chapter 1363

Moreover, the captains of the Five Elements Squad were all well-known figures on the Dragon List.

Amongst them, Gallen was ranked 15th, Belinda was ranked 17th, Lester 19th, and Arthur 20th. In addition, Romeo, the captain of the Gold Squad, had the highest ranking amongst them, which was 7th on the Dragon List.

As they were on the ranking list, they understood how difficult it was to be on this list. What kind of fierce battles did the martial artists have to face in order to be in the top ten, the top five, and top three?

However, Baldrick had just told them that the seemingly weak and insignificant Fade in front of them, turned out to be the one at the top of the Dragon List. They stared at him in disbelief.

Lester burst out laughing as he said, "Baldrick, stop joking around. He's at the top of Dragon List? Oh, it's absolutely impossible."

Just as Lester was doubting him, Arthur, who was next to him, took out a tablet and began to check the website. After a while, he found the relevant information and exclaimed in surprise, "Huh! Fade Chen, the number one on the Martial Dragon List. His sudden rise out of nowhere showed his powerful strength. Even Galeno of the Martial Arts League holds a high opinion of him. This photo is really him!"

Upon hearing Arthur's words, the others turned their heads and looked at the tablet. After confirming that the information on the website was actually Fade, they fell into shock once again.

18:33

They really didn't understand how someone like him had managed to take the first place on the Dragon List.

After all, there was someone extremely powerful in the Martial Arts League. He had always occupied the top of the Dragon List, but now he had been squeezed down by an unknown person who suddenly emerged. This was really ridiculous.

"Arthur, is the website real? Is it a fake website?" Lester asked.

Arthur sneered as he replied, "Lester, your joke is not funny at all. Do you think that I will make such a low-level mistake?"

"If it's the true website, how is it possible..." Lester disliked Fade the most.

When Baldrick saw this, he frowned with dissatisfaction and said to Lester coldly, "Lester, although the Five Elements Squad has some autonomy, you have to be clear that I am the Vice Officer of the Stealth Team. I have appointed Fade to be your new instructor. This is an order, not a discussion with you. Do you understand?"

Baldrick's attitude suddenly became serious, which surprised everyone.

Lester's expression immediately changed, and he quickly stood up and said, "Yes, Mr. Wu, I understand! I'm at the order of my superior."

"Then do a good job in training. I want to see the result in three months," Baldrick snorted, then glanced at the other squad members before turning around and leaving.

When he left, he patted Fade gently on his shoulder and said, "Fade, if someone doesn't listen to you, you can report them to me at any time. I will take care of it."

"Yes, I understand. Thank you, Baldrick." Fade nodded gently and then saw Baldrick off.

18:33

The leaders of the Five Elements Squad stared at each other sheepishly.

Lester glared at Fade and stated, "I don't care what kind of background you have, or what kind of connections you have to make Baldrick support you. But I can tell you that if you want to be the new instructor of the Five Elements Squad, I, the Fire Team, will be the first to refuse."

In the face of Lester's aggressive attitude, Fade nodded with a smile and replied, "I'll remember it. Is there anything else you want to say? If not, I'm going to start the first training class."

"You..." Lester looked at Fade, who didn't seem to have listened to him at all. His expression fell as he turned around and left. At the same time, he gave an order to the members of the Fire Squad, "Listen up, all members of the Fire Squad, leave this place. I will give you another special training."

All of a sudden, a group of people headed by Chelsea hesitated for a moment, then followed after Lester and left.

As he watched them leave, Fade didn't stop them. Instead, he looked at the remaining members and asked with a smile, "Is there anyone else who wants to leave? If you want to leave, you can go together now. Otherwise, when my training class starts, it will be too late to leave."

When the others heard his words, the people below were shocked and looked at each other. Some of them wanted to leave, but the rest of the captains did not say anything. It was not good for them to leave at will.

After staying in silence for a while and seeing no one leave, Fade smiled and said, "It seems that you have approved of me, your new instructor?"

Arthur pushed up his spectacles and remarked, "It's not enough. I'm just temporarily adding you to my inspection list."

18:33

Gallen smiled and said, "Me too. I want to try!"

Belinda, on the other hand, looked at Fade with a smile and stated, "I believe in Baldrick's judgement and I also believe that the Dragon List is not just a random list. Therefore, I'm looking forward to your performance."

"Thank you!" Fade was surprised by Belinda's trust in him. He nodded with a smile.

Then, he announced in a clear voice, "Since you haven't left, why don't you captains gather the members of your squads? The first training class is about to commence."

Although they were still doubtful, the three of them still quickly gathered their own squad members. There weren't too many members. There were only twelve people in a squad with a leader. Thus, there were only thirty-six members in three squads. Together with some of the members from the Gold squad who were watching for fun, there were only about forty or so members.

Fade stood on a table and looked down at the crowd. He circulated his positive energy and felt their strengths and realms. He couldn't help but nod in acknowledgement. "You are all indeed elites of the Stealth Team. Your strength is essentially between the peak of the Black Level and the early stage of the Earth Level. You all are very powerful."

"Your strengths and talents are self-evident in your current realms. I won't say anything more. The biggest problem for you right now is how to quickly improve your strength in a short period of time."

Upon hearing this, the squad members, including a few captains, couldn't help but nod their heads, and then they showed an expectant look.

Fade then continued, "My solution to this problem is to take my specially made medicine to stimulate the potential of your

18:33

bodies, and speed up the improvement of your strength."

"Medicine?"

"It is not something illegal right?"

"Are there any side effects?"

.....

When faced with the questions, Fade did not explain much. He took out a few pills and asked loudly, "Who wants to come up and try?"

Everyone hesitated for a while. A few seconds later, Belinda stood up first, took Fade's pill, and quickly swallowed it.

18:33

## Chapter 1364

After a while, her expression changed, and a look of surprise appeared on her face. She said, "I, I feel that my Dantian has become more active. The positive energy in my body is surging faster and my cultivation speed seems to be quicker."

Immediately, Belinda went to the side and waved her fist a few times. She grew even more surprised as she remarked, "The strength of my fist has been immediately increased by ten percent. T-This is too amazing."

Many people were surprised to see the magical effects on Belinda and were eager to try it out.

"Is there anyone else who wants to try? I didn't bring much medicine with me. If you miss this opportunity, you'll have to wait until the next batch," Fade stated.

Hearing this, a member from the Earth Squad rushed up and said, "Instructor Chen, I want to try."

"Sure!" Fade handed the pill to the member.

After the burly man took the pill, he soon had a reaction, similar to Belinda. Then, he also walked to the punching machine to test how much his strength had increased.

However, when he was still some distance away from the punch, he suddenly stopped and his expression froze as if he had encountered an unexpected accident.

Such a situation made the excited team members nervous again. They were worried that Fade's medicine was poisonous and

18:33

had side effects.

"What's going on?"

"Why did Elvis stop?"

"Elvis, keep going. Let's test the strength of your fist."

"What's wrong? It looks like something's wrong with you. Do you want me to call the doctor?"

"There won't be any accidents, right?"

.....

The voices of discussion were getting louder and louder, and the doubts of the crowd grew more and more.

This man called Elvis suddenly sat cross-legged in front of the punching machine. At the same time, he closed his eyes tightly without saying a word.

In such a situation, everyone was even more curious and puzzled. At the same time, they were also worried about Fade's medicine. Even the three captains, at this moment, had grim expressions and were a little nervous.

Some people were already starting to worry.

"Something's wrong. It's not right. Call the doctor!"

"There must be something wrong with the medication."

"This new instructor is really unreliable. Lester is right!"

18:34

"The Fire Squad left in time!"

.....

Just as the questioning voice reached its climax, Fade asked, "Can't you even tell that he's meditating to cultivate?"

Upon hearing this, everyone was taken aback for a moment before they took a closer look. Only then did they realise that Elvis's posture seemed to be that of meditation and cultivation.

In that instant, everyone was shocked and even more surprised.

"What, what the hell is going on? Why did he suddenly sit in meditation and cultivate?"

"Then there's still a problem with the medicine. Why did it turn out like this?"

"I don't think this kind of thing is credible. It's better to be cautious."

.....

In the midst of the discussion, the positive energy from the meditating Elvis suddenly began to surge and strengthen. Then, with a boom, it exploded like an invisible lotus formed by the positive energy while blooming and exploding in the middle of the air, attracting everyone's attention at that moment.

"What's wrong?"

"Did his positive energy just explode?"

"Elvis is in danger."

18:34

.....

"Haha, I-I broke through. I broke through to the Earth Level Realm. I finally broke through." Just when everyone was worrying about Elvis, he suddenly opened his eyes, jumped up from the ground and shouted excitedly.

Upon hearing his words, the crowd looked at him while being flabbergasted and they then began to discuss his condition amongst themselves.

"You've broken through. Elvis, you really were meditating and cultivating!"

"Elvis, are you an Earth Level master now?"

"I remember that Elvis had been stuck at the peak of the Black Level for two years. Before this, he had used all sorts of methods to break through, but now..."

.....

"I feel very good now and my body is full of strength. The pill that Instructor Chen gave me is definitely an amazing thing. After I took it, my Dantian felt hot, and my positive energy was surging. It helped me make a breakthrough. Moreover, I didn't feel anything wrong." Elvis smiled excitedly.

Then, Elvis trotted over to Fade. He was too excited to speak in a coherent manner, "Thank you, Instructor Chen. I-I don't know what to say. I..."

Fade patted him on the shoulder and said with a smile, "You're welcome. Work hard to improve your strength and try to perform well at the Martial Arts Convention. That'll be your greatest gratitude to me."

18:34

"Yes, Instructor Chen. I will try my best to complete the task!" He stood straight and saluted to Fade. Then, he retreated with excitement.

Then, Fade glanced at the crowd and asked again, "Is there anyone else who wants to use my pills?"

With the actual case of Belinda and Elvis demonstrated in front of them, all the team members suddenly became excited and squeezed their way over one after another.

"I want a pill, Instructor Chen. Give me one."

"Instructor Chen, I have been stuck at the pinnacle of the Black Level for a long time. Please help me!"

"Instructor Chen, my last name is also Chen. We are a family now. Please give it to me!"

.....

A commotion broke out and the atmosphere was a little chaotic.

At this moment, Arthur suddenly shouted, "Be quiet, all of you. You're soldiers, and you're members of the Stealth Team. What kind of behavior is this? What are you doing?"

After being yelled at by Arthur, the squad members immediately quietened down. They didn't dare to rush over any further. At the same time, they lined up one by one. After all, they were still being conscious of their identity as soldiers.

However, just when they quieted down, Arthur took the opportunity to appear in front of Fade. He squeezed out a smile and said, "Instructor Chen, look at how weak I am. I need to nourish my body. Give me a pill first!"

Upon seeing this, the atmosphere of the scene fell silent. Then, a ruckus broke out.

18:34

"F\*ck, Captain Lin, how dare you!"

"Captain Lin, I always thought that you were a suave man, but didn't expect you to be someone like this!"

"Instructor Chen, Captain Lin went back on his words. This is unfair. You can't give him the medicine."

"Captain Lin, take me with you. I'm also very thin and weak. I also need the medicine!"

.....

In the end, Fade gave out all the pills he had with him and promised to prepare the second batch of pills immediately, ensuring that everyone had a share. Only then did the noisy and excited team members calm down.

Subsequently, those members who took the pills began to meditate and cultivate right away, making the most of the effects of the pills. For the people who didn't take the pills for the time being, Fade also taught them a set of martial arts skills and told them to practice it themselves.

At first, those who didn't get the pills were still a little unhappy, but after the beginning of the practice, they were suddenly surprised to find that the cultivation method taught by Fade was amazing, much better than theirs, and the speed of their cultivation had increased drastically.

Suddenly, there were cheers of excitement and gratitude on the field.

Also, Fade would occasionally provide guidance on the specifics of the members' cultivation method. Each time, he would accurately point out their problems and help them solve them to improve their strengths.

It could be said that in just half a day, this group of Five Elements Squad's members, who originally had doubts about Fade, were

18:34

totally convinced by him. Each of them was impressed in their hearts. The instructor that Baldrick had appointed was indeed extraordinary. The top martial artist at the Dragon List was indeed not an ordinary person.

18:34

## Chapter 1365

Simultaneously, Lester, together with his own Fire Squad members and some members of the Gold Squad, found another training room and practiced in it.

Chelsea approached him and asked, "Lester, what should we do now? Fade has suddenly become our instructor. I'm afraid that it will be a little difficult to deal with him now."

Lester snorted and replied, "What instructor? He's pulled some strings. There's no need for us to do anything. As long as that guy gives himself away, Arthur, Gallen, Belinda, and the others will throw that guy out. After all, it's ridiculous for a guy without strength to want to have a foothold in our Five Elements Squad."

"You're right. It won't be long before Fade is out from here," Chelsea immediately echoed.

At this moment, two uniformed members rushed over in a hurry.

Chelsea recognized that they were one of the few team members left by the Gold Squad. He smiled and said to Lester, "Lester, you're really clever. It seems that that guy can't stay any longer."

Lester nodded with a smile, satisfaction written all over his face.

Chelsea walked towards the two team members and asked, "Why did you come here? Did the new instructor give himself away?"

"As Romeo's Gold Squad team members, you didn't support Romeo. Instead, you attended lessons with the new instructor. Now,

18:34

do you regret it?" Chelsea questioned sternly.

The two of them paused and their expressions fell. After all, Chelsea was just an ordinary member of the Fire Squad. He was on the same level as them, but now he was teaching them a lesson, which made them unhappy.

"What? You guys are the ones who should be regretting their choices." The two of them sneered, and they walked past Chelsea towards the members of the Gold Team and said, "You guys, come back quickly! Instructor Chen is amazing. He has improved our strength in just a few hours. We can't miss this opportunity. Hurry up!"

After listening to their words, the rest of the members were surprised. Although they were a little hesitant, they still followed the two of them and headed back.

Hence, there were only members of the Fire Team left in the training room.

Chelsea and Lester, who were originally complacent, looked a little unhappy at this moment.

The members of the team also began to talk about it.

"Is Fade really so awesome?"

"Just listen to their bragging! In a few hours, your strength will be enhanced. How could it be so easy?"

"Huh, from the way I see it, those two men must have been sent intentionally by them!"

"However, there are still so many people who haven't come out. Fade must be something else. Otherwise, they wouldn't have stayed for so long!"

.....

18:34

Listening to the team members' discussion, Lester's expression became gloomy. He glared at Chelsea and said, "Go and find out what's going on."

Chelsea nodded. Soon, he came back with a displeased look.

Lester frowned as he saw him, "What's the matter?"

Chelsea answered, "Fade seems to have given them a pill. After taking it, the speed of cultivation will be increased. Several people have directly broken through the realm; that's why everyone there seemed to trust him."

"What!" Lester didn't expect that and his face sank.

When the surrounding members of the Fire Squad heard their conversation, their eyes brightened and they kept glancing over.

They were also members of the Five Elements Squad. They started to grow anxious as they were doing nothing, while the others were taking the pills to improve their strengths.

Just as Lester was about to reprimand them, Laney came out and stated coldly, "All the people outside please listen to me carefully. Instructor Chen is giving you one last chance. Those who will go in now may receive the pills and his guidance. If you miss this opportunity, you won't have to come anymore."

"Laney, don't even think about scaring us. He's just a brat. It's just a few pills; what's the big deal? We..." Chelsea snapped.

Laney didn't pay any attention to him. She snorted and said, "Believe it or not, it's up to you." Then, she walked away.

A burst of cheers came from the hall, which made the people outside even more curious. They kept looking at Lester.

Finally, someone said, "Lester, let's go and see how the situation is. If Fade is really nothing, we can quit again. There will be no

18:34

loss."

"That's right, Captain Zhang. If it's true, then the other teams would have all improved, but our Fire Squad will be left behind!"

Lester didn't want to enter, but he knew that if he suppressed his team members at this moment, they would only be dissatisfied with him. Hence, he nodded and agreed, "Well, let's go in and have a look."

Lester and his team from the Fire Squad returned to the training hall again.

Originally, they had thought that everyone would sneer at them, but after they came in, they found that the people inside had no time to care about them at all.

After taking the medicine, they sat cross-legged on the ground and cultivated as soon as possible. Those who did not take the medicine also took the opportunity to ask Fade for guidance. It could be said that everyone was busy, and had no spare time at all.

"Uh..." The members of the Fire Team were all shocked when they saw this.

They had also found someone to ask about the specific situation. Moreover, the facts were in front of their eyes. They had to admit that Fade, the new instructor, was really amazing.

Instantly, all the members of the Fire Squad were excited. They couldn't wait to apologize to Fade immediately and return to the team.

However, Lester was their captain. If the captain didn't say anything, they couldn't do anything, so they could only turn their eyes to Lester.

18:34

Lester frowned and said, "Don't you feel strange about this medicine that can quickly enhance strength? Besides, even if there is such medicine, Fade only relies on it, but his own strength is still not enough. He is not qualified to be the instructor of our Five Elements Squad at all."

Lester did not keep those words only to himself. Everyone in the training room heard what he said, including Fade, who was busy.

Fade looked over and asked coldly, "Are you questioning my qualifications?"

Lester met Fade's gaze and replied, "What qualifications do you have just by relying on drugs? We are warriors and we fight with our fists and strength, not drugs."

18:34

## Chapter 1366

"Yes, if you don't believe me, then you can take your people away. However, you don't have to come back in the future." Fade was not interested in arguing with him.

"I'll leave as soon as I can. Who do you think is afraid of you?" Lester returned coldly, and was ready to leave.

However, he didn't expect that all the other members of the Fire Squad didn't want to leave, except for Chelsea.

"What are you all doing?" Lester asked discontentedly.

"Didn't you listen to Lester?" Chelsea also shouted.

Several members looked at each other, and then a slender man who was in his late twenties stood out and spoke to Lester, "Lester, we have seen the result of Instructor Chen's teaching. There is no need to be angry. After all, our purpose is the same; it's for the victory of the Martial Arts Convention."

"Johnson, what do you mean by that?" Lester frowned and asked.

Chelsea, who was standing next to him, immediately pointed at the man and said, "Johnson, you have to remember that you are only the vice-captain of the Fire Squad. Lester is the captain. Are you trying to overpower him?"

"Shut up! It's none of your business!" He glared at Chelsea, then looked at Lester and continued firmly, "Lester, all of us want to stay. If you insist, then we will ask to join the other teams."

18:34

Upon hearing that, Lester's expression fell and he couldn't hide his anger anymore.

His own team member had openly requested to join the other teams. As a captain, it was a great slap in his face. Moreover, if the superiors knew about this, it would also cast doubt on his abilities and affect his future.

"Johnson, good, very good!" Lester glared at him and nodded angrily.

Immediately, Lester turned away and glanced at everyone. His gaze finally fell on Fade and he said in a clear voice, "Since you have all been deceived by him, then I'll let you witness his actual abilities."

After that, Lester roared and stomped down on the ground with his right foot. With the force of the rebound, he rushed out fiercely and threw a fist towards Fade.

The crowd didn't expect that Lester would suddenly attack him. All of them were shocked.

Arthur, Belinda, and Gallen shouted, "No!" as they rushed over to stop Lester, but it was too late.

He had rushed over to Fade and his actions were irreversible.

At this moment, Fade was still calm. He looked at Lester and said coldly, "You will know the consequences of doing this!"

Lester shouted, "I'm going to unmask you, you liar. I'm doing this for the sake of the Five Elements Squad."

"Really?" Fade replied in a low voice and then shook his head.

"Eat this!" Lester shouted loudly and his fist came with a rumble. Lester was nearly exerting all his strength as someone in the middle stage of the Earth Level. The crowd fell into shock.

"Lester is actually being serious!"

18:34

"He's too fierce. Can Instructor Chen take this punch?"

.....

Amongst the countless discussions, Fade faced Lester's fist and threw out a punch to meet his.

"Bang!" The two sides collided with each other.

Immediately, with a scream, Lester flew out and fell onto the ground. His right arm had been twisted and was completely deformed.

As Lester spat blood out of his mouth, cold sweat beaded on his forehead. He was in so much pain that he grimaced and kept howling.

On the other hand, Fade quietly walked towards Lester, looked down at him, and stated coldly, "Now, you finally understand the consequences of your actions."

"You, you dare to hurt me. I am the captain of the Five Elements Squad of the Stealth Team. If you hurt me, you are provoking the Five Elements Squad, and the entire Stealth Team. I..." Lester stared resentfully at Fade.

However, Fade did not answer.

At this time, a deep voice sounded, "You don't represent the Five Elements Squad nor the entire Stealth Team!"

Hearing the voice, everyone looked over. Everyone was surprised as they found that it was actually Baldrick.

Lester was also surprised as he tried to explain, "Mr. Mu, I was just..."

"There's no need to explain," Baldrick interrupted him. "I have issued an order before that Fade will be the new captain of the Five

18:34

Elements Squad. To put it simply, you have formed cliques and tried to oppress anyone who held a different opinion from yours. To put it seriously, you are disobeying military order."

"From now on, you don't have to stay with the Stealth team anymore," Baldrick finished in a low voice, and then waved his hand to ask someone to take off the epaulet and the symbol of the Stealth Team on Lester's uniform.

This meant that Lester would be expelled from the Stealth Team. Everyone was shocked as they did not expect this at all.

Lester was also stunned. It took a few seconds for him to come back to his senses as he shouted hurriedly, "Mr. Mu, don't fire me. I am the captain of the Fire Squad. I have made contributions to the organization. I..."

Baldrick waved his hand and asked someone to drag Lester out.

Then, he turned to Fade and apologized, "Fade, I'm sorry to have let you encounter something like this. It is the Stealth Team's mistake."

Fade nodded. "It doesn't matter. It wasn't a big deal."

"Well, you have full authority over the Five Elements Squad. I won't participate." Baldrick patted Fade on the shoulder and then left.

The way the members of the Five Elements Squad looked at Fade was different at this moment.

Before this, they were just surprised by the magical effect of Fade's medicine. Now, he had really convinced everyone as he had shown them his strength by defeating Lester in one move.

Everyone gazed at Fade with admiration.

18:34

Fade smiled and said, "Well, I will officially become your new instructor. Does anyone have a problem with that?"

"No!" Everyone shouted in unison.

Fade nodded and swept his gaze across the crowd. He suddenly noticed that there was someone trying to hide among the crowd. Although he tried his best to hide his presence, Fade soon caught him. He was Chelsea, Lester's lackey.

Fade wasn't interested in having a lackey like him continue to stay in the team. He immediately waved his hand and ordered someone to drive him out.

Then, Fade appointed another captain to take the place of Lester for the Fire Squad. The captain was the vice-captain Johnson, who had come forward to speak before.

After the arrangement, Fade immediately made a special training plan for each team. It was mainly to fulfil the strengths of each group and then to strengthen their cooperation, which would maximize the results with minimal effort.

In the evening, as Fade left the base of Stealth Headquarters, everyone waved him goodbye reluctantly. Although it was only one day, everyone had already started to admire him. It felt like they were comrades who had known each other for many years.

18:34

## Chapter 1367

Fade took a military vehicle and left the base of the Stealth Team.

At the corner of the gate of the base, Lester, who had taken off his uniform, was holding a simple luggage bag, staring in the direction in which Fade left. He gnashed his teeth and said, "Fade, it's you who led me to be fired by the Stealth Team and caused my years of military career to turn into nothing."

"I swear that I, Lester, will make you pay the price," Lester hissed. Then, he took out his mobile phone and dialed a number. "Romeo, it's me, Lester. I'm not at the base. I have encountered something..."

After returning from the base of the Stealth Team headquarters, Fade rested for two days. Just after the class that afternoon, Joey came over to him cheerfully and asked, "Fade, are you free later?"

When he noticed her acting this way, Fade immediately grew serious and said in a deep voice, "Go ahead, what's the matter?"

"Fade, I'm your sister. Can't I come to you even if nothing happens?" She pouted.

He rolled his eyes at her, acting as if he was about to leave. "If there's nothing else, then I'll take my leave."

"No, Fade, don't go." She quickly grabbed him and stated, "I want you to help me with something."

Hearing this, he immediately looked at her with an "I knew it" expression. Then, he sighed. "Tell me, what's the matter?"

She then replied, "Well, it's no big deal. I'm going to a party tonight. I want you to come with me."

18:34

"A party? What kind of party? Who else is going to attend?" He asked.

"It's the gathering of the young masters and ladies of Capital City. They come from the younger generations of the rich and powerful families here."

"Why would you want to attend such a gathering?" Fade couldn't help but stare at her in surprise. After all, based on his impression of her, she disliked such gatherings full of playboys and arrogant girls.

"I didn't want to participate as well, but someone invited me to it!" Joey held his arm as she tried to persuade him.

He disliked these gatherings himself, so he quickly rejected her invitation, "It's boring. I don't want to go. You can go alone!"

"Wow, won't you worry about a weak girl like me going there alone? Don't you worry about me at all?" She turned to him with a pitiful look.

Fade didn't buy her act as he replied, "Well, you are a master at the early stage of the Heaven Level. Those playboys and young ladies don't pose any danger to you! I won't go."

"Oh, you know that my master doesn't allow me to show my martial arts casually. Besides, I only have the strength, but my actual combat ability is just average. If I met a real master, it would really be dangerous for me," she retorted.

He still wasn't moved by her words. "I still have classes tomorrow. I don't have time to go out with you!"

When Joey saw that he was really unmoved, she suddenly curled her lips and stared at him. After a moment of silence, she said, "I am going to this party with my boyfriend."

"Huh!" Fade was stunned and his eyes widened. He stared at her and asked, "What did you say? Who are you going with?"

18:34

"With my boyfriend, and if I stay there too late, I might not be able to come back at night." She deliberately blinked her eyes as she looked at him.

This time, Fade couldn't ignore it anymore. He quickly questioned, "When did you get a boyfriend? Who is he? What does his family do? What is his background?"

Joey turned around and deliberately sighed. She replied, "You're not willing to go with me. Why would you even ask about this? Alas, I'd better go with my boyfriend."

Upon hearing this, Fade was furious and felt that the blue veins on his forehead were throbbing. He remembered the old man's instructions and could only say, "Don't sigh. I will go with you."

"You're the best!" Her face immediately lit up as she rushed over to hug him.

Fade fell speechless. He felt that he seemed to have fallen into the little girl's trap again.

.....

Half an hour later, Fade and Joey met at the gate of Capital University.

He looked at the time, and couldn't help but ask, "It's almost time. Why hasn't your boyfriend arrived yet?"

She rolled her eyes at him and replied, "I'm not in a hurry. Fade, why are you in a hurry? Are you jealous?"

"What am I jealous of? I'm just worried that you've found yourself a bad boyfriend," he retorted.

"Fade, do you really think that I have bad taste?" Joey rolled her eyes at him.

He was about to open his mouth to refute when a car drove over. When she noticed the car, she quickly said, "Look, here he is."

18:34

Fade immediately turned to look at the black Mercedes Benz.

When the car stopped, a young man exited the car. He looked tall and thin.

When the man finally revealed his face, Fade was shocked. "Gentro, why are you here?"

When he heard the cry of surprise, Gentro looked up and found that it was Fade. After a slight pause, he said with a smile, "Mr. Chen, you are here too!"

Fade glared at him as he stepped forward. "Gentro, what are you doing to Joey..."

Before he could finish his words, Joey came over and held onto his arm. She pulled him aside and said, "Fade, stop. You have misunderstood."

"What did I misunderstand? Why don't you say that your boyfriend is Gentro? I..." Fade immediately started questioning her.

She pinched his arm and quickly cut him off, "Well, I was lying to you before. Gentro is not my boyfriend, and I don't have one. He was the person who invited me to the party. We don't have any special relationship."

"Then how could you..." Fade still felt that he couldn't quite believe her words.

She rolled her eyes at him. "Well, because you didn't want to come with me initially, so I had no choice but to lie to you that I had a boyfriend, and only then would you come! You left me with no choice."

"Was it really just a lie?" He stared at her, as if he didn't really believe her.

She nodded firmly and repeated, "I really don't have a boyfriend. I was just invited to the party by Gentro."

Speaking of this, Fade still frowned and remarked, "Last time, Gentro invited you to go to the concert. This time, he invited you to

18:34

such a party. Don't you understand what he's trying to do?"

"I am not stupid, so of course I know what he's trying to do. However, I don't have any feelings for him. It's impossible for me to be with him," Joey replied with pursed lips.

18:34

## Chapter 1368

Fade said with a serious expression, "Since you won't be with him, you should make it clear to him early on and let him give up. You shouldn't have accepted his invitations again and again. In this way, you will give him hope and others will misunderstand you."

"I-I understand!" Joey lowered her head.

"When it comes to relationships, you should always make things clear. Otherwise, things would only spiral out of control in the future. If you can't tell him yourself, I'll do it for you. We won't go to tonight's party," Fade stated.

After that, he strode towards Gentro, about to tell him.

However, Joey hurriedly grabbed onto him and exclaimed, "No, don't!"

"Uh..." Fade frowned and looked at her in confusion.

She pouted as she pleaded, "Well, I understand what you mean, and I also know what to do, but can we talk about it after today's party?"

"I can assure you that after the gathering, I will definitely make it clear to Gentro, and will no longer have this ambiguous relationship."

When Fade saw this, he could not say anything else. He could only sigh and agree, "Fine, I'll go with you to today's party."

18:34

"Thank you, Fade! You're the best." Joey smiled as she held Fade's arm, and planted a kiss on his cheek.

Not far away, when Gentro saw that, the smile on his face stiffened.

However, he could only remind himself repeatedly, "Mr. Chen is only Joey's brother, her brother! It's impossible for the both of them to be together."

Just then, Fade and Joey walked over to him. She said, "Gentro, let's go. Fade will go with us tonight. Is that okay?"

Hearing this, Gentro came to his senses and quickly nodded with a smile. "Of course. It's our pleasure that Mr. Chen will attend the party, and we welcome you warmly."

The three then got into the car and started their journey.

About an hour later, when the sky gradually darkened, Gentro's car stopped in front of a narrow alley.

The three of them got out of the car and walked into the alley. They were surrounded by rundown buildings.

After walking for about a hundred meters, Gentro stopped in front of a building with a red lantern. He then turned to Fade and Joey. "We're here. There are always too many people in famous bars, so we often have parties here."

Fade and Joey glanced at the large building and couldn't help but feel surprised.

Although the entire building looked old and rundown, it was still worth a huge sum of money in Capital City. Any building like this would be worth over tens of millions. Even if one was rich, without the proper connections, they might still not be able to buy these buildings.

It could be said that in Capital City, owning a building like this was a symbol of money and status.

18:34

Gentro was holding a party in a place like this. It could be seen that the people in their circle were either really rich or noble. They were not the younger generation of the upper class in Capital City.

When they entered the courtyard, two burly bodyguards immediately walked up to them from both sides. At first glance, they could tell that both of the bodyguards were professional martial artists. Their strengths were all definitely above the Black Level.

The muscles on their bodies were bulging, as if they were ready to fight at any time. At the same time, their clothes were especially tight around the waist, showing the outline of their guns to frighten thieves and rascals.

However, when they noticed Gentro, the bodyguards immediately recognized him and they relaxed. They nodded and bowed to greet him, "Young Master Luo, you are here."

Gentro pointed at Fade and Joey behind him and said, "They are my friends. They are here with me, okay?"

"Of course, they are your friends. This way, please!" The bodyguards replied respectfully.

Gentro nodded and walked in.

When they came to the courtyard in the middle of the quadrangle, Fade immediately heard the waves of explosive music, noticed the flashing lights and also dancers who were dressing seductively around them.

Almost the entire courtyard had been revamped as a hot nightclub. Many young men and women were dancing in the yard with wine glasses, and the atmosphere was extremely lively.

Fade glanced around and immediately understood. After all, those who attended the party were all young people who preferred nightclubs and bars. Hence, they had simply moved the decorations of a nightclub to this place.

18:34

As soon as Gentro arrived, he instantly attracted the attention of everyone in the courtyard. They came to greet him one after another. Gentro also responded one by one with a polite attitude.

Naturally, some people noticed Fade and Joey behind Gentro, especially the good-looking Joey who attracted the attention of quite a few young men. They couldn't help but come forward and talk to her.

Gentro smiled as he looked at Joey, and then introduced, "These are my friends. Joey and Fade. I brought them here to have some fun."

When everyone heard that they were Gentro's friends, and noticed the way that Gentro looked at Joey, they immediately realized something. They quickly went up to Joey and Fade, making small talk. Fade replied to them politely.

"Gentro, you're here!"

As they were greeting each other, a clear voice suddenly sounded. Then, someone walked over and stood in front of Gentro.

Fade glanced in the direction of the voice and noticed that it was a girl who was either 18 or 19 years old. She had short red hair and large, ornate earrings which were very eye-catching.

When Gentro saw the girl like this, he couldn't help but frown and remarked, "How did you become like this? If our family finds out, you'll be scolded again!"

The girl curled her lips and replied unhappily, "Brother, I'm fine with Grandpa and Uncle lecturing me at home. You're still so young so why are you as old-fashioned as they are?"

"You..." Gentro glared at the girl. He wanted to reprimand her, but when he remembered that there were guests in front of him, he stopped.

18:34

Instead, he smiled and introduced her to both Fade and Joey, "Mr. Chen, Joey. This is my uncle's daughter, my cousin, Sandra."

"Sandra, these are my friends, Fade and Joey," Gentro introduced them to her.

They smiled and nodded at Sandra. They stretched out their hands and greeted, "Hello!"

However, when Sandra heard their names, especially Joey's, her eyes flashed. She stared at Joey for a few seconds. Ignoring the both of them taking the initiative to shake hands with her, she crossed her arms in front of her chest and asked in a strange tone, "Are you that Joey?"

"I..." Joey and Fade frowned at the same time.

When Gentro saw this, he warned her in a low voice, "Sandra, be polite."

Sandra pursed her lips and ignored Gentro. Instead, she waved to a person beside her and shouted, "Sinclair, come here quickly."

18:35

## Chapter 1369

Following Sandra's voice, a young man who looked like he was in his early twenties walked over. The man was tall and strong, and his muscles were clearly defined. It was obvious that he had trained with a lot of effort.

After the man came over, he took the initiative to greet Gentro. "Gentro, you're here."

Gentro gently nodded, and was about to introduce him to Fade and Joey.

However, Sandra spoke first and introduced the two of them to the man, "Sinclair, these are my cousin's friends. This is Fade, and this is Joey."

Sandra emphasized their names. Then, the man seemed to understand something. He turned to the two and smiled at them.

"Hello, my name is Sinclair. I'm from the Tan family. I'm Sandra's boyfriend." While speaking, Sinclair smiled and extended his right hand to Fade.

Gentro then turned to Fade and said, "The Tan family is a family of martial artists in Capital City. They have established themselves here for more than 60 years."

Fade knew what Gentro meant. He wanted him to make some friends.

Since he was showing kindness, Fade also held out his hand and was ready to shake hands with Sinclair.

However, right at the moment that they held each other's right hand, Sinclair's expression changed. He suddenly exerted force

18:35

through his right hand and pressed down hard on Fade's hand.

He was a practitioner of martial arts and his strength was remarkable. He had reached the initial stage of the Black Level. Under such circumstances, if an ordinary person had been caught off guard, it was very likely that their palm would've been crushed.

Noticing Sinclair's sudden actions, Gentro was taken aback. He frowned and snapped, "Sinclair, what are you doing? Mr. Chen is my friend!"

Sinclair laughed as he replied, "Gentro, I'm just saying hello to my new friend. It's just a joke. Why are you being so nervous?"

"Sinclair, you..." Gentro frowned.

At this moment, Fade knew that his opponent was up to something, so he immediately stopped being polite. He exerted force with his right hand, but his expression was as calm as usual and he even smiled warmly. "Hello, I am Fade."

"Huh, he wants to compete with me in terms of strength. He's digging his own grave..." Sinclair felt Fade's strength and he immediately sneered to himself. He then continued to increase his strength, wanting to teach Fade a lesson.

However, before Sinclair could release his full strength, he immediately felt that Fade's palm was like steel. No matter how much strength he exerted, he was unable to press down on his palm at all.

On the contrary, it was Sinclair's own palm that had been pressed down bit by bit by Fade's right hand. He felt that his bone seemed to be cracking slowly.

"You..." Sinclair was shocked. He gritted his teeth as he tried to resist, but it was useless. On the contrary, he was faced with even greater force and pain.

18:35

Sinclair couldn't bear the pain anymore as he wailed, "It hurts! It hurts! Let me go! Let me go!"

Fade loosened his right hand slowly. Sinclair took a few steps back and rubbed his red right hand. He stared at Fade as he gnashed his teeth. "How dare you do this to me? I'm going to kill..."

Before he could finish his words, Gentro roared in a low voice, "Sinclair, be careful. Mr. Chen is my friend."

"I..." Sinclair wanted to say something, but Sandra tugged at his arm and gave him a look. This calmed Sinclair down. Without further ado, he followed Sandra to the side.

Seeing his cousin and her boyfriend leaving, Gentro could not help but frown and sigh. Then, he walked over to Fade and apologized, "Mr. Chen, I'm sorry. I didn't expect that my cousin and Sinclair would..."

Fade then replied, "It doesn't matter. It was just kids messing around. I didn't take it to heart."

Gentro thanked them and brought them around to the courtyard. From time to time, they would exchange greetings and get to know one or two people, expanding their social circle.

However, Fade was not interested in making new connections at all. He quickly turned away and found a spot to sit down and have something to eat.

As for Joey, she seemed to be really interested in it. She greeted others along with Gentro with a smile on her face.

When he saw this, Fade couldn't help but feel curious. He muttered, "When did Joey change? Didn't she usually hate such things? Why has she become totally different now? Does she actually like Gentro?"

For a moment, Fade frowned and lowered his head to ponder about it.

18:35

After a long time, Fade noticed that someone was approaching him. He looked up and found that Joey had sat down beside him, with a piece of steak in her hand.

"Why did you come back?" Fade asked in surprise.

"Gentro and his friend are going to talk about some business. I thought it was boring so I came back. I am hungry and need to eat something," she replied.

Joey then frowned as she retorted, "What's wrong, Fade? Why are you looking at me this way? Don't you want me to come back?"

"No, of course not. I was just asking." He shook his head and suppressed the doubts in his heart. He was going to ask her what was really going on after they returned home. Joey seemed to have changed. She was somewhat unlike how she used to be.

After that, the two of them started eating together.

Just as both of them were eating, a sneer sounded in front of them. "The poor really are the poor. They haven't eaten anything good. Look at how they eat! It's so funny!"

When they heard the voice, Fade and Joey looked up and saw Sandra standing in front of them with her arms crossed. She looked at them with a mocking gaze.

Sinclair stood beside Sandra and wore a resentful expression on his face as he glared fiercely at Fade.

"Do you usually talk this much sh\*t at home too?" Fade questioned coldly with a frown.

"You..." Hearing this, Sandra frowned and glared at Fade. Then, she swiftly turned to Joey and stated, "Audrea, it's her. She's the

18:35

woman who keeps pestering my cousin."

Following Sandra's voice, a woman with long, shoulder-length hair and dressed in an elegant dress walked over. However, the woman stared at Joey with a fierce gaze. It was a stark contrast from her gentle and refined appearance.

The woman stepped in front of Joey and sized her up condescendingly. Then, she said coldly, "From now on, you'd better leave Gentro immediately. Otherwise, I won't be polite to you."

"Uh... I..." Joey was confused. She didn't know what to reply.

18:35

## Chapter 1370

"Joey, stop pretending. I'm telling you, this is Audrea, a member of the Han family in Capital City. She's my future sister-in-law, my brother's fiancée. Now, do you understand?" Sandra sneered.

When they heard her words, Fade and Joey immediately understood the meaning behind her words. It seemed that Audrea had misunderstood the relationship between Joey and Gentro, so she had come over to warn her.

Joey quickly explained, "Sandra, Audrea, you've misunderstood me. I..."

Before Joey could finish her words, Audrea interrupted her in a cold voice, "You don't need to find an excuse. I've seen many women from the lower class who try to cozy up to the rich families."

"Whether you sell yourself, or find someone else, I don't care, but Gentro is not someone whom you can get close to. His status is far different from yours. He's not someone a low-class b\*tch like you can dream about. You'd better recognize your own status and stop being delusional. You're out of his league."

Joey's face quickly fell when she heard her words. She had initially wanted to explain herself politely, but it seemed that that did not work.

Fade, on the other hand, was immediately enraged. He stood up and glared at Audrea. "On account of your relationship with Gentro, I won't do anything to you. Apologize to my sister right now."

18:35

"Apologize? Huh, who do you think you two are? You want me to apologize?" Audrea replied in disdain, "Did you really think that you're Gentro's friend just because he said that you are?"

"Let me tell you. You are Gentro's dog, a pug wagging your tail behind him. I am Gentro's fiancée, your future owner. Now get out of here. Do you hear me?" Audrea stated arrogantly as she stared down at Fade.

Sandra also crossed her arms and sneered, "Huh, did you really think that you are a big shot after having a few words with my brother? How absurd."

After that, Sandra turned around and said to Audrea and Sinclair, "Audrea, Sinclair, let's go. We'll be laughed at if we keep staying with such low-class people."

Then, the three of them prepared to leave together.

However, just as they were about to leave, Fade moved swiftly and stood before them. He stared at the three of them coldly and repeated, "I asked you to apologize. Do you hear me?"

"How dare you to block our way!" Audrea frowned and shouted. "Get out of my way, now. Do you hear me?"

Sandra warned, "Do you want to offend both the Luo family and Han families? Get out of our way!"

Fade then stated in a deep voice, "If you don't apologize to my sister, you can forget about leaving today."

"Huh, apologize to that b\*tch? Stop joking around." Audrea glanced at Joey and sneered.

Then, she stepped towards Joey. She stretched out her right arm and slapped her. At the same time, she said arrogantly, "This is my apology. Do you still want it?"

18:35

Joey, after all, was a master of martial arts, so it was natural for her not to be hit by Audrea's slap. However, Joey's face immediately fell. "What are you doing?"

"I'm going to teach you a lesson, you shameless b\*tch!" Audrea did not expect that her slap would fail, so she froze for a moment before trying to slap Joey again.

This time, Fade was furious. Regardless of the fact that Audrea was Gentro's fiancée, he immediately moved forward and stood before her. Then, he slapped her in the face.

Audrea was stunned. Only after a few seconds later, she came to her own senses. She covered her red and swollen cheek with her hand and looked at Fade with astonishment and resentment in her eyes. She gnashed her teeth. "Y-You dare to hit me!"

Slap! Fade slapped Audrea on the other side of her face and repeated, "Apologize."

"You... Ah..." Audrea wailed in pain from the slap.

Only then did Sandra come to her senses. She rushed over and shouted, "What are you doing? How dare you hit Audrea? Are you looking for..."

Fade glared at Sandra coldly and replied in a cold voice, "Shut up. If you don't want to get slapped, get out of my way."

"Y-You dare to ask me to get out of here. I, I... Sinclair, hurry up and teach this arrogant a\*shole a lesson." Sandra was angered as she called for Sinclair.

Sinclair sneered as he cracked his knuckles, striding over to Fade. "You jerk, you dared to trick me. Now, it's your turn."

"Do you want to surrender now, or do you need me to teach you a lesson?" Sinclair looked at Fade arrogantly.

18:35

Fade glanced at him and replied, "F\*ck off!"

Then, he turned to Audrea and repeated once again, "Apologize!"

When Sinclair saw that Fade had ignored him, he glared at him fiercely as he rushed over. "You a\*shole!"

Sandra quickly pulled Audrea away, staring at both Fade and Joey in resentment.

"He's gone too far. This guy is too arrogant. How dare he beat you, Audrea? I'll ask Sinclair to teach him a lesson."

"Teach him a good lesson, and also that b\*tch too. The both of them will suffer together," Audrea added cruelly.

At the same time, the commotion had attracted the attention of others. Everyone glanced over and started discussing.

"What's going on over there? It looks like there's going to be a fight."

"Weren't those two people brought here by Young Master Luo? Why are they fighting with Audrea and Sandra?"

"I heard that it was that woman's fault in seducing Young Master Luo. Audrea and Sandra saw her and wanted to teach her a lesson."

"It's Sinclair! The Tan family is a family of martial artists, and Sinclair is a warrior at the early stage of the Black Level. That guy is going to suffer."

"Huh, that woman doesn't know her place and her own status. She even tried to hook up with Young Master Luo. How ridiculous. She deserves to be taught a good lesson!"

.....

18:35

The crowd watched the scene unfold before them, full of interest. They had no intention to stop the fight at all.

At this moment, when faced with Sinclair's fierce attacks, Fade merely ignored him. He then landed a kick on Sinclair's lower abdomen.

Before Sinclair was able to release his punch, he suddenly whined as he had been hit. Then, he flew backwards and knocked down many tables and chairs. Finally, he hit a tree in the courtyard and his whole body fell limp.

When everyone saw this, they could not help but feel shocked. They did not expect that Fade would actually dare to attack Sinclair. Furthermore, Sinclair had even lost in a matter of mere seconds.
