

## Chapter 1371

In an instant, the crowd fell into shock, unable to digest what had just happened.

Sandra and Audrea were both stunned as well. They immediately felt fear surging up and they hurriedly retreated in an attempt to leave.

However, Fade blocked their way and called them out. "Are you trying to leave? It's not that easy."

"You, what the hell are you trying to do?" Sandra asked as her whole body trembled.

Fade snorted coldly and looked at the two of them, "I want you to apologize!"

"You..." Audrea glanced at Joey, unwilling to apologize.

Sandra was still trying to defend herself. "It was your sister's fault. She seduced my cousin first. Why should we apologize?"

"You..." Fade's face was darkened. He glared at Sandra and raised his hand. If it wasn't for the fact that this woman was Gentro's cousin, Fade would have beaten her up long ago.

Just then, the young masters and ladies who were watching at the side seemed to be unable to stand it anymore. A few people came over and began to persuade him, trying to make peace.

"Mr. Chen, no matter what happened, let's sit down and have a talk. There's no need to resort to violence."

17:20 

"Yes, both you and Young Master Luo also know each other. You don't want to fall out with Miss Sandra and Miss Audrea, do you?"

"It's not a big deal. Why don't we both take a step back for my sake? Let's make peace!"

.....

Fade glanced at them and shouted in a cold voice, "Get lost!"

He had instantly angered everyone in a matter of seconds, their expressions falling as they glared at Fade.

Some of them were hot-tempered and were about to rush over and fight. However, when they saw that Fade had raised his right arm and also glanced at the direction of Sinclair, they quickly retreated out of fear.

"Huh!" Seeing this, Fade snorted coldly. Ignoring these young masters who bullied the weak and feared the strong, he turned back to Audrea and Sandra. "My patience is limited. I will count to ten. If you still don't apologize, don't blame me for not being gentle. I won't hesitate to hit you."

Upon hearing this, Audrea's and Sandra's faces paled and fear was written all over their faces.

However, it was very difficult for arrogant people like them to apologize in public.

For a moment, the two of them hesitated.

Fade started counting down mercilessly, "Ten, nine, eight, seven..."

As time went by, he approached the two girls step by step, and their faces paled even further.

"Three, two..."

17:20 

Fade was going to count the last second. He raised his arm and he was ready to hit them.

At this moment, a voice sounded, "What's going on?"

Then, several figures quickly came over, and the leader was Young Master Gentro.

He had been discussing business in the building, but when he heard the commotion outside, he stepped out to check on the situation.

Audrea and Sandra seemed to have found their backbones and they hurried over to Gentro.

"Gentro, you must help me! Someone is bullying me and Audrea!" Sandra said coquettishly.

"Young Master Luo, you're here." Audrea also covered her cheeks with a tearful expression.

When Gentro saw this, he couldn't help but be shocked. He asked, "What's going on?"

"Gentro, they bullied us. Besides, that guy hurt Sinclair." Sandra pointed to Fade and Joey and started to complain.

Gentro looked in the direction of Sandra's finger and found that they were indeed Fade and Joey. He couldn't help but exclaim in shock, "Mr. Chen, Joey!"

"Sandra, did you make a mistake? Mr. Chen and Joey are my friends!" Gentro replied with a frown.

Sandra shook her head and insisted, "I didn't make a mistake. It's them, your so-called friends. They hurt Sinclair just now and wanted to hit us. If you didn't believe me, look at Audrea's face!"

He was very surprised when he saw Audrea's red and swollen face, and Sinclair's pale face as others tried to help him. He looked at Fade with an inquiring expression.

17:20 

Fade then replied calmly, "I beat them up."

"Mr. Chen, you..." When Gentro heard his answer, he paused in shock.

Fade snorted and continued, "Ask them yourself, what they have done to Joey, and what they have said to her. I asked them to apologize, but they weren't willing to do it, so I could only resort to this."

Gentro then turned to Audrea and Sandra, and questioned, "Sandra, tell me, what's going on?"

Looking like she had been wronged, Sandra turned to Gentro and wailed, "Oh, why are you doing this? Just send someone to teach that guy a lesson! He beat us! Are you still my cousin, or are you not?"

"That's Mr. Chen, my friend," Gentro snorted, and then asked, "Tell me, what happened exactly? What did you do to Mr. Chen and Joey?"

Sandra pursed her lips and replied in a dissatisfied tone, "Gentro, why are you so loud? You're scaring me. If you want me to tell you, then so be it. It's not like I won't."

"Furthermore, we did nothing wrong. It's their fault. Joey has been pestering you recently. I feel that she has malicious intentions, so I just said a few words to her. Besides, Audrea and you are a match, so no one should step in between the both of you..."

When he heard this, Gentro's face quickly fell. He seemed to have guessed what happened, and ordered in a cold voice, "Did you guys threaten Joey? Go apologize now."

"Gentro, I..." Sandra still wanted to say something.

17:20 

"Young Master Luo, we..." Audrea also added.

Gentro continued in a cold voice, "I can tell you right now that Joey didn't pester me. I've always been the one pursuing her, but she didn't agree to me."

"Besides, Audrea, the marriage deal between us has not been confirmed yet. I don't like it when someone uses the name of being my fiancée to cause trouble."

When Sandra and Audrea heard his words, they fell into shock. Even the crowd listening in on the conversation were stunned.

They did not expect that Gentro had been the one chasing after Joey, and that she hadn't accepted him.

"You're lying to us, aren't you?" Sandra turned to him in disbelief.

Gentro frowned and repeated coldly, "Apologize to Mr. Chen and Joey at once. Go now!"

"But..." Sandra still wanted to say something.

Gentro glared at her and shouted, "There's no need to hesitate. Apologize now!" 

## Chapter 1372

Sandra pursed her lips and looked reluctant, but she still lowered her head to apologize to Fade and Joey.

Then, Gentro stepped forward and bowed to apologize to them as well.

It was not until Fade nodded slightly that Gentro straightened up his body from bowing.

Then, he looked at Audrea with a grim expression and said, "Audrea, I suggest you apologize to Mr. Chen and Miss Chen immediately. I say this for the sake of your family."

"I..." Audrea frowned and looked reluctant. However, it was Gentro's order after all. After thinking for a while, she bowed her head and apologized.

Fade glanced at them and snorted, "For Gentro's sake, I'll let this go. Otherwise, I would've never let you guys off the hook this easily."

After that, Fade and Joey turned around and left. Gentro quickly caught up with them and continued to apologize and explain what had happened.

Behind him, a group of young masters and ladies frowned in confusion. They really didn't understand why Gentro was being so respectful and humble towards Fade, a nobody.

After all, he was Young Master Luo of the Luo Family in Capital City! He was extremely influential.

17:20 

Sandra was confused by Gentro's behavior, and Audrea stared in the direction where they left, her eyes filled with resentment. "Joey, Fade, I will remember this. Just you wait, I..."

Just then, her phone rang. Audrea reached for her phone and smiled excitedly when she saw the caller ID. "Johnson, what's up?" "Today's a holiday, I'm back. Where are you having fun? I'll meet you there." On the other side of the phone was a young man's voice.

Upon hearing this, Audrea quickly replied, "Johnson, I'm at a party. Come quickly. I have something urgent here going on and I need your help."

"What's the matter? Why are you in such a hurry?" He asked.

"Oh, stop asking. Just come, otherwise it'll be too late," Audrea urged.

"Okay, okay, I'll come over right away. I'll be there in fifteen minutes. Wait for me!"

Audrea put away her phone with a sinister look on her face.

Beside her, Sandra asked, "Audrea, did Johnson return?"

She nodded and responded, "Yes, it's Johnson. He's on holiday today. I asked him to come over."

When she heard this, Sandra could not hide her excitement anymore. "Audrea, Johnson is a member of the Stealth Team, and he's a member of the special team, which is the special force army. He's definitely one of the elites!"

Audrea nodded. "Johnson is a warrior, a very powerful one. He's even on the Dragon List. When he comes later, I will teach them a lesson."

17:20 

"That's right! You must! When I looked at how arrogant that guy was, I just want to beat him up." Sandra gritted her teeth and hissed. "And my cousin, I don't know what's gotten into him. He's being so polite..."

.....

Gentro apologized to both Fade and Joey once again for everything that had happened.

It turned out that Sandra was Gentro's second uncle, Borton's daughter. She had been arrogant because her parents coddled her. 

Audrea was the eldest daughter of the Han family in Capital City. They were a medium-sized family in Capital City, similar to the Hsia family before, and even slightly inferior. In general, compared to the Luo family, they were nowhere near them.

However, Gentro's second uncle, Borton, had married the second daughter of the Han family, who was Sandra's mother. Hence, Sandra and Audrea were actually cousins.

It was because of this, that Borton and Sandra had always aimed to pair Gentro and Audrea together, so that the Luo family and the Han family could become even closer.

However, Gentro didn't have any feelings for her. The old man, Dormer's, attitude towards the Han family had always been unclear. He did not show any signs of whether he was supportive of it or not.

Therefore, the relationship between Gentro and Audrea had always been ambiguous.

Gentro had no interest in her, but it seemed that she did not want to let go of him. She often spoke in the name of Gentro's fiancée in various situations, and wanted to make use of this opportunity to confirm the relationship between them.

17:20 

However, he really did not like her and had been avoiding her. Because of the relationship between the two families, Gentro had not directly offended her and removed himself from the relationship with Audrea.

She didn't expect that such a thing would happen that day. Gentro didn't care about her feelings at all and became furious at her in public, which indicated to everyone that they didn't get along well with each other.

After listening to Gentro's words, Fade and Joey nodded, having understood his situation.

Fade was uninterested in staying any longer. He bid farewell to Gentro and was about to leave, and Gentro quickly got up to see him off.

However, just as they were about to set off, they heard footsteps approaching them.

"What's going on?" Gentro was puzzled. He wanted to see what was going on.

At this moment, Sandra, Audrea and Sinclair walked in full of pride.

"Why are you here?" Gentro frowned.

Sandra answered, "Gentro, Johnson is here. He's coming to seek justice for us."

"What!" When Gentro heard this, he immediately frowned and shouted at Sandra, "Why are you messing around? This is already over. How could you..."

At this point, Audrea cut him off, "Young Master Luo, I'm the one who had been beaten. The swelling on my face is still there. It's not a matter that can be solved so easily."

Sandra added, "Sinclair has been beaten too."

17:21 

Gentro remained silent for a while. As he looked at Audrea, he said in a deep voice, "Audrea, it's actually the best result for you. I can tell you that it'll do neither good to you nor the Han family if you continue to blow up the matter."

"Really? But I don't think so," Audrea replied firmly.

At this moment, there was a loud cheer outside. Among the crowd, a tall young man walked toward them.

Audrea smiled. She waved her hand and said, "Johnson, this way!"

Sandra and Sinclair also went to welcome them. The young masters and ladies around also looked at them with excitement.

When Gentro saw this, he frowned. He walked over to Fade and whispered, "Mr. Chen, things seem to have gotten quite troublesome."

17:21 

## Chapter 1373

"What's the matter? Did they call over someone powerful?" Fade asked.

Gentro nodded. "It's Audrea's cousin. He learned martial arts in the army during his childhood and he's very strong. He's also a member of the special troop of the Stealth Team. He's the elite among the elites."

When he heard this, Fade couldn't help but feel a little surprised. He thought of the Five Elements Squad that he was in charge of as an instructor.

When Gentro noticed the surprised expression that Fade wore, he mistook it as him being worried. He then quickly said, "My family and the Han family are relatives, after all. I'll talk to them later. There should be no problem."

On the other side, Audrea welcomed the man. She threw herself into his arms and exclaimed, "Johnson, you are finally here."

"Audrea, you've grown up. Why are you still acting like a spoiled child?" Johnson rubbed Audrea's head. Then, he saw Sandra and Sinclair beside her and greeted them with a nod. "Sandra and Sinclair are both here too!"

Sinclair nodded and looked at Johnson with admiration and fear.

Sandra, on the other hand, was so excited. She hugged his arm and asked, "Johnson, why are you free today?"

Johnson was in a good mood. He smiled and replied, "We're going to have intensive training soon, so we have a day off. Besides, I've just been promoted recently, so I wanted to come back and tell my family."

17:21

"Johnson, you've been promoted. That's great!" Sandra clapped her hands as she cheered.

Audrea was also excited. She grabbed Johnson's hand and asked, "Johnson, what's your position now? Have you become more powerful?"

Johnson smiled and replied, "Not yet. It can't be that fast. It's just that there's some adjustment in our troops, so there's one vacant position so I'm going to take over it now."

"Johnson, you are amazing. Otherwise, why are you the substitute and not someone else?" Audrea remarked with a smile.

He smiled and waved it off. "Alright, let's stop chatting. Come on, why are you in such a hurry to call me over?"

Upon hearing this, Audrea's and Sandra's faces immediately fell.

"Johnson, we've been bullied. Even Audrea has been beaten, and Sinclair too," Sandra stated.

"What? Someone dared to hit you?" He frowned and asked. "What happened?"

Audrea and Sandra proceeded to tell him what had happened. Of course, they twisted the story to make it sound like they were the ones who had been bullied, while the other party had been extremely vicious.

After hearing this, his face became gloomy. He shouted, "It's too much. I must make him pay for bullying you."

"Lead the way. I want to see who that arrogant fellow is."

After that, Johnson and his people came over to Fade's group in an aggressive manner.

When Gentro saw this, he couldn't help but step forward and turn to Fade. "Mr. Chen, please wait for me, I'll go talk to them first."

17:21 

As for the other young masters and ladies, they all looked like they were enjoying a good show. They watched the two sides, which were about to start a fight, and their discussions continued unabated.

"Now, there's going to be a good show. Johnson is back and that kid will be in trouble."

"That's right! Johnson is a member of the Five Elements Squad in Stealth, a master of martial arts. It'll be easy to win."

"Huh, that jerk, don't you see what kind of place this is? Now that you're about to suffer, I'm afraid it'll be too late for regrets."

"However, it seems that Young Master Luo is going to stand up for that kid."

"It's impossible! The Luo family and the Han family are relatives, and with Gentro and Audrea's close relationship, it's not necessary to fall out with the Han family for the two ordinary friends! It's not worthwhile at all!"

"Let's wait and see. We can't tell what would happen now."

.....

In the midst of the discussion, Johnson strode over in big steps.

Sandra and Audrea were complacent. As soon as they came over, they shouted at Fade and Joey.

"You two, Johnson is here. Come over and apologize!"

"If you don't want to die, kneel down and apologize now. Otherwise, it will be too late for you to beg for mercy when he attacks."

.....

"Sandra, shut up!" Gentro shouted at Sandra when he saw this. He looked at Johnson and was about to speak, "Johnson, there

17:21

might've been some misunderstandings about this matter. I..."

However, at this time, Fade suddenly walked up and cut him off, "Gentro, there is no need to bother you. I can manage it."

"But..." Gentro looked surprised and worried.

Fade was already walking towards Johnson sternly.

Audre narrowed her eyes when she saw this. "How dare you be so arrogant? Johnson, it's him who beat me. Teach him a lesson." 5

However, Audrea noticed that no one was taking any actions. She was stunned and quickly pulled at Johnson's clothes as she whined, "Johnson, what's wrong with you? Hurry up and attack!"

Fade snorted and replied, "No matter how much courage you give him, he wouldn't dare to do anything to me!"

"Huh, what did you mean?" Audrea frowned and then continued to pull Johnson's clothes to urge him.

On the other side, Sandra stared at Fade and huffed, "You are about to die and yet you're still speaking arrogantly. Johnson's strength is not something that you can withhold. You'll know later."

"Johnson, Johnson, what's wrong with you?" Audrea looked at him, who was standing still and who was sweating. She was puzzled, so she tugged at his clothes. However, he remained motionless like a stone sculpture.

On the other hand, Fade walked up to him and commented, "Johnson, I didn't expect to see you here today. You're quite free!"

Upon hearing Fade's voice, Johnson came back to his senses. He quickly greeted, "Instructor Ch..."

Before he could finish his words, Fade gave Johnson a look to stop him and said in a cold voice, "Tell me, how should we solve

17:21 

this problem?"

Seeing this, Johnson understood that Fade didn't want to expose his identity as the instructor of the Five Elements Squad in public, so he didn't dare to say anything.

Immediately, he stood still and exclaimed, "Please punish me, Mr Chen!"

Fade waved his hand and replied, "I don't want to punish you. You can solve their problem by yourself!"

"Yes, Mr. Chen!" Johnson nodded respectfully.

Then, Fade walked away. 

17:21 

## Chapter 1374

Sandra and Audrea, who had been waiting to be entertained, looked over at him in surprise.

"Johnson, w-what's going on?"

"Why did you let him go! Johnson, we..."

He snorted coldly as he glared at Audrea and Sandra. He snapped, "Tell me, what exactly happened just now?"

"Johnson, it's us who were being bullied! Why are you..." They both exclaimed in surprise.

"Shut up, you guys don't know how big of a trouble you've caused," Johnson shouted. He then walked over to Gentro and inquired about the details of the incident.

Gentro told him the whole story. After listening to him, Johnson glared at Audrea, Sandra, and Sinclair. He said sternly, "How dare you put the blame on Mr. Chen when you were the ones who provoked him in the first place. Now, apologize to him. If Mr. Chen doesn't forgive you, you'd better not come back."

"Johnson, why are you..." Audrea and Sandra looked reluctant, feeling aggrieved.

He glared at them and shouted, "Are you guys not going to listen to me now? Or do you want me to personally make you apologize?"

In the end, Audrea was still fearful of her cousin, and did not dare to say anything. She bowed her head and apologized. When

17:21

Sandra and Sinclair saw this, they followed suit.

Fade had no interest in arguing with them. After a few simple warnings, he got up and left. Gentro and Johnson hurriedly and respectfully sent Fade and Joey away.

After watching them disappear, Gentro and Johnson returned to the courtyard.

Everyone in the courtyard looked at them in disbelief, with confusion written all over their faces.

They wondered why the two of them were being so respectful towards a brat like Fade, and even acted as if they feared him.

Audrea and Sandra felt extremely infuriated. As daughters of big and well-known families in Capital City, they had been embarrassed in public. Moreover, instead of getting sweet revenge, they were scolded, which was unacceptable for them.

Audrea lowered her head, looking discontented. She ignored Johnson even when she saw him coming.

He knew that she was angry with him, so he sighed softly and asked in a gentle tone, "Audrea, are you still angry with me?"

"I'm not angry!" She replied furiously. "Anyway, I've been beaten and humiliated. It's not a big deal. What's there to be angry about?"

Upon hearing this, he replied, "Audrea, I'm your cousin. Do you really think that I wouldn't be considerate of you?"

"Johnson, why are you still..." She looked puzzled.

He then replied, "Actually, I did this for your own good! Mr. Chen's status is not ordinary. He's not someone whom you can offend as you please."

"What's so special about him? He is just a brat who came to Capital City from somewhere else, isn't he?" Both Audrea and

17:21 

Sandra responded in confusion.

Johnson's face fell as he quickly cut them off, "That's definitely not the case. Let me tell you, don't let his appearance deceive you about Mr. Chen's strength and identity."

"It will do you no good to upset him. It'll only bring trouble to both of our families," Johnson continued. "Sandra, if you don't believe me, think about Gentro's behavior. Why is he so respectful to Fade? Do you think that your cousin is a fool?"

"My cousin is interested in that b\*tch, so..." Sandra replied with a pout.

Johnson paused, then sighed. "I can't reveal Mr. Chen's identity and strength. Anyway, I'm absolutely no match for him."

"Johnson, are you kidding me? You are a member of the Stealth Five Elements Squad, a martial arts master at the early stage of the Earth Level. How can you not be a match for that guy?" The two girls didn't believe it.

He heaved a long sigh. "Do you think I'll joke about something like this? There are some things that I can't tell you about, but there's one thing that I can tell you."

"What is it?" The two girls looked at him curiously.

He continued in a deep voice, "Do you guys know about the destruction of the Hsia family in Capital City some time ago?"

When it came to the Hsia family incident, Audrea and Sandra quickly nodded.

He continued, "It was Mr. Fade who destroyed the Hsia family."

"What? H-How is that possible?"

"Johnson, are you messing around with us?"

17:21 

"But, it's the Hsia family. How is it possible that he alone could've..."

.....

With a grim expression, Johnson stated firmly, "I'm not messing around. I can honestly tell you that the Hsia family was destroyed by Mr. Chen alone. Moreover, he has other identities and strengths, and he is not someone whom we can afford to provoke."

"That was why I asked you to apologize to Mr. Chen just now. Now, you guys should finally be able to understand my actions!"

The two girls paused, seemingly in disbelief.

After all, the Hsia family was an influential family in Capital City. Although they were slightly weaker than the Luo family, they were still more powerful than the Han family, and such a powerful family had been destroyed by Fade alone. Furthermore, after that, he was still a free man.

Sandra and Audrea were both stunned.

Johnson looked at them and advised, "Think about my words carefully. Don't do such stupid things anymore. I have to return to the army to explain today's incident. Otherwise, I will leave a bad impression on Mr. Chen, and it won't be good for me."

"You should also return home early and stop causing troubles. If you have time, ask Gentro to take you back and apologize to Mr. Chen!" Johnson ordered, then he left and went back to the army.

Audrea and Sandra looked at Johnson who was determined to leave, while they still felt that things were unreal.

The two ladies turned at each other and asked, "What's wrong with Johnson? He seems to be a little scared. Is Fade's identity

17:21 

really that powerful?"

"Furthermore, he also mentioned the army. Could it be that that jerk has something to do with Johnson's Stealth Team as well?"

"How about this. Let's ask someone to find out what Johnson has gone through in the team!" Audrea suggested.

Sandra nodded as she thought of something, and she agreed, "Oh, that's right. The Tan family is a martial arts family. They have some relations with the Stealth Team, so you could ask them to find out."

"Yes, hurry up and get Sinclair to make a call!" The two ladies hurriedly pulled Sinclair over. After the three of them had a discussion, they made a phone call.

## Chapter 1375

Sinclair made several phone calls. Through the connections of his family, he finally figured out what had happened.

Finally, after hanging up the phone, he put down the phone in a daze, completely surprised.

Upon seeing this, Sandra and Audrea frowned. They shook Sinclair and urged him, "Sinclair, tell us, what did they say? Who is Fade?"

"Sinclair, why are you in a daze? Tell us!" The two ladies urged.

He came back to his senses and took a deep breath before saying, "Fade, he is really powerful."

"What?" The two ladies frowned.

"I've asked my family about it. Fade went to the base of the Stealth Headquarters two days ago, and was appointed as the chief instructor of the Five Elements Squad by Mr. Mu of the Stealth Team."

"What? Chief instructor of the Five Elements Squad? Then, doesn't that mean that he's Johnson's immediate superior? No wonder Johnson was so..." Audrea remarked in surprise.

Sinclair continued, "Moreover, Lester, the former captain of the Fire Squad of the Five Elements Squad, was defeated by Fade, and expelled from the Stealth Team because he opposed Fade to be their instructor. It was also because of this that Johnson, the vice-captain of the Fire Squad, had been promoted to be the captain."

17:21 

When they heard this, Audrea and Sandra were shocked. They did not expect that Johnson's promotion was because of Fade. At this moment, the two ladies fell silent. They feel worried and nervous. They started to feel uneasy and did not know how to react.

Sinclair wanted to console the two ladies as he said, "You don't have to be too nervous. My family said that Fade has a good temper and he won't do anything against us. Moreover, he must have something to deal with recently. He shouldn't have time to deal with us."

"What's he going to deal with?" The two ladies asked casually.

Sinclair replied, "I just said that Fade had been appointed as the captain of the Five Elements Squad while Lester, the captain of the Fire Squad, tried to oppose him and was expelled. However, Lester is on good terms with Romeo, the captain of the Gold Squad. Moreover, Romeo is the most powerful one in the Five Elements Squad. He had been appointed as the chief captain and was supposed to be appointed as the chief instructor, but in the end, his position was taken away by Fade."

"It was said that Romeo is very dissatisfied with this. He is on a mission now. When he returns, he might go and find Fade."

"Romeo is not someone to be messed with. Fade would probably be busy dealing with him. He should have no time to care about us," Sinclair finished.

His words were meant to comfort the two of them, so they didn't have to worry that much. He hoped that they would all feel at ease.

However, after listening to that, the two ladies narrowed their eyes and exchanged glances. It seemed that they had thought of something as they smirked.

17:21 

"Romeo, Fade dared to offend someone like him!"

"Initially, we were really scared because of his identity as the instructor of the Five Elements Squad of Stealth, but we didn't expect that he would dare to offend Romeo. He's so bold!"

"Now, we don't have to worry about it at all. Fade needs to worry about himself. How long will he be able to walk around arrogantly?"

"Huh, it looks like something's about to go down."

.....

When he saw this, Sinclair felt confused. He asked the two ladies, "What do you mean by this? Why..."

Audrea glanced at Sinclair and asked, "Don't you know Romeo's identity?"

"What identity? The Hsing family isn't even considered very powerful! In Capital City, they can only be considered a second-class family!" Sinclair replied in confusion.

Sandra glared at her boyfriend and snapped, "What do you know? The Hsing family in Capital City is just a cover. The real Hsing family is much more powerful. Even the Luo family is not a match for them at all."

"Huh? The Hsing family is that powerful?" Sinclair exclaimed in surprise.

Sandra continued, "It is said that the Hsing family is a part of the hidden family. The Hsing family in Capital City is just a stronghold of the real Hsing Clan. They are not someone whom we can speculate about."

"The hidden family! This..." Sinclair was shocked.

17:21

As a nobleman in Capital City, he knew about the strength and locations of the big families there.

According to the current situation, the Luo and Chung families were considered first-class. The Hsia and Han families, as well as the Tan family, were considered second-class. As for the other families, even if there was a slight difference, their powers were basically within this range, and they were not much weaker.

However, it was said that there was a more powerful existence above all the first-class families such as the Luo and Chung families. That was the legendary hidden family. Each of the families of the hidden family was like a colossus, and their power was much stronger than the Luo and Chung Families.

It was just that the hidden families had always kept a low profile. Unless it was to a certain extent, no one would know their existence.

Now, Sinclair was naturally shocked when he heard that the Hsing family was actually the hidden family.

"A-Are you sure? The hidden family. They're so powerful!" He remarked in surprise.

Sandra and Audrea nodded and said, "Yeah, we're sure. Rumors about the Hsing family have already spread more than a decade ago. Many big families' heads have personally gone to the Hsing family to pay their respects."

"Furthermore, think about it. In all these years, the big families have been competing with each other in Capital City. There are many that have been destroyed, many that have emerged, and many that have consolidated. However, the Hsing Family has not been involved in the matter at all. If they did not have a certain level of background, how could those great families leave the Hsing Family in peace?"

The more Sinclair thought about it, the more he felt that it was true. His expression changed and he said, "If it's true, then Fade

17:21 

will be in trouble."

"Humph, that's for sure. No matter how powerful he is, how can he be as powerful as the hidden family? If he provokes Romeo, he'll definitely be in trouble," Sandra smirked.

Audrea also added, "Then, we don't have to worry at all."

The three of them felt relieved.

.....

On the other side, on their way back from the meeting in the courtyard.

Fade looked at Joey, who was standing beside him with her head down. She pursed her lips with a gloomy expression. He frowned slightly as he was worried, then he asked, "Joey, are you unhappy? Did Sandra and Audrea's matter affect you?"

Joey shook her head and replied, "No, I'm fine."

Fade looked at her and said in a low voice, "Joey, do you have something on your mind? Can you tell me?"

"Fade, I..." Joey looked hesitant. She looked at Fade and didn't know what to say for a while.

17:21 

## Chapter 1376

"You seem to have changed recently, especially your attitude towards Gentro. You used to ignore him, but recently you have been frequently accepting his invitations, and got close to him. However, you also told me that you didn't like Gentro at all. I want to know why?"

"I, I..." Joey faltered and didn't know what to say.

Fade rubbed her head and continued softly, "Is there a need to hide anything from your brother? If you tell me about it, I can help you think of other ways and solve the problem faster, right?"

"Uh..." Joey fell silent for a while. Then, as if she had made up her mind, she nodded as she turned to him. "Fade, you're right. I shouldn't have kept it from you. I'll tell you about it."

"Sure, I'm listening." He nodded his head.

She took a deep breath, and finally said, "Well, actually, I approached Gentro to find out about my parents."

"What!" When he heard this, Fade felt surprised.

The both of them were orphans who had been adopted by the old fogey. They had lived with him ever since they were young, and they didn't know anything about their parents at all.

Fade had never thought about looking for his parents. He also thought that Joey, like himself, did not care about hers.

17:21

However, three years ago, it seemed that someone found Joey and revealed something about her parents. However, she was stopped by the old fogey back then, so she did not continue investigating that matter.

Fade had thought that it was nothing. He didn't expect that she had been keeping it in mind, and secretly followed up on it.

"Does the old fogey know about this?" He asked.

She shook her head and replied, "Three years ago, Master drove the man away. I knew that he didn't want me to know about this, so I kept it a secret from him about investigating my parents. I don't want him to feel angry or sad."

"The reason why I ran away from Tianwu Mountain was because I found some information about my parents, so I wanted to investigate it myself in Capital City."

Fade immediately guessed, "And the information you obtained has something to do with Gentro?"

Joey nodded. "Yes, it has something to do with him. Or to be more precise, my mother might be related to the Luo family."

"It's just that I couldn't continue investigating it myself anymore as I had no more clues, so I wanted to try to get some clues from Gentro in order to continue investigating my mother," she finished.

Upon hearing this, Fade finally understood why she had suddenly changed during this period of time.

After a moment of silence, he asked, "Now, what are you going to do?"

She shook her head and answered, "I-I don't know. I wanted to take my time to get closer to Gentro. However, it seems that there will be misunderstandings and trouble if I become close to him, so I can't do anything about it."

"Then why don't you just come clean to Gentro, and ask the Luo family yourself?" He questioned.

17:21

Joey shook her head as she responded, "I've tried to ask him about it, but he doesn't seem to know much about anything. Moreover, it's related to the Luo family's secrets and it appears that they don't want to talk about it."

"Oh... I see!" Fade paused, and then suggested, "I have a fairly good relationship with Gentro. Why don't we do it this way? I'll take you directly to the Luo family and explain everything to them. Let's see if the Luo family can give us some clues."

"But, but..." She hesitated.

"Joey, don't worry. It's good to have a try. Even if we don't succeed, we have nothing to lose either!" he reassured.

"I... Um... Alright, Fade." After a moment of hesitation, she finally nodded and agreed.

He smiled as he rubbed Joey's head. "If anything happens in the future, don't keep it to yourself. Tell me, and we will solve it together. Do you understand?"

"Yes, I understand. Thank you, Fade!" Joey leaned into his embrace and smiled.

The next day, Fade called Gentro and said that he wanted to visit the Luo family. At the same time, he also explained that he might need the help of the Luo family for something.

Upon hearing this, Gentro was overjoyed and agreed immediately.

Hence, the following day, Fade and Joey came to visit the Luo family together.

As a first-class family in Capital City, the Luo family lived in a huge mansion that was thousands of square meters large. It was decorated with black bricks and red tiles, inspired by the retro theme.

The car stopped outside the courtyard and Gentro greeted them with a smile. Then, he brought Fade and Joey into the Luo

17:21

family's courtyard.

The Luo family was indeed a first-class family in Capital City. Although they were rich, the interior of their mansion was not ostentatious. It looked elegant and was filled with hints of traditional Chinese culture.

When they entered the living room, the servants served them hot tea.

They chatted as they enjoyed the tea.

A few minutes later, a servant came to report, "The Old Master is here!"

Gentro stood up and walked over. Fade and Joey also put down their cups and stood up with a smile.

Immediately, the two saw Gentro walking in as he held an elder draped in green robes.

Behind the elder, there were two middle-aged men in their forties and fifties. One was dressed in a suit and leather shoes, with a calm expression on his face; the other was dressed in luxury leisure clothes, and he appeared to be quite young.

After they sat down, Gentro immediately introduced them to Fade and Joey. "Mr. Chen, Joey. This is my grandfather Dormer, this is my father Leroy, and this is my uncle Borton."

Then, he introduced Fade and Joey. "Grandpa, Dad, Uncle Borton, this is Fade, Mr Chen, whom I have told you about before. This is Mr. Chen's sister, and also my classmate, Joey." 📱

When he introduced Joey, Gentro's tone sounded much more joyful and his eyes kept looking at his father and grandfather, as if he wanted to observe their attitudes towards her.

After the introduction, Fade took the initiative to greet them, "I'm Fade. Nice to meet you, Dormer, Leroy, and Borton. Thank you

17:21 

for inviting us here!"

Joey also greeted them.

Dormer nodded and said with a smile, "Mr. Chen, you don't have to be so polite. You are young and promising, and very strong indeed. You are the most influential person in Capital City. It's our blessing to have you here as our guest."

17:21 

## Chapter 1377

Leroy also smiled and added, "My son, Gentro, has talked a lot about you, Mr. Chen. I admire you a lot for the things you've done!" On the other hand, Borton looked at Fade and snorted. Then, he turned his head away and said nothing.

Seeing this, Fade didn't take it to heart. After all, Borton was Sandra's father and he had had a conflict with her at the party. Therefore, it was only natural that he didn't like Fade.

Now, he just needed to take care of Dormer. Borton's opinion towards him wasn't that important.

After brief greetings, Fade went straight to the point and spoke out his purpose. "Dormer, I came here with my sister as we have something that we need your help with."

It was obvious that the Luo family knew that they were asking for help, so it was no surprise. Dormer answered with a smile, "Fade, you are Gentro's friend. If there is anything I can help with, just let me know. As long as it's something that our family can do, we will definitely help you."

"Thank you, Dormer!" Fade bowed as he thanked him before he continued, "Well, this is what happened. My sister has been looking for a person. Now, she has some clues that lead to the Luo family, so I would like your help in finding the person according to the clues."

"You're looking for someone? That's not a big deal! I can just send someone to help you." Dormer nodded.

17:21

Fade didn't continue to speak. Instead, Gentro started, "Grandpa, this is slightly personal. Therefore, it will be fine if they can do it alone on their own. They just need to head to our ancestral temple and look up the information."

The Luo family's ancestral temple was not only dedicated to their progenitors, but also to the library of the Luo family. There were some old materials of the Luo family in it.

When he heard this, Dormer looked slightly surprised as he repeated, "The family's ancestral temple?"

Borton immediately cut in, "Luo family's ancestral temple is the place where the Luo family worships our elders. Father, it's not a good idea to let outsiders enter freely!"

Dormer frowned and seemed to be a little hesitant.

Just then, Leroy suggested, "Father, I don't think it's a bad idea. Besides, Fade is only heading inside to look up some information. If Gentro goes with him, I think that it will be fine."

"It's fine if they are only after the information! But if they have other intentions, then it'll be a different story. After all, although the Luo family is good at dealing with people, we still have our rivals," Borton retorted.

"Uncle, you're being too serious. I know Mr. and Miss Chen. They are not bad people," Gentro said.

"Gentro, you are still young. Some things are not easy to distinguish." Borton was hostile towards both Fade and Joey.

Dormer remained silent as his brows furrowed, hesitating.

When he saw this, Fade knew that things would not be so easy. Fortunately, he had expected this. He wasn't panicked at all. He then took out a jade bottle and said, "Dormer, we are very grateful that the Luo family has allowed us to visit. For this, I have

17:21 

specially prepared a small gift. I hope that you will not mind."

"This is..." Dormer looked at the jade bottle and asked.

Fade explained with a smile, "Dormer, this is a nourishing pill that I have personally produced. It has the effect of strengthening the body and also prolonging life. Some minor problems of the body such as dizziness, insomnia and such can be solved with just one pill. If you use it long-term, you might be able to prolong your life by one to two years."

When Dormer heard his words, excitement lit up in his eyes. "Really?"

Fade nodded. "I have produced the pill by collecting forty-nine types of expensive Chinese medicine, and I have made it with a special formula."

Upon hearing this, Dormer smiled and was about to take over the bottle.

However, Borton sneered as he stood before Fade. He said with an unkind smile, "Strengthening one's body, prolonging one's life, curing all diseases. Why do you sound like a street scammer?"

"Besides, I'm afraid that even National Chinese Medical Doctors who provide medical service to noblemen can't guarantee that they could prolong life by one or two years. I don't know what you are capable of. How could one be more powerful than those great doctors?" Borton questioned with a skeptical tone.

Dormer paused and doubt clouded his eyes as he looked over at Fade.

Without waiting for Fade's explanation, Gentro hurriedly explained, "Grandpa, this may sound a little surreal, but if it's Mr. Chen's medicine, then it's the real deal!"

17:21 

"What? Why?" Borton frowned.

"Uncle, here's the thing. Apart from being a teacher in our school, Mr. Chen is also a doctor. The Sincere Medicine Centre that has blown up in popularity here in Capital City belongs to Mr. Chen," Gentro said.

"Sincere Medicine Centre, is that the one that defeated Chiang Medical Centre of the Chiang family?" When Dormer heard Gentro's words, he asked in surprise.

Gentro nodded. "Yes, that's the one."

"Owning a medicine center can only prove that he is a doctor. However, the effects of this so-called nourishing pill sounds overly exaggerated! It's just like the elixir in myths." Borton was still skeptical.

Gentro continued, "Uncle, to some extent, Mr. Chen's nourishing pill is almost as good as those elixirs."

"Gentro, I know that you want to help your friend, but you've gone too far!" Borton shook his head.

At this moment, even Dormer couldn't help but turn to Gentro.

Gentro, however, was full of confidence as he said firmly, "Grandpa, Mr. Chen has also set up a company in Capital City apart from the Sincere Medicine Centre. It's called the Fei Enterprises Holdings Inc."

"Fei Enterprises Holdings Inc... I don't seem to know about it." Dormer frowned.

Gentro continued, "Fei Enterprises Holdings Inc is not very famous, but Grandpa, you must know about this. Fei's Life Elixir Wine was produced by Fei Enterprises Holdings Inc, and it was also made by Mr. Chen himself."

"Fei's Life Elixir Wine was actually produced by Fade's company. Well..." The old man couldn't help but be surprised.

17:21 

Even Borton frowned, and surprise was written all over his face.

Fade quickly added, "Dormer, Fei's Life Elixir Wine is indeed my product, and this nourishing pill is a variation of this Wine, or in other words, it's the essence of it. Its effect is more than ten times better than the ordinary Fei's Life Elixir Wine."

When he heard this, Dormer was really excited. After all, the wine was popular in Capital City, so he naturally tasted it and had tested its effects himself.

The effect of this nourishing pill was more than ten times that of the Life Elixir Wine. It was likely that it actually had the effect to prolong one's life by one or two years. 

17:22 

## Chapter 1378

Just then, Dormer got out of the chair and reached out to pick up the nourishing pill.

When he saw this, Borton couldn't help but frown. "We shouldn't just take his words at surface value. We should be more careful about what we take into our bodies."

Gentro glanced at his uncle, and his tone became cold as he remarked, "Uncle, I don't think you need to worry about the safety of this pill."

"Why shouldn't I?! The current merchants, for the sake of profits, can do anything," Borton hissed with dissatisfaction.

"Mr. Chen is not an ordinary businessman. He is the winner of our Chinese 'Special Contribution Award'. Director Qi of the Drug Administration had personally awarded him the title," Gentro returned.

"Mr. Chen received the 'Special Contribution Award' because he developed the Ephedra Syrup and authorized the formula of the syrup to the health department for free. He saved hundreds of thousands of people's lives in our country," he continued.

Upon hearing this, all the members of the Luo family present were shocked.

"Special Contribution Award. That's a rare reward!"

"I know the Ephedra Syrup. It really is a life-saving medicine!"

.....

17:22

Just then, Dormer said with a smile, "Fade has contributed so much to our country and people. I trust him!"

Even Borton, who had been deliberately nitpicking him, couldn't say anything in the face of the credit of the Ephedra Syrup. He could only frown and watch as Dormer chatted with Fade happily.

The old master accepted the nourishing pill, and then after lively chatter, he finally agreed to let Fade and Joey head to the ancestral temple of the Luo family to seek the information they required.

Fade and Joey couldn't help but be overjoyed as they expressed their gratitude to Dormer. Then, Gentro took them to the Luo family's ancestral temple.

However, just as they were about to leave, a clear voice suddenly broke into the living room, "No, Grandpa, don't let them go to our Luo family's ancestral temple!"

The shout attracted everyone's attention in the living room.

Under the gaze of everyone, a girl of 18 or 19 years old ran out. Fade fixed his eyes on her and found that she was Sandra, whom he had met at the party a few days before.

When they saw Sandra, Gentro, Fade and Joey couldn't help but frown at the same time, worry written on their faces.

When Dormer heard his granddaughter's voice, he asked curiously, "Sandra, what do you mean?"

Sandra glanced at Fade and Joey, and then replied, "Grandpa, we can't allow them into our family's ancestral temple."

"Sandra, what are you doing!" Gentro frowned as he spoke in a low voice.

Leroy also scolded her in a low voice, "Sandra, this is adults' business. Don't interrupt."

17:22

At this moment, Dormer also added, "Sandra, what's the matter with you? You can tell me later. Now, I'll take Fade to the ancestral temple first."

After all, the nourishing pill was very attractive to Dormer, so he didn't take Sandra's words seriously. He was going to talk to his granddaughter after finishing Fade's matter.

However, Sandra was resolute. She pulled Dormer's sleeve and said, "Grandpa, you can't let Fade go to Luo family's ancestral temple! He'll bring great trouble to us."

"Trouble?" At this point, Dormer could not help but frown with a puzzled look on his face.

Leroy frowned and ordered in a low voice, "Sandra, Mr. Chen is our honored guest. Don't throw a tantrum and mess around."

At this moment, Gentro also spoke immediately and explained to Dormer, "Grandpa, when we went out to the party a few days ago, there was a little conflict between Sandra and Mr. Chen. Sandra had some misunderstandings and dissatisfaction with Mr. Chen, so now..."

Upon hearing this, Dormer nodded his head with a look of understanding. He then patted Sandra's hand and said, "Sandra, I have something important to do right now. We can talk about it later."

Obviously, Dormer also took Sandra's words as a little girl throwing a temper tantrum, and didn't care much about it.

Sandra's face quickly fell. She held onto Dormer's sleeve and continued, "Grandpa, I'm not messing around. I'm telling you the truth. If they go to our Luo family's ancestral temple, they'll really bring a lot of trouble to us."

"Sandra, you're talking nonsense. Leave!" Leroy shouted.

17:22

Sandra's father, Borton, glanced at his daughter before saying, "Dad, Sandra isn't a person who will joke around. Since she has said so, there must be a reason. Why don't we listen to her."

"Well..." Dormer hesitated for a moment, then finally nodded his head and agreed, "Alright, Sandra, explain what's going on?"

Immediately, Dormer turned to Fade and said apologetically, "Fade, I'm really sorry. I can only ask you to wait a little longer."

"It's alright, Dormer!" He nodded.

Then, the members of the Luo family headed to another room.

In the small room, Dormer looked at Sandra and asked in a deep voice, "Sandra, tell me, what's going on?"

Sandra took a deep breath and began, "Grandpa, Uncle, Dad. If we allow Fade to enter our Luo family's ancestral temple, then we'll offend the Hsing family."

"Hsing family, which Hsing family?" Leroy couldn't remember which family it was.

Sandra answered, "Uncle, it's the Hsing family that is very low-key in Capital City, and is a hidden family."

After listening to Sandra's words, everyone was shocked.

"The Hsing family, the hidden family? How could that be!"

"How could Mr. Chen have anything to do with the Hsing family?"

"That's impossible! Sandra, stop messing around!"

.....

17:22 

Sandra's gaze was firm as she continued, "Uncle, Gentro, I'm not speaking nonsense. This is a fact, this is what happened. Fade... In the end, he offended Romeo. As for Romeo's identity, everyone knows that he's from the Hsing family in Capital City."

Then, Sandra quickly told him what she had heard.

Upon hearing this, the members of the Luo family looked at Sandra in disbelief.

"How is this possible? He actually offended the Hsing family. This really is something big!"

"Romeo is a famous martial artist of the younger generation. He has the strength of a martial artist at the later stage of the Earth Level. He is the captain of the Gold Squad of the Stealth Team and ranks seventh on the Dragon List. He is extremely powerful!"

"If he really did offend Romeo, it will be big trouble. It would be better for the Luo family not to get involved."

.....

The members of the Luo family then started discussing the matter.

On the other hand, Dormer frowned as he fell silent.

## Chapter 1379

Gentro was a little anxious as he defended Fade, "Grandpa, let's not talk about whether it's true or not. Even if it's true, Mr. Fade's strength is absolutely not inferior to Romeo's. He's even more powerful than Romeo!"

After all, Gentro had witnessed Fade's strength with his own eyes. Moreover, during the destruction of the Hsia family, Fade had been followed by Kaeran, who was in the middle stage of the Earth Level, and White Claw, who was in the late stage of the Earth Level. Later, he subdued Black Lord who was in the middle stage of the Earth Level.

This lineup was already more formidable than many great families. With so many masters submitting themselves to Fade, his strength and background were definitely not simple.

However, without waiting for Gentro to express his thoughts, Borton gave a cold snort as he retorted, "Gentro, you must be joking! How can Fade compete with Romeo in terms of strength? Stop joking around."

"Besides, even if the strength of his martial arts is really comparable to that of Romeo's, it's useless. Romeo is backed by a hidden family. This family is something that even our family can't compare with. How could Fade fight against the Hsing family by himself?" Borton questioned.

"This..." Gentro fell speechless for a moment. This was because he also knew that the hidden family was much too terrifying. Even his own family was no match to them. Thus, he could only try to defend, "Fade and Romeo haven't even met. Just because of one single instructor, you claimed that he had offended Romeo and the Hsing family. Isn't that a bit too far-fetched? Maybe

17:22

Romeo doesn't care about this at all."

"Gentro, even you know that you're lying to yourself. Who in our circle doesn't know that Romeo is competitive? Do you think that he won't be angry when he learns that his instructor's position has been snatched away, and his good friend has been expelled by Fade?" Sandra questioned.

"Well..." Gentro fell speechless.

"What's more, even if you're right, how could the Luo family take risks in something like this? Even if there is only a ten-thousandth chance, we can't take a chance," she continued.

Borton immediately spoke up for his daughter, "Yes, we can't depend on luck when it comes to this. After all, if we really do allow Fade to enter a secret place like the Luo family's ancestral temple, others might think that we are close to Fade. On the other hand, if the Hsing family blames us, we won't be able to defend ourselves at all!"

When he heard this, Dormer's face fell. The nourishing pill, which had been originally held in his hand, was now placed on the wooden table aside.

When Gentro saw this, he said anxiously, "Grandpa, things are not as bad as we thought. We'd better calm down and take the time to think about it!"

Leroy also added, "Father, Gentro is right. Let's not scare ourselves first. Let's have a good talk with Fade and see what he says!"

When he heard this, Dormer's expression was slightly better. After a pause, he nodded and said, "Let's talk with Fade first!"

Then, they walked out of the small room and returned to the living room.

17:22

Fade and Joey immediately stood up. When they saw that there were strange expressions on the faces of Dormer and the others, they suddenly felt that something was wrong. However, Fade still greeted politely, "Dormer!"

Dormer nodded slightly and started, "Fade, I have some questions. I want to verify them with you. I hope you can tell me the truth."

His unfamiliar tone and gloomy face made Fade frown slightly. However, he immediately agreed, "Dormer, please. I will tell you everything I know."

"Sure!" Dormer nodded, then looked at Fade and asked, "Mr. Chen, did you become the instructor of the Five Elements Squad of the Stealth Team a few days ago?"

"Uh..." Fade paused, and then he nodded. "That's true. I just started a few days ago."

Hearing this, Dormer nodded, looked at his son and continued to ask, "Did you have a conflict with Lester of the Fire Squad in the process of being elected as an instructor and also expelled him from the Stealth Team?"

"It did happen!" Fade nodded again.

"Well..." Hearing this, Dormer's expression was getting grimmer. He took a deep breath and continued to ask, "Mr. Chen, have you discussed the matter of being elected instructor with Romeo, the captain of the Gold Squad of the Five Elements Squad?"

When he heard this, Fade felt a little strange and said with a smile, "Romeo was not at the Stealth Team at that time. I didn't discuss it with him. Besides, my position was personally appointed by Vice Officer Mu. I don't think it's necessary for me to discuss it with Romeo, a captain!"

Fade's words sounded like he didn't take it seriously, but when Dormer and the others heard it, they were shocked as their

17:22 

expressions fell.

Dormer sighed and waved his hand. Suddenly, one of his men sent the jade bottle containing the nourishing pill back to Fade. Fade looked at the jade bottle with a puzzled look. He asked, "Dormer, what does this mean?"

Dormer said, "Mr. Chen, I'm really sorry. We can't agree to your request so take this nourishing pill back."

"This..." Fade was shocked and asked in confusion, "Dormer, why? If the Luo family feels that I am not sincere enough, I can add a nourishing pill, or other drugs, or even martial arts skills, as long as you ask for it!"

Dormer shook his head and said, "It's not about that. In any case, we cannot agree."

Just as Fade wanted to say something, Leroy said to Fade in a deep voice, "Mr. Chen, this is not a matter of compensation. It is that you have offended Romeo and the Hsing family. Things are a little troublesome."

"Mr. Chen, you'd better go to the Hsing family to apologize now. Maybe you can save the situation before things get worse."

When he heard the earnest words of Leroy, Fade could not help but feel a little confused as he responded, "I'm just an instructor and I don't think it would offend Romeo. Besides, even if I did offend him, I don't have to be afraid of him with my strength. Dormer, you may worry too much."

When he heard this, Borton sneered and said, "What an arrogant and ignorant guy. You've offended Romeo, and yet you claim that it's nothing? Do you know how strong the Hsing family is?"

Sandra sneered in disdain, "Just keep bragging. When Romeo returns, you'll be finished."

Dormer sighed and then shook his head, as if he didn't want to speak any further.

17:22 

Fade was a little confused. At this moment, Gentro came to his side and quickly explained Romeo's background and the Hsing family's background.

After hearing this, Fade frowned slightly, then turned to Dormer as he said, "Dormer, if you are worried about the revenge of the hidden family, please do not worry. I am not afraid of the hidden family at all. Even if they attack me, I have the strength to fend them off." 

17:22 

## Chapter 1380

When he heard this, Dormer shook his head. He no longer wanted to be bothered about Fade. He waved his hand and said, "Mr. Chen, please go back!"

Leroy also added, "Gentro, see Mr. Chen off."

"Dormer, I..." As Fade tried to explain himself, he noticed that Dormer did not give him a chance at all. Hence, he turned around and left.

Left without any choice, Fade and Joey had to leave.

Back in the living room, the Luo family gazed at Fade's back as he left. Borton sighed as he remarked, "Ignorant and arrogant guy. He has offended a hidden family, and yet he claims that he can counter them. How ridiculous."

Sandra added, "Let's see for how long he can remain arrogant. Romeo will be back soon."

On the other hand, Dormer sighed. "What a pity. It's a pity that I didn't have the chance to have the nourishing pill."

When he saw this, Borton quickly comforted him, "Father, you don't have to worry about it. Later, I will go to the imperial hospital to find a National Chinese Medical Doctor, and ask if they can help to make a nourishing pill for you."

"Alright!" Dormer nodded and then turned around to walk away.

Outside on the courtyard of the Luo family, Gentro sent Fade and Joey to the car. His tone was extremely apologetic. "Mr. Chen,

17:22 

Joey, I'm really sorry. I didn't expect things to turn out like this. I will definitely find a way to persuade my grandfather to agree."

Fade smiled. "It's fine, it's not your fault. We will think of another way ourselves."

Then, Fade and Joey left.

On the way back to Capital University, Joey remained silent with her head down.

Fade comforted her, "Joey, it's alright. We will think of other ways later and we will definitely be able to find more clues. Worse comes to worst, we can use the old fogey's reputation to help us. It will definitely be effective."

"Yes!" Joey squeezed out a smile as she nodded at him.

.....

In the next few days, Fade tried to ask Gentro about the situation, but he couldn't get through his phone at all. Moreover, Gentro had been absent from school for several days, so he could only set the matter aside.

One day, as Fade was preparing for class, he received a call from the branch of Fei Enterprises Holdings Inc. "Hello, I'm Fade. What's the matter?"

A somewhat anxious voice came from the other end of the phone. "President Chen, Miss Meng has been away for business for more than half a day and hasn't returned yet. We can't get in touch with her. The manager asked if you want to call the police."

Fade immediately frowned and asked, "We can't get in touch with Yankee? What's going on?"

"A few days ago, the company received a big order from a new customer, saying that he wanted to order one million bottles of our Life Elixir Wine. Moreover, the customer asked Miss Meng to negotiate."

17:22 

"She went over to negotiate early in the morning. However, it is already in the evening and she has yet to return. We tried to call her but her phone was turned off. We are a little worried, so..."

Fade immediately grew anxious. He quickly asked, "Where did they meet? Who is the customer who placed the order? Send me the details."

"They agreed to meet at a five-star hotel not far from the company. However, when we called and asked, the hotel staff claimed that Miss Meng had left before noon, and it was a young man who left with her. We don't know where she went after that."

"What!" Fade's expression quickly fell. After a moment of silence, he calmed himself down. He then ordered, "Continue to try and contact Miss Meng. Inform me immediately if there is any news. I don't think we need to call the police for the time being, I'll do my part."

"Yes, President Chen!"

After Fade ended the call, he immediately dialed Sawyer's number.

Sawyer was one of the leaders of the gangsters in the branch. He had set up Sawyer Gang, and he had been subdued by Fade when Fade was fighting against the fake Life Elixir Wine.

He ordered Sawyer to investigate Yankee's whereabouts.

After all, a local villain like him was sometimes more useful than a big family like the Luo and Chung Families.

After Sawyer picked up the phone, Fade quickly told him about the situation at hand, and sent the photo of Yankee to him. Fade ordered him to start looking for her immediately.

17:22 

Sawyer naturally did not dare to neglect his request and immediately got busy. On the other hand, Fade drove from the university and headed for the branch office.

More than ten minutes later, before Fade arrived at the branch office, Sawyer sent a message that he had found out something about Yankee.

At noon, a sidekick from the Sawyer Gang saw Yankee and a young man coming out of the five-star hotel.

Because it was Fade who ordered him to take care of Fei Enterprises Holdings Inc, Sawyer's men knew who Yankee was, the manager's secretary of Fei Enterprises Holdings Inc.

After seeing her and the young man leave, the sidekick quietly followed them. He found that Yankee and the young man had gone to a bar called "Galaxy Bar."

The Galaxy Bar was a well-known bar on the streets of the western suburbs. Not only was the area heavily decorated and luxurious, more importantly, the Galaxy Bar was known as the "S\*xual Encounter Bar" by many customers. There were a lot of handsome men and beautiful women there, and it was a good place for many people to look for excitement.

When the sidekick saw Yankee and the young man enter the Galaxy Bar, he thought that the young man was Yankee's boyfriend, and they just wanted to have some fun and relax. Therefore, he didn't think it was a big deal and quickly left.

When Sawyer issued an order to look for Yankee in the Sawyer Gang, the sidekick remembered what had happened before. Hence, he quickly reported it to Sawyer and then reported it to Fade.

After hearing that, Fade grew more and more worried.

He knew that Yankee had a strong temper and was definitely not the kind of girl who would indulge herself in something like this.

It was even more odd for her to hang out with other people during working hours. There had to be something wrong with that. As he thought of this, Fade immediately headed over to the Galaxy Bar.

.....

At the same time, in the Galaxy Bar, although it was only in the evening and the sunset glow had not dissipated, the whole bar was already crowded.

The flickering lights were accompanied by the explosive music, coupled with the smell of alcohol in the air, making people feel excited. They let go of themselves as they danced to the pumping music with alcohol in their systems.

Many men and women hung onto each other without a care in the world, and they started making out in public. Many people cheered for them as they watched.

In this lively atmosphere, a man clad in stylish clothes, who wore an ear stud, stood by the bar as he watched the crowd. A smile played on his lips.
