

Chapter: 3078

“It’s true that they are in the War Eagle Country, but we can’t enter their territory! They should have their own small world!”

“They are so powerful that the devices given to the Sky Shield Bureau can change everything in the area, and even save the entire War Eagle Nation from the aura storm.

Then it is also possible for their own place to become an independent world isolated from the rest of the world! ”

Ye Junlin not only did not think it was not absurd, but was also correct when Black Hawk agents proposed this “small world” theory.

Mostly so.

In fact, this force is in the territory of War Eagle Nation, but they have used some devices or special methods to turn their area into an independent world, and others can’t find it and can’t get in.

In layman’s terms, they use the device to change the nearby magnetic field, gravity and other factors.

Even if you find this place, you will get lost due to the changes of various elements such as the magnetic field, gravity field, etc. You wander around for a long time, but you are actually just standing there, and you can’t find it at all.

Or directly change these factors, so that you walk around the edge of this “independent world”, and you can’t find this independent world at all, let alone enter it.

They have this kind of heaven-defying means, and it is too simple to hide the small world they are in.

It is easy to give you the illusion that you have passed through this area.

But in fact you are walking around the edge without touching this area at all.

You passed through from somewhere else.

Not conjecture.

But that’s for sure.

It’s too easy for them.

It’s easy to make a “small world”.

Ye Junlin thinks of Daxia’s words, such as Zhenmo Division, such as Tianshifu.

There are supernatural beings here.

They made an area so that outsiders couldn’t come and find it, it was simply too easy.

The small world sounds incredible to others, but to Ye Junlin who probably knows the principle, it is as simple as chopping melons and vegetables.

For example, Zhen Mosi, they have been looking for a long time.

Still no clues.

Reminder now.

There is a high probability that the Town Demon Division has its own independent small world, and other people just cannot approach or find this area.

Even if you enter it accidentally, you will be bypassed and you will not be able to find it at all.

“By the way, I also heard that they can unlock your daughter’s poison! But they won’t do it! Even if you beg them, it’s useless! You have no conditions to impress them! You have it, they have it. You don’t have it. Yes, they have more!”

Agent Blackhawk said.

Hearing this message, Ye Junlin looked calm.

This force is so terrifying, it is normal to be able to detoxify.

Fortunately, Junjun has solved half of the poison now.

Immediately open the secret lock, you can completely detoxify.

Otherwise, knowing this information, Ye Junlin will definitely go crazy.

He even contacted this force for his daughter and asked them to take action.

But now he is calm.

“Okay, I probably know it too!”

Ye Junlin smiled.

This made the Black Hawk agents different again, and Ye Junlin was still at the top level.

As for his secret, he didn’t dare say it.

still the same.

This is likely to be his life-saving trump card, which can only be used at critical times.

I thought it would take a long time to find the murderer.

I didn’t expect to find it as soon as I got out of the horse.

But Ye Junlin couldn’t say it either, he could only delay for a while.

Now, what is causing Ye Junlin’s headache is not the problem of Junjun’s poisoning, but who is behind Yan Zangsheng?

Why target yourself?

Even Tiance Shenshuai was wondering about this.

Who is it?

He could not have imagined such a group of people.

It is necessary to strengthen Daxia and target Ye Junlin.

This is not reasonable.
