

Chapter: 3081

Anyway, it must be for resources.

There's nothing wrong with that!

The people of the Olympic Empire shook their heads: "No, we are here for your resources!"

Ye Junlin asked: "So direct? Shouldn't it be a reward order? Do you bring my daughter's detoxification method or medicine, and then come to trade resources?"

"That's not true! We're just here for your resources! We thought you had already handed over your resources and secretly told them."

"But you issued a bounty order again, and we learned that you still have resources. You didn't even tell the secret of the resources! So we came to you!"

...

Hearing what the other party said, Ye Junlin seemed to understand.

The Olympic Empire is similar to the Apocalypse Empire.

directly to grab resources.

It is impossible to detoxify Junjun.

"So you came directly to me to get resources? If I don't give them, you will just grab my resources?"

Ye Junlin explained the words directly.

To him, these people were like robbers.

There is no difference at all with the Apocalypse Empire.

"What is your resource? This is obviously our resource!"

Everyone in the Olympic Empire said coldly.

Bandit style!

It's not exactly the same!

Ye Junlin sneered in their hearts.

However this is just the beginning.

"Don't say it's yours! The world's resources should belong to us! This is the treasure of God! It was bestowed by God and God! It should be under our control!"

The crowd continued.

"puff!"

Ye Junlin was about to vomit blood.

Sure enough, there is no shame.

Only more shameless.

An Apocalypse Empire came to grab his resources before, saying that his resources belonged to them.

Now come to an Olympic Empire and directly say that the resources of the whole world are theirs.

Shameless!

It's so shameless, isn't it?

"Not only the resources of the world are ours, but all the gods should be under our control!"

Several people continued.

Doctor Dark: "...".

Ye Junlin: "...".

Speechless!

Never seen such speechless!

The Apocalypse Empire is shameless, but the Olympic Empire is speechless!

"Why is it all yours?"

Ye Junlin asked helplessly.

"Have you heard the myths and legends of our country?"

This, Ye Junlin has to admit.

This place is known as the capital of mythology.

Many myths come from here.

There are many gods in this country.

Ye Junlin always thought that they were all aliens, not gods or something.

Just too many hammers.

Believe that these myths are real.

Especially after the aura is revived!

"It's good to know! After the aura recovered, the concept of gods was also proposed by us!"

"All the gods and resources in the world are gifts from God and treasures of God!"

"And our country is the center of the power of the gods, the place where the gods gather in mythology. The temple is in our country.

Therefore, all gods must obey our orders, and all resources will belong to us!"

...

Everyone stared at Ye Junlin: "The resources you squander now are actually ours! It's not yours! You just dig it out! But you don't have the right to use it!"

"But we choose to forgive you, since you didn't know it before!"

Impressed!

Ye Junlin is really going to take it!

What kind of weirdness is this!

"Now as long as you tell us the secret of how to obtain resources! Then you are still God's favored people!"

People have indicated the source.

"Push!"

Ye Junlin really wanted to laugh.

Absolutely!

Really a god.

Really stunned!

Ye Junlin suddenly thought of something, and the corner of his mouth rose.

"Then you said that the resources and gods in the world should listen to you, then I'll ask you a question..."

Ye Junlin laughed.
