

# Chapter: 3083

Doctor Dark nodded: “So it is!”

They were really curious before.

Obviously second in the world power list, how to keep a low profile like this.

There was no sign of them at all.

It was for this purpose!

These people continued: “Actually, it’s good for you! We punish Zhanxiong Nation, in fact, we are helping you!”

“Zhanxiong Nation condones the Hydra that poisoned your daughter. When the time comes, we will defeat Zhanxiong Nation and punish the traitors. Hydra is not at your disposal!”

“If the War Bear Kingdom is always strong, you won’t have any way to deal with the Hydra, right?”

...

heard here.

Ye Junlin thinks they are normal.

Think clearly and understand the stakes.

But how did it behave like a brain-dead before.

Is it mainly the culture and habits of this country?

Make them all myths.

Each and every one of them is full of gods and the like...

to do such absurd things.

“Ye Junlin, we hope that you are the favored people of God, and not against God! Otherwise, you will never get God’s treasure in the future!”

“You just have to tell the secret of how to get the treasure of the gods! We will not stop you from continuing to mine!”

...

Everyone looked at Ye Junlin and asked.

Several of them said: “I hope you don’t betray! The traitor of Zhanxiong Nation is too powerful, we can’t deal with it for the time being! But if you betray, we can solve you in minutes! Even pacify Daxia!”

threaten!

Start the naked threat!

They are a combination of grace and power!

The purpose is for Ye Junlin to tell all the secrets of the resources!

Ye Junlin thought of something, smiled and said: “Well, since that’s the case, let you know how I got the resources!”

“Really? That’s really good!”

...

The people of the Olympic Empire cheered.

Ye Junlin said to the dark doctor: “Find the most terrifying first-level forbidden area nearby!”

Doctor Dark quickly found a nearby level 1 forbidden area.

Just a few days ago, Tenshin Division also made a special evaluation.

There are at least two hundred beasts that are comparable to gods.

A lot of them are still dominant.

It is the most terrifying first-level forbidden area around.

It can be ranked in the top of all forbidden areas in Daxia.

“What about the secret? Tell us?”

A group of people waited anxiously and couldn’t help asking.

“If you want to know how I obtained the treasures of heaven and earth, then come with me!”

Ye Junlin and several people led the way.

Dozens of people from the Olympic Empire followed.

After some time.

Everyone came to the edge of this first-level forbidden area.

A terrifying aura began to spread.

There is even a terrifying vicious beast aura.

Let everyone in the Olympic Empire be vigilant.

Such a barren area.

Anyone can know what this is.

“What are you bringing us here for? Not to mention, it has to be a second-level forbidden area, or even a first-level forbidden area, right?”

The people of the Olympic Empire couldn’t help but ask.

The richer the spiritual energy, the easier it is to produce natural treasures and spiritual energy crystals.

But the easier it is for powerful beasts to exist...

Now they can feel the aura in the front area is super rich.

It’s definitely a second-level or first-level forbidden area.

Ye Junlin smiled and said, “Of course! But if you want to know how I get resources, just follow!”

“Ok!”

Although everyone was puzzled, they followed one by one.

Soon everyone came to this area.

Ye Junlin never said a word, but just walked forward.

There is no action either.

This left everyone puzzled.

They didn’t even ask.

You can only follow Ye Junlin all the time.

At this time, Ye Junlin suddenly stopped.

Everyone was startled.

What is Ye Junlin doing?
