

Chapter: 3084

Everyone looked at Ye Junlin suspiciously.

Wonder what he's going to do.

“correct!”

“Didn't you say that all resources and gods belong to you? Do you all obey your orders?”

Ye Junlin asked.

“Yes indeed!”

Everyone nodded.

“Then I don't know if the beast gods are counted? They should also belong to the power center of your gods, right?”

“Would you like me to bring out a few powerful beasts, you guys can try?”

...

Hearing what Ye Junlin said, the faces of these people in the Olympic Empire turned green.

They just have faith, but they are not stupid!

How could the beast be listening to them?

Still eating them all...

“Mr. Ye's joke is not funny at all, don't challenge our hearts!”

said the crowd.

The most vulnerable part of his heart was poked by Ye Junlin over and over again before.

Everyone has been holding back.

If Ye Junlin goes too far, he may really anger them.

Ye Junlin smiled: “Just kidding, liven up the atmosphere! Otherwise, everyone will be so serious!”

Just kidding, Ye Junlin continued to walk forward.

This time, he didn't give off any breath.

But all converged.

Very different from before.

At this moment, the beasts in this first-level forbidden area have long been eyeing them.

This made everyone in the Olympic Empire a little scared.

After going deep inside.

They determined that this was a first-level forbidden area.

Each of them began to fear.

In the past, when they entered the first-level forbidden area, at least hundreds of gods had to go with them.

In addition, there are a lot of people around.

After they were almost foolproof, they dared to enter the first-level forbidden area.

But entering today, there is no guarantee at all.

They didn't even know where Ye Junlin took them.

However, in order to obtain the secret of Ye Junlin's resource acquisition, they all fought hard.

A group of people followed behind Ye Junlin tremblingly.

Everyone is thinking that Ye Junlin must have a special way to obtain resources.

It can only be displayed in places with more resources.

Everyone keeps comforting themselves.

...

The two doctors in the dark saw their embarrassment and laughed.

Everyone in the world felt that Ye Junlin had a special and simple way to obtain resources.

But as everyone knows, it is the most basic method – where there are resources, you can go to dig them.

Shortly after.

Ye Junlin brought a group of people to this first-level forbidden area where the spiritual energy was most abundant.

There are high-quality natural materials and treasures all over the place, and pieces of high-quality aura crystals are shining with dazzling brilliance.

Almost everywhere!

As long as you move your hands, you can dig so many things.

Ye Junlin grabbed a piece of aura crystal, turned to look at everyone, and said, “I have told everyone the secret of how to obtain resources!”

“Then what?”

Everyone looked at Ye Junlin and asked in confusion.

I thought there was some weird way.

Ye Junlin shook his head helplessly. He bent down to pick up a spiritual energy crystal and said, “That's it! Wherever there are resources, go there! Just like now, find resources and pick them up!”

Understood!

Now everyone understands!

It turns out that Ye Junlin's method is like this!

Wherever there are resources, go and pick them up!

He just gave an example twice.

But isn't this a joke?

“Ye Junlin, are you kidding us???”

“This is how you get resources? Who are you fooling?”

“This is a first-level forbidden area. You can come if you want? If you want to mine resources and want to leave, will those god-level beasts agree? You haven't encountered it yet, but what if you do?”

“Aren't you coaxing us? Is this the way?”

...

Everyone in the Olympic Empire began to criticize Ye Junlin.

“Roar.....”

“Ow...”

At this moment, the roar of the fierce beasts came.

They have been surrounded by beasts.
