

Chapter: 3086

The beast rushed towards them directly!

It has grown indestructible scales all over its body, shining brightly!

Don't say anything else!

Just these scales, even if the gods will struggle to deal with them, they will not be able to penetrate, let alone kill them.

This is how the beast is different from humans after being irradiated by aura.

Their physiques will be exceptionally strong, and their skins will be so hard that they cannot be penetrated.

For example, the scales on this fierce beast now!

No one can penetrate the people of the Olympic Empire!

A terrifying aura emanated from the beast.

Falling down like a mountain!

Everyone was frightened by this terrifying breath.

Who can stop this!

In terms of individual strength, no one would be the opponent of this beast!

What's more, it's not the best.

And there are terrifying numbers of them!

Just when this fierce beast rushed, everyone was ready to resist.

“Buzz!”

Suddenly there was a trembling sound.

God robbery shot!

A cold glow bloomed in front of everyone!

That's a sharp sword!

Instantly passed through the body of the beast!

The indestructible scales are also like paper paste, and they are instantly penetrated!

Divine Tribulation through!

Cut this fierce beast in half directly!

The whole place was silent!

Everyone was stunned!

And all the beasts present were stunned.

It is estimated that no one thought of this scene!

And the people of the Olympic Empire are the most shocking!

This kills?

Who did it?

This sword seems... it seems to have come from Ye Junlin's side, right?

In a trance, it seemed that a cold light appeared in front of Ye Junlin.

Should be him, right?

But everyone didn't react in a hurry.

The killing continues!

“laugh!”

The calamity did not stop.

Directly rush to the ferocious beasts!

The beasts have already felt the terrifying power of the divine robbery!

They can't stop!

One by one the beasts were even about to run away.

But the calamity is faster!

Block all their escape routes!

“Pfft!”

“Pfft!”

...

In an instant, the gods shuttled through the ferocious beasts, and the blood arrows shot one after another, and the blood splattered like rain.

The shrill screams of the beast were like thunder, almost shattering people's ears!

The heads of the beasts were thrown high!

The powerful and terrifying beasts turned out to be like turkeys and dogs in Ye Junlin's place.

Kill how you want to kill.

In an instant, dozens of god-level beasts all fell down...

Ye Junlin is also full of breath!

The rest of the beasts were frightened.

One by one, they ran around in fright, for fear of being killed.

They never thought that this group of “food” would be so powerful.

Ye Junlin didn't care about the remaining beasts that ran away.

After all, he just showed it a little, and didn't want to slaughter all the beasts in this forbidden area.

That's enough!

He only temporarily gave these people a way of how to obtain resources – kill those who block them.

But the beasts ran away, and everyone present was stunned.

All looked at Ye Junlin in disbelief.

These people in the Olympic Empire put pressure on Ye Junlin in order to threaten Ye Junlin.

All who come are gods!

But now these gods are all frightened!

Or terrified!

How can there be such a strong existence?

Just one sword can kill so many beasts!

As long as he is willing, no beast can escape!

Naturally, they also understand that there are differences between gods and gods.

But the gap is too big.

Can this person in front of you be called a “god”?

For the first time, the thinking of this group of gods has changed.

If they are gods, what kind of existence is in front of them?

Even more terrifying than the gods!

“Buzzing...”

Divine Tribulation revolved to Ye Junlin's front.

Ye Junlin took away the robbery.

Then he said to everyone in the Olympic Empire: “Well, it's that easy to get resources? Whoever stops you, kill it!”
