

Chapter: 3087

This is how I get resources!

Simple and rude!

Wherever there are resources, go to get them!

If there is anything blocking it, just kill it!

It's that simple!

No one wrote to Ye Junlin about the secret of obtaining resources before!

But now I totally believe it!

For Ye Junlin, obtaining resources is so simple!

He has this powerful strength to support him, and he has as many resources as he wants.

The first-level forbidden area is the same as following your own home.

What resource can't he get?

It is rumored that the Apocalypse Empire has long obtained the secret of Ye Junlin's resources.

But everyone has been watching for so long.

As a result, the Apocalypse Empire did not act at all!

Didn't they get Ye Junlin's secret?

should get it!

But why not look for resources?

Is it that they don't want to?

are they not needed?

no!

That's because this method is only applicable to Ye Junlin!

It's useless to tell anyone this way!

This is like nonsense!

Everyone knows the way, but can't get it!

"My secret of obtaining resources has been shown to you! Do you see clearly?"

Ye Junlin asked.

silence!

Everyone was silent.

They are still in a huge shock.

Still immersed in the horror of Ye Junlin's sword!

"If you can't see clearly, can I show you again?"

"The beasts are scared away, why don't you play the people who stop me?"

Ye Junlin asked.

But when they heard Ye Junlin's words, everyone went crazy.

Do you want to demonstrate it again?

And they are the ones who stop Ye Junlin?

How can this work?

They just have a problem with their beliefs and worldview, which leads to doing some incredible things and saying some weird things.

But they are not fools!

Know to bring an umbrella when it rains!

Also very afraid of death!

They have seen Ye Junlin's sword with their own eyes.

Even those scaly beasts can't stop it!

Not to mention them.

It is estimated that it is more fragile than a watermelon!

"I I I..."

"No, no, no... no..."

"We...we know...we know..."

One by one, Ye Junlin was so frightened that he urinated his crotch.

"That's good! Just believe it, lest I show it to you again!"

Ye Junlin said lightly.

"No, no, we know!"

Everyone in the Olympic Empire waved their hands again and again.

How dare they?

Completely believe it now!

Ye Junlin looked at them and said: "You have to force me to show my hand, you will believe it, or I will tell you, you have to pester me all the time!"

"Yes, yes, our fault, our fault..."

Everyone started to apologize.

Before saying that this belongs to them, that belongs to them, and they are the center of power, there is no arrogance at all.

Their arrogance is only aimed at those who are weaker than them.

As for people who are stronger than them, they will kneel down as a group of gods.

Like now.

Ye Junlin smiled and said lightly: "Fortunately, your attitude is good.

Although it is also a robber style, at least there is a bit of rhetoric, and

there are good reasons. Otherwise, I will kill you with the Apocalypse Empire without any gods!"

"Huh? What? You killed the Apocalypse Empire to the point of being godless?"

The people of the Olympic Empire seemed to have heard some very serious news.

Surprised, one by one broke out in a cold sweat.

"Yes, otherwise why do you think they are so low-key now?"

Ye Junlin nodded.

"what?"

"Kill the Apocalypse Empire without gods?"

...

Everyone looked terrified and went crazy.

Understood.

Everything is clear.

Why hasn't a god appeared in the Apocalypse Empire since then.

There is no such thing as mining resources.

That's because they were all killed by this guy in front of him.
