

Chapter: 3088

The secret estimate of resources has also been said, but the Apocalypse Empire does not have the ability to dig it.

The truth about the Apocalypse Empire is revealed!

Ye Junlin also assigned a task to the dark doctor. Since they are all here, let's transport the resources here.

The Brain of God has long prepared the transport machine.

And it is the Four Great King Kong and the variant No. 13 under Ye Junlin who are mining resources.

All along, they have been helping Ye Junlin dig and transport resources.

After Ye Junlin finished his instructions, they immediately started to work.

“So, Mr. Ye... You don't put the War Bear Kingdom in your eyes at all?”

The crowd trembled.

“Of course, after my daughter is detoxified, I will go to War Bear Kingdom to settle accounts! Then you can go watch the battle!”

“sure!”

Everyone nodded.

“I've taught you the way, and I won't let you say thank you!”

“If you still want to attack my resources, prepare for a country without gods! Trust me, I can kill it all!”

Ye Junlin left a sentence and turned to leave.

If it was in front of them, Ye Junlin said this sentence, they would not believe it.

But now they really feel that Ye Junlin has this strength.

They could clearly see the scene of beheading those beasts just now.

“Mr. Ye, we will help your daughter detoxify!”

This group of people is still very smart, and they reacted one by one immediately.

To make friends with Ye Junlin.

Ye Junlin said nothing.

It seems less necessary now.

As long as the secret lock is opened, Junjun's poison will be cured.

The Olympic Empire originally wanted to use Ye Junlin's resources to rise in a high profile.

Never thought that Ye Junlin would hit him back again with a sword.

Now you have to keep quiet.

As if they never showed up...

The Olympic Empire still does not appear in everyone's eyes.

It's no different from before.

And now Ye Junlin has played against the top three in the world power list.

The third god was killed by him.

The second was shocked by his sword.

First, he is going to go around.

All are waiting for the moment when Jun Jun detoxifies...

Of course, the Sky Shield Bureau is now fully investigating who killed the angel and stole the magic medicine.

The forces controlling the genius doctor Yan Zangsheng are also being investigated.

As a result, there was nothing left.

After all, Ye Junlin left no trace at all.

They can't find out.

It was most likely the murderer's, but as a result, all of them were controlled by them at the beginning.

Naturally don't think about them.

It can't be found no matter what.

And Ye Junlin asked people to check the identity of the genius doctor Yan Zangsheng.

This investigation really found a lot of clues.

In fact, Yan Zangsheng has changed many identities and has been living an ordinary life.

But his history is not simple.

It seems to be related to the mysterious Baolong clan.

“Huh? Can it be related to the Baolong family?”

Ye Junlin said in surprise.

In fact, he knew before that the Tiance Mansion and the Baolong clan were not the same thing.

The duty of Tiance Mansion is to protect Daxia as its own duty.

But the Baolong family seems to exist to protect some secret.

“I don't know what it is, we have to continue to investigate! But I feel that there is a major breakthrough!”

“I feel that the genius doctor and the man behind him are actually a group of people!”

...

This was beyond Ye Junlin's expectations.

So to speak.

Yan Zangsheng is really not easy.

He must have an unknown past and identity.

But it also proved that he was on the right track.

It is necessary to check on Yan Zangsheng.

If you check it out, there will definitely be a breakthrough.

The good news doesn't stop there.

three days later.

Ning Jinye and his party returned.

But the box containing the magic medicine was never opened.

But Ning Jinye brought an ancient book, and this ancient book is the solution of the lost mechanism – the secret lock.
