

# Chapter: 3091

What was most shocked was the organization of the revenge Hydra!

If you don't pay attention, there are 100,000 gods in the War Bear Kingdom?

Isn't it a long way to find Hydra's revenge now?

The group of people in the organization who were bent on revenge were dumbfounded.

I thought that waiting for the organization to become stronger and more gods, the probability of finding Hydra's revenge would be high.

The result is now...

A hundred thousand gods, what to take revenge?

This is impossible for them for a hundred years.

The longer the time, the stronger the opponent, and the speed at which they become stronger is beyond their imagination.

However, the actual powers of this organization did not feel anything.

Because they were not interested in seeking revenge against Hydra from the beginning.

Or simply forget about it.

Just thinking about how to get resources, how to make the organization stronger...

It's just that their excuse is to quickly develop the organization in order to seek revenge from Hydra.

In the name of revenge, they come for their own benefit.

In fact, during this period of time, they were a little bit unable to suppress the group of extreme revenge elements in the organization.

Almost every day, they urged to find Hydra for revenge, and they couldn't hold it any longer.

At this time, a message from the 100,000 gods of the War Bear Kingdom suddenly came.

Completely smother all these people!

For the time being, they will not easily discuss the matter of finding Hydra's revenge.

You can't take revenge blindly!

Of course, no one will go to this kind of death.

On the island, the organization of revenge Hydra immediately gathered everyone.

"Next, our road to revenge will become more and more difficult. That's one hundred thousand gods! But at this time, our mentality must be stable. Don't be impatient!"

"At the moment, in my opinion, there is only one way to avenge Hydra!"

"We also need to continue to grow the team of revenge! Only in this way can we be qualified to stand at the forefront of the world and be qualified to negotiate with other major forces!

At that time, we can join forces with other countries to deal with the War Bear Country, so that we can have the opportunity to seek revenge against Hydra!"

...

The organization's decision makers are starting to draw the pie again.

A little hope for these extremists who want revenge.

After all, now that 100,000 gods are overwhelming the world, the best way at present is to unite all parties.

These decision makers are all right.

They are not good at refuting either.

However, the condition for all parties to unite is that the organization can first be strong and qualified to unite all parties.

Therefore, the final question is summed up, and the specific thing to do is to strengthen the organization of revenge Hydra!

It has to be said that the decision makers of this organization are very smart.

A few words put these people around.

Not only will he not mention revenge for the time being, but he will also try his best to grow the organization.

This is where the obvious change...

"Hahaha, didn't Ye Junlin say before that he can take revenge by himself without us?"

"How can he take revenge now? There are a hundred thousand gods!"

"Well, this kid disappeared recently, what are you doing?"

"If we want to be strong, we have to find him! Everyone think of a way! The key point is Ye Junlin!"

...

The Olympic Empire was expecting Ye Junlin to go to Zhanxiong Country to find trouble.

But when they heard the 100,000 gods, they were all stunned.

"So there is such a big gap between us and No. 1?"

"Now Zhanxiong Nation doesn't listen to us, and Ye Junlin doesn't listen to us either! Are we still the power center of the gods?"

"Don't count on Ye Junlin, how could he be?"

Doubt!

They doubted their beliefs.

This is the most terrifying point.

...

I have to say that the 100,000 gods have shocked the whole world too much.

Everyone was terrified.

Otsuka Kamiji, who had just started to develop, was also intimidated to the ground.
