

Chapter: 3092

I thought that in a short period of time, the Heavenly God Division had expanded to the scale of 300 gods, which was already a sky-defying level.

But I didn't think that compared with the king-level, it was not even a fraction.

The blow was too big.

And in the Heavenly Gods Division, after the five people like Qinglong and Qilin became gods, they seemed to have broken through the shackles of their bodies, and their growth rate was astonishing.

For example, in the past, the talents of the five Qinglong people were no match for Xiao Feng and the others.

But since becoming gods, the talents of the Qinglong Five have been fully revealed, and in a short period of time, they have surpassed the Dragon Three Dragon Five.

Now he has become the closest existence to the Boss Tian Ce Young Marshal.

Therefore, Tenjinji continued to cheer.

The overall strength of their gods is stronger than that of other countries.

They have a bright future.

You can even chase the War Bear Kingdom.

But now when the number of gods in the War Bear Kingdom exploded, it was a shock.

Chase a yarn!

The strength of a single god is strong, what is the use?

Who can stop one hundred thousand gods?

Although they have a magician.

But the other party has Hydra as an organization.

It's totally incomparable.

Hydra has already mass-produced the gods.

As long as they have the potential to become gods, there is a high probability that they can become gods.

If you can't become a god, it can only show that you are not this material, that's all.

Has nothing to do with other things.

That is to say, if it goes on like this, Hydra can turn all the people who can become gods in War Bear Country into gods.

That would be an unimaginable number.

It is likely that War Bear Kingdom has more gods than a country's population.

How does this play?

How else can others catch up?

People are still alive!

unimaginable!

And according to the gossip, the number of 100,000 is a conservative estimate.

It is very likely that it has already been reached before, not the current level.

This makes it even more frightening.

And everyone heard that Hydra contributed all the ancient books and objects it collected, making the gods of the War Bear Kingdom stronger and stronger.

Hydra is the treasure of War Bear Country!

In this way, Zhanxiong Kingdom will not let anyone trouble Hydra.

Whoever moves the Hydra, they may have to help the whole country.

And now more and more forces are turning to War Bear Country.

They formed the "Siberian Union"!

Now these people have also benefited from Hydra, and they will do everything to keep Hydra.

Equivalent to Hydra is a national treasure-level existence.

No one can touch it!

Get rid of this idea of revenge early!

even disbanded.

Especially this organization of revenge Hydra has been targeted by Hydra.

Hydra naturally does not want any enemies and threats.

They are trying their best to find out where this revenge organization is.

Ready to get rid of it all at once.

Of course, the organization doesn't know.

They are still thinking about how to strengthen their strength, how can they realize that the danger is coming.

But at this time, Ye Junlin has been on the secret lock.

this time.

He has researched nine hundred and eighty-seven ways to solve the Heavenly Secret Lock.

It still didn't match the trap box in his hand.

But probably locked the same type of secret lock.

narrowed down.

As long as you keep going, you will definitely find the corresponding solution.

This is also a huge problem for Ye Junlin, still with the help of God's Brain.

The Brain of God also played a role.

This thing was completely incompatible with his technology at first.

It was only later that some rules were discovered.

Junjun is playing by himself as always.

As long as she's okay, Ye Junlin won't pay too much attention to her.

What everyone did not expect was that Junjun had also changed.

She's actually been researching something.

It's just that Ye Junlin focused on the secret lock, and didn't notice the changes in Junjun at all.
