

Chapter: 3095

In a very short period of time, their organization can be compared with the top powers.

Or seven of them control.

Don't feel so good!

In their concept, as long as they don't provoke Hydra, they can develop smoothly.

But what they didn't expect was that the Hydra would also come out to find trouble.

“Cheers to our great cause!!!”

The seven people and their direct descendants raised their glasses to celebrate.

The 100,000 gods of War Bear Country gave them a chance instead.

Let them have reasons to develop and grow in an open and aboveboard manner.

There is no need to carry those extremists who only want revenge behind their backs.

“Boom...”

But at this moment, the island shook violently, just like a big earthquake.

It feels like the island will be overturned in the next second.

“Clap clap clap...”

At the same time, there were bursts of thunder in the air.

“boom!”

A terrifying and terrifying atmosphere enveloped the entire island.

It seems that the palm of the gods is invisible, and the coercion of thousands of stars falling swept over!

All the sensations are breathless, even suffocating.

This seems to be rolling in heaven.

People can't help but fall to their knees and worship!

The huge movement caused the entire island to fall into doomsday.

messed up!

It's messed up everywhere!

“What happened? What happened?”

Policymakers and their heirs are also in disarray.

All ran out, wanting to know what was going on.

“Quick, quick look!!!”

Everyone looked around in surprise.

I saw silhouettes appearing in the sky all around, and a powerful breath swept across.

Looking at the sea around the island, large ships appeared.

There are also figures standing on the boat.

God!

All gods!

Judging from the breath alone, there is no such thing as a god.

All the auras of so many gods unfolded, infiltrating and covering the island.

Surrounded by gods, there is no escape.

Even the air was blocked.

This scared everyone on the island to death.

It never occurred to me that a formidable enemy would come.

And their location is so secret that no one knows.

Before they could think about it, the surrounding ships had already approached.

They have seen it roughly.

A black flag fluttered above the ship.

The pattern on the flag is impressively the Hydra logo!

This.....

Everyone panicked.

“This... this seems to be a Hydra, right?”

“This flag belongs to Hydra!”

“Are they from Hydra???”

...

When everyone is sure that the person who comes is Hydra.

Some of those extremists who only want revenge are shining in their eyes.

In their minds, they just wanted to seek revenge for Hydra.

But Hydra can't survive in Zhanxiang Country, they can't see anyone, let alone take revenge.

Now that they see the living people of Hydra, how can they not be excited?

Time for revenge!

Before, the entire organization considered the overall situation and did not dare to take revenge, and jointly restricted them.

But now it's different.

Everyone from Hydra came to the door.

Can they not get revenge?

It's time for revenge on the Hydra!

But when most of the people in the organization encountered this scene, they were all afraid of fear.

They have been suppressed by the powerful momentum of the other party.

Who is not afraid?

So many gods!

The breath of God is everywhere!

In particular, several decision makers are extremely fearful.

what's the situation? ? ?

Why did the Hydra suddenly come to the door?

At this moment, they understood that it was wrong for them to look for Hydra.

But Hydra took the initiative to find them.

After all, their existence is a threat to Hydra.

Although they didn't do anything to Hydra.

But the establishment of this organization is to deal with the Hydra.

This is enough.

Regardless of your specific implementation or not.

As long as you have this idea, people will try to kill you.

You can't explain clearly.
