

Chapter: 3097

This is what these people present did not think of!

They didn't seek revenge for Hydra, and they never thought that Hydra would come to the door.

Be caught off guard!

No one has ever thought of this possibility!

Not just them, everyone has never thought about this possibility.

They gathered to avenge the Hydra.

But such a gathering also exposed them.

Isn't this just the time for Hydra to catch up?

Hydra has always been active, but it was for Ye Junlin's daughter to detoxify.

Never thought of turning back against the enemy.

Now I finally know, but it's too late.

Everyone came to the door.

A full five thousand gods!

This battle is terrible.

Who can stop?

Their organization has more than 700 gods, and it is already growing fast enough.

But the five thousand gods couldn't stop it.

Once they meet, they can only be slaughtered.

By then there will be no one left.

However, they have reached such a dead end, and the group of extreme avengers have also risked their lives.

No matter if you can get revenge or not, you have to fight.

“Brothers, the Hydra people are ahead! Let's take revenge!”

The leader, No. 8, shouted.

“Vengeance! Revenge!”

This part of the people who want revenge shouted one by one.

No matter how many gods the opponent has, no matter whether they can succeed or not?

But they only need revenge!

“Well, good, bloody!”

Several heads of Hydra nodded approvingly.

However, most of the people on the island lowered their heads and their expressions changed.

There is fear, there is despair...

Just don't dare to take revenge.

This includes seven decision makers.

Their hearts sank to the bottom.

Originally still imagining the future, excited that they have the current power.

Never thought that Hydra would come to the door.

As long as the Hydras make a move, everything they have will be destroyed in an instant.

Even they will die.

This is something no one wants to accept.

As for revenge?

Now don't even think about it.

They just want to save their lives and their current inheritance.

Such a big power, such a strong power is going to be gone?

They are just getting started!

They are the most embarrassing.

You Qi heard the screams of those extreme revenge elements.

They were even more depressed.

What revenge?

Wouldn't it be better to keep everything right now?

Several heads of Hydra smiled and said: “Have you felt the hatred against us? If we don't get rid of them, we are always in danger. We can't even sleep well!”

“Then get rid of them! Kill all the people on this island! Don't leave a single survivor!”

“Good! Understood!”

After the five thousand gods of the War Bear Kingdom heard this order.

They stared at everyone on the island, and the terrifying aura of the gods all exuded.

Like the coercion of the sky falling, it enveloped the entire island.

“Bang bang bang...”

There are a lot of weaker people who can't bear this kind of coercion directly, and they are directly squeezed to explode, their flesh and blood flying, and there are no bones left.

For a time, blood mist was sprayed on the island, and screams continued.

The pressure of the five thousand gods is so terrifying.

Not to mention they do it together.

Unimaginable scene.

Even the gods in this organization are afraid.

too strong!

Not only the number of gods is terrifying.

And the power of the gods is also stronger than theirs.

The gods are one-on-one, and they will die here.

Not to mention five thousand gods!

“Then kill!”

Five thousand gods have already started.

The group of extreme revenge elements are also full of fighting spirit, and they have not been suppressed by the terrible atmosphere of dealing with them.

“Brothers take revenge! Even if you die, you will kill the Hydra!”

They are also screaming.

Excited for revenge.

A war between the two sides is imminent.

The head of Hydra began to count down.

“three!”

“two!”

“one!”
