

Chapter: 3102

Not to mention that 100,000 gods are supporting them.

These five thousand gods are here, and they are walking sideways all over the world.

How could a Ye Junlin kill them?

revenge?

That's a joke!

"Pull it down, Ye Junlin is hiding himself now, and he can't find it at all!"

"And when we came out this time, we also asked Ye Junlin to settle the account! It's just that there is no trace yet!"

"He has been hiding for a long time, and still wants revenge?"

Hearing this, the old man twitched fiercely.

This is his last hope!

However, the heads of Hydra continued: "To be honest, your revenge organization of 180,000 people is a piece of trash! It's no different from raising a bunch of stupid pigs in a pigpen!"

...

Hearing the insults, although these people were angry in their hearts, there was nothing they could do.

"You 180,000 people are not as good as Ye Junlin alone! At least Ye Junlin took revenge and killed our three leaders and more than a dozen members!"

Hydra reported Ye Junlin's revenge.

"Boom!"

This is a bolt from the blue for this organization.

Yes indeed!

There are 180,000 of them!

As a result, the revenge Hydra failed once, let alone killed a single person.

Ye Junlin has already killed more than 20 members of Hydra, including three leaders.

shame!

What a shame!

"Ha ha ha ha....."

Eighth laughed directly.

What 180,000 people couldn't do, Ye Junlin did it himself.

The seven decision makers looked incredible.

They are trash!

180,000 people can't compare to Ye Junlin alone!

So are others.

And the five people who had invited Ye Junlin had mixed feelings in their hearts.

They insulted Ye Junlin as a coward for not daring to take revenge.

As a result, Ye Junlin has killed more than 20 people now.

And now they not only dare not take revenge, but also kneel and kowtow to others.

Compare.....

They can't wait to find a crack to get in.

"I bet right! Ye Junlin will definitely avenge you!"

Eight shouted.

It was the best message he had heard before he died.

After he finished speaking, he slammed heavily on the ground.

The seven decision-makers and others looked at the scene with complex eyes.

All of these revenge-minded companions were all killed.

"But Ye Junlin is hiding now, we can't find him!"

"Once found, we will definitely get rid of him!"

"Of course we will torture him slowly and let him see how powerful we are. Killing at one time is not fun! So once you find out about Ye Junlin, tell us, don't do it yourself!"

Several heads of Hydra ordered: "The next task is to prevent Ye Junlin from detoxifying his daughter. It is best to find out where Ye Junlin is hiding!"

"Once you have two hearts, we will slaughter you all!"

Finally, Hydra left with five thousand gods.

Leaving a messy island.

The seven decision makers immediately started brainwashing everyone: "See? How powerful the Hydra is, if we don't surrender, everyone will die! The old man and the others have also seen their fate!"

"You must be the same as us, choosing to survive between revenge and survival! All we have to do is to survive, and we can't even guarantee survival. How can we take revenge?"

...

The seven decision makers are very smart, and they all dispelled the doubts in everyone's hearts with a few words.

"Do you understand now? As long as we target Ye Junlin, Hydra will let us go! They will be very happy!"

"If we hadn't targeted Ye Junlin, everyone would be dead today!"

"So our next goal is to find Ye Junlin, and then find ways to target him!"

"clear!"

The organization has clear goals.

To survive, it is necessary to target Ye Junlin.
