

Chapter: 3103

No one would have thought.

Such a huge organization has changed from dealing with Hydra to Ye Junlin.

surrendered to their enemies.

Doctor Dark hesitated again and again, and told Ye Junlin the information.

Ye Junlin's research on the secret lock has come to a critical stage.

He shouted impatiently: "If you have something to say, say it!"

"Mr. Ye just had a great opportunity! The six heads and key members of Hydra came out of the War Bear Kingdom! They only brought five thousand gods with them!"

"This should be the best chance to ask you! There will never be another chance like this in the future!"

Doctor Dark looked anxious.

Five thousand gods may really be the least number of gods around them.

Once they return to the Zhanxiong Kingdom, there will be 100,000 gods to protect them.

To kill them, now is definitely the best time.

Therefore, he felt that he should tell Ye Junlin that maybe he could use this opportunity to deal with Hydra.

If you miss it, you will never have a chance.

Ye Junlin focused on studying the secret lock, and said without raising his head: "Oh, they dared to run out?"

"Yeah! There are five thousand gods around, and this is the best time to kill them! Maybe this is the chance!"

Doctor Dark has repeatedly emphasized this point.

Ye Junlin has always been studying the secret lock: "There is no way, I am still researching the unlocking method of the secret lock, there is no time! Just treat them as lucky, let them go, and after that time detoxify Junjun, go to War Bear Country in person. Kill them!"

Ye Junlin said it lightly, as if he was narrating family life.

I didn't have time to go because I was busy.

"Okay! They're lucky!"

The dark doctor smiled helplessly.

He is not questioning Ye Junlin's strength.

Ye Junlin is very strong.

But there are too many gods in the War Bear Kingdom.

At least one hundred thousand.

Consumption can kill people.

He is worried about this.

However, Ye Junlin's research on Tianji lock has come to a critical stage.

Besides, the heads of Hydra is not a big deal.

It's not like he can't kill.

He can kill anytime he wants.

Just let them live a little longer now.

He can kill them anytime.

You don't have to kill at this time.

Everyone thought the timing was the same for Ye Junlin.

He was going to kill, and no one could stop him.

In this way, Ye Junlin never appeared.

After the hydra arrogantly circled around the world with five thousand gods, it returned to the War Bear Country.

They just want the whole world to know that you can't kill me when I'm dangling in front of your eyes.

All Hydra's enemies can only scratch their teeth with rage.

This made the seven decision-makers of the revenge Hydra organization and the five who had invited Ye Junlin to sneer—

"This Ye Junlin is still not with us. At least we have faced it. But don't say revenge for this kid, he was scared like a tortoise."

Because they have done something wrong, they are now frantically looking for comfort.

The target is on Ye Junlin.

As long as Ye Junlin didn't come out to take revenge, they would have reason to laugh.

Be their reference for comforting themselves.

"Next, we still have to target Ye Junlin in secret, and we can't do it in an upright manner! So far, Ye Junlin has not found out that we destroyed the blood exchange record? Did you deceive him with the 100,000-year-old snow lotus?"

"Hahaha....."

Everyone laughed.

"In order to please Hydra, we have to do this!"

"Yes, the more you play with Ye Junlin, the happier they are. The safer we are!"

But how did they know that they had been targeted by Ye Junlin for a long time.

Ye Junlin knew what they had done.

Only they themselves do not understand it.

...

And after Hydra returned this time, they received a big task.
