

# Chapter: 3106

He also sighed: “So I said that we missed the best opportunity before!”

“That’s right, although there were only five thousand gods around the Hydra that time! But that was the best time!”

“If you want to deal with the Hydra in the future, it will be difficult to reach the sky!”

“I can’t help but deal with more than 100,000 gods! I also have to face super gods who can fight against tens of thousands! Killing Hydra is almost impossible!”

...

Doctor Dark also nodded.

It’s not that I don’t believe Ye Junlin.

It’s because the opponent’s progress and changes are too fast.

Just horrible.

The god Ye Junlin can kill.

But what about superheroes?

What if there is one or more comparable to Ye Junlin?

At present, their super god plan is to create a super existence that can defeat all gods.

Isn’t that what Ye Junlin is like?

In case they do make it work.

Ye Junlin has no advantage at all.

This will be the deadliest!

It’s just that Ye Junlin didn’t care, but he was a little bit expectant and excited: “Super god, right? Good! It should have been like this! More

gods, more powerful! With one enemy ten thousand, ten thousand what!”

“I thought it would be boring to deal with Hydra at that time, but this time it’s more fun, I guess I can kill it happily.”

Everyone: “...”.

They don’t understand where Ye Junlin’s confidence came from?

Now that the War Bear Kingdom has become so strong, is it still such an understatement?

Don’t pay attention at all?

It’s not that they don’t believe in Ye Junlin’s strength.

Their estimate of Ye Junlin’s strength is that he can deal with tens of thousands of gods, or tens of thousands of gods.

On the contrary, it is possible to get rid of the Hydra even against Zhanxiong Kingdom. After all, it is impossible for Zhanxiong Kingdom to send all the gods to block Ye Junlin at once, right?

After being eliminated by Ye Junlin, tens of thousands of people are estimated to have endured, and there is no need to fight to the end.

After it was revealed that there were 100,000 gods in the Zhanxiong Kingdom, they still believed that Ye Junlin could do it.

But now the super gods have plans.

The War Bear Kingdom aims to create an existence comparable to Ye Junlin’s combat power.

If you build one, or a few close ones, then Ye Junlin will be finished.

Not to mention creating a group.

In this case, Ye Junlin can still do such an understatement.

Of course no one would believe them.

But let’s detoxify everything first.

“Mr. Ye, the Demon Suppression Division you explained may have already appeared! We found that there are strong people in many forbidden areas in Daxia who are mining natural materials and earth treasures and excavating spiritual energy crystals!”

“They should be the people from the Town Demon Division. We have been eyeing a few, and finally escaped under our noses!”

“And we also heard that the reason why they are only shooting now is to wait for these heaven and earth treasures to mature and aura crystals to condense! Aura crystals are called spirit stones by them!”

“I heard that many such beings have selected people with spiritual roots and bones, which is what we call gods!”

...

Although Jiao Tianyu was assigned other tasks, he still met people from the Town Demon Division.

If he had encountered Zhen Mosi before, Ye Junlin would act now.

But now he has hope, and he can do it himself.

Then there is no need for the town magician for the time being.

Ye Junlin smiled: “It’s not important anymore, I’ll talk about it after I detoxify Junjun! We’ll settle accounts one by one!”

“Next, I will be in retreat for a month! If my relatives and friends are in danger, I hope you can help! Everything will wait for my retreat to end!”

Ye Junlin has decided to go to the last round of retreat.

But at this time.

“Mr. Ye is here! They claim to be an organization of revenge Hydra and want to see you!”

Fire Cloud Evil God came.

“Huh? They? Well, let them in!”

Ye Junlin smiled.
