

Chapter: 3109

They were very happy because they deceived Ye Junlin.

Ye Junlin became the big resentment in their hearts.

They acted casually, and they got so many resources.

The resources this time are dozens of times that of the last time.

Unimaginable resource!

This time their organization will be upgraded to a new level, and the gods will break through thousands of gods at a very fast speed!

The resources last time were enough for them to change that much.

Now so many resources, take off directly.

When they returned to the new base with the resources, the place was boiling.

All are unbelievable.

They just went to try it to see if they could deceive Ye Junlin's resources.

The result was unexpected, not only deceived.

And also deceived mountains of resources.

"I'm dying of laughter. With such an IQ as Ye Junlin, how would he treat his daughter? Don't think about it for the rest of your life!"

"You still want to take revenge on Hydra alone? This IQ alone will be crushed!"

"We were deceived twice, and there was no reaction at all! It's ridiculous!"

...

Once cheated, it may be careless and careless.

Can you be deceived twice?

This time, I was deceived with no technical content.

Then it can only show that Ye Junlin is stupid.

The key point is that this open and honest deception, not only did he not notice it, but also sent so many resources.

madness!

Stupid to the extreme!

Who doesn't laugh?

In particular, the five people who had invited Ye Junlin were full of a sense of accomplishment. They once again cheated so much on Ye Junlin's head.

How can you not be arrogant?

The feeling of playing Ye Junlin in the palm of his hand is simply too wonderful.

"I'm now looking forward to Ye Junlin knowing that we lied to him twice, what kind of face will he look like after destroying the blood exchange record?"

"I'm really looking forward to it! Are you angry or just mad?"

"He deserves all of this. Whoever told him not to join us will have to bear such an end accordingly."

The seven decision-makers sneered.

Because they deceived Ye Junlin, let them come out of the haze completely.

"By the way, tell Hydra about this immediately! Let's just say we found Ye Junlin and lied to him about resources. Let's see if they want to trouble Ye Junlin..."

...

Shortly after.

Hydra, as far away as Siberia, received the message.

It's just that half of them are planning to create artificial gods, and the other half are planning to create super gods.

If you want to deal with Ye Junlin, it is impossible.

However, they were still excited to see Ye Junlin being deceived so badly.

They have a plan.

When the super god plan is completed, they will take some super gods to walk sideways outside, including seeking revenge for Ye Junlin.

"There is still one month left, and the first batch of the Super God Project will be completed!"

Hydra everyone is also looking forward to a month later.

I have to say that the Siberia Star team is also very powerful.

They have already laid the foundation of the super god plan.

Hydra can operate directly.

...

Hearing that Hydra could not come, everyone felt a little regretful.

But they still want to deceive Ye Junlin again, after all, Ye Junlin is too easy to deceive.

Who wouldn't want to?

"Everyone, come and think about it for me, how can I deceive Ye Junlin more and more times?"

"Come on, give me a good thought! I'll be deceived at that time, and give one tenth of the unconditional share to the individual!"

...

The organization of revenge Hydra doesn't think about how to avenge Hydra.

Instead, he was thinking about how to deceive Ye Junlin's resources.

For the next month, Ye Junlin has been retreating to study the secret lock method.

Fire Cloud Evil God and the others have been investigating mysterious forces and the identity of the genius doctor.

Everyone still has a clear division of labor.

But in a month, for the fast pace of this era, a lot of things will happen...
