

# Chapter: 3111

“boom!”

The terrifying medicinal power was instantly released.

Ye Junlin and God’s brain were almost overturned.

fear!

so horrible!

As expected, it is a magic medicine that can really be compared to a hundred thousand years of snow lotus!

It looks like a dry ginseng root.

But it is a god-defying medicine.

I have never seen such a powerful magical medicine, with such medicinal power.

Ye Junlin saw a lot of heaven and earth treasures during this time.

This is the first time I’ve seen it.

Sure enough, the magic medicine still needs time to hone.

If the environment is too good, nothing will grow.

For example, the center of the super spiritual vein.

The aura is too full, too fierce.

lead to the extinction of all living things.

Magic medicine and the like simply cannot grow.

For something like magic medicine, not only the environment is good,

but the spiritual energy is sufficient.

You have to absorb the essence of the sun and the moon.

These are all learned over the years.

It’s not done overnight.

Therefore, the time for the recovery of spiritual energy is still short,

and the top magic medicine cannot be bred.

Even if there are many heaven and earth treasures.

But still not!

It is equivalent to the theory of Ye Junlin before——

There is a world of difference between quick and step-by-step laying

the foundation.

For example, after the aura is revived, the treasures of heaven and earth

in this period of time are all instant goods.

The dry magic medicine in front of me was built up step by step after

years of accumulation.

The two are not the same.

Now you can see that the effect is completely different.

When this magical medicine appeared in front of Ye Junlin’s eyes, he

knew that Junjun’s poison would be cured.

Waited so long.

It’s finally here!

Ye Junlin started to beat the ground excitedly.

“Junjun, Dad finally did it!”

Ye Junlin shouted frantically.

God’s brain burst into tears.

No one can imagine what kind of high pressure they have endured

during this time.

Now that it’s over, the mood breaks down immediately.

During this time, everyone was busy detoxifying Junjun all the time.

Especially Ye Junlin was almost out of breath.

Fortunately, there are mentally disabled people who keep coming to

die, let him kill people, and they can decompress.

Otherwise, Ye Junlin will collapse.

They have been waiting for this moment when Junjun detoxifies!

finally come!

“call!”

Ye Junlin gasped heavily.

“Let’s go, let’s find Junjun!”

Ye Junlin took the magic medicine and went to Junjun immediately.

Junjun was cultivating, and when he saw Ye Junlin running, he

understood what was going on.

“Junjun, hurry up! Come! Take the magic medicine!”

Ye Junlin didn’t talk nonsense, and gave Junjun the magic medicine

directly.

However, instead of giving all the magical medicine to Junjun at one

time, it was given to Junjun one by one.

Otherwise, the power of the medicine is too strong, Junjun’s body can’t

bear it, and the blood and strength will explode.

Ye Junlin should give Junjun an appropriate amount to detoxify.

After taking three quarters of this magical medicine, Junjun’s body

finally came to a balance.

The medicinal power begins to detoxify the toxin.

Junjun is also in pain.

Heartbreaking screams sounded...

But she persevered.

As long as the detoxification is done, it will be completely fine.

...

Time passed by minute by minute.

It took a full six hours.

It was only with the medicinal power of the divine medicine that the

toxins on Jun Jun’s body were dissolved.

This is only half the toxin.

“boom!”

Junjun’s whole body also sublimated, and a terrible roar sounded from

all over.

The excess medicinal power began to flow in her body.

“Success!”

“Finally successful!”

“Junjun’s poison has been released! The moment has finally come!”

...

Ye Junlin and the crowd began to cheer.

“Dad, you are lucky!”

Junjun also held Ye Junlin tightly.

“Jun Jun, you have also been wronged during this time, but Dad is here

and will definitely protect you!”

Ye Junlin smiled.

Doctor Dark and the others also joined the cheering ranks.

The well-behaved Junjun thanked them one by one.
