

Chapter: 3116

From this moment, Ye Junlin will officially take revenge.

Follow the list, one by one!

From Daxia to the surrounding countries and forces, settle accounts one by one.

None of the people and forces who deceived his resources back then could run away.

As for Long San and Long Wu, they immediately picked up their broken arms and left.

Take advantage of this time to connect the broken arm.

Can the broken arm be connected?

Maybe not before.

After all, this was interrupted by Ye Junlin's knife.

But now there is a magician.

They took the severed arm and quickly found the genius doctor Yan Zangsheng.

“The other party did not deliberately destroy it, but simply cut it off, otherwise it would not be able to connect at all!”

Yan Zangsheng said.

Yan Zangsheng asked curiously, “Who hurt you?”

“Ye Junlin!”

“Ye Junlin hides deeper than anyone else! He has the power of gods!”

“But we deserve it! We deserve it!”

Long San Long Wu said.

“Ye Junlin, I understand!”

A deep look flashed in Yan Zangsheng's eyes.

He also knew that the forces behind him would definitely know about it.

And never give up.

Because he knows why the forces behind him are targeting Ye Junlin.

Now Ye Junlin has broken the arms of Long Sanlongwu, even if it deepens hatred.

“No... How could Ye Junlin have the time to trouble them... Could it be...”

Yan Zangsheng thought of a possibility – that Ye Junlin's daughter had detoxified.

Hahaha!

It turned out that the magic medicine box was obtained by Ye Junlin.

Yan Zangsheng felt a little more gratified.

The big stone in his heart also fell.

Junjun's inability to detoxify has always been a pain point in his heart.

If Junjun really had an accident because of this, he would probably feel guilty for the rest of his life.

Now he has understood that Ye Junlin absolutely got the magic medicine, and also solved Junjun's poison.

very happy.

But thinking of the forces behind him gave him a headache.

the other side.

Ye Junlin and his party came to Xingguo.

As for the East Island next to it, it passed directly.

Dongdao knew Ye Junlin's strength for a long time, and they didn't dare to deceive Ye Junlin's resources even if they lent them a hundred courage.

But the star country is different.

Although they were killed by Ye Junlin with a sword, they did not know that Ye Junlin did all of this.

Therefore, in the previous reward order, Xingguo also joined the ranks of deceiving Ye Junlin.

With some inferior products, a lot of resources have been defrauded before and after.

The Dark Doctors have all been counted.

All the people and forces in the star country deceived a total of 1,785 aura crystals and 1,232 heaven and earth treasures.

It is impossible to defraud resources so easily.

Ye Junlin is all recorded.

However, Ye Junlin also knew about Li Chengmin's changes.

After the aura recovered, Li Chengmin became a god, and his temperament began to change greatly.

became the star queen.

Xingguo is notoriously tech freak.

As soon as the aura recovered, they thought about how to use technology to create more and stronger gods.

They really did this.

Originally, after they were beheaded by Ye Junlin, there were more than fifty gods left.

But during this period of time, after technological means and the mining of resources, they created more than a thousand gods.

This is still under the circumstances of insufficient resources.

This is something no one has thought of.

I thought that after being cut off by half of the gods, Xingguo was decadent.

But after they quietly developed, they have now reached the top scale.

Their technology is also trying to figure out the strength of the powerful gods.

Although there is no way to discover the true meaning of gods like War Bear Kingdom.

But they are still stronger.

Because of the creation of various equipment that matches the gods.

Create exclusive equipment according to the characteristics of each god, including offensive, defensive, speed-increasing, etc...

To tell the truth, the current star country is stronger than the previous Apocalypse Empire.
