

Chapter: 3121

Seemingly destroyed a lot, the process is slow.

It's actually something that happens in an instant.

Judging from the vision of the dark doctors, it was Ye Junlin's kick.

More than a thousand gods disappeared in an instant, and the huge base of the gods disappeared in an instant.

Even close to the visual impact that flashed in front of you!

no more!

More than a thousand gods and such a large base say nothing?

Just stomp your feet?

Is everything gone?

Has this place been razed to the ground?

Numb!

Everyone is numb!

Even the dark doctors who have been following Ye Junlin are numb.

In the past, Ye Junlin usually used swords to kill people.

Others may seem astonished.

But after they saw it a lot, they got used to it.

But today, Ye Junlin shocked them in another way.

Shocking never seen before!

This is even more shocking than killing thousands of people with one sword!

One kick makes everything disappear.

This method is so shocking!

And it's not ordinary people who disappear.

Those are the gods of the star kingdom who rival the three thousand gods!

This has changed the idea of Doctor Dark a lot.

Before Ye Junlin ignored the strength of Zhanxiong Nation, he said that Zhanxiong Nation couldn't protect anyone who killed Hydra casually.

After it was revealed that there were at least 100,000 gods in Zhanxiong Kingdom and the plan to create a super god, Doctor Dark was a little suspicious.

Can Ye Junlin deal with so many gods?

But now he has the answer!

No matter how many gods you have in War Bear Country, how powerful super gods are!

It doesn't matter!

Because – Ye Junlin is invincible!

The other people behind them were also trembling.

I thought there was going to be a war.

As a result, Ye Junlin kicked and everything disappeared.

Everything disappeared before my eyes.

No people, no base.

Only Li Chengmin was still standing.

After a full minute of stunned, Li Chengmin turned around slowly.

She has become like a dead body.

Seeing everything that disappeared behind her, she was literally blown away.

Don't even think about it to know what's going on.

The moment her liquid suit disappeared, she understood everything.

After seeing the results, I understand it even more.

She expected and even knew that this man was strong, but her imagination was not enough, far from enough.

She couldn't imagine how powerful this one was.

It was stronger than she expected.

Let her let go.

She can't imagine it!

Everything from the past has not changed!

He is still above the world.

Ye Junlin looked at her and said, "I'm still thinking of my old relationship, right? I said that everyone else will die except you. Did I do it?"

"thump!"

Ye Junlin's words were like the straw that broke the camel's back.

Li Chengmin couldn't hold back any longer and fell directly to the ground.

At this moment, her beliefs and everything collapsed.

"This is the end of the resources that lied to me Ye Junlin! I won't give a second chance!"

After Ye Junlin finished speaking, he turned and left.

Directly destroy the Celestial Race of the Star Kingdom.

Let a country become godless!

Not even a chance for Xingguo to show off outside!

No one knows the secrets of the star country.

"Next person!"

Ye Junlin began to follow the list.

Destroy the next target.

Walk all the way from the star country.

The targets who defrauded him of resources were eliminated one by one.

Ye Junlin's speed was so fast that everyone had no time to react.

So much so that you don't know what happened.

However, Ye Junlin's footsteps did not stop at all.

Continue to tackle these goals.

Dare to deceive Ye Junlin's resources, then this is the end.

There is life to deceive, but no life is used.

Even if you use it, you still have to put your life in it.

In just one day, Ye Junlin killed more than 1,870 targets.

Some of these targets refer to people, while others refer to forces.

It can be seen that Ye Junlin and their speed are so resolute.
