

Chapter: 3122

Take advantage of the night.

Operation Thunder continues.

Ye Junlin and the others did not rest, and continued to destroy the planned targets.

Who let them have deceitful behavior in the first place.

Then this evil will be swallowed up by itself.

Ye Junlin didn't give him a chance anyway, he just killed.

Whoever cheats will die.

...

The fight continues!

Not even the Celestial God Clan could stop Ye Junlin's power.

Not to mention others.

How could he stop such a fierce Ye Junlin?

It's that Ye Junlin didn't make a move.

With the help of others, these targets were easily destroyed.

The scary thing is that Ye Junlin came to "condolences" one by one.

How does this play?

The killings that night were even more terrifying.

There are mountains of bones and rivers of blood everywhere.

So many people were killed and injured, but no one knew who did it.

The main reason is that Ye Junlin and the others are too fast.

Makes no response at all.

All parties involved are dead.

So no one knows what happened.

Time passed by minute by minute.

Ye Junlin's group gathered nearly 2,000 targets.

But it's almost over!

Do not see do not know.

A look startled.

There are so many people who have cheated Ye Junlin's resources.

Anyway, Ye Junlin treats them as money for their lives.

The money has already been given.

Now come to die.

It was almost dawn.

Doctor Dark took the famous list and said: "The target is almost destroyed! Now the remaining few are related to the War Bear Country!"

"The War Bear Nation established the Siberia Alliance, and these forces all joined the Siberia Alliance! These are also the ones that defraud us of the most resources except the Star Nation!"

"Do you think we should clean up together, or should we clean up them first, and then let's talk about War Bear Country?"

At this time, the Brain of God said: "It is said that the War Bear Kingdom is carrying out the highest-level super-god plan! It is about to succeed, and now is a critical stage. I think it is better to go at this time!"

"We can take the opportunity to sabotage their plans! Let their super gods be unable to come out in the end!"

"In this way, there is a great chance for us to avenge Hydra!"

Others think it makes sense.

War Bear Kingdom is already strong enough.

Can't be stronger.

No matter how strong you are, you really can't move the Hydra.

When Ye Junlin heard this, he smiled and said, "Really? In this case, give War Bear Kingdom a few more days! Let them complete the super god plan! The stronger they are, the more interesting it will be to play! Otherwise, it will be too boring!"

From Ye Junlin's point of view – I wish the War Bear Country was stronger.

The stronger the better.

Even bring him death threats.

Otherwise it's too boring.

No matter how many gods you have, for Ye Junlin, it's all the same number.

As long as he is willing, it is like so many gods in the star country.

Ye Junlin can also make them disappear.

What's the point of that?

therefore.

Ye Junlin is willing to give Zhanxiong Nation a chance to make them stronger.

In short, the stronger the better.

Even team up with War Eagle Nation.

It really doesn't work, just add the forces behind the control of Yan Zangsheng.

Anyway.

He wants revenge all at once.

To kill fun, kill cool!

But others looked at Ye Junlin with strange eyes.

Not strong enough?

Looking at this situation, I can't wait to run over to help Zhanxiong Nation become stronger.

They were afraid that the War Bear Kingdom would produce hundreds of thousands of gods and super gods that were so terrifying.

What to do then?

But looking at Ye Junlin's posture now, doesn't he just hope that the enemy is so strong?

"Go, go see these lackeys in the War Bear Country!"

Ye Junlin was very interested.

Anything related to Hydra.

He wanted to.

Especially these guys also cheated their own resources.

That is more unforgivable.

Everyone had no choice but to follow Ye Junlin to watch the heat.
