

Chapter: 3130

Ye Junlin looked at their excited appearance, and sneered in his heart:

“It’s still more realistic for your insatiable greed, it can’t be acted!”

Ye Junlin can only continue to act: “Of course it is true! In order to

eradicate Hydra, I am willing to give everything! We must be united!”

“That’s great! Our confidence in dealing with Hydra has grown!”

“Great, I’m going to tell the other brothers the message right away!”

...

The crowd was excited.

This is real good stuff.

Moreover, Hydra and War Bear Country promised that any resources they received from Ye Junlin would be used by themselves.

How can this be unhappy?

Ye Junlin sighed: “Hey, if it wasn’t for the troublesome way of obtaining resources, I would have told you all!”

“Ok?”

Everyone listens.

more excited.

What’s wrong with them?

Ye Junlin almost revealed it all?

Even the secret of obtaining the resource has to be revealed?

If you cheat a few more times, you will definitely reveal all the secrets.

Too stupid?

For the first time, they felt that Ye Junlin was so naive...

Isn’t Ye Junlin an extremely shrewd person in the legend?

Was hailed as resourceful by all parties!

Just like the old monster!

Even if he has no strength, everyone will hire him as a military advisor.

Why are you so stupid now?

But they can figure out why.

First: Ye Junlin was dazzled by Hydra, and it was easy to paralyze him by taking advantage of this.

Second: They did it flawlessly and publicly supported Ye Junlin, how could he not believe it?

“It’s okay... let’s take it slow together!”

“Not to mention that you have so many resources, enough for us to use for a while!”

Several people said quickly.

No. 5 and No. 7 began to imagine the future again, which is to draw a big cake for Ye Junlin.

“Mr. Ye, you have to understand that no matter how hard we work, no matter how much resources you have, we still can’t compete with Zhanxiong Nation! Revenge Hydra is difficult to reach the sky!”

Ye Junlin deliberately followed their wishes and couldn’t help asking, “How do you say it?”

“You also know that the War Bear Kingdom is protected by more than 100,000 gods and a bunch of super gods. We can’t succeed! Be clear about this! Revenge is revenge, and we can’t be so blind!”

“So we have to think of other ways to enhance our strength!”

...

Hearing the two say this, Ye Junlin deliberately showed a thoughtful look: “So, you already have an idea?”

No. 5 and No. 7 nodded: “Yes, there is already!”

“Now that the Zhanxiong Nation is so powerful, it is actually a disaster for the whole world. They are breaking the balance of the world! They are a threat to everyone! Those who are the second and third in the power list, can you not be on guard against the Zhanxiong Nation? ”

“Can other people not be afraid of Zhanxiong Nation? If Zhanxiong Nation wants to expand, won’t other forces and countries be easily destroyed?”

Ye Junlin understood what they meant: “What do you mean, let us unite with other powerful countries, or the whole world! To deal with the War Bear Country?”

No. 5 and No. 7 immediately clapped their hands: “Yes! Although other people may have no hatred for Hydra, under this situation, no one wants to see the Zhanxiong Nation’s dominance. As long as we join forces, I believe that many people are willing to join us!”

“In this way, our chances of winning are much better!”

...

The words they said were exactly the same as the one who wanted to avenge the Eighth group at that time.

Just painting pie.

Hearing this, Ye Junlin pretended to believe it.

He said excitedly: “Okay, since I’m still paying, I’ll take out all the resources to support! This includes the secret of how I get resources! Don’t worry, the resources are endless!”

It made them die happy.
